#	ARTICLE	IF	CITATIONS
1	The costs of anticipating and perseverating about racism: Mechanisms of the associations between racial discrimination, anxious arousal, and low positive affect.. Cultural Diversity and Ethnic Minority Psychology, 2022, 28, 544-556.	1.3	2
2	Emotion mindsets and depressive symptoms in adolescence: The role of emotion regulation competence.. Emotion, 2022, 22, 1255-1269.	1.5	4
3	Pandemic Onset, Individual Differences, and Dimensional Symptoms of Depression and Anxiety Among Emerging Adults. Emerging Adulthood, 2022, 10, 1026-1040.	1.4	1
4	Inhibitory control of emotional processing: Theoretical and empirical considerations. International Journal of Psychophysiology, 2021, 163, 5-10.	0.5	19
5	The Structure of Executive Dysfunction in Depression and Anxiety. Journal of Affective Disorders, 2021, 279, 208-216.	2.0	37
6	Cumulative Childhood Maltreatment and Executive Functioning in Adulthood. Journal of Aggression, Maltreatment and Trauma, 2021, 30, 547-563.	0.9	6
7	The Future of Women in Psychological Science. Perspectives on Psychological Science, 2021, 16, 483-516.	5.2	59
8	Can a Theater Acting Intervention Enhance Inhibitory Control in Older Adults? A Brain-Behavior Investigation. Frontiers in Human Neuroscience, 2021, 15, 583220.	1.0	1
9	A double-blind study of empathic support and expectation as mechanisms of symptom change. Psychotherapy Research, 2021, , 1-11.	1.1	1
10	Mothers' neural response to valenced infant interactions predicts postpartum depression and anxiety. PLoS ONE, 2021, 16, e0250487.	1.1	3
11	Change is on the horizon: call to action for the study of positive emotion and reward in psychopathology. Current Opinion in Behavioral Sciences, 2021, 39, 34-40.	2.0	10
12	Alterations in the default mode network circuit provide a potential mechanism supporting negativity bias in depression. Psychophysiology, 2021, 58, e13918.	1.2	10
13	Response interference by central foils is modulated by dimensions of depression and anxiety. Attention, Perception, and Psychophysics, 2020, 82, 1818-1834.	0.7	1
14	Effective Connectivity Between Broca's Area and Amygdala as a Mechanism of Top-Down Control in Worry. Clinical Psychological Science, 2020, 8, 84-98.	2.4	9
15	The Impact of Focused Attention on Emotional Experience: A Functional MRI Investigation. Cognitive, Affective and Behavioral Neuroscience, 2020, 20, 1011-1026.	1.0	11
16	Childhood abuse history and attention bias in adults. Psychophysiology, 2020, 57, e13627.	1.2	5
17	Perceived Control in the Lab and in Daily Life Impact Emotion-Induced Temporal Distortions. Timing and Time Perception, 2020, 9, 88-122.	0.4	2
18	Common and specific dimensions of internalizing disorders are characterized by unique patterns of brain activity on a task of emotional cognitive control. International Journal of Psychophysiology, 2020, 151, 80-93.	0.5	9

#	ARTICLE	IF	CITATIONS
19	Extreme-groups designs in studies of dimensional phenomena: Advantages, caveats, and recommendations.. Journal of Abnormal Psychology, 2020, 129, 14-20.	2.0	33
20	Regulating positive emotions: Implications for promoting well-being in individuals with depression.. Emotion, 2020, 20, 93-97.	1.5	45
21	Reward anticipation and punishment anticipation are instantiated in the brain via opponent mechanisms. Psychophysiology, 2019, 56, e13381.	1.2	13
22	Reconfiguration of brain networks supporting inhibition of emotional challenge. NeuroImage, 2019, 186, 350-357.	2.1	16
23	Repetitive Negative Thought and Executive Dysfunction: An Interactive Pathway to Emotional Distress. Cognitive Therapy and Research, 2019, 43, 464-480.	1.2	13
24	Selective neural sensitivity to familial threat in adolescents with weak family bonds. Social Neuroscience, 2019, 14, 80-89.	0.7	0
25	Time Course of Brain Network Reconfiguration Supporting Inhibitory Control. Journal of Neuroscience, 2018, 38, 4348-4356.	1.7	22
26	Mindfulness training induces structural connectome changes in insula networks. Scientific Reports, 2018, 8, 7929.	1.6	37
27	Differential functional connectivity of rostral anterior cingulate cortex during emotional interference. Social Cognitive and Affective Neuroscience, 2017, 12, 476-486.	1.5	31
28	A Bi-Factor Approach to Modeling the Structure of Worry and Rumination. Journal of Experimental Psychopathology, 2017, 8, 252-264.	0.4	29
29	Award for distinguished contributions to psychophysiology: Gregory A. Miller. Psychophysiology, 2016, 53, 961-964.	1.2	0
30	Executive function deficits associated with current and past major depressive symptoms. Journal of Affective Disorders, 2016, 204, 226-233.	2.0	25
31	Resting-state functional connectivity differentiates anxious apprehension and anxious arousal. Psychophysiology, 2016, 53, 1451-1459.	1.2	21
32	Interactive effects of trait and state affect on top-down control of attention. Social Cognitive and Affective Neuroscience, 2015, 10, 1128-1136.	1.5	22
33	Transdiagnostic dimensions of anxiety: Neural mechanisms, executive functions, and new directions. International Journal of Psychophysiology, 2015, 98, 365-377.	0.5	89
34	Flexible brain network reconfiguration supporting inhibitory control. Proceedings of the National Academy of Sciences of the United States of America, 2015, 112, 10020-10025.	3.3	93
35	Obsessive-Compulsive Disorder Is Associated With Broad Impairments in Executive Function. Clinical Psychological Science, 2015, 3, 301-330.	2.4	234
36	Distracted and down: neural mechanisms of affective interference in subclinical depression. Social Cognitive and Affective Neuroscience, 2015, 10, 654-663.	1.5	122

#	ARTICLE	IF	CITATIONS
37	Neural correlates of suspiciousness and interactions with anxiety during emotional and neutral word processing. <i>Frontiers in Psychology</i> , 2014, 5, 596.	1.1	16
38	Aberrant Neural Connectivity During Emotional Processing Associated With Posttraumatic Stress. <i>Clinical Psychological Science</i> , 2014, 2, 748-755.	2.4	39
39	Executive Function Deficits in Daily Life Prospectively Predict Increases in Depressive Symptoms. <i>Cognitive Therapy and Research</i> , 2014, 38, 612-620.	1.2	42
40	Individual differences in emotional distress and susceptibility to inattention blindness. <i>Psychology of Consciousness: Theory Research, and Practice</i> , 2014, 1, 370-386.	0.3	11
41	TRANSDIAGNOSTIC DIMENSIONS OF ANXIETY AND DEPRESSION MODERATE MOTIVATION-RELATED BRAIN NETWORKS DURING GOAL MAINTENANCE. <i>Depression and Anxiety</i> , 2014, 31, 805-813.	2.0	33
42	Electrophysiological evidence of the time course of attentional bias in non-patients reporting symptoms of depression with and without co-occurring anxiety. <i>Frontiers in Psychology</i> , 2014, 5, 301.	1.1	22
43	Emotional Distractors Can Enhance Attention. <i>Psychological Science</i> , 2013, 24, 2322-2328.	1.8	29
44	Neuropsychological differentiation of adaptive creativity and schizotypal cognition. <i>Personality and Individual Differences</i> , 2013, 54, 70-75.	1.6	11
45	Emotion disrupts neural activity during selective attention in psychopathy. <i>Social Cognitive and Affective Neuroscience</i> , 2013, 8, 235-246.	1.5	42
46	Anxiety type modulates immediate versus delayed engagement of attention-related brain regions. <i>Brain and Behavior</i> , 2013, 3, 532-551.	1.0	18
47	Relationships among cognition, emotion, and motivation: implications for intervention and neuroplasticity in psychopathology. <i>Frontiers in Human Neuroscience</i> , 2013, 7, 261.	1.0	144
48	Cortical organization of inhibition-related functions and modulation by psychopathology. <i>Frontiers in Human Neuroscience</i> , 2013, 7, 271.	1.0	39
49	Hierarchical Brain Networks Active in Approach and Avoidance Goal Pursuit. <i>Frontiers in Human Neuroscience</i> , 2013, 7, 284.	1.0	43
50	Issues in localization of brain function: The case of lateralized frontal cortex in cognition, emotion, and psychopathology. <i>Frontiers in Integrative Neuroscience</i> , 2013, 7, 2.	1.0	83
51	A brain network instantiating approach and avoidance motivation. <i>Psychophysiology</i> , 2012, 49, 1200-1214.	1.2	66
52	Does Brain Injury or a Brain Disease Constitute a Sort of "Death"? <i>PM and R</i> , 2012, 4, 52-58.	0.9	0
53	Neural Mechanisms of Attentional Control Differentiate Trait and State Negative Affect. <i>Frontiers in Psychology</i> , 2012, 3, 298.	1.1	29
54	Trait motivation moderates neural activation associated with goal pursuit. <i>Cognitive, Affective and Behavioral Neuroscience</i> , 2012, 12, 308-322.	1.0	23

#	ARTICLE	IF	CITATIONS
55	Trait approach and avoidance motivation: Lateralized neural activity associated with executive function. <i>NeuroImage</i> , 2011, 54, 661-670.	2.1	151
56	Approach and Avoidance Profiles Distinguish Dimensions of Anxiety and Depression. <i>Cognitive Therapy and Research</i> , 2011, 35, 359-371.	1.2	37
57	Depression and anxious apprehension distinguish frontocingulate cortical activity during top-down attentional control.. <i>Journal of Abnormal Psychology</i> , 2011, 120, 272-285.	2.0	61
58	Time course of processing emotional stimuli as a function of perceived emotional intelligence, anxiety, and depression.. <i>Emotion</i> , 2010, 10, 486-497.	1.5	51
59	Screening for depressive disorders using the Mood and Anxiety Symptoms Questionnaire Anhedonic Depression Scale: A receiver-operating characteristic analysis.. <i>Psychological Assessment</i> , 2010, 22, 702-710.	1.2	79
60	Co-occurring anxiety influences patterns of brain activity in depression. <i>Cognitive, Affective and Behavioral Neuroscience</i> , 2010, 10, 141-156.	1.0	101
61	Time course of attentional bias in anxiety: Emotion and gender specificity. <i>Psychophysiology</i> , 2010, 47, 247-259.	1.2	159
62	Localization of asymmetric brain function in emotion and depression. <i>Psychophysiology</i> , 2010, 47, 442-454.	1.2	131
63	Effects of Adult Attachment and Emotional Distractors on Brain Mechanisms of Cognitive Control. <i>Psychological Science</i> , 2010, 21, 1818-1826.	1.8	43
64	Attentional bias to negative emotion as a function of approach and withdrawal anger styles: An ERP investigation. <i>International Journal of Psychophysiology</i> , 2010, 76, 9-18.	0.5	55
65	The time course of activity in dorsolateral prefrontal cortex and anterior cingulate cortex during top-down attentional control. <i>NeuroImage</i> , 2010, 50, 1292-1302.	2.1	174
66	Frontal asymmetry in emotion, personality and psychopathology: methodological issues in electrocortical and hemodynamic neuroimaging. , 2009, , 49-66.		6
67	Cognitive control mechanisms, emotion and memory: A neural perspective with implications for psychopathology. <i>Neuroscience and Biobehavioral Reviews</i> , 2009, 33, 613-630.	2.9	258
68	Prefrontal Cortex, Emotion, and Approach/Withdrawal Motivation. <i>Social and Personality Psychology Compass</i> , 2008, 2, 135-153.	2.0	87
69	Specificity of emotion-related effects on attentional processing in schizotypy. <i>Schizophrenia Research</i> , 2008, 103, 129-137.	1.1	29
70	Emotional Facilitation and Disruption of Memory. <i>Advances in Psychology</i> , 2008, 139, 45-59.	0.1	2
71	Anger style, psychopathology, and regional brain activity.. <i>Emotion</i> , 2008, 8, 701-713.	1.5	46
72	Innovative clinical assessment technologies: Challenges and opportunities in neuroimaging.. <i>Psychological Assessment</i> , 2007, 19, 58-73.	1.2	30

#	ARTICLE	IF	CITATIONS
73	Differential engagement of anterior cingulate cortex subdivisions for cognitive and emotional function. <i>Psychophysiology</i> , 2007, 44, 343-351.	1.2	261
74	Specificity of regional brain activity in anxiety types during emotion processing. <i>Psychophysiology</i> , 2007, 44, 352-363.	1.2	194
75	Semantic associations, lateralized frontal function, and context maintenance in schizotypy. <i>Neuropsychologia</i> , 2007, 45, 663-672.	0.7	14
76	Cognitive Deficits in Depression and Functional Specificity of Regional Brain Activity. <i>Cognitive Therapy and Research</i> , 2007, 31, 211-233.	1.2	134
77	The Cognitive, Emotional, and Social Sequelae of Stroke: Psychological and Ethical Concerns in Post-Stroke Adaptation. <i>Topics in Stroke Rehabilitation</i> , 2006, 13, 26-35.	1.0	89
78	Neural Mechanisms of Affective Interference in Schizotypy.. <i>Journal of Abnormal Psychology</i> , 2005, 114, 16-27.	2.0	91
79	Emotion-Modulated Performance and Activity in Left Dorsolateral Prefrontal Cortex.. <i>Emotion</i> , 2005, 5, 200-207.	1.5	159
80	The unique relationship between fear of cognitive dyscontrol and self-reports of problematic drinking. <i>Addictive Behaviors</i> , 2005, 30, 489-499.	1.7	13
81	Distinguishing Neural Substrates of Heterogeneity Among Anxiety Disorders. <i>International Review of Neurobiology</i> , 2005, 67, 1-42.	0.9	28
82	Neuropsychological evidence for dimensional schizotypy: Implications for creativity and psychopathology. <i>Journal of Research in Personality</i> , 2004, 38, 24-31.	0.9	120
83	Personality, affect and EEG: predicting patterns of regional brain activity related to extraversion and neuroticism. <i>Personality and Individual Differences</i> , 2004, 36, 717-732.	1.6	75
84	Association Between Positive Affect and Attentional Shifting. <i>Cognitive Therapy and Research</i> , 2004, 28, 733-744.	1.2	38
85	Prefrontal cortex activity differentiates processes affecting memory in depression. <i>Biological Psychology</i> , 2004, 67, 125-143.	1.1	53
86	Relationships of Distinct Affective Dimensions to Performance on an Emotional Stroop Task. <i>Cognitive Therapy and Research</i> , 2003, 27, 671-680.	1.2	45
87	Paying attention to emotion: An fMRI investigation of cognitive and emotional Stroop tasks. <i>Cognitive, Affective and Behavioral Neuroscience</i> , 2003, 3, 81-96.	1.0	264
88	Women Living with Traumatic Brain Injury. <i>Women and Therapy</i> , 2003, 26, 3-26.	0.6	25
89	Visual processing of facial affect. <i>NeuroReport</i> , 2003, 14, 1841-1845.	0.6	41
90	Hemispheric Differences in Affective Response: Effects of Mere Exposure. <i>Social Cognition</i> , 2002, 20, 1-17.	0.5	10

#	ARTICLE	IF	CITATIONS
91	Social and institutional factors in adjustment to traumatic brain injury.. Rehabilitation Psychology, 2001, 46, 82-99.	0.7	7
92	Distinguishing Dimensions of Anxiety and Depression. Cognitive Therapy and Research, 2001, 25, 1-22.	1.2	210
93	Responding to threat: Hemispheric asymmetries and interhemispheric division of input.. Neuropsychology, 2000, 14, 254-264.	1.0	58
94	Neuropsychological differentiation of depression and anxiety.. Journal of Abnormal Psychology, 2000, 109, 3-10.	2.0	122
95	Neurobiology of extraversion: Pieces of the puzzle still missing. Behavioral and Brain Sciences, 1999, 22, 524-524.	0.4	4
96	A Twin Study of Individual Differences in Perceptual Asymmetry. Laterality, 1999, 4, 299-311.	0.5	4
97	A Twin Study of Individual Differences in Perceptual Asymmetry. Laterality, 1999, 4, 299-311.	0.5	4
98	Contrasting patterns of brain activity in anxious apprehension and anxious arousal. Psychophysiology, 1999, 36, 628-637.	1.2	226
99	Contrasting patterns of brain activity in anxious apprehension and anxious arousal. , 1999, 36, 628.		21
100	Brain Asymmetry. Edited by Richard J. Davidson and Kenneth Hugdahl. Cambridge, MA: MIT Press, 1995.. Psychophysiology, 1998, 35, 479-481.	1.2	2
101	Lateralization in Emotion and Emotional Disorders. Current Directions in Psychological Science, 1998, 7, 26-32.	2.8	130
102	Evolving Perspectives on Lateralization of Function. Current Directions in Psychological Science, 1998, 7, 1-2.	2.8	42
103	Patterns of regional brain activity differentiate types of anxiety.. Journal of Abnormal Psychology, 1997, 106, 376-385.	2.0	403
104	regional Brain Activity in Emotion: A Framework for Understanding Cognition in Depression. Cognition and Emotion, 1997, 11, 637-661.	1.2	164
105	Neuropsychological Correlates of Arousal in Self-reported Emotion. Cognition and Emotion, 1997, 11, 383-402.	1.2	72
106	Patterns of perceptual asymmetry in depression and anxiety: Implications for neuropsychological models of emotion and psychopathology.. Journal of Abnormal Psychology, 1995, 104, 327-333.	2.0	228
107	Cognitive and Emotional Organization of the Brain: Influences on the Creation and Perception of Art. , 1994, , 271-292.		13
108	Neuropsychological mechanisms of individual differences in emotion, personality, and arousal.. Neuropsychology, 1993, 7, 476-489.	1.0	421
