#	ARTICLE	IF	CITATIONS
1	On deformations of Gorenstein-projective modules over Nakayama and triangular matrix algebras. Journal of Pure and Applied Algebra, 2021, 225, 106562.	0.3	1
2	Universal Deformation Rings of Modules over Self-injective Cluster-Tilted Algebras Are Trivial. Algebra Colloquium, 2021, 28, 269-280.	0.1	1
3	Derived tame Nakayama algebras. Proceedings of the American Mathematical Society, 2021, 149, 4555-4567.	0.4	2
4	Universal deformation rings of finitely generated Gorenstein-projective modules over finite dimensional algebras. Journal of Pure and Applied Algebra, 2020, 224, 106223.	0.3	2
5	Universal deformation rings of string modules over certain class of self-injective special biserial algebras. Communications in Algebra, 2019, 47, 4969-4988.	0.3	2
6	A note on deformations of Gorenstein-projective modules over finite dimensional algebras. Revista Colombiana De Matematicas, 2019, 53, 245-256.	0.4	1
7	Deformations of complexes for finite dimensional algebras. Journal of Algebra, 2017, 491, 90-140.	0.4	10
8	String and Band Complexes over Certain Algebra of Dihedral Type. Algebras and Representation Theory, 2016, 19, 419-433.	0.4	2
9	Universal deformation rings of strings modules over a certain symmetric special biserial algebra. Beitrage Zur Algebra Und Geometrie, 2015, 56, 129-146.	0.3	7
10	Universal deformation rings of modules over Frobenius algebras. Journal of Algebra, 2012, 367, 176-202.	0.4	14
11	On a Deformation Theory of Finite Dimensional Modules Over Repetitive Algebras. Algebras and Representation Theory, 0, , 1.	0.4	0
12	On Auslander-Reiten components of string complexes for a certain class of symmetric special biserial algebras. Beitrage Zur Algebra Und Geometrie, 0, , 1.	0.3	0
