#	ARTICLE	IF	CITATIONS
1	Sequencing of symptom emergence in anorexia nervosa, bulimia nervosa, binge eating disorder, and purging disorder and relations of prodromal symptoms to future onset of these disorders.. Journal of Abnormal Psychology, 2021, 130, 377-387.	2.0	28
2	Cost-Effectiveness Comparison of Delivery Modalities for a Dissonance-Based Eating Disorder Prevention Program over 4-Year Follow-Up. Prevention Science, 2021, 22, 1086-1095.	1.5	5
3	Hopelessness and depressive symptoms in children and adolescents: An integrative data analysis.. Journal of Abnormal Psychology, 2021, 130, 594-607.	2.0	3
4	Factors that predict persistence versus non-persistence of eating disorder Symptoms: A prospective study of high-risk young women. Behaviour Research and Therapy, 2021, 144, 103932.	1.6	12
5	Evidence that a novel transdiagnostic eating disorder treatment reduces reward region response to the thin beauty ideal and high-calorie binge foods. Psychological Medicine, 2021, , 1-11.	2.7	2
6	Patterns, predictors, and outcome of the trajectories of depressive symptoms from adolescence to adulthood. Depression and Anxiety, 2020, 37, 565-575.	2.0	13
7	Weight suppression increases odds for future onset of anorexia nervosa, bulimia nervosa, and purging disorder, but not binge eating disorder. American Journal of Clinical Nutrition, 2020, 112, 941-947.	2.2	29
8	Clinician-led, peer-led, and internet-delivered dissonance-based eating disorder prevention programs: Effectiveness of these delivery modalities through 4-year follow-up.. Journal of Consulting and Clinical Psychology, 2020, 88, 481-494.	1.6	52
9	Disaggregating the predictive effects of impaired psychosocial functioning on future DSM-5 eating disorder onset in high-risk female adolescents. International Journal of Eating Disorders, 2019, 52, 817-824.	2.1	5
10	Moderators of two dual eating disorder and obesity prevention programs. Behaviour Research and Therapy, 2019, 118, 77-86.	1.6	6
11	Meta-analytic review of dissonance-based eating disorder prevention programs: Intervention, participant, and facilitator features that predict larger effects. Clinical Psychology Review, 2019, 70, 91-107.	6.0	94
12	Randomized trial of a dissonance-based transdiagnostic group treatment for eating disorders: An evaluation of target engagement.. Journal of Consulting and Clinical Psychology, 2019, 87, 772-786.	1.6	6
13	Depression Change Profiles in Adolescents Treated for Comorbid Depression/Substance Abuse and Profile Membership Predictors. Journal of Clinical Child and Adolescent Psychology, 2018, 47, 595-607.	2.2	9
14	Mediators of two selective prevention interventions targeting both obesity and eating disorders. Behaviour Research and Therapy, 2018, 106, 8-17.	1.6	5
15	The impact of pre- and perinatal factors on psychopathology in adulthood. Journal of Affective Disorders, 2018, 236, 52-59.	2.0	9
16	Major depression prevention effects for a cognitive-behavioral adolescent indicated prevention group intervention across four trials. Behaviour Research and Therapy, 2018, 100, 1-6.	1.6	17
17	Incidence, recurrence and comorbidity of anxiety disorders in four major developmental stages. Journal of Affective Disorders, 2018, 228, 248-253.	2.0	123
18	Using participant feedback to improve two selective eating disorder and obesity prevention programs. Eating Behaviors, 2018, 30, 93-97.	1.1	4

#	ARTICLE	IF	CITATIONS
19	Attempt to Replicate Evidence that Weight and Shape Concerns Amplify the Effects of Gradual Lifestyle Improvement Obesity Prevention Programs. <i>Obesity</i> , 2018, 26, 1254-1254.	1.5	0
20	Psychosocial Predictors of Physical Activity Change Among College Students in an Obesity Prevention Trial. <i>Journal of Physical Activity and Health</i> , 2017, 14, 513-519.	1.0	11
21	Risk factors that predict future onset of each DSM-5 eating disorder: Predictive specificity in high-risk adolescent females.. <i>Journal of Abnormal Psychology</i> , 2017, 126, 38-51.	2.0	356
22	Predicting persistence of eating disorder compensatory weight control behaviors. <i>International Journal of Eating Disorders</i> , 2017, 50, 561-568.	2.1	7
23	Age effects in eating disorder baseline risk factors and prevention intervention effects. <i>International Journal of Eating Disorders</i> , 2017, 50, 1273-1280.	2.1	23
24	Clinician-led, peer-led, and internet-delivered dissonance-based eating disorder prevention programs: Acute effectiveness of these delivery modalities.. <i>Journal of Consulting and Clinical Psychology</i> , 2017, 85, 883-895.	1.6	68
25	Pilot trial of a dissonance-based cognitive-behavioral group depression prevention with college students. <i>Behaviour Research and Therapy</i> , 2016, 82, 21-27.	1.6	10
26	Participant feedback from peer-led, clinician-led, and internet-delivered eating disorder prevention interventions. <i>International Journal of Eating Disorders</i> , 2016, 49, 1087-1092.	2.1	20
27	Questioning Kindling. <i>Clinical Psychological Science</i> , 2016, 4, 229-238.	2.4	13
28	Moderators of the effects of indicated group and bibliotherapy cognitive behavioral depression prevention programs on adolescents' depressive symptoms and depressive disorder onset. <i>Behaviour Research and Therapy</i> , 2015, 75, 1-10.	1.6	18
29	Effectiveness trial of an indicated cognitive-behavioral group adolescent depression prevention program versus bibliotherapy and brochure control at 1- and 2-year follow-up.. <i>Journal of Consulting and Clinical Psychology</i> , 2015, 83, 736-747.	1.6	40
30	Effectiveness trial of a selective dissonance-based eating disorder prevention program with female college students: Effects at 2- and 3-year follow-up. <i>Behaviour Research and Therapy</i> , 2015, 71, 20-26.	1.6	58
31	Assessing program sustainability in an eating disorder prevention effectiveness trial delivered by college clinicians. <i>Behaviour Research and Therapy</i> , 2015, 72, 1-8.	1.6	12
32	ADOLESCENT SUICIDE ATTEMPTS AND ADULT ADJUSTMENT. <i>Depression and Anxiety</i> , 2015, 32, 270-276.	2.0	49
33	A pilot randomized trial of a cognitive reappraisal obesity prevention program. <i>Physiology and Behavior</i> , 2015, 138, 124-132.	1.0	46
34	Development and predictive effects of eating disorder risk factors during adolescence: Implications for prevention efforts. <i>International Journal of Eating Disorders</i> , 2015, 48, 187-198.	2.1	232
35	Predictors of Prevention Failure in College Students Participating in Two Indicated Depression Prevention Programs. <i>International Journal of Environmental Research and Public Health</i> , 2014, 11, 3803-3821.	1.2	7
36	Dissonance-based prevention of eating disorder risk factors in middle school girls: Results from two pilot trials. <i>International Journal of Eating Disorders</i> , 2014, 47, 483-494.	2.1	36

#	ARTICLE	IF	CITATIONS
37	Do participant, facilitator, or group factors moderate effectiveness of the Body Project? Implications for dissemination. <i>Behaviour Research and Therapy</i> , 2014, 61, 142-149.	1.6	13
38	Indicated cognitive behavioral group depression prevention compared to bibliotherapy and brochure control: Acute effects of an effectiveness trial with adolescents.. <i>Journal of Consulting and Clinical Psychology</i> , 2014, 82, 65-74.	1.6	46
39	Cognitive-behavioral group depression prevention compared to bibliotherapy and brochure control: Nonsignificant effects in pilot effectiveness trial with college students. <i>Behaviour Research and Therapy</i> , 2014, 55, 48-53.	1.6	22
40	Moderators of two indicated cognitive-behavioral depression prevention approaches for adolescents in a school-based effectiveness trial. <i>Behaviour Research and Therapy</i> , 2014, 53, 55-62.	1.6	25
41	Comorbidity between major depression and alcohol use disorder from adolescence to adulthood. <i>Comprehensive Psychiatry</i> , 2014, 55, 526-533.	1.5	241
42	Identification of caregivers at greatest risk of major depression in two prevention studies. <i>Psychotherapy Research</i> , 2014, 24, 578-593.	1.1	10
43	Effects of a prototype Internet dissonance-based eating disorder prevention program at 1- and 2-year follow-up.. <i>Health Psychology</i> , 2014, 33, 1558-1567.	1.3	39
44	Sequenced versus coordinated treatment for adolescents with comorbid depressive and substance use disorders.. <i>Journal of Consulting and Clinical Psychology</i> , 2014, 82, 342-348.	1.6	33
45	An effectiveness trial of a new enhanced dissonance eating disorder prevention program among female college students. <i>Behaviour Research and Therapy</i> , 2013, 51, 862-871.	1.6	77
46	Key Characteristics of Major Depressive Disorder Occurring in Childhood, Adolescence, Emerging Adulthood, and Adulthood. <i>Clinical Psychological Science</i> , 2013, 1, 41-53.	2.4	299
47	Effectiveness of peer-led dissonance-based eating disorder prevention groups: Results from two randomized pilot trials. <i>Behaviour Research and Therapy</i> , 2013, 51, 197-206.	1.6	57
48	Predictors of first lifetime onset of major depressive disorder in young adulthood.. <i>Journal of Abnormal Psychology</i> , 2013, 122, 1-6.	2.0	94
49	Prevalence, incidence, impairment, and course of the proposed DSM-5 eating disorder diagnoses in an 8-year prospective community study of young women.. <i>Journal of Abnormal Psychology</i> , 2013, 122, 445-457.	2.0	591
50	Efficacy trial of a selective prevention program targeting both eating disorders and obesity among female college students: 1- and 2-year follow-up effects.. <i>Journal of Consulting and Clinical Psychology</i> , 2013, 81, 183-189.	1.6	87
51	Are increased weight and appetite useful indicators of depression in children and adolescents?. <i>Journal of Abnormal Psychology</i> , 2012, 121, 838-851.	2.0	19
52	Negative Life Events and Substance Use Moderate Cognitive Behavioral Adolescent Depression Prevention Intervention. <i>Cognitive Behaviour Therapy</i> , 2012, 41, 241-250.	1.9	29
53	Efficacy trial of a selective prevention program targeting both eating disorder symptoms and unhealthy weight gain among female college students.. <i>Journal of Consulting and Clinical Psychology</i> , 2012, 80, 164-170.	1.6	75
54	A preliminary trial of a prototype internet dissonance-based eating disorder prevention program for young women with body image concerns.. <i>Journal of Consulting and Clinical Psychology</i> , 2012, 80, 907-916.	1.6	126

#	ARTICLE	IF	CITATIONS
55	Reduced substance use as a secondary benefit of an indicated cognitive-behavioral adolescent depression prevention program.. <i>Psychology of Addictive Behaviors</i> , 2012, 26, 599-608.	1.4	17
56	Effects of Three Depression Prevention Interventions on Risk for Depressive Disorder Onset in the Context of Depression Risk Factors. <i>Prevention Science</i> , 2012, 13, 584-593.	1.5	20
57	An effectiveness trial of a selected dissonance-based eating disorder prevention program for female high school students: Long-term effects.. <i>Journal of Consulting and Clinical Psychology</i> , 2011, 79, 500-508.	1.6	127
58	High- and low-level dissonance-based eating disorder prevention programs with young women with body image concerns: An experimental trial.. <i>Journal of Consulting and Clinical Psychology</i> , 2011, 79, 129-134.	1.6	69
59	Testing mediators hypothesized to account for the effects of a dissonance-based eating disorder prevention program over longer term follow-up.. <i>Journal of Consulting and Clinical Psychology</i> , 2011, 79, 398-405.	1.6	49
60	Recovery and Recurrence Following Treatment for Adolescent Major Depression. <i>Archives of General Psychiatry</i> , 2011, 68, 263.	13.8	183
61	Structure and measurement of depression in youths: Applying item response theory to clinical data.. <i>Psychological Assessment</i> , 2011, 23, 819-833.	1.2	51
62	Efficacy trial of a brief cognitive-behavioral depression prevention program for high-risk adolescents: Effects at 1- and 2-year follow-up.. <i>Journal of Consulting and Clinical Psychology</i> , 2010, 78, 856-867.	1.6	106
63	Is success in weight loss treatment contagious (do attendance and outcomes cluster within) Tj ETQq1 1 0.784314 rgrBT /Overlock 10 0.88 5		
64	Effects of an indicated cognitive-behavioral depression prevention program are similar for Asian American, Latino, and European American adolescents. <i>Behaviour Research and Therapy</i> , 2010, 48, 821-825.	1.6	28
65	Treating Depression and Oppositional Behavior in Adolescents. <i>Journal of Clinical Child and Adolescent Psychology</i> , 2010, 39, 559-567.	2.2	30
66	Testing mediators of intervention effects in randomized controlled trials: An evaluation of three depression prevention programs.. <i>Journal of Consulting and Clinical Psychology</i> , 2010, 78, 273-280.	1.6	59
67	An Exploratory Analysis of the Impact of Family Functioning on Treatment for Depression in Adolescents. <i>Journal of Clinical Child and Adolescent Psychology</i> , 2009, 38, 814-825.	2.2	61
68	A meta-analytic review of depression prevention programs for children and adolescents: Factors that predict magnitude of intervention effects.. <i>Journal of Consulting and Clinical Psychology</i> , 2009, 77, 486-503.	1.6	457
69	The Treatment for Adolescents With Depression Study (TADS): Outcomes Over 1 Year of Naturalistic Follow-Up. <i>American Journal of Psychiatry</i> , 2009, 166, 1141-1149.	4.0	114
70	Major and minor depression in female adolescents: onset, course, symptom presentation, and demographic associations. <i>Journal of Clinical Psychology</i> , 2009, 65, 1339-1349.	1.0	83
71	Does the association between depression and smoking vary by body mass index (BMI) category?. <i>Preventive Medicine</i> , 2009, 49, 380-383.	1.6	12
72	Reported food choices in older women in relation to body mass index and depressive symptoms. <i>Appetite</i> , 2009, 52, 238-240.	1.8	98
