#	ARTICLE	IF	CITATIONS
1	Trajectories of anxiety and depressive symptoms during enforced isolation due to COVID-19 in England: a longitudinal observational study. <i>Lancet Psychiatry</i> , 2021, 8, 141-149.	3.7	743
2	Attitudes towards vaccines and intention to vaccinate against COVID-19: Implications for public health communications. <i>Lancet Regional Health - Europe</i> , 2021, 1, 100012.	3.0	670
3	Who is lonely in lockdown? Cross-cohort analyses of predictors of loneliness before and during the COVID-19 pandemic. <i>Public Health</i> , 2020, 186, 31-34.	1.4	448
4	Loneliness during a strict lockdown: Trajectories and predictors during the COVID-19 pandemic in 38,217 United Kingdom adults. <i>Social Science and Medicine</i> , 2020, 265, 113521.	1.8	281
5	Abuse, self-harm and suicidal ideation in the UK during the COVID-19 pandemic. <i>British Journal of Psychiatry</i> , 2020, 217, 543-546.	1.7	244
6	Ten considerations for effectively managing the COVID-19 transition. <i>Nature Human Behaviour</i> , 2020, 4, 677-687.	6.2	234
7	The psychoneuroimmunological effects of music: A systematic review and a new model. <i>Brain, Behavior, and Immunity</i> , 2014, 36, 15-26.	2.0	215
8	The Cummings effect: politics, trust, and behaviours during the COVID-19 pandemic. <i>Lancet</i> , 2020, 396, 464-465.	6.3	204
9	Loneliness, worries, anxiety, and precautionary behaviours in response to the COVID-19 pandemic: A longitudinal analysis of 200,000 Western and Northern Europeans. <i>Lancet Regional Health - Europe</i> , 2021, 2, 100020.	3.0	180
10	Leading a meaningful life at older ages and its relationship with social engagement, prosperity, health, biology, and time use. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2019, 116, 1207-1212.	3.3	139
11	Levels of Severity of Depressive Symptoms Among At-Risk Groups in the UK During the COVID-19 Pandemic. <i>JAMA Network Open</i> , 2020, 3, e2026064.	2.8	138
12	How leisure activities affect health: a narrative review and multi-level theoretical framework of mechanisms of action. <i>Lancet Psychiatry</i> , 2021, 8, 329-339.	3.7	135
13	Arts in Health. , 2017, , .		126
14	Are we all in this together? Longitudinal assessment of cumulative adversities by socioeconomic position in the first 3 weeks of lockdown in the UK. <i>Journal of Epidemiology and Community Health</i> , 2020, 74, jech-2020-214475.	2.0	123
15	Policy stringency and mental health during the COVID-19 pandemic: a longitudinal analysis of data from 15 countries. <i>Lancet Public Health</i> , 2022, 7, e417-e426.	4.7	119
16	Psychosocial impact on frontline health and social care professionals in the UK during the COVID-19 pandemic: a qualitative interview study. <i>BMJ Open</i> , 2021, 11, e047353.	0.8	103
17	Singing modulates mood, stress, cortisol, cytokine and neuropeptide activity in cancer patients and carers. <i>Ecancermedicalscience</i> , 2016, 10, 631.	0.6	94
18	Predictors of self-reported adherence to COVID-19 guidelines. A longitudinal observational study of 51,600 UK adults. <i>Lancet Regional Health - Europe</i> , 2021, 4, 100061.	3.0	90

#	ARTICLE	IF	CITATIONS
19	Effects of Group Drumming Interventions on Anxiety, Depression, Social Resilience and Inflammatory Immune Response among Mental Health Service Users. <i>PLoS ONE</i> , 2016, 11, e0151136.	1.1	89
20	Effect of singing interventions on symptoms of postnatal depression: three-arm randomised controlled trial. <i>British Journal of Psychiatry</i> , 2018, 212, 119-121.	1.7	86
21	Social relationships and depression during the COVID-19 lockdown: longitudinal analysis of the COVID-19 Social Study. <i>Psychological Medicine</i> , 2022, 52, 3381-3390.	2.7	86
22	Understanding different trajectories of mental health across the general population during the COVID-19 pandemic. <i>Psychological Medicine</i> , 2022, 52, 4049-4057.	2.7	84
23	COVID-19, smoking and inequalities: a study of 53 002 adults in the UK. <i>Tobacco Control</i> , 2021, 30, e111-e121.	1.8	78
24	How do artistic creative activities regulate our emotions? Validation of the Emotion Regulation Strategies for Artistic Creative Activities Scale (ERS-ACA). <i>PLoS ONE</i> , 2019, 14, e0211362.	1.1	75
25	The biological impact of listening to music in clinical and nonclinical settings: A systematic review. <i>Progress in Brain Research</i> , 2018, 237, 173-200.	0.9	70
26	Predictors of uncertainty and unwillingness to receive the COVID-19 booster vaccine: An observational study of 22,139 fully vaccinated adults in the UK. <i>Lancet Regional Health - Europe</i> , The, 2022, 14, 100317.	3.0	70
27	Longitudinal changes in physical activity during and after the first national lockdown due to the COVID-19 pandemic in England. <i>Scientific Reports</i> , 2021, 11, 17723.	1.6	67
28	Social isolation, loneliness and physical performance in older-adults: fixed effects analyses of a cohort study. <i>Scientific Reports</i> , 2020, 10, 13908.	1.6	63
29	Television viewing and cognitive decline in older age: findings from the English Longitudinal Study of Ageing. <i>Scientific Reports</i> , 2019, 9, 2851.	1.6	61
30	Trajectories of eating behavior during COVID-19 lockdown: Longitudinal analyses of 22,374 adults. <i>Clinical Nutrition ESPEN</i> , 2021, 42, 158-165.	0.5	60
31	The effects of mother-infant singing on emotional closeness, affect, anxiety, and stress hormones. <i>Music & Science</i> , 2018, 1, 205920431774574.	0.6	59
32	Cultural engagement and incident depression in older adults: evidence from the English Longitudinal Study of Ageing. <i>British Journal of Psychiatry</i> , 2019, 214, 225-229.	1.7	59
33	Do predictors of adherence to pandemic guidelines change over time? A panel study of 22,000 UK adults during the COVID-19 pandemic. <i>Preventive Medicine</i> , 2021, 153, 106713.	1.6	59
34	Coping strategies and mental health trajectories during the first 21 weeks of COVID-19 lockdown in the United Kingdom. <i>Social Science and Medicine</i> , 2021, 279, 113958.	1.8	58
35	Cultural engagement and cognitive reserve: museum attendance and dementia incidence over a 10-year period. <i>British Journal of Psychiatry</i> , 2018, 213, 661-663.	1.7	57
36	A qualitative study about the mental health and wellbeing of older adults in the UK during the COVID-19 pandemic. <i>BMC Geriatrics</i> , 2021, 21, 439.	1.1	57

#	ARTICLE	IF	CITATIONS
37	“You’re just there, alone in your room with your thoughts”: a qualitative study about the psychosocial impact of the COVID-19 pandemic among young people living in the UK. <i>BMJ Open</i> , 2022, 12, e053676.	0.8	57
38	How have people been coping during the COVID-19 pandemic? Patterns and predictors of coping strategies amongst 26,016 UK adults. <i>BMC Psychology</i> , 2021, 9, 107.	0.9	55
39	The art of life and death: 14 year follow-up analyses of associations between arts engagement and mortality in the English Longitudinal Study of Ageing. <i>BMJ</i> , 2019, 367, l6377.	3.0	52
40	Patterns of compliance with COVID-19 preventive behaviours: a latent class analysis of 20 000 UK adults. <i>Journal of Epidemiology and Community Health</i> , 2022, 76, 247-253.	2.0	50
41	Cultural engagement predicts changes in cognitive function in older adults over a 10 year period: findings from the English Longitudinal Study of Ageing. <i>Scientific Reports</i> , 2018, 8, 10226.	1.6	49
42	Promoting well-being through group drumming with mental health service users and their carers. <i>International Journal of Qualitative Studies on Health and Well-being</i> , 2018, 13, 1484219.	0.6	46
43	Making music for mental health: how group drumming mediates recovery. <i>Psychology of Well-being</i> , 2016, 6, 11.	2.3	45
44	Negative Vaccine Attitudes and Intentions to Vaccinate Against Covid-19 in Relation to Smoking Status: A Population Survey of UK Adults. <i>Nicotine and Tobacco Research</i> , 2021, 23, 1623-1628.	1.4	45
45	Predictors and Impact of Arts Engagement During the COVID-19 Pandemic: Analyses of Data From 19,384 Adults in the COVID-19 Social Study. <i>Frontiers in Psychology</i> , 2021, 12, 626263.	1.1	45
46	Do people reduce compliance with COVID-19 guidelines following vaccination? A longitudinal analysis of matched UK adults. <i>Journal of Epidemiology and Community Health</i> , 2022, 76, 109-115.	2.0	44
47	Physical and Psychosocial Factors in the Prevention of Chronic Pain in Older Age. <i>Journal of Pain</i> , 2018, 19, 1385-1391.	0.7	43
48	Social engagement and loneliness are differentially associated with neuro-immune markers in older age: Time-varying associations from the English Longitudinal Study of Ageing. <i>Brain, Behavior, and Immunity</i> , 2019, 82, 224-229.	2.0	43
49	Longitudinal associations between loneliness, social isolation and cardiovascular events. <i>Heart</i> , 2020, 106, 1394-1399.	1.2	43
50	Impact of the COVID-19 pandemic on the mental health and well-being of adults with mental health conditions in the UK: a qualitative interview study. <i>Journal of Mental Health</i> , 2023, 32, 1040-1047.	1.0	43
51	The impact of the COVID-19 pandemic on mental health and well-being of people living with a long-term physical health condition: a qualitative study. <i>BMC Public Health</i> , 2021, 21, 1801.	1.2	42
52	Impact of the COVID-19 pandemic on the mental health and wellbeing of parents with young children: a qualitative interview study. <i>BMC Psychology</i> , 2021, 9, 194.	0.9	41
53	Time use and mental health in UK adults during an 11-week COVID-19 lockdown: a panel analysis. <i>British Journal of Psychiatry</i> , 2021, 219, 551-556.	1.7	40
54	Community engagement and dementia risk: time-to-event analyses from a national cohort study. <i>Journal of Epidemiology and Community Health</i> , 2020, 74, 71-77.	2.0	39

#	ARTICLE	IF	CITATIONS
55	Social isolation and loneliness as risk factors for hospital admissions for respiratory disease among older adults. <i>Thorax</i> , 2020, 75, 597-599.	2.7	38
56	Does thinking make it so? Differential associations between adversity worries and experiences and mental health during the COVID-19 pandemic. <i>Journal of Epidemiology and Community Health</i> , 2021, 75, 817-823.	2.0	38
57	Cross-sectional and longitudinal associations between receptive arts engagement and loneliness among older adults. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2020, 55, 891-900.	1.6	36
58	Low-stress and high-stress singing have contrasting effects on glucocorticoid response. <i>Frontiers in Psychology</i> , 2015, 6, 1242.	1.1	35
59	Community group membership and multidimensional subjective well-being in older age. <i>Journal of Epidemiology and Community Health</i> , 2018, 72, 376-382.	2.0	35
60	How Participatory Music Engagement Supports Mental Well-being: A Meta-Ethnography. <i>Qualitative Health Research</i> , 2020, 30, 1924-1940.	1.0	35
61	Are adversities and worries during the COVID-19 pandemic related to sleep quality? Longitudinal analyses of 46,000 UK adults. <i>PLoS ONE</i> , 2021, 16, e0248919.	1.1	35
62	Predictors of engaging in voluntary work during the COVID-19 pandemic: analyses of data from 31,890 adults in the UK. <i>Perspectives in Public Health</i> , 2022, 142, 287-296.	0.8	35
63	Longitudinal Associations Between Short-Term, Repeated, and Sustained Arts Engagement and Well-Being Outcomes in Older Adults. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2020, 75, 1609-1619.	2.4	34
64	How group singing facilitates recovery from the symptoms of postnatal depression: a comparative qualitative study. <i>BMC Psychology</i> , 2018, 6, 41.	0.9	33
65	Cultural engagement and mental health: Does socio-economic status explain the association?. <i>Social Science and Medicine</i> , 2019, 236, 112425.	1.8	32
66	Factors shaping the mental health and well-being of people experiencing persistent COVID-19 symptoms or "long COVID": qualitative study. <i>BJPsych Open</i> , 2022, 8, e72.	0.3	32
67	Arts, mental distress, mental health functioning & life satisfaction: fixed-effects analyses of a nationally-representative panel study. <i>BMC Public Health</i> , 2020, 20, 208.	1.2	31
68	Engagement in leisure activities and depression in older adults in the United States: Longitudinal evidence from the Health and Retirement Study. <i>Social Science and Medicine</i> , 2022, 294, 114703.	1.8	30
69	Associations between singing to babies and symptoms of postnatal depression, wellbeing, self-esteem and mother-infant bond. <i>Public Health</i> , 2017, 145, 149-152.	1.4	29
70	The longitudinal relationship between changes in wellbeing and inflammatory markers: Are associations independent of depression?. <i>Brain, Behavior, and Immunity</i> , 2020, 83, 146-152.	2.0	29
71	Social prescribing for individuals with mental health problems: a qualitative study of barriers and enablers experienced by general practitioners. <i>BMC Family Practice</i> , 2020, 21, 194.	2.9	29
72	"Stressed, uncomfortable, vulnerable, neglected": a qualitative study of the psychological and social impact of the COVID-19 pandemic on UK frontline keyworkers. <i>BMJ Open</i> , 2021, 11, e050945.	0.8	29

#	ARTICLE	IF	CITATIONS
73	Fixed-Effects Analyses of Time-Varying Associations between Hobbies and Depression in a Longitudinal Cohort Study: Support for Social Prescribing?. <i>Psychotherapy and Psychosomatics</i> , 2020, 89, 111-113.	4.0	28
74	Cultural Engagement Is a Risk-Reducing Factor for Frailty Incidence and Progression. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2020, 75, 571-576.	2.4	27
75	Moving singing for lung health online in response to COVID-19: experience from a randomised controlled trial. <i>BMJ Open Respiratory Research</i> , 2020, 7, e000737.	1.2	26
76	Group Drumming Modulates Cytokine Response in Mental Health Services Users: A Preliminary Study. <i>Psychotherapy and Psychosomatics</i> , 2016, 85, 53-55.	4.0	25
77	An outcome-wide analysis of bidirectional associations between changes in meaningfulness of life and health, emotional, behavioural, and social factors. <i>Scientific Reports</i> , 2020, 10, 6463.	1.6	25
78	Who engages in the arts in the United States? A comparison of several types of engagement using data from The General Social Survey. <i>BMC Public Health</i> , 2021, 21, 1349.	1.2	24
79	Psychosocial singing interventions for the mental health and well-being of family carers of patients with cancer: results from a longitudinal controlled study. <i>BMJ Open</i> , 2019, 9, e026995.	0.8	23
80	The prevalence and associated mortality of non-anaemic iron deficiency in older adults: a 14 years observational cohort study. <i>British Journal of Haematology</i> , 2020, 189, 566-572.	1.2	23
81	ActEarly: a City Collaboratory approach to early promotion of good health and wellbeing. <i>Wellcome Open Research</i> , 2019, 4, 156.	0.9	23
82	A longitudinal analysis of loneliness, social isolation and falls amongst older people in England. <i>Scientific Reports</i> , 2020, 10, 20064.	1.6	22
83	Loneliness and Risk for Cardiovascular Disease: Mechanisms and Future Directions. <i>Current Cardiology Reports</i> , 2021, 23, 68.	1.3	22
84	Longitudinal associations between reading for pleasure and child maladjustment: Results from a propensity score matching analysis. <i>Social Science and Medicine</i> , 2020, 253, 112971.	1.8	21
85	Racial discrimination, low trust in the health system and COVID-19 vaccine uptake: a longitudinal observational study of 633 UK adults from ethnic minority groups. <i>Journal of the Royal Society of Medicine</i> , 2022, 115, 439-447.	1.1	20
86	Arts engagement and self-esteem in children: results from a propensity score matching analysis. <i>Annals of the New York Academy of Sciences</i> , 2019, 1449, 36-45.	1.8	19
87	Present in Body or Just in Mind: Differences in Social Presence and Emotion Regulation in Live vs. Virtual Singing Experiences. <i>Frontiers in Psychology</i> , 2019, 10, 778.	1.1	19
88	Comparison of physical and social risk-reducing factors for the development of disability in older adults: a population-based cohort study. <i>Journal of Epidemiology and Community Health</i> , 2019, 73, 906-912.	2.0	19
89	Rates and predictors of uptake of mental health support during the COVID-19 pandemic: an analysis of 26,720 adults in the UK in lockdown. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2021, 56, 2287-2297.	1.6	19
90	Is Google Trends a useful tool for tracking mental and social distress during a public health emergency? A time-series analysis. <i>Journal of Affective Disorders</i> , 2021, 294, 737-744.	2.0	19

#	ARTICLE	IF	CITATIONS
91	Facilitators and barriers to compliance with COVID-19 guidelines: a structural topic modelling analysis of free-text data from 17,500 UK adults. <i>BMC Public Health</i> , 2022, 22, 34.	1.2	19
92	Associations of home confinement during COVID-19 lockdown with subsequent health and well-being among UK adults. <i>Current Psychology</i> , 2022, , 1-10.	1.7	19
93	Does arts and cultural engagement vary geographically? Evidence from the UK household longitudinal study. <i>Public Health</i> , 2020, 185, 119-126.	1.4	18
94	Scaling-up Health-Arts Programmes: the largest study in the world bringing arts-based mental health interventions into a national health service. <i>BJPsych Bulletin</i> , 2021, 45, 32-39.	0.7	18
95	Factors affecting the mental health of pregnant women using UK maternity services during the COVID-19 pandemic: a qualitative interview study. <i>BMC Pregnancy and Childbirth</i> , 2022, 22, 313.	0.9	18
96	What are the active ingredients of "arts in health"™ activities? Development of the INgredients iN ArTs in hEalth (INNATE) Framework. <i>Wellcome Open Research</i> , 0, 7, 10.	0.9	18
