#	ARTICLE	IF	CITATIONS
1	Impact of the COVID-19 pandemic on the mental health and well-being of adults with mental health conditions in the UK: a qualitative interview study. <i>Journal of Mental Health</i> , 2023, 32, 1040-1047.	1.9	43
2	Associations of online religious participation during COVID-19 lockdown with subsequent health and well-being among UK adults. <i>Psychological Medicine</i> , 2023, 53, 3887-3896.	4.5	12
3	Longitudinal changes in home confinement and mental health implications: a 17-month follow-up study in England during the COVID-19 pandemic. <i>Psychological Medicine</i> , 2023, 53, 3943-3951.	4.5	2
4	Understanding Barriers and Facilitators to Compliance with UK Social Distancing Guidelines During the COVID-19 Pandemic: A Qualitative Interview Study. <i>Behaviour Change</i> , 2023, 40, 30-50.	1.3	11
5	Associations between participation in community arts groups and aspects of well-being in older adults in the United States: a propensity score matching analysis. <i>Aging and Mental Health</i> , 2023, 27, 1163-1172.	2.8	9
6	Understanding changes to perceived socioeconomic and psychosocial adversities during COVID-19 for UK freelance cultural workers. <i>Cultural Trends</i> , 2023, 32, 449-473.	2.8	8
7	Mental health and wellbeing among people with informal caring responsibilities across different time points during the COVID-19 pandemic: a population-based propensity score matching analysis. <i>Perspectives in Public Health</i> , 2023, 143, 275-284.	1.6	4
8	Group singing in bereavement: effects on mental health, self-efficacy, self-esteem and well-being. <i>BMJ Supportive and Palliative Care</i> , 2022, 12, e607-e615.	1.6	14
9	Lifetime musical training and cognitive performance in a memory clinic population: A cross-sectional study. <i>Musicae Scientiae</i> , 2022, 26, 71-83.	2.9	2
10	Social relationships and depression during the COVID-19 lockdown: longitudinal analysis of the COVID-19 Social Study. <i>Psychological Medicine</i> , 2022, 52, 3381-3390.	4.5	86
11	Understanding different trajectories of mental health across the general population during the COVID-19 pandemic. <i>Psychological Medicine</i> , 2022, 52, 4049-4057.	4.5	84
12	Predictors of engaging in voluntary work during the COVID-19 pandemic: analyses of data from 31,890 adults in the UK. <i>Perspectives in Public Health</i> , 2022, 142, 287-296.	1.6	35
13	Do people reduce compliance with COVID-19 guidelines following vaccination? A longitudinal analysis of matched UK adults. <i>Journal of Epidemiology and Community Health</i> , 2022, 76, 109-115.	3.7	44
14	Factors influencing self-harm thoughts and behaviours over the first year of the COVID-19 pandemic in the UK: longitudinal analysis of 49 324 adults. <i>British Journal of Psychiatry</i> , 2022, 220, 31-37.	2.8	17
15	Patterns of compliance with COVID-19 preventive behaviours: a latent class analysis of 20 000 UK adults. <i>Journal of Epidemiology and Community Health</i> , 2022, 76, 247-253.	3.7	50
16	Predictors and patterns of gambling behaviour across the COVID-19 lockdown: Findings from a UK cohort study. <i>Journal of Affective Disorders</i> , 2022, 298, 1-8.	4.1	7
17	Engagement in leisure activities and depression in older adults in the United States: Longitudinal evidence from the Health and Retirement Study. <i>Social Science and Medicine</i> , 2022, 294, 114703.	3.8	30
18	Comparing the mental health trajectories of four different types of keyworkers with non-keyworkers: 12-month follow-up observational study of 21 874 adults in England during the COVID-19 pandemic. <i>British Journal of Psychiatry</i> , 2022, 220, 287-294.	2.8	12

#	ARTICLE	IF	CITATIONS
19	Facilitators and barriers to compliance with COVID-19 guidelines: a structural topic modelling analysis of free-text data from 17,500 UK adults. BMC Public Health, 2022, 22, 34.	2.9	19
20	Study protocol: randomised controlled hybrid type 2 trial evaluating the scale-up of two arts interventions for postnatal depression and Parkinson's disease. BMJ Open, 2022, 12, e055691.	1.9	3
21	“You’re just there, alone in your room with your thoughts”: a qualitative study about the psychosocial impact of the COVID-19 pandemic among young people living in the UK. BMJ Open, 2022, 12, e053676.	1.9	57
22	Predictors of uncertainty and unwillingness to receive the COVID-19 booster vaccine: An observational study of 22,139 fully vaccinated adults in the UK. Lancet Regional Health - Europe, The, 2022, 14, 100317.	5.6	70
23	Associations of home confinement during COVID-19 lockdown with subsequent health and well-being among UK adults. Current Psychology, 2022, , 1-10.	2.8	19
24	Community and cultural engagement for people with lived experience of mental health conditions: what are the barriers and enablers?. BMC Psychology, 2022, 10, 71.	2.1	7
25	Longitudinal changes in home-based arts engagement during and following the first national lockdown due to the COVID-19 pandemic in the UK. Perspectives in Public Health, 2022, 142, 117-126.	1.6	6
26	Evaluation of a community-based performance arts programme for people who have experienced stroke in the UK: protocol for the SHAPER-Stroke Odysseys study. BMJ Open, 2022, 12, e057805.	1.9	0
27	Arts and Cultural Engagement, Reportedly Antisocial or Criminalized Behaviors, and Potential Mediators in Two Longitudinal Cohorts of Adolescents. Journal of Youth and Adolescence, 2022, 51, 1463-1482.	3.5	6
28	Factors shaping the mental health and well-being of people experiencing persistent COVID-19 symptoms or “long COVID”: qualitative study. BJPsych Open, 2022, 8, e72.	0.7	32
29	Housing environment and mental health of Europeans during the COVID-19 pandemic: a cross-country comparison. Scientific Reports, 2022, 12, 5612.	3.3	17
30	The interaction between social factors and adversities on self-harm during the COVID-19 pandemic: longitudinal analysis of 49 227 UK adults. BJPsych Open, 2022, 8, e12.	0.7	3
31	Factors affecting the mental health of pregnant women using UK maternity services during the COVID-19 pandemic: a qualitative interview study. BMC Pregnancy and Childbirth, 2022, 22, 313.	2.4	18
32	A Protocol to Understand the Implementation and Experiences of an Online Community-Based Performance Arts Programme Through and Beyond the COVID-19 Pandemic, Brain Waves. Frontiers in Rehabilitation Sciences, 2022, 3, .	1.2	1
33	Public opinion about the UK government during COVID-19 and implications for public health: A topic modeling analysis of open-ended survey response data. PLoS ONE, 2022, 17, e0264134.	2.5	13
34	Policy stringency and mental health during the COVID-19 pandemic: a longitudinal analysis of data from 15 countries. Lancet Public Health, The, 2022, 7, e417-e426.	10.0	119
35	Racial discrimination, low trust in the health system and COVID-19 vaccine uptake: a longitudinal observational study of 633 UK adults from ethnic minority groups. Journal of the Royal Society of Medicine, 2022, 115, 439-447.	2.0	20
36	Longitudinal associations between going outdoors and mental health and wellbeing during a COVID-19 lockdown in the UK. Scientific Reports, 2022, 12, .	3.3	12

#	ARTICLE	IF	CITATIONS
37	Frequency of leisure activity engagement and health functioning over a 4-year period: a population-based study amongst middle-aged adults. BMC Public Health, 2022, 22, .	2.9	5
38	Trajectories of Compliance With COVID-19 Related Guidelines: Longitudinal Analyses of 50,000 UK Adults. Annals of Behavioral Medicine, 2022, 56, 781-790.	2.9	14
39	Online singing interventions for postnatal depression in times of social isolation: a feasibility study protocol for the SHAPER-PNDO single-arm trial. Pilot and Feasibility Studies, 2022, 8, .	1.2	2
40	COVID-19, smoking and inequalities: a study of 53 002 adults in the UK. Tobacco Control, 2021, 30, e111-e121.	3.2	78
41	Social, cultural and community engagement and mental health: cross-disciplinary, co-produced research agenda. BJPsych Open, 2021, 7, e3.	0.7	14
42	Trajectories of anxiety and depressive symptoms during enforced isolation due to COVID-19 in England: a longitudinal observational study. Lancet Psychiatry,the, 2021, 8, 141-149.	7.4	743
43	Relationship between loneliness, social isolation and modifiable risk factors for cardiovascular disease: a latent class analysis. Journal of Epidemiology and Community Health, 2021, 75, 749-754.	3.7	10
44	Psychosocial impact on frontline health and social care professionals in the UK during the COVID-19 pandemic: a qualitative interview study. BMJ Open, 2021, 11, e047353.	1.9	103
45	Do socio-demographic factors predict childrenâ€™s engagement in arts and culture? Comparisons of in-school and out-of-school participation in the Taking Part Survey. PLoS ONE, 2021, 16, e0246936.	2.5	12
46	Attitudes towards vaccines and intention to vaccinate against COVID-19: Implications for public health communications. Lancet Regional Health - Europe, The, 2021, 1, 100012.	5.6	670
47	Are adversities and worries during the COVID-19 pandemic related to sleep quality? Longitudinal analyses of 46,000 UK adults. PLoS ONE, 2021, 16, e0248919.	2.5	35
48	Negative Vaccine Attitudes and Intentions to Vaccinate Against Covid-19 in Relation to Smoking Status: A Population Survey of UK Adults. Nicotine and Tobacco Research, 2021, 23, 1623-1628.	2.6	45
49	Loneliness, worries, anxiety, and precautionary behaviours in response to the COVID-19 pandemic: A longitudinal analysis of 200,000 Western and Northern Europeans. Lancet Regional Health - Europe, The, 2021, 2, 100020.	5.6	180
50	Trajectories of eating behavior during COVID-19 lockdown: Longitudinal analyses of 22,374 adults. Clinical Nutrition ESPEN, 2021, 42, 158-165.	1.2	60
51	Predictors and Impact of Arts Engagement During the COVID-19 Pandemic: Analyses of Data From 19,384 Adults in the COVID-19 Social Study. Frontiers in Psychology, 2021, 12, 626263.	2.1	45
52	How leisure activities affect health: a narrative review and multi-level theoretical framework of mechanisms of action. Lancet Psychiatry,the, 2021, 8, 329-339.	7.4	135
53	Aerosol Transmission of SARS-CoV-2: Inhalation as well as Exhalation Matters for COVID-19. American Journal of Respiratory and Critical Care Medicine, 2021, 203, 1041-1042.	5.6	10
54	Tempering optimism from repeated longitudinal mental health surveys â€“ Authors' reply. Lancet Psychiatry,the, 2021, 8, 275.	7.4	0

#	ARTICLE	IF	CITATIONS
55	Physiological demands of singing for lung health compared with treadmill walking. <i>BMJ Open Respiratory Research</i> , 2021, 8, e000959.	3.0	9
56	Predictors of self-reported adherence to COVID-19 guidelines. A longitudinal observational study of 51,600 UK adults. <i>Lancet Regional Health - Europe, The</i> , 2021, 4, 100061.	5.6	90
57	Loneliness and Risk for Cardiovascular Disease: Mechanisms and Future Directions. <i>Current Cardiology Reports</i> , 2021, 23, 68.	2.9	22
58	Time use and mental health in UK adults during an 11-week COVID-19 lockdown: a panel analysis. <i>British Journal of Psychiatry</i> , 2021, 219, 551-556.	2.8	40
59	Rates and predictors of uptake of mental health support during the COVID-19 pandemic: an analysis of 26,720 adults in the UK in lockdown. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2021, 56, 2287-2297.	3.1	19
60	Coping strategies and mental health trajectories during the first 21 weeks of COVID-19 lockdown in the United Kingdom. <i>Social Science and Medicine</i> , 2021, 279, 113958.	3.8	58
61	A qualitative study about the mental health and wellbeing of older adults in the UK during the COVID-19 pandemic. <i>BMC Geriatrics</i> , 2021, 21, 439.	2.7	57
62	How leisure activities affect health: the serious leisure perspective – Authors' reply. <i>Lancet Psychiatry</i> , 2021, 8, 562-563.	7.4	1
63	Who engages in the arts in the United States? A comparison of several types of engagement using data from The General Social Survey. <i>BMC Public Health</i> , 2021, 21, 1349.	2.9	24
64	How have people been coping during the COVID-19 pandemic? Patterns and predictors of coping strategies amongst 26,016 UK adults. <i>BMC Psychology</i> , 2021, 9, 107.	2.1	55
65	A local community course that raises wellbeing and pro-sociality: Evidence from a randomised controlled trial. <i>Journal of Economic Behavior and Organization</i> , 2021, 188, 322-336.	2.0	8
66	Associations between community cultural engagement and life satisfaction, mental distress and mental health functioning using data from the UK Household Longitudinal Study (UKHLS): are associations moderated by area deprivation?. <i>BMJ Open</i> , 2021, 11, e045512.	1.9	7
67	Associations between neighbourhood deprivation and engagement in arts, culture and heritage: evidence from two nationally-representative samples. <i>BMC Public Health</i> , 2021, 21, 1685.	2.9	6
68	Music and dance in respiratory disease management in Uganda: a qualitative study of patient and healthcare professional perspectives. <i>BMJ Open</i> , 2021, 11, e053189.	1.9	7
69	Longitudinal changes in physical activity during and after the first national lockdown due to the COVID-19 pandemic in England. <i>Scientific Reports</i> , 2021, 11, 17723.	3.3	67
70	Empathy and its associations with age and sociodemographic characteristics in a large UK population sample. <i>PLoS ONE</i> , 2021, 16, e0257557.	2.5	15
71	Is Google Trends a useful tool for tracking mental and social distress during a public health emergency? A time-series analysis. <i>Journal of Affective Disorders</i> , 2021, 294, 737-744.	4.1	19
72	Do predictors of adherence to pandemic guidelines change over time? A panel study of 22,000 UK adults during the COVID-19 pandemic. <i>Preventive Medicine</i> , 2021, 153, 106713.	3.4	59

#	ARTICLE	IF	CITATIONS
73	Does thinking make it so? Differential associations between adversity worries and experiences and mental health during the COVID-19 pandemic. <i>Journal of Epidemiology and Community Health</i> , 2021, 75, 817-823.	3.7	38
74	Scaling-up Health-Arts Programmes: the largest study in the world bringing arts-based mental health interventions into a national health service. <i>BJPsych Bulletin</i> , 2021, 45, 32-39.	1.1	18
75	The impact of the COVID-19 pandemic on mental health and well-being of people living with a long-term physical health condition: a qualitative study. <i>BMC Public Health</i> , 2021, 21, 1801.	2.9	42
76	“Stressed, uncomfortable, vulnerable, neglected”: a qualitative study of the psychological and social impact of the COVID-19 pandemic on UK frontline keyworkers. <i>BMJ Open</i> , 2021, 11, e050945.	1.9	29
77	Perspective Commentary: The Implementation of Welfare Policies Are Not Held to the Same Ethical Standards as Research: Raising Intergenerational Health Inequality Concerns. <i>Frontiers in Public Health</i> , 2021, 9, 764559.	2.7	1
78	Socioeconomic and Psychosocial Adversities Experienced by Freelancers Working in the UK Cultural Sector During the COVID-19 Pandemic: A Qualitative Study. <i>Frontiers in Psychology</i> , 2021, 12, 672694.	2.1	9
79	SHAPER-PND trial: clinical effectiveness protocol of a community singing intervention for postnatal depression. <i>BMJ Open</i> , 2021, 11, e052133.	1.9	3
80	Difference in predictors and barriers to arts and cultural engagement with age in the United States: A cross-sectional analysis using the Health and Retirement Study. <i>PLoS ONE</i> , 2021, 16, e0261532.	2.5	12
81	Impact of the COVID-19 pandemic on the mental health and wellbeing of parents with young children: a qualitative interview study. <i>BMC Psychology</i> , 2021, 9, 194.	2.1	41
82	Cultural Engagement Is a Risk-Reducing Factor for Frailty Incidence and Progression. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2020, 75, 571-576.	3.9	27
83	Cross-sectional and longitudinal associations between receptive arts engagement and loneliness among older adults. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2020, 55, 891-900.	3.1	36
84	The longitudinal relationship between changes in wellbeing and inflammatory markers: Are associations independent of depression?. <i>Brain, Behavior, and Immunity</i> , 2020, 83, 146-152.	4.1	29
85	Longitudinal Associations Between Short-Term, Repeated, and Sustained Arts Engagement and Well-Being Outcomes in Older Adults. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2020, 75, 1609-1619.	3.9	34
86	Fixed-Effects Analyses of Time-Varying Associations between Hobbies and Depression in a Longitudinal Cohort Study: Support for Social Prescribing?. <i>Psychotherapy and Psychosomatics</i> , 2020, 89, 111-113.	8.8	28
87	Reading for pleasure in childhood and adolescent healthy behaviours: Longitudinal associations using the Millennium Cohort Study. <i>Preventive Medicine</i> , 2020, 130, 105889.	3.4	8
88	Social prescribing for individuals with mental health problems: a qualitative study of barriers and enablers experienced by general practitioners. <i>BMC Family Practice</i> , 2020, 21, 194.	2.9	29
89	Abuse, self-harm and suicidal ideation in the UK during the COVID-19 pandemic. <i>British Journal of Psychiatry</i> , 2020, 217, 543-546.	2.8	244
90	Identifying mechanisms of change in a magic-themed hand-arm bimanual intensive therapy programme for children with unilateral spastic cerebral palsy: a qualitative study using behaviour change theory. <i>BMC Pediatrics</i> , 2020, 20, 363.	1.7	4

#	ARTICLE	IF	CITATIONS
