#	Article	IF	CITATIONS
1	COVI-Prim Longitudinal Survey: Experiences of Primary Care Physicians During the Early Phase of the COVID-19 Pandemic. Frontiers in Medicine, 2022, 9, 761283.	1.2	6
2	Preventive and healthâ€promoting activities in general practices in Germany: A scoping review. Health and Social Care in the Community, 2022, 30, 2025-2036.	0.7	1
3	Preemptive local analgesia at vaginal hysterectomy: a systematic review. International Urogynecology Journal, 2022, 33, 2357-2366.	0.7	3
4	Long-term effects of weight-reducing drugs in people with hypertension. The Cochrane Library, 2021, 1, CD007654.	1. 5	10
5	Long-term effects of weight-reducing diets in people with hypertension. The Cochrane Library, 2021, 2021, CD008274.	1.5	15
6	COVI-Prim survey: Challenges for Austrian and German general practitioners during initial phase of COVID-19. PLoS ONE, 2021, 16, e0251736.	1.1	22
7	Comprehensive catalogue of international measures aimed at preventing general practitioner shortages. Family Practice, 2021, 38, 793-801.	0.8	5
8	Comparing the diagnostic accuracy of point-of-care lateral flow antigen testing for SARS-CoV-2 with RT-PCR in primary care (REAP-2). EClinicalMedicine, 2021, 38, 101011.	3.2	33
9	Rapid, early and accurate SARS-CoV-2 detection using RT-qPCR in primary care: a prospective cohort study (REAP-1). BMJ Open, 2021, 11, e045225.	0.8	3
10	Attitudes of medical students to general practice: a multinational cross-sectional survey. Family Practice, 2021, 38, 265-271.	0.8	7
11	End-of-life decision making by Austrian physicians - a cross-sectional study. BMC Palliative Care, 2020, 19, 4.	0.8	2
12	Management of non-specific low back pain in primary care – A systematic overview of recommendations from international evidence-based guidelines. Primary Health Care Research and Development, 2020, 21, e64.	0.5	23
13	(Ultra-)long-acting insulin analogues versus NPH insulin (human isophane insulin) for adults with type 2 diabetes mellitus. The Cochrane Library, 2020, 2020, CD005613.	1.5	25
14	Representation of patients with a migration background in studies on antithrombotic treatment. An analysis of recruitment data from a cluster randomized controlled trial. PLoS ONE, 2020, 15, e0230297.	1.1	0
15	Written patient information materials used in general practices fail to meet acceptable quality standards. BMC Family Practice, 2020, 21, 23.	2.9	10
16	Healthcare experiences of patients with chronic heart failure in Germany: a scoping review. BMJ Open, 2020, 10, e037158.	0.8	0
17	MAPPinfo, mapping quality of health information: study protocol for a validation study of an assessment instrument. BMJ Open, 2020, 10, e040572.	0.8	O
18	Healthcare experiences of patients with chronic heart failure in Germany: a scoping review. BMJ Open, 2020, 10, e037158.	0.8	0

#	Article	IF	CITATIONS
19	MAPPinfo, mapping quality of health information: study protocol for a validation study of an assessment instrument. BMJ Open, 2020, 10, e040572.	0.8	5
20	Short-acting insulin analogues versus regular human insulin for adults with type 1 diabetes mellitus. The Cochrane Library, 2019, 2019, CD012161.	1.5	50
21	Differences in the quality of oral anticoagulation therapy with vitamin K antagonists in German GP practices – results of the cluster-randomized PICANT trial (Primary Care Management for Optimized) Tj ETQq1 I	l 0. ø8431	4 2 gBT /Ove
22	Management of overweight and obesity in primary careâ€"A systematic overview of international evidenceâ€based guidelines. Obesity Reviews, 2019, 20, 1218-1230.	3.1	152
23	Prevalence of anemia in pregnant women in Styria, Austria—A retrospective analysis of mother-child examinations 2006–2014. PLoS ONE, 2019, 14, e0219703.	1.1	4
24	Chronic heart failure patients' experiences of German healthcare services: a protocol for a scoping review. BMJ Open, 2019, 9, e025685.	0.8	2
25	How many women take oral supplementation in pregnancy in Austria?. Wiener Klinische Wochenschrift, 2019, 131, 462-467.	1.0	5
26	Cost-effectiveness analysis of case management for optimized antithrombotic treatment in German general practices compared to usual care – results from the PICANT trial. Health Economics Review, 2019, 9, 4.	0.8	2
27	Primary care management for patients receiving long-term antithrombotic treatment: A cluster-randomized controlled trial. PLoS ONE, 2019, 14, e0209366.	1.1	6
28	Cluster-randomized controlled trials evaluating complex interventions in general practices are mostly ineffective: a systematic review. Journal of Clinical Epidemiology, 2018, 94, 85-96.	2.4	11
29	Utilization of colonoscopy and colonoscopic findings among individuals aged 40–54 years with a positive family history of colorectal cancer: a cross-sectional study in general practice. European Journal of Cancer Prevention, 2018, 27, 539-545.	0.6	2
30	GPs' assessment of cooperation with other health care providers involved in cancer care-a cross-sectional study. European Journal of Cancer Care, 2018, 27, e12751.	0.7	5
31	Short-acting insulin analogues versus regular human insulin for adult, non-pregnant persons with type 2 diabetes mellitus. The Cochrane Library, 2018, 12, CD013228.	1.5	33
32	Colorectal cancer stage at diagnosis in migrants and non-migrants: aÂcross-sectional analysis of the KoMigra Study in Germany. Zeitschrift Fur Gastroenterologie, 2018, 56, 1499-1506.	0.2	5
33	Screening interval recommendations following a normalÂcolonoscopy in individuals with a familial risk ofÂcolorectal cancer. Zeitschrift Fur Gastroenterologie, 2018, 56, 361-364.	0.2	1
34	Intravenous versus inhalational anesthesia for pediatric inpatient surgery – A systematic review and meta-analysis. Journal of Clinical Anesthesia, 2018, 49, 19-25.	0.7	30
35	Frequency of a positive family history of colorectal cancer in general practice: a cross-sectional study. Family Practice, 2017, 34, 30-35.	0.8	10
36	The Choosing Wisely Initiative: A critical analysis with a special focus on primary care. Zeitschrift Fur Evidenz, Fortbildung Und Qualitat Im Gesundheitswesen, 2017, 129, 31-36.	0.7	2

#	Article	IF	Citations
37	Does a complex intervention increase patient knowledge about oral anticoagulation? - a cluster-randomised controlled trial. BMC Family Practice, 2017, 18, 15.	2.9	17
38	Oncologists' views on the importance of general practitioners for cancer patients: a qualitative interview study from Germany. Family Practice, 2017, 34, 730-734.	0.8	5
39	General practitioners in Styria – who is willing to take part in research projects and why?. Wiener Klinische Wochenschrift, 2017, 129, 823-834.	1.0	4
40	Long-term effects of weight-reducing drugs in people with hypertension. The Cochrane Library, 2016, 3, CD007654.	1.5	48
41	Choosing Wisely: assessment of current US top five list recommendations' trustworthiness using a pragmatic approach. BMJ Open, 2016, 6, e012366.	0.8	13
42	How often are interventions in cluster-randomised controlled trials of complex interventions in general practices effective and reasons for potential shortcomings? Protocol and results of a feasibility project for a systematic review. BMJ Open, 2016, 6, e009414.	0.8	2
43	Validation and reliability of a guideline appraisal mini-checklist for daily practice use. BMC Medical Research Methodology, 2016, 16, 39.	1.4	10
44	Long-term effects of weight-reducing diets in people with hypertension. The Cochrane Library, 2016, 3, CD008274.	1.5	61
45	Complementary Medicine for Cancer Patients in General Practice: Qualitative Interviews with German General Practitioners. Complementary Medicine Research, 2015, 22, 36-41.	0.5	9
46	Relevance to family practice of English-language guidelines on breast, colorectal and prostate cancer: a review. Family Practice, 2015, 32, 483-491.	0.8	3
47	Positive family history of colorectal cancer in a general practice setting [FRIDA.Frankfurt]: study protocol of a of a cross-sectional study. BMC Cancer, 2015, 15, 605.	1.1	5
48	Evaluating Guidelines. Deutsches Ärzteblatt International, 2015, 112, 471-8.	0.6	25
49	German general practitioners' views on their involvement and role in cancer care: a qualitative study. Family Practice, 2014, 31, 209-214.	0.8	48
50	Anticoagulant treatment in German family practices – screening results from a cluster randomized controlled trial. BMC Family Practice, 2014, 15, 170.	2.9	12
51	Self-management of Oral Anticoagulation. Deutsches Ärzteblatt International, 2014, 111, 83-91.	0.6	13
52	Long-term effects of weight-reducing drugs in hypertensive patients. , 2013, , CD007654.		26
53	Self-monitoring of oral anticoagulation: systematic review and meta-analysis of individual patient data. Lancet, The, 2012, 379, 322-334.	6. 3	334
54	Primary care management for optimized antithrombotic treatment [PICANT]: study protocol for a cluster-randomized controlled trial. Implementation Science, 2012, 7, 79.	2.5	11

#	Article	IF	Citations
55	Self-management of oral anticoagulation in elderly patients $\hat{a} \in \text{``Effects}$ on treatment-related Quality of Life. Thrombosis Research, 2012, 130, e60-e66.	0.8	13
56	Long-term effects of weight-reducing diets in hypertensive patients. , 2011, , CD008274.		64
57	Insulin analogues: too much noise about small benefits. Cmaj, 2009, 180, 369-370.	0.9	3
58	Long-term effects of weight-reducing drugs in hypertensive patients., 2009,, CD007654.		18
59	Self-management of oral anticoagulation reduces major outcomes in the elderly. A randomized controlled trial. Thrombosis and Haemostasis, 2008, 100, 1089-98.	1.8	26
60	Self-management of oral anticoagulation in the elderly: rationale, design, baselines and oral anticoagulation control after one year of follow-up. A randomized controlled trial. Thrombosis and Haemostasis, 2007, 97, 408-16.	1.8	13
61	Short acting insulin analogues versus regular human insulin in patients with diabetes mellitus. The Cochrane Library, 2006, , CD003287.	1.5	154
