#	ARTICLE	IF	CITATIONS
1	A high-resolution summary of Cambrian to Early Triassic marine invertebrate biodiversity. <i>Science</i> , 2020, 367, 272-277.	12.6	298
2	Toward a stepwise Kwangsi Orogeny. <i>Science China Earth Sciences</i> , 2014, 57, 379-387.	5.2	108
3	Biostratigraphy and geography of the Ordovician-Silurian Lungmachi black shales in South China. <i>Science China Earth Sciences</i> , 2011, 54, 1854-1863.	5.2	73
4	Timing and patterns of the Great Ordovician Biodiversification Event and Late Ordovician mass extinction: Perspectives from South China. <i>Earth-Science Reviews</i> , 2021, 220, 103743.	9.1	55
5	Circumjacent distribution pattern of the Lungmachi graptolitic black shale (early Silurian) on the Yichang Uplift and its peripheral region. <i>Science China Earth Sciences</i> , 2018, 61, 1195-1203.	5.2	42
6	Biostratigraphic correlation of the Ordovician black shales in Tarim Basin and its peripheral regions. <i>Science China Earth Sciences</i> , 2012, 55, 1230-1237.	5.2	39
7	Geobiodiversity Database: a comprehensive section-based integration of stratigraphic and paleontological data. <i>Newsletters on Stratigraphy</i> , 2013, 46, 111-136.	1.2	37
8	Paleogeographic evolution of the Lower Yangtze region and the break of the "platform-slope-basin" pattern during the Late Ordovician. <i>Science China Earth Sciences</i> , 2018, 61, 625-636.	5.2	19
9	Geobiodiversity Database (GBDB) in stratigraphic, palaeontological and palaeogeographic research: graptolites as an example. <i>Gff</i> , 2014, 136, 70-74.	1.2	14
10	Geographic dynamics of some major graptolite taxa of the Diplograptina during the Late Ordovician mass extinction in South China. <i>Gff</i> , 2014, 136, 327-332.	1.2	7
11	Age of the Silurian Lower Red Beds in South China: Stratigraphical Evidence from the Sanbaiti Section. <i>Journal of Earth Science (Wuhan, China)</i> , 2021, 32, 524-533.	3.2	3
12	Upper Ordovician continuous lithological succession in outer-shelf facies, Yangtze Platform, South China: Facies changes and oceanographic reconstruction up to the Late Ordovician Hirnantian glaciation. <i>Island Arc</i> , 2018, 27, e12259.	1.1	2
13	A restudy of the Sandbian to Katian (Upper Ordovician) graptolites from the East Qilianshan (Chilianshan), Northwest China. <i>Journal of Paleontology</i> , 2019, 93, 1175-1209.	0.8	1
14	A restudy of Early Devonian graptolites from the Himalayan Mountains, southern Xizang, China. <i>Geological Journal</i> , 2021, 56, 5894-5909.	1.3	1
15	Are There Any Links between Biodiversity and Paleogeographic Differentiation in the Ordovician?. <i>Acta Geologica Sinica</i> , 2019, 93, 90-93.	1.4	0
