

Christopher K Macgowan

List of Publications by Citations

Source: <https://exaly.com/author-pdf/5753486/christopher-k-macgowan-publications-by-citations.pdf>

Version: 2024-04-26

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

125

#	Paper	IF	Citations
125	Reduced fetal cerebral oxygen consumption is associated with smaller brain size in fetuses with congenital heart disease. <i>Circulation</i> , 2015 , 131, 1313-23	16.7	287
124	Reference ranges of blood flow in the major vessels of the normal human fetal circulation at term by phase-contrast magnetic resonance imaging. <i>Circulation: Cardiovascular Imaging</i> , 2014 , 7, 663-70	3.9	103
123	The hemodynamics of late-onset intrauterine growth restriction by MRI. <i>American Journal of Obstetrics and Gynecology</i> , 2016 , 214, 367.e1-367.e17	6.4	87
122	Differential regurgitation in branch pulmonary arteries after repair of tetralogy of Fallot: a phase-contrast cine magnetic resonance study. <i>Circulation</i> , 2003 , 107, 2938-43	16.7	82
121	Fetal blood flow measured using phase contrast MRI-comparison of image quality and flow volume at 1.5T with 3.0T. <i>Journal of Cardiovascular Magnetic Resonance</i> , 2015 , 17,	6.9	78
120	High resolution multislice imaging of the fetal heart using iGRASP and MOG. <i>Journal of Cardiovascular Magnetic Resonance</i> , 2016 , 18,	6.9	78
119	Assessment of MRI parameters for studying brain development in newborns with congenital heart disease. <i>Journal of Cardiovascular Magnetic Resonance</i> , 2015 , 17,	6.9	78
118	Measurement of pulmonary arterial pulse wave reflection from single-slice phase-contrast and steady-state free precession MRI. <i>Journal of Cardiovascular Magnetic Resonance</i> , 2012 , 14,	6.9	78
117	Anatomical and functional evaluation of pulmonary veins in children by magnetic resonance imaging. <i>Journal of the American College of Cardiology</i> , 2007 , 49, 993-1002	15.1	75
116	Feasibility of quantification of the distribution of blood flow in the normal human fetal circulation using CMR: a cross-sectional study. <i>Journal of Cardiovascular Magnetic Resonance</i> , 2012 , 14, 79	6.9	74
115	Metric optimized gating for fetal cardiac MRI. <i>Magnetic Resonance in Medicine</i> , 2010 , 64, 1304-14	4.4	59
114	Comparative imaging of differential pulmonary blood flow in patients with congenital heart disease: magnetic resonance imaging versus lung perfusion scintigraphy. <i>Pediatric Radiology</i> , 2005 , 35, 295-301	2.8	52
113	Cerebral oxygen delivery is reduced in newborns with congenital heart disease. <i>Journal of Thoracic and Cardiovascular Surgery</i> , 2016 , 152, 1095-103	1.5	47
112	Three-dimensional tricuspid annular function provides insight into the mechanisms of tricuspid valve regurgitation in classic hypoplastic left heart syndrome. <i>Journal of the American Society of Echocardiography</i> , 2006 , 19, 391-402	5.8	45
111	How is pulmonary arterial blood flow affected by pulmonary venous obstruction in children? A phase-contrast magnetic resonance study. <i>Pediatric Radiology</i> , 2005 , 35, 580-6	2.8	44
110	Fetal circulation in left-sided congenital heart disease measured by cardiovascular magnetic resonance: a case-control study. <i>Journal of Cardiovascular Magnetic Resonance</i> , 2013 , 15, 65	6.9	38
109	Effect of propofol anesthesia and continuous positive airway pressure on upper airway size and configuration in infants. <i>Anesthesiology</i> , 2006 , 105, 45-50	4.3	38

108	Phase-contrast MR assessment of pulmonary venous blood flow in children with surgically repaired pulmonary veins. <i>Pediatric Radiology</i> , 2003 , 33, 607-13	2.8	37
107	Phase-contrast magnetic resonance quantification of normal pulmonary venous return. <i>Journal of Magnetic Resonance Imaging</i> , 2009 , 29, 588-94	5.6	36
106	Relaxation properties of human umbilical cord blood at 1.5 Tesla. <i>Magnetic Resonance in Medicine</i> , 2017 , 77, 1678-1690	4.4	35
105	Dynamic imaging of the fetal heart using metric optimized gating. <i>Magnetic Resonance in Medicine</i> , 2013 , 70, 1598-607	4.4	33
104	Extent and localization of changes in upper airway caliber with varying concentrations of sevoflurane in children. <i>Anesthesiology</i> , 2006 , 105, 1147-52; discussion 5A	4.3	33
103	Non-invasive evaluation of blood oxygen saturation and hematocrit from T and T relaxation times: In-vitro validation in fetal blood. <i>Magnetic Resonance in Medicine</i> , 2017 , 78, 2352-2359	4.4	31
102	Motion compensated cine CMR of the fetal heart using radial undersampling and compressed sensing. <i>Journal of Cardiovascular Magnetic Resonance</i> , 2017 , 19, 29	6.9	31
101	Fetal hemodynamics and cardiac streaming assessed by 4D flow cardiovascular magnetic resonance in fetal sheep. <i>Journal of Cardiovascular Magnetic Resonance</i> , 2019 , 21, 8	6.9	29
100	Insight into normal mitral and tricuspid annular dynamics in pediatrics: a real-time three-dimensional echocardiographic study. <i>Journal of the American Society of Echocardiography</i> , 2005 , 18, 805-14	5.8	29
99	Pulse-wave velocity measured in one heartbeat using MR tagging. <i>Magnetic Resonance in Medicine</i> , 2002 , 48, 115-21	4.4	29
98	Accelerated MRI of the fetal heart using compressed sensing and metric optimized gating. <i>Magnetic Resonance in Medicine</i> , 2017 , 77, 2125-2135	4.4	28
97	In vivo MRI measurement of blood oxygen saturation in children with congenital heart disease. <i>Pediatric Radiology</i> , 2005 , 35, 179-85	2.8	28
96	MRI reveals hemodynamic changes with acute maternal hyperoxygenation in human fetuses with and without congenital heart disease. <i>Prenatal Diagnosis</i> , 2016 , 36, 274-81	3.2	27
95	Observation of nonlinear shear wave propagation using magnetic resonance elastography. <i>Magnetic Resonance in Medicine</i> , 2004 , 52, 842-50	4.4	26
94	Brain sparing in fetal mice: BOLD MRI and Doppler ultrasound show blood redistribution during hypoxia. <i>Journal of Cerebral Blood Flow and Metabolism</i> , 2014 , 34, 1082-8	7.3	25
93	Late gadolinium enhancement of the right ventricular myocardium: is it really different from the left ?. <i>Journal of Cardiovascular Magnetic Resonance</i> , 2008 , 10, 20	6.9	24
92	MRI shows limited mixing between systemic and pulmonary circulations in foetal transposition of the great arteries: a potential cause of in utero pulmonary vascular disease. <i>Cardiology in the Young</i> , 2015 , 25, 737-44	1	22
91	Feasibility of detecting myocardial infarction in the sheep fetus using late gadolinium enhancement CMR imaging. <i>Journal of Cardiovascular Magnetic Resonance</i> , 2017 , 19, 69	6.9	21

90	Phase-encode reordering to minimize errors caused by motion. <i>Magnetic Resonance in Medicine</i> , 1996 , 35, 391-8	4.4	20
89	Normal human and sheep fetal vessel oxygen saturations by T2 magnetic resonance imaging. <i>Journal of Physiology</i> , 2020 , 598, 3259-3281	3.9	19
88	Human umbilical cord blood relaxation times and susceptibility at 3 T. <i>Magnetic Resonance in Medicine</i> , 2018 , 79, 3194-3206	4.4	19
87	Maternal hyperoxygenation and foetal cardiac MRI in the assessment of the borderline left ventricle. <i>Cardiology in the Young</i> , 2015 , 25, 1214-7	1	19
86	Real-time Fourier velocity encoding: an in vivo evaluation. <i>Journal of Magnetic Resonance Imaging</i> , 2005 , 21, 297-304	5.6	19
85	Foetal blood flow measured using phase contrast cardiovascular magnetic resonance--preliminary data comparing 1.5 T with 3.0 T. <i>Journal of Cardiovascular Magnetic Resonance</i> , 2015 , 17, 30	6.9	18
84	Feto- and utero-placental vascular adaptations to chronic maternal hypoxia in the mouse. <i>Journal of Physiology</i> , 2018 , 596, 3285-3297	3.9	18
83	Hemodynamic evaluation of the peripheral pulmonary circulation by cine phase-contrast magnetic resonance imaging. <i>Journal of Magnetic Resonance Imaging</i> , 2005 , 22, 780-7	5.6	18
82	Feasibility of phase-contrast cine magnetic resonance imaging for measuring blood flow in the sheep fetus. <i>American Journal of Physiology - Regulatory Integrative and Comparative Physiology</i> , 2019 , 317, R780-R792	3.2	16
81	Assessment of flow distribution in the mouse fetal circulation at late gestation by high-frequency Doppler ultrasound. <i>Physiological Genomics</i> , 2014 , 46, 602-14	3.6	16
80	Fetal Cardiac MRI: A Review of Technical Advancements. <i>Topics in Magnetic Resonance Imaging</i> , 2019 , 28, 235-244	2.3	16
79	Multidimensional fetal flow imaging with cardiovascular magnetic resonance: a feasibility study. <i>Journal of Cardiovascular Magnetic Resonance</i> , 2018 , 20, 77	6.9	16
78	New advances in fetal cardiovascular magnetic resonance imaging for quantifying the distribution of blood flow and oxygen transport: Potential applications in fetal cardiovascular disease diagnosis and therapy. <i>Echocardiography</i> , 2017 , 34, 1799-1803	1.5	15
77	Temporal and Spatial Variances in Arterial Spin-Labeling Are Inversely Related to Large-Artery Blood Velocity. <i>American Journal of Neuroradiology</i> , 2017 , 38, 1555-1561	4.4	14
76	Delayed onset of tricuspid valve flow in repaired tetralogy of Fallot: an additional mechanism of diastolic dysfunction and interventricular dyssynchrony. <i>Journal of Cardiovascular Magnetic Resonance</i> , 2011 , 13, 43	6.9	14
75	Evaluation of cerebrovascular impedance and wave reflection in mouse by ultrasound. <i>Journal of Cerebral Blood Flow and Metabolism</i> , 2015 , 35, 521-6	7.3	13
74	Subcutaneous maternal resveratrol treatment increases uterine artery blood flow in the pregnant ewe and increases fetal but not cardiac growth. <i>Journal of Physiology</i> , 2019 , 597, 5063-5077	3.9	13
73	Ultrasound detection of altered placental vascular morphology based on hemodynamic pulse wave reflection. <i>American Journal of Physiology - Heart and Circulatory Physiology</i> , 2017 , 312, H1021-H1029	5.2	12

72	Reflected hemodynamic waves influence the pattern of Doppler ultrasound waveforms along the umbilical arteries. <i>American Journal of Physiology - Heart and Circulatory Physiology</i> , 2019 , 316, H1105-H1112	5.3	12
71	The association between resting-state functional magnetic resonance imaging and aortic pulse-wave velocity in healthy adults. <i>Human Brain Mapping</i> , 2020 , 41, 2121-2135	5.9	12
70	Alteration of diffusion tensor parameters in postmortem brain. <i>Magnetic Resonance Imaging</i> , 2009 , 27, 865-70	3.3	12
69	Optimization of 3D contrast-enhanced pulmonary magnetic resonance angiography in pediatric patients with congenital heart disease. <i>Magnetic Resonance in Medicine</i> , 2005 , 54, 207-12	4.4	12
68	Placental vascular abnormalities in the mouse alter umbilical artery wave reflections. <i>American Journal of Physiology - Heart and Circulatory Physiology</i> , 2019 , 316, H664-H672	5.2	12
67	Differential Response to Injury in Fetal and Adolescent Sheep Hearts in the Immediate Post-myocardial Infarction Period. <i>Frontiers in Physiology</i> , 2019 , 10, 208	4.6	11
66	Cerebral arterial and venous blood flow in adolescent multiple sclerosis patients and age-matched controls using phase contrast MRI. <i>Journal of Magnetic Resonance Imaging</i> , 2014 , 40, 341-7	5.6	11
65	Longitudinal Brain and Body Growth in Fetuses With and Without Transposition of the Great Arteries: Quantitative Volumetric Magnetic Resonance Imaging Study. <i>Circulation</i> , 2018 , 138, 1368-1370	16.7	11
64	A mouse model of antepartum stillbirth. <i>American Journal of Obstetrics and Gynecology</i> , 2017 , 217, 443.e1-443.e11	4.4	11
63	Understanding Fetal Hemodynamics Using Cardiovascular Magnetic Resonance Imaging. <i>Fetal Diagnosis and Therapy</i> , 2020 , 47, 354-362	2.4	9
62	Pulmonary artery pulsatility and effect on vessel diameter assessment in magnetic resonance imaging. <i>European Journal of Radiology</i> , 2014 , 83, 378-83	4.7	9
61	Feasibility of ventricular volumetry by cardiovascular MRI to assess cardiac function in the fetal sheep. <i>Journal of Physiology</i> , 2020 , 598, 2557-2573	3.9	8
60	Quantification of blood flow in the fetus with cardiovascular magnetic resonance imaging using Doppler ultrasound gating: validation against metric optimized gating. <i>Journal of Cardiovascular Magnetic Resonance</i> , 2019 , 21, 74	6.9	8
59	Fetal brain sparing in a mouse model of chronic maternal hypoxia. <i>Journal of Cerebral Blood Flow and Metabolism</i> , 2019 , 39, 1172-1184	7.3	8
58	The utility of MRI for measuring hematocrit in fetal anemia. <i>American Journal of Obstetrics and Gynecology</i> , 2020 , 222, 81.e1-81.e13	6.4	8
57	Sildenafil acutely reverses the hypoxic pulmonary vasoconstriction response of the newborn pig. <i>Pediatric Research</i> , 2008 , 64, 251-5	3.2	7
56	The impact of patch augmentation on left atrioventricular valve dynamics in patients with atrioventricular septal defects: early and midterm follow-up. <i>Journal of the American Society of Echocardiography</i> , 2006 , 19, 1382-92	5.8	7
55	Automated measurement and classification of pulmonary blood-flow velocity patterns using phase-contrast MRI and correlation analysis. <i>Magnetic Resonance Imaging</i> , 2009 , 27, 38-47	3.3	6

54	Self-gated Fourier velocity encoding. <i>Magnetic Resonance Imaging</i> , 2010 , 28, 95-102	3.3	6
53	Dynamic MRI of a Large Fetal Cardiac Mass. <i>Radiology</i> , 2019 , 290, 288	20.5	6
52	Preliminary Experience Using Motion Compensated CINE Magnetic Resonance Imaging to Visualise Fetal Congenital Heart Disease. <i>Circulation: Cardiovascular Imaging</i> , 2018 , 11, e007745	3.9	6
51	Fetal XCMR: a numerical phantom for fetal cardiovascular magnetic resonance imaging. <i>Journal of Cardiovascular Magnetic Resonance</i> , 2019 , 21, 29	6.9	5
50	Simulation of semilunar valve function: computer-aided design, 3D printing and flow assessment with MR. <i>3D Printing in Medicine</i> , 2020 , 6, 2	5	5
49	Effect of maternal betamethasone administration on feto-placental vascular resistance in the mouse. <i>Biology of Reproduction</i> , 2019 , 101, 823-831	3.9	5
48	Regional pulmonary blood flow: Comparison of dynamic contrast-enhanced MR perfusion and phase-contrast MR. <i>Magnetic Resonance in Medicine</i> , 2009 , 61, 1249-54	4.4	5
47	Fast measurements of the motion and velocity spectrum of blood using MR tagging. <i>Magnetic Resonance in Medicine</i> , 2001 , 45, 461-9	4.4	5
46	Wave reflections in the umbilical artery measured by Doppler ultrasound as a novel predictor of placental pathology. <i>EBioMedicine</i> , 2021 , 67, 103326	8.8	5
45	Motion robust respiratory-resolved 3D radial flow MRI and its application in neonatal congenital heart disease. <i>Magnetic Resonance in Medicine</i> , 2020 , 83, 535-548	4.4	5
44	Ultrasound Detection of Abnormal Cerebrovascular Morphology in a Mouse Model of Sickle Cell Disease Based on Wave Reflection. <i>Ultrasound in Medicine and Biology</i> , 2019 , 45, 3269-3278	3.5	4
43	Technique for comprehensive fetal hepatic blood flow assessment in sheep using 4D flow MRI. <i>Journal of Physiology</i> , 2020 , 598, 3555-3567	3.9	4
42	Quantification of Wave Reflection in the Human Umbilical Artery From Asynchronous Doppler Ultrasound Measurements. <i>IEEE Transactions on Medical Imaging</i> , 2020 , 39, 3749-3757	11.7	4
41	Magnetic resonance evaluation of pulmonary circulation in children. <i>Progress in Pediatric Cardiology</i> , 2006 , 22, 211-223	0.4	4
40	An MRI approach to assess placental function in healthy humans and sheep. <i>Journal of Physiology</i> , 2021 , 599, 2573-2602	3.9	4
39	MRI reveals hemodynamic changes with acute maternal hyperoxygenation in human fetuses with and without congenital heart disease. <i>Journal of Cardiovascular Magnetic Resonance</i> , 2015 , 17,	6.9	3
38	Fetal haemodynamic assessment in a case of late-onset intrauterine growth restriction by phase contrast MRI and T2 mapping. <i>Journal of Cardiovascular Magnetic Resonance</i> , 2015 , 17,	6.9	3
37	Accelerated phase contrast measurements of fetal blood flow using compressed sensing. <i>Journal of Cardiovascular Magnetic Resonance</i> , 2016 , 18,	6.9	3

36	No evidence for impairment of venous hemodynamics in children or young adults with pediatric-onset multiple sclerosis. <i>American Journal of Neuroradiology</i> , 2013 , 34, 2366-72	4.4	3
35	Sex differences in modulation of fetoplacental vascular resistance in growth-restricted mouse fetuses following betamethasone administration: comparisons with human fetuses. <i>American Journal of Obstetrics & Gynecology MFM</i> , 2021 , 3, 100251	7.4	3
34	Sex differences in uterine artery Doppler during gestation in pregnancies complicated by placental dysfunction. <i>Biology of Sex Differences</i> , 2021 , 12, 19	9.3	3
33	Cerebral oxygen delivery in newborns with congenital heart disease by phase contrast MRI. <i>Journal of Cardiovascular Magnetic Resonance</i> , 2015 , 17,	6.9	2
32	Wharton's jelly area and its association with placental morphometry and pathology. <i>Placenta</i> , 2020 , 94, 34-38	3.4	2
31	The absolute and relative sizes of the brains and bodies of fetuses with different forms of congenital heart disease and intrauterine growth restriction. <i>Journal of Cardiovascular Magnetic Resonance</i> , 2016 , 18,	6.9	2
30	Reduced combined ventricular output and increased oxygen extraction fraction in a fetus with complete heart block demonstrated by MRI. <i>HeartRhythm Case Reports</i> , 2016 , 2, 164-168	1	2
29	An inductive method to measure mechanical excitation spectra for MRI elastography. <i>Concepts in Magnetic Resonance</i> , 2004 , 21B, 32-39		2
28	Intrauterine growth restriction alters the activity of drug metabolising enzymes in the maternal-placental-fetal unit. <i>Life Sciences</i> , 2021 , 285, 120016	6.8	2
27	Umbilical vein infusion of prostaglandin I increases ductus venosus shunting of oxygen-rich blood but does not increase cerebral oxygen delivery in the fetal sheep. <i>Journal of Physiology</i> , 2020 , 598, 4957-4967	3.9	2
26	Seeing the fetus from a DOHaD perspective: discussion paper from the advanced imaging techniques of DOHaD applications workshop held at the 2019 DOHaD World Congress. <i>Journal of Developmental Origins of Health and Disease</i> , 2021 , 12, 153-167	2.4	2
25	Understanding Early Hemophilic Arthropathy in Children and Adolescents Through MRI T Mapping. <i>Journal of Magnetic Resonance Imaging</i> , 2021 , 53, 827-837	5.6	2
24	Fetal Flow Quantification in Great Vessels Using Motion-Corrected Radial Phase Contrast MRI: Comparison With Cartesian. <i>Journal of Magnetic Resonance Imaging</i> , 2021 , 53, 540-551	5.6	2
23	Interpretation of Wave Reflections in the Umbilical Arterial Segment of the Feto-Placental Circulation: Computational Modeling of the Feto-Placental Arterial Tree. <i>IEEE Transactions on Biomedical Engineering</i> , 2021 , 68, 3647-3658	5	2
22	Impact of resveratrol-mediated increase in uterine artery blood flow on fetal haemodynamics, blood pressure and oxygenation in sheep. <i>Experimental Physiology</i> , 2021 , 106, 1166-1180	2.4	2
21	Magnetic Resonance Imaging: A New Tool to Optimize the Prediction of Fetal Anemia?. <i>Fetal Diagnosis and Therapy</i> , 2019 , 46, 257-265	2.4	1
20	MRI reveals increased superior vena caval blood flow in human fetuses with congenital heart disease, abnormal placental pathology and neonatal brain white matter changes. <i>Journal of Cardiovascular Magnetic Resonance</i> , 2015 , 17,	6.9	1
19	Reduced fetal cerebral oxygen consumption is associated with abnormal white matter in newborns with congenital heart disease. <i>Journal of Cardiovascular Magnetic Resonance</i> , 2015 , 17,	6.9	1

18	Non-Invasive Ultrasound Detection of Cerebrovascular Changes in a Mouse Model of Traumatic Brain Injury. <i>Journal of Neurotrauma</i> , 2020 , 37, 2157-2168	5.4	1
17	Differential gene responses 3 days following infarction in the fetal and adolescent sheep heart. <i>Physiological Genomics</i> , 2020 , 52, 143-159	3.6	1
16	Response to Letter Regarding Article, "Reduced Fetal Cerebral Oxygen Consumption Is Associated With Smaller Brain Size in Fetuses With Congenital Heart Disease". <i>Circulation</i> , 2016 , 133, e8	16.7	1
15	Dynamic MRI of the fetal myocardium. <i>Journal of Cardiovascular Magnetic Resonance</i> , 2012 , 14,	6.9	1
14	Visualizing water clearance in the lung with MRI. <i>Magnetic Resonance in Medicine</i> , 2008 , 60, 230-5	4.4	1
13	Motion measurements from individual MR signals using volume localization. <i>Journal of Magnetic Resonance Imaging</i> , 1999 , 9, 670-8	5.6	1
12	Sex differences in fetal Doppler parameters during gestation. <i>Biology of Sex Differences</i> , 2021 , 12, 26	9.3	1
