#	ARTICLE	IF	CITATIONS
1	Factors associated with leisure-time physical activity participation among individuals with spinal cord injury who ambulate. <i>Disability and Rehabilitation</i> , 2022, 44, 4343-4350.	0.9	6
2	Investigating the influence of interaction modality on the communication patterns of spinal cord injury peer mentors. <i>Patient Education and Counseling</i> , 2022, 105, 1229-1236.	1.0	3
3	Measuring behavior change technique delivery and receipt in physical activity behavioral interventions.. <i>Rehabilitation Psychology</i> , 2022, 67, 128-138.	0.7	3
4	A dynamic analysis of physical activity barriers experienced by adults with spinal cord injury. <i>Spinal Cord Series and Cases</i> , 2022, 8, 37.	0.3	4
5	Physical activity and chronic disease prevention: Where is the research on people living with disabilities?. <i>Cmaj</i> , 2022, 194, E338-E340.	0.9	3
6	The effects of active upper-limb versus passive lower-limb exercise on quality of life among individuals with motor-complete spinal cord injury. <i>Spinal Cord</i> , 2022, , .	0.9	1
7	Movement behaviours and health of children and youth with disabilities: Impact of the 2020 COVID-19 pandemic. <i>Paediatrics and Child Health</i> , 2022, 27, S66-S71.	0.3	9
8	Inclusion of young people with disabilities in the future of work: forecasting workplace, labour market and community-based strategies through an online and accessible Delphi survey protocol. <i>BMJ Open</i> , 2022, 12, e055452.	0.8	3
9	Using ecological momentary assessment to evaluate neuropathic pain experienced by adults with SCI: recommendations and participant perceptions. <i>Disability and Rehabilitation</i> , 2021, 43, 2439-2446.	0.9	5
10	A Scoping Review of Peer Mentorship Studies for People with Disabilities: Exploring Interaction Modality and Frequency of Interaction. <i>Health Communication</i> , 2021, 36, 1841-1851.	1.8	4
11	From guidelines to practice: development and implementation of disability-specific physical activity guidelines. <i>Disability and Rehabilitation</i> , 2021, 43, 3432-3439.	0.9	9
12	Practice improves court mobility and self-efficacy in tennis-specific wheelchair propulsion. <i>Disability and Rehabilitation: Assistive Technology</i> , 2021, 16, 398-406.	1.3	3
13	A cross-sectional examination of the 24-hour movement behaviours in Canadian youth with physical and sensory disabilities. <i>Disability and Health Journal</i> , 2021, 14, 100980.	1.6	10
14	Improving Diabetes Care in the British Columbia Southern Interior: Developing Communityâ€™University Initiatives to Address Service Gaps. <i>Canadian Journal of Diabetes</i> , 2021, 45, 5-14.e2.	0.4	3
15	Integrated Knowledge Translation Guiding Principles for Conducting and Disseminating Spinal Cord Injury Research in Partnership. <i>Archives of Physical Medicine and Rehabilitation</i> , 2021, 102, 656-663.	0.5	64
16	Disability and sex/gender intersections in unmet workplace support needs: Findings from a large Canadian survey of workers. <i>American Journal of Industrial Medicine</i> , 2021, 64, 149-161.	1.0	12
17	Construct validation of the leisure time physical activity questionnaire for people with SCI (LTPAQ-SCI). <i>Spinal Cord</i> , 2021, 59, 311-318.	0.9	16
18	Physical activity interventions, chronic pain, and subjective well-being among persons with spinal cord injury: a systematic scoping review. <i>Spinal Cord</i> , 2021, 59, 93-104.	0.9	18

#	ARTICLE	IF	CITATIONS
19	Does it matter what your reasons are when deciding to disclose (or not disclose) a disability at work? The association of workersâ€™ approach and avoidance goals with perceived positive and negative workplace outcomes. <i>Journal of Occupational Rehabilitation</i> , 2021, 31, 638-651.	1.2	22
20	Increasing dietary calcium intake of children and their parents: a randomised controlled trial. <i>Public Health Nutrition</i> , 2021, 24, 3075-3086.	1.1	0
21	Commentary on “The First Global Physical Activity and Sedentary Behavior Guidelines for People Living With Disability”. <i>Journal of Physical Activity and Health</i> , 2021, 18, 348-349.	1.0	12
22	Effects of a Tailored Physical Activity Intervention on Cardiovascular Structure and Function in Individuals With Spinal Cord Injury. <i>Neurorehabilitation and Neural Repair</i> , 2021, 35, 692-703.	1.4	7
23	Predictors of Psychological Distress and Confidence Negotiating Physical and Social Environments among Mobility Device Users. <i>American Journal of Physical Medicine and Rehabilitation</i> , 2021, Publish Ahead of Print, .	0.7	3
24	The effects of a high-fat/high-carbohydrate meal on leukocyte populations in adults with chronic spinal cord injury. <i>Spinal Cord Series and Cases</i> , 2021, 7, 49.	0.3	2
25	Participation of people living with disabilities in physical activity: a global perspective. <i>Lancet, The</i> , 2021, 398, 443-455.	6.3	183
26	Cultural validation and language translation of the scientific SCI exercise guidelines for use in Indonesia, Japan, Korea, and Thailand. <i>Journal of Spinal Cord Medicine</i> , 2021, , 1-12.	0.7	3
27	Implementation of the spinal cord injury exercise guidelines in the hospital and community settings: Protocol for a type II hybrid trial. <i>Spinal Cord</i> , 2021, , .	0.9	4
28	Psychological interventions for reducing fear avoidance beliefs among people with chronic back pain.. <i>Rehabilitation Psychology</i> , 2021, 66, 386-403.	0.7	8
29	Identifying Barriers and Facilitators to Diet and Physical Activity Behaviour Change in Type 2 Diabetes Using a Design Probe Methodology. <i>Journal of Personalized Medicine</i> , 2021, 11, 72.	1.1	15
30	The Impact of Sub-maximal Exercise on Neuropathic Pain, Inflammation, and Affect Among Adults With Spinal Cord Injury: A Pilot Study. <i>Frontiers in Rehabilitation Sciences</i> , 2021, 2, .	0.5	3
31	Enabling physical activity for people living with disabilities “ Authors' reply. <i>Lancet, The</i> , 2021, 398, 2074.	6.3	1
32	Adverse Effects of the COVID-19 Pandemic on Movement and Play Behaviours of Children and Youth Living with Disabilities: Findings from the National Physical Activity Measurement (NPAM) Study. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 12950.	1.2	10
33	Physical activity measurement in people with spinal cord injury: comparison of accelerometry and self-report (the Physical Activity Recall Assessment for People with Spinal Cord Injury). <i>Disability and Rehabilitation</i> , 2020, 42, 240-246.	0.9	21
34	Program conditions that foster quality physical activity participation experiences for people with a physical disability: a systematic review. <i>Disability and Rehabilitation</i> , 2020, 42, 147-155.	0.9	39
35	The Participation of People with Disabilities in the Workplace Across the Employment Cycle: Employer Concerns and Research Evidence. <i>Journal of Business and Psychology</i> , 2020, 35, 135-158.	2.5	162
36	The effects of an individualized health-risk report intervention on changes in perceived inactivity-related disease risk in adults with cerebral palsy. <i>Disability and Health Journal</i> , 2020, 13, 100868.	1.6	3

#	ARTICLE	IF	CITATIONS
37	Unpacking the debate: A qualitative investigation of first-time experiences with interval exercise. <i>Psychology of Sport and Exercise</i> , 2020, 51, 101788.	1.1	10
38	Factors Associated with Participation in Physical Activity Among Canadian School-Aged Children with Autism Spectrum Disorder: An Application of the International Classification of Functioning, Disability and Health. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 5925.	1.2	5
39	The working disadvantaged: the role of age, job tenure and disability in precarious work. <i>BMC Public Health</i> , 2020, 20, 1900.	1.2	16
40	Examining the relationship between parent physical activity support behaviour and physical activity among children and youth with autism spectrum disorder. <i>Autism</i> , 2020, 24, 1783-1794.	2.4	31
41	Physical activity among individuals with spinal cord injury who ambulate: a systematic scoping review. <i>Spinal Cord</i> , 2020, 58, 735-745.	0.9	9
42	A pragmatic randomized controlled trial testing the effects of the international scientific SCI exercise guidelines on SCI chronic pain: protocol for the EPIC-SCI trial. <i>Spinal Cord</i> , 2020, 58, 746-754.	0.9	8
43	Co-development of a physiotherapist-delivered physical activity intervention for adults with spinal cord injury. <i>Spinal Cord</i> , 2020, 58, 778-786.	0.9	24
44	Translating the international scientific spinal cord injury exercise guidelines into community and clinical practice guidelines: a Canadian evidence-informed resource. <i>Spinal Cord</i> , 2020, 58, 647-657.	0.9	16
45	Submaximal Exercise Does Not Increase Brain-Derived Neurotrophic Factor (BDNF) In People With Spinal Cord Injury. <i>Medicine and Science in Sports and Exercise</i> , 2020, 52, 620-620.	0.2	0
46	Enhancing health care professionals' and trainees' knowledge of physical activity guidelines for adults with and without SCI. <i>Journal of Spinal Cord Medicine</i> , 2019, 42, 534-539.	0.7	3
47	Operationalizing the reach, effectiveness, adoption, implementation, maintenance (RE-AIM) framework to evaluate the collective impact of autonomous community programs that promote health and well-being. <i>BMC Public Health</i> , 2019, 19, 803.	1.2	42
48	Predicting physical activity in university students with disabilities: The role of social ecological barriers in the theory of planned behaviour. <i>Disability and Health Journal</i> , 2019, 12, 574-580.	1.6	10
49	Temporal sequencing of physical activity change constructs within the transtheoretical model. <i>Psychology of Sport and Exercise</i> , 2019, 45, 101557.	1.1	11
50	A systematic scoping review: Resources targeting the training and education of health and recreation practitioners to support physical activity among people with physical disabilities. <i>Disability and Health Journal</i> , 2019, 12, 542-550.	1.6	7
51	Associations between leisure time physical activity and cardiovascular risk factors among older adults with long-term spinal cord injury. <i>Spinal Cord</i> , 2019, 57, 427-433.	0.9	10
52	The Effects of a Patient and Provider Co-Developed, Behavioral Physical Activity Intervention on Physical Activity, Psychosocial Predictors, and Fitness in Individuals with Spinal Cord Injury: A Randomized Controlled Trial. <i>Sports Medicine</i> , 2019, 49, 1117-1131.	3.1	41
53	Let's Go: Psychological, psychophysical, and physiological effects of music during sprint interval exercise. <i>Psychology of Sport and Exercise</i> , 2019, 45, 101547.	1.1	36
54	Physical Activity and Spinal Cord Injury: Lessons Learned at the Lowest End of the Physical Activity Spectrum. <i>Kinesiology Review</i> , 2019, 8, 54-62.	0.4	9

#	ARTICLE	IF	CITATIONS
55	Work-focused interventions that promote the labour market transition of young adults with chronic disabling health conditions: a systematic review. <i>Occupational and Environmental Medicine</i> , 2019, 76, 189-198.	1.3	16
56	Effects of exercise interventions on cardiovascular health in individuals with chronic, motor complete spinal cord injury: protocol for a randomised controlled trial [Cardiovascular Health/Outcomes: Improvements Created by Exercise and education in SCI (CHOICES) Study]. <i>BMJ Open</i> , 2019, 9, e023540.	0.8	13
57	Development of the Measure of Experiential Aspects of Participation for People With Physical Disabilities. <i>Archives of Physical Medicine and Rehabilitation</i> , 2019, 100, 67-77.e2.	0.5	25
58	National approaches to promote sports and physical activity in adults with disabilities: examples from the Netherlands and Canada. <i>Disability and Rehabilitation</i> , 2019, 41, 1217-1226.	0.9	23
59	Mobility and Participation of People With Disabilities Using Mobility Assistive Technologies: Protocol for a Mixed-Methods Study. <i>JMIR Research Protocols</i> , 2019, 8, e12089.	0.5	18
60	Exploring Stereotypes of Athletes With a Disability: A Behaviors From Intergroup Affect and Stereotypes Map Comparison. <i>Adapted Physical Activity Quarterly</i> , 2019, 36, 339-358.	0.6	3
61	An E-Learning Program for Increasing Physical Activity Associated Behaviors Among People with Spinal Cord Injury: Usability Study. <i>JMIR Formative Research</i> , 2019, 3, e14788.	0.7	5
62	Development of scientific exercise guidelines for adults with spinal cord injury. <i>British Journal of Sports Medicine</i> , 2018, 52, 1166-1167.	3.1	11
63	A meta-analysis of physical activity interventions in people with physical disabilities: Content, characteristics, and effects on behaviour. <i>Psychology of Sport and Exercise</i> , 2018, 37, 262-273.	1.1	54
64	Supporting Arthritis and Employment Across the Life Course: A Qualitative Study. <i>Arthritis Care and Research</i> , 2018, 70, 1461-1468.	1.5	11
65	Response to correspondence from the ESSA Statement authors. <i>Spinal Cord</i> , 2018, 56, 409-411.	0.9	2
66	Wrist Accelerometry for Physical Activity Measurement in Individuals With Spinal Cord Injury—A Need for Individually Calibrated Cut-Points. <i>Archives of Physical Medicine and Rehabilitation</i> , 2018, 99, 684-689.	0.5	15
67	Transitions that matter: life course differences in the employment of adults with arthritis. <i>Disability and Rehabilitation</i> , 2018, 40, 3127-3135.	0.9	17
68	Pilot study of a training program to enhance transformational leadership in Spinal Cord Injury Peer Mentors. <i>Spinal Cord Series and Cases</i> , 2018, 4, 34.	0.3	12
69	The role of neighborhood physical environment on mobility and social participation among people using mobility assistive technology. <i>Disability and Society</i> , 2018, 33, 866-893.	1.4	52
70	National evaluation of policies governing funding for wheelchairs and scooters in Canada. <i>Canadian Journal of Occupational Therapy</i> , 2018, 85, 46-57.	0.8	6
71	Changing health-promoting behaviours through narrative interventions: A systematic review. <i>Journal of Health Psychology</i> , 2018, 23, 1499-1517.	1.3	56
72	The relationship between the implementation and effectiveness of a nationwide physical activity telephone counseling service for adults with spinal cord injury. <i>Disability and Rehabilitation</i> , 2018, 40, 527-537.	0.9	26

#	ARTICLE	IF	CITATIONS
73	Spinal Cord Injury Peer Mentorship: Applying Self-Determination Theory to Explain Quality of Life and Participation. Archives of Physical Medicine and Rehabilitation, 2018, 99, 468-476.e12.	0.5	34
74	Evidence-based scientific exercise guidelines for adults with spinal cord injury: an update and a new guideline. Spinal Cord, 2018, 56, 308-321.	0.9	289
75	Narratives of participation among individuals with physical disabilities: A life-course analysis of athletes' experiences and development in parasport. Psychology of Sport and Exercise, 2018, 37, 170-178.	1.1	60
76	Reliability and Validity of Subjective Measures of Aerobic Intensity in Adults With Spinal Cord Injury: A Systematic Review. PM and R, 2018, 10, 194-207.	0.9	30
77	Evaluating the impact of a network of research partnerships: a longitudinal multiple case study protocol. Health Research Policy and Systems, 2018, 16, 107.	1.1	13
78	An examination of diurnal variations in neuropathic pain and affect, on exercise and non-exercise days, in adults with spinal cord injury. Spinal Cord Series and Cases, 2018, 4, 94.	0.3	15
79	Psychological and Behavioral Responses to Interval and Continuous Exercise. Medicine and Science in Sports and Exercise, 2018, 50, 2110-2121.	0.2	54
80	Integrating insights from the parasport community to understand optimal Experiences: The Quality Parasport Participation Framework. Psychology of Sport and Exercise, 2018, 37, 79-90.	1.1	60
81	Transformational mentoring: Leadership behaviors of spinal cord injury peer mentors.. Rehabilitation Psychology, 2018, 63, 131-140.	0.7	20
82	Psychosocial factors associated with physical activity in ambulatory and manual wheelchair users with spinal cord injury: a mixed-methods study. Disability and Rehabilitation, 2017, 39, 187-192.	0.9	33
83	Using self-reported and objective measures of self-control to predict exercise and academic behaviors among first-year university students. Journal of Health Psychology, 2017, 22, 1056-1066.	1.3	13
84	Narrative interventions for health screening behaviours: A systematic review. Journal of Health Psychology, 2017, 22, 375-393.	1.3	21
85	Broadening the Conceptualization of Participation of Persons With Physical Disabilities: A Configurative Review and Recommendations. Archives of Physical Medicine and Rehabilitation, 2017, 98, 395-402.	0.5	104
86	Type, intensity and duration of daily physical activities performed by adults with spinal cord injury. Spinal Cord, 2017, 55, 64-70.	0.9	15
87	Are adults with spinal cord injury meeting the spinal cord injury-specific physical activity guidelines? A look at a sample from a Canadian province. Spinal Cord, 2017, 55, 454-459.	0.9	48
88	Participant experiences and perceptions of physical activity-enhancing interventions for people with physical impairments and mobility limitations: a meta-synthesis of qualitative research evidence. Health Psychology Review, 2017, 11, 179-196.	4.4	47
89	Formulation of evidence-based messages to promote the use of physical activity to prevent and manage Alzheimer's disease. BMC Public Health, 2017, 17, 209.	1.2	34
90	Modifiable Psychosocial Constructs Associated With Physical Activity Participation in People With Multiple Sclerosis: A Systematic Review and Meta-Analysis. Archives of Physical Medicine and Rehabilitation, 2017, 98, 1453-1475.	0.5	45

#	ARTICLE	IF	CITATIONS
91	Behaviour change techniques targeting both diet and physical activity in type 2 diabetes: A systematic review and meta-analysis. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2017, 14, 18.	2.0	226
92	The Effects of Gain- versus Loss-Framed Messages Following Health Risk Information on Physical Activity in Individuals With Multiple Sclerosis. <i>Journal of Health Communication</i> , 2017, 22, 523-531.	1.2	15
93	Acute effects of exercise on women with pre-existing body image concerns: A test of potential mediators. <i>Psychology of Sport and Exercise</i> , 2017, 31, 113-122.	1.1	11
94	A scoping review of the psychological responses to interval exercise: is interval exercise a viable alternative to traditional exercise?. <i>Health Psychology Review</i> , 2017, 11, 324-344.	4.4	122
95	Quality participation experiences in the physical activity domain: Perspectives of veterans with a physical disability. <i>Psychology of Sport and Exercise</i> , 2017, 29, 40-50.	1.1	48
96	Targeted Messages Increase Dairy Consumption in Adults: a Randomized Controlled Trial. <i>Annals of Behavioral Medicine</i> , 2017, 51, 57-66.	1.7	5
97	Leisure time physical activity among older adults with long-term spinal cord injury. <i>Spinal Cord</i> , 2017, 55, 848-856.	0.9	39
98	Exertion of self-control increases fatigue, reduces task self-efficacy, and impairs performance of resistance exercise.. <i>Sport, Exercise, and Performance Psychology</i> , 2017, 6, 70-88.	0.6	41
99	Strategies for public health initiatives targeting dairy consumption in young children: a qualitative formative investigation of parent perceptions. <i>Public Health Nutrition</i> , 2017, 20, 2893-2908.	1.1	7
100	A multilevel modeling approach to examining the implementation-effectiveness relationship of a behavior change intervention for health care professional trainees. <i>Translational Behavioral Medicine</i> , 2017, 7, 603-614.	1.2	3
101	A randomized controlled trial to test the efficacy of the SCI Get Fit Toolkit on leisure-time physical activity behaviour and social-cognitive processes in adults with spinal cord injury. <i>Spinal Cord Series and Cases</i> , 2017, 3, 17044.	0.3	7
102	Effects of exercise on fitness and health of adults with spinal cord injury. <i>Neurology</i> , 2017, 89, 736-745.	1.5	150
103	Diet Behavior Change Techniques in Type 2 Diabetes: A Systematic Review and Meta-analysis. <i>Diabetes Care</i> , 2017, 40, 1800-1810.	4.3	51
104	Walking Aids for Enabling Activity and Participation. <i>American Journal of Physical Medicine and Rehabilitation</i> , 2017, 96, 894-903.	0.7	51
105	Listening to music during sprint interval exercise: The impact on exercise attitudes and intentions. <i>Journal of Sports Sciences</i> , 2017, 35, 1940-1946.	1.0	19
106	The technical quality of online leisure time physical activity resources for people with physical disabilities. <i>Disability and Health Journal</i> , 2017, 10, 93-99.	1.6	6
107	Online training improves paramedics' knowledge of autonomic dysreflexia management guidelines. <i>Spinal Cord</i> , 2017, 55, 216-222.	0.9	2
108	Social Influence, Physical Activity, and Social Cognitions Among Adults With Physical Disability: A Meta-Analysis. <i>Kinesiology Review</i> , 2017, 6, 271-285.	0.4	2

#	ARTICLE	IF	CITATIONS
109	The Smartphone Peer Physical Activity Counseling (SPPAC) Program for Manual Wheelchair Users: Protocol of a Pilot Randomized Controlled Trial. <i>JMIR Research Protocols</i> , 2017, 6, e69.	0.5	9
110	A systematic review of interventions aimed at increasing calcium intake in adults: where do we go from here?. <i>International Journal of Food Safety, Nutrition and Public Health</i> , 2016, 6, 29.	0.1	2
111	The Economic Burden of Autonomic Dysreflexia during Hospitalization for Individuals with Spinal Cord Injury. <i>Journal of Neurotrauma</i> , 2016, 33, 1422-1427.	1.7	11
112	Development of a Smartphone-delivered Peer Physical Activity Counselling Program for Manual Wheelchair Users: A Mixed-methods Approach. <i>Archives of Physical Medicine and Rehabilitation</i> , 2016, 97, e48.	0.5	5
113	Differences in health, participation and life satisfaction outcomes in adults following paediatric-versus adult-sustained spinal cord injury. <i>Spinal Cord</i> , 2016, 54, 1197-1202.	0.9	8
114	A systematic review of review articles addressing factors related to physical activity participation among children and adults with physical disabilities. <i>Health Psychology Review</i> , 2016, 10, 478-494.	4.4	279
115	Letter to the Editor. <i>Journal of Science and Medicine in Sport</i> , 2016, 19, 604.	0.6	6
116	A systematic review of behavioural interventions to increase maternal calcium intake. <i>Maternal and Child Nutrition</i> , 2016, 12, 193-204.	1.4	4
117	A description and estimate of very low-intensity activity and inactive awake time in community-dwelling adults with chronic spinal cord injury. <i>Spinal Cord</i> , 2016, 54, 709-713.	0.9	4
118	“The ABCs of AD” A prospective evaluation of the efficacy of an educational intervention to increase knowledge of autonomic dysreflexia management among emergency health care professionals. <i>Journal of Spinal Cord Medicine</i> , 2016, 39, 190-196.	0.7	17
119	Peer mentoring of adults with spinal cord injury: a transformational leadership perspective. <i>Disability and Rehabilitation</i> , 2016, 38, 1884-1892.	0.9	27
120	Peer support need fulfillment among adults with spinal cord injury: relationships with participation, life satisfaction and individual characteristics. <i>Disability and Rehabilitation</i> , 2016, 38, 558-565.	0.9	49
121	Active Living Leaders Training Program for adults with spinal cord injury: a pilot study. <i>Spinal Cord</i> , 2016, 54, 662-669.	0.9	5
122	Social cognitive predictors of competitive level among athletes with physical disabilities. <i>Psychology of Sport and Exercise</i> , 2016, 22, 46-52.	1.1	6
123	A systematic review of interventions aimed at increasing calcium intake in adults: where do we go from here?. <i>International Journal of Food Safety, Nutrition and Public Health</i> , 2016, 6, 29.	0.1	0
124	A qualitative investigation of adults’ perceived benefits, barriers and strategies for consuming milk and milk products. <i>Health Education Journal</i> , 2015, 74, 364-378.	0.6	8
125	Narrative as a knowledge translation tool for facilitating impact: Translating physical activity knowledge to disabled people and health professionals.. <i>Health Psychology</i> , 2015, 34, 303-313.	1.3	80
126	Leadership styles, emotion regulation, and burnout.. <i>Journal of Occupational Health Psychology</i> , 2015, 20, 481-490.	2.3	94

#	ARTICLE	IF	CITATIONS
127	Quantification of Physical Activity and Sedentary Time in Adults with Cerebral Palsy. <i>Medicine and Science in Sports and Exercise</i> , 2015, 47, 1719-1726.	0.2	40
128	Examining the Feasibility and Effectiveness of a Community-Based Organization Implementing an Event-Based Knowledge Mobilization Initiative to Promote Physical Activity Guidelines for People With Spinal Cord Injury Among Support Personnel. <i>Health Promotion Practice</i> , 2015, 16, 55-62.	0.9	13
129	Using Network Analysis to Understand Knowledge Mobilization in a Community-based Organization. <i>International Journal of Behavioral Medicine</i> , 2015, 22, 292-300.	0.8	10
130	Testing the feasibility of training peers with a spinal cord injury to learn and implement brief action planning to promote physical activity to people with spinal cord injury. <i>Journal of Spinal Cord Medicine</i> , 2015, 38, 515-525.	0.7	16
131	Music Enhances Performance and Perceived Enjoyment of Sprint Interval Exercise. <i>Medicine and Science in Sports and Exercise</i> , 2015, 47, 1052-1060.	0.2	114
