

Monika Kasina

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/5802014/monika-kasina-publications-by-year.pdf>

Version: 2024-04-27

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

22
papers

220

#	Paper	IF	Citations
22	The leaching potential of sewage sludge and municipal waste incineration ashes in terms of landfill safety and potential reuse. <i>Science of the Total Environment</i> , 2021 , 791, 148313	10.2	6
21	Assessment of Valuable and Critical Elements Recovery Potential in Ashes from Processes of Solid Municipal Waste and Sewage Sludge Thermal Treatment. <i>Resources</i> , 2020 , 9, 131	3.7	2
20	Characterization of incineration residues from wastewater treatment plant in Polish city: a future waste based source of valuable elements?. <i>Journal of Material Cycles and Waste Management</i> , 2019 , 21, 885-896	3.4	14
19	Influence of drill mud on the microbial communities of sandstone rocks and well fluids at the Ketzin pilot site for CO2 storage. <i>Environmental Earth Sciences</i> , 2017 , 76, 1	2.9	3
18	Mineralogical and geochemical analysis of Fe-phases in drill-cores from the Triassic Stuttgart Formation at Ketzin CO2 storage site before CO2 arrival. <i>Environmental Earth Sciences</i> , 2017 , 76, 1	2.9	6
17	Seasonal changes in chemical and mineralogical composition of sewage sludge incineration residues and their potential for metallic elements and valuable components recovery. <i>Energy Procedia</i> , 2017 , 125, 34-40	2.3	8
16	Metallic Elements Occurrences in The Municipal Waste Incineration Bottom Ash. <i>Energy Procedia</i> , 2017 , 125, 56-62	2.3	8
15	Effects of heat shocks on biofilm formation and the influence on corrosion and scaling in a geothermal plant in the North German Basin. <i>Energy Procedia</i> , 2017 , 125, 268-272	2.3	
14	Comparison of the microbial community composition of pristine rock cores and technical influenced well fluids from the Ketzin pilot site for CO2 storage. <i>Environmental Earth Sciences</i> , 2016 , 75, 1	2.9	7
13	Störungen des Betriebs geothermischer Anlagen durch mikrobielle Stoffwechselprozesse und Erfolg von Gegenmaßnahmen. <i>Grundwasser</i> , 2016 , 21, 93-106	1.1	10
12	Iron Metallurgy Slags as a Potential Source of Critical Elements - Nb, Ta and REE. <i>Mineralogia</i> , 2016 , 47, 15-28	0	5
11	Process Recovery after CaO Addition Due to Granule Formation in a CSTR Co-Digester-A Tool to Influence the Composition of the Microbial Community and Stabilize the Process?. <i>Microorganisms</i> , 2016 , 4,	4.9	1
10	Metals Accumulation During Thermal Processing of Sewage Sludge - Characterization of Fly Ash and Air Pollution Control (APC) Residues. <i>Energy Procedia</i> , 2016 , 97, 23-30	2.3	7
9	Metallic Elements Fractionation in Municipal Solid Waste Incineration Residues. <i>Energy Procedia</i> , 2016 , 97, 31-36	2.3	14
8	Mineral carbonation of metallurgical slags. <i>Mineralogia</i> , 2015 , 45, 27-45	0	15
7	Extremely fast increase in the organic loading rate during the co-digestion of rapeseed oil and sewage sludge in a CSTR--characterization of granules formed due to CaO addition to maintain process stability. <i>Water Science and Technology</i> , 2015 , 72, 1569-77	2.2	3
6	Application of an early warning indicator and CaO to maximize the time-space-yield of an completely mixed waste digester using rape seed oil as co-substrate. <i>Waste Management</i> , 2014 , 34, 661-8	8.6	10

5	Influence of Microbial Processes on the Operational Reliability in a Geothermal Heat Store □ Results of Long-term Monitoring at a Full Scale Plant and First Studies in a Bypass System. <i>Energy Procedia</i> , 2014 , 59, 412-417	2.3	11
4	Impact of Gas Storage on Reservoir Rocks □Long-Term Study to Investigate the Effects on Mineral Content and Fluid Chemistry. <i>Energy Procedia</i> , 2014 , 59, 418-424	2.3	1
3	Comparison of different procedures to stabilize biogas formation after process failure in a thermophilic waste digestion system: influence of aggregate formation on process stability. <i>Waste Management</i> , 2012 , 32, 1122-30	8.6	28
2	Archaeal community composition affects the function of anaerobic co-digesters in response to organic overload. <i>Waste Management</i> , 2012 , 32, 389-99	8.6	60
1	Distribution of minor metallic elements within waste incineration bottom ashes defined by WDX/EDX spectrometry. <i>Advances in Geosciences</i> , 45 , 259-265		1
