

List of Publications by Citations

Source: <https://exaly.com/author-pdf/5806830/junwei-tang-publications-by-citations.pdf>
Version: 2024-04-10

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.
The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

21 papers	958 citations	15 h-index	26 g-index
26 ext. papers	1,138 ext. citations	7 avg, IF	4.13 L-index

#	Paper	IF	Citations
21	The long noncoding RNA lnc-EGFR stimulates T-regulatory cells differentiation thus promoting hepatocellular carcinoma immune evasion. <i>Nature Communications</i> , 2017 , 8, 15129	17.4	182
20	Upregulated METTL3 promotes metastasis of colorectal Cancer via miR-1246/SPRED2/MAPK signaling pathway. <i>Journal of Experimental and Clinical Cancer Research</i> , 2019 , 38, 393	12.8	142
19	Circulation long non-coding RNAs act as biomarkers for predicting tumorigenesis and metastasis in hepatocellular carcinoma. <i>Oncotarget</i> , 2015 , 6, 4505-15	3.3	120
18	LINC00152 promotes proliferation in hepatocellular carcinoma by targeting EpCAM via the mTOR signaling pathway. <i>Oncotarget</i> , 2015 , 6, 42813-24	3.3	117
17	The aberrant expression of MEG3 regulated by UHRF1 predicts the prognosis of hepatocellular carcinoma. <i>Molecular Carcinogenesis</i> , 2016 , 55, 209-19	5	104
16	SLIT2/ROBO1-miR-218-1-RET/PLAG1: a new disease pathway involved in Hirschsprung's disease. <i>Journal of Cellular and Molecular Medicine</i> , 2015 , 19, 1197-207	5.6	34
15	The relationship between prenatal exposure to BP-3 and Hirschsprung's disease. <i>Chemosphere</i> , 2016 , 144, 1091-7	8.4	33
14	Inhibition of MTA1 by ER α contributes to protection hepatocellular carcinoma from tumor proliferation and metastasis. <i>Journal of Experimental and Clinical Cancer Research</i> , 2015 , 34, 128	12.8	30
13	Bidirectional transcription of linc00441 and RB1 via H3K27 modification-dependent way promotes hepatocellular carcinoma. <i>Cell Death and Disease</i> , 2017 , 8, e2675	9.8	27
12	MicroRNA-1224-5p Inhibits Metastasis and Epithelial-Mesenchymal Transition in Colorectal Cancer by Targeting SP1-Mediated NF- κ B Signaling Pathways. <i>Frontiers in Oncology</i> , 2020 , 10, 294	5.3	27
11	Long non-coding RNA Myd88 promotes growth and metastasis in hepatocellular carcinoma via regulating Myd88 expression through H3K27 modification. <i>Cell Death and Disease</i> , 2017 , 8, e3124	9.8	22
10	Down-regulation of miR-206 is associated with Hirschsprung disease and suppresses cell migration and proliferation in cell models. <i>Scientific Reports</i> , 2015 , 5, 9302	4.9	22
9	Circulating circRNA predicting the occurrence of hepatocellular carcinoma in patients with HBV infection. <i>Journal of Cellular and Molecular Medicine</i> , 2020 , 24, 10216-10222	5.6	20
8	TCONS_00012883 promotes proliferation and metastasis via DDX3/YY1/MMP1/PI3K-AKT axis in colorectal cancer. <i>Clinical and Translational Medicine</i> , 2020 , 10, e211	5.7	20
7	Lnc-FAM84B-4 acts as an oncogenic lncRNA by interacting with protein hnRNPk to restrain MAPK phosphatases-DUSP1 expression. <i>Cancer Letters</i> , 2020 , 494, 94-106	9.9	17
6	CD90 positive cells exhibit aggressive radioresistance in esophageal squamous cell carcinoma. <i>Journal of Thoracic Disease</i> , 2017 , 9, 610-620	2.6	12
5	A common polymorphism in pre-miR-146a underlies Hirschsprung disease risk in Han Chinese. <i>Experimental and Molecular Pathology</i> , 2014 , 97, 511-4	4.4	10

4	Long non-coding RNA Lnc-LALC facilitates colorectal cancer liver metastasis via epigenetically silencing LZTS1. <i>Cell Death and Disease</i> , 2021 , 12, 224	9.8	8
3	Exome-Wide Association Study Identified New Risk Loci for Hirschsprung's Disease. <i>Molecular Neurobiology</i> , 2017 , 54, 1777-1785	6.2	7
2	Transcriptome sequencing of neurologic diseases associated genes in HHV-6A infected human astrocyte. <i>Oncotarget</i> , 2016 , 7, 48070-48080	3.3	4
1	Upregulated circTMEM59 Inhibits Cell Growth and Metastasis by miR-668-3p/ID4 Axis in Colorectal Cancer. <i>Oxidative Medicine and Cellular Longevity</i> , 2022 , 2022, 1-27	6.7
