#	ARTICLE	IF	CITATIONS
1	Effectiveness of tobacco cessation interventions for different groups of tobacco users in Sweden: a study protocol for a national prospective cohort study. <i>BMJ Open</i> , 2022, 12, e053090.	0.8	1
2	Effect of a Smoking and Alcohol Cessation Intervention Initiated Shortly Before Radical Cystectomy—the STOP-OP Study: A Randomised Clinical Trial. <i>European Urology Focus</i> , 2022, 8, 1650-1658.	1.6	14
3	STRONG for Surgery & Strong for Life – against all odds: intensive prehabilitation including smoking, nutrition, alcohol and physical activity for risk reduction in cancer surgery – a protocol for an RCT with nested interview study (STRONG-Cancer). <i>Trials</i> , 2022, 23, 333.	0.7	6
4	Minor effect of patient education for alcohol cessation intervention on outcomes after acute fracture surgery: a randomized trial of 70 patients. <i>Monthly Notices of the Royal Astronomical Society: Letters</i> , 2022, 93, 424-431.	1.2	0
5	Smoking Cessation Rates among Patients with Rheumatoid Arthritis and Osteoarthritis Following the –Gold Standard Programme–™ (GSP): A Prospective Analysis from the Danish Smoking Cessation Database. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 5815.	1.2	3
6	Characteristics of Patients in Treatment for Alcohol and Drug Addiction Who Succeed in Changing Smoking, Weight, and Physical Activity: A Secondary Analysis of an RCT on Combined Lifestyle Interventions. <i>European Addiction Research</i> , 2021, 27, 123-130.	1.3	3
7	Perioperative Alcohol and Smoking Cessation Intervention: Impact on Other Lifestyles. <i>Seminars in Oncology Nursing</i> , 2021, 37, 151116.	0.7	3
8	Long-term Complications After COVID-19 Infections Optimal Management Remains Unclear –“ International Collaboration Is Necessary. <i>Clinical Health Promotion - Research and Best Practice for Patients Staff and Community</i> , 2021, 11, 3-4.	0.1	0
9	The right to smoke and the right to smoke-free surroundings: international comparison of smoke-free psychiatric clinic implementation experiences. <i>BJPsych Open</i> , 2021, 7, e81.	0.3	4
10	Facilitators and Barriers for Young Medical Doctors Writing Their First Manuscript for Publication. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 8571.	1.2	6
11	A Large Potential for Combined Intervention of Co-existing Unhealthy Lifestyles Aiming for Risk Reduction at Surgery –“ But the Evidence Is Sparse. <i>Clinical Health Promotion - Research and Best Practice for Patients Staff and Community</i> , 2021, 11, e21011.	0.1	0
12	The Influence of Perioperative Fluid Therapy on N-terminal-pro-brain Natriuretic Peptide and the Association With Heart and Lung Complications in Patients Undergoing Colorectal Surgery. <i>Annals of Surgery</i> , 2020, 272, 941-949.	2.1	6
13	Insomnia in Relation to Academic Performance, Self-Reported Health, Physical Activity, and Substance Use Among Adolescents. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 6433.	1.2	16
14	Society for Perioperative Assessment and Quality Improvement (SPAQI) Consensus Statement on Perioperative Smoking Cessation. <i>Anesthesia and Analgesia</i> , 2020, 131, 955-968.	1.1	31
15	Evaluation of Very Integrated Program: Health Promotion for Patients With Alcohol and Drug Addiction –“ A Randomized Trial. <i>Alcoholism: Clinical and Experimental Research</i> , 2020, 44, 1456-1467.	1.4	5
16	Facilitators and Barriers for a Good Night –™s Sleep Among Adolescents. <i>Frontiers in Neuroscience</i> , 2020, 14, 92.	1.4	16
17	Editorial: Teen Sleep Deficit –“ a Global Epidemic Impacting Health It Is Crucial to Involve Adolescents When Targeting the Problem of Short Sleep. <i>Clinical Health Promotion - Research and Best Practice for Patients Staff and Community</i> , 2020, 10, 3-4.	0.1	0
18	Compliance with the Very Integrated Program (VIP) for Smoking Cessation, Nutrition, Physical Activity and Comorbidity Education Among Patients in Treatment for Alcohol and Drug Addiction. <i>International Journal of Environmental Research and Public Health</i> , 2019, 16, 2285.	1.2	6

#	ARTICLE	IF	CITATIONS
19	Come & Quit: A new flexible, Intensive Smoking Cessation Intervention Programme. Clinical Health Promotion - Research and Best Practice for Patients Staff and Community, 2019, 9, 15-23.	0.1	0
20	Will it be Easier to Diagnose Alcohol Dependency in the Future?. Clinical Health Promotion - Research and Best Practice for Patients Staff and Community, 2019, 9, 3-4.	0.1	0
21	Access to Evidence-Based Clinical Health Promotion for All Patients in Need Future " and Follow-up for Effect. Clinical Health Promotion - Research and Best Practice for Patients Staff and Community, 2019, 9, 31-32.	0.1	0
22	A WHO-HPH operational program versus usual routines for implementing clinical health promotion: an RCT in health promoting hospitals (HPH). Implementation Science, 2018, 13, 153.	2.5	5
23	Effectiveness of the Gold Standard Programme (GSP) for smoking cessation on smokers with and without a severe mental disorder: a Danish cohort study. BMJ Open, 2018, 8, e021114.	0.8	10
24	Staff experiences with strategic implementation of clinical health promotion: A nested qualitative study in the WHO-HPH Recognition Process RCT. SAGE Open Medicine, 2018, 6, 205031211879239.	0.7	4
25	Accelerate the implementation of evidence-based health promotion in healthcare. Clinical Health Promotion - Research and Best Practice for Patients Staff and Community, 2018, 8, 3-4.	0.1	0
26	Effectiveness of the Gold Standard Programme compared with other smoking cessation interventions in Denmark: a cohort study. BMJ Open, 2017, 7, e013553.	0.8	23
27	The effect of an intensive smoking cessation intervention on disease activity in patients with rheumatoid arthritis: study protocol for a randomised controlled trial. Trials, 2017, 18, 570.	0.7	16
28	Smoking and alcohol cessation intervention in relation to radical cystectomy: a qualitative study of cancer patients' experiences. BMC Cancer, 2017, 17, 793.	1.1	29
29	Self-reported needs for improving the supervision competence of PhD supervisors from the medical sciences in Denmark. BMC Medical Education, 2017, 17, 188.	1.0	9
30	STOP smoking and alcohol drinking before OPERATION for bladder cancer (the STOP-OP study); perioperative smoking and alcohol cessation intervention in relation to radical cystectomy: study protocol for a randomised controlled trial. Trials, 2017, 18, 329.	0.7	18
31	Complications and health-related quality of life after robot-assisted versus open radical cystectomy: a systematic review and meta-analysis of four RCTs. Systematic Reviews, 2017, 6, 150.	2.5	33
32	Patient insight - perioperative smoking and alcohol cessation intervention. Clinical Health Promotion - Research and Best Practice for Patients Staff and Community, 2017, , 18-21.	0.1	0
33	Smoking is still a major problem and challenge worldwide. Clinical Health Promotion - Research and Best Practice for Patients Staff and Community, 2017, , 3-4.	0.1	0
34	Effectiveness of a Web-Based Screening and Fully Automated Brief Motivational Intervention for Adolescent Substance Use: A Randomized Controlled Trial. Journal of Medical Internet Research, 2016, 18, e103.	2.1	45
35	The Danish Smoking Cessation Database. Clinical Health Promotion - Research and Best Practice for Patients Staff and Community, 2016, 6, 36-41.	0.1	6
36	The WHO-HPH recognition project: fasttrack implementation of clinical health promotion - a protocol for multi-center RCT. Clinical Health Promotion - Research and Best Practice for Patients Staff and Community, 2016, 6, 13-20.	0.1	0

#	ARTICLE	IF	CITATIONS
37	Importance of a global strategy for the International Network of Health Promoting Hospitals and Health Services. <i>Clinical Health Promotion - Research and Best Practice for Patients Staff and Community</i> , 2016, 6, 3-4.	0.1	0
38	Health counseling in Swedish health care. <i>Clinical Health Promotion - Research and Best Practice for Patients Staff and Community</i> , 2016, 6, 49-54.	0.1	0
39	Healthy lifestyle for patients with high genetic cardiac risk - does it matter?. <i>Clinical Health Promotion - Research and Best Practice for Patients Staff and Community</i> , 2016, 6, 35-35.	0.1	0
40	Recommendations towards the Tobacco Endgame from international workshop on smoking cessation interventions. <i>Clinical Health Promotion - Research and Best Practice for Patients Staff and Community</i> , 2016, 6, 55-55.	0.1	0
41	Perioperative smoking cessation in vascular surgery: challenges with a randomized controlled trial. <i>Trials</i> , 2015, 16, 441.	0.7	9
42	The Gold Standard Program for Smoking Cessation is Effective for Participants Over 60 Years of Age. <i>International Journal of Environmental Research and Public Health</i> , 2015, 12, 2574-2587.	1.2	17
43	Patient education for alcohol cessation intervention at the time of acute fracture surgery: study protocol for a randomised clinical multi-centre trial on a gold standard programme (Scand-Ankle). <i>BMC Surgery</i> , 2015, 15, 52.	0.6	11
44	Pregnant smokers: Room for improvement. <i>Clinical Health Promotion - Research and Best Practice for Patients Staff and Community</i> , 2015, 5, 3-3.	0.1	0
45	Integration of health promotion in clinical hospital departments: standards fulfilment, documentation of needs and service delivery. <i>Clinical Health Promotion - Research and Best Practice for Patients Staff and Community</i> , 2015, 5, 11-17.	0.1	0
46	Smoking and mental illness. <i>Clinical Health Promotion - Research and Best Practice for Patients Staff and Community</i> , 2015, 5, 33-34.	0.1	0
47	Participants and Non-participants in the Scand-Ankle study - An alcohol cessation intervention at the time of fracture surgery. <i>Clinical Health Promotion - Research and Best Practice for Patients Staff and Community</i> , 2015, 5, 49-53.	0.1	0
48	Investing in clinical health promotion. <i>Clinical Health Promotion - Research and Best Practice for Patients Staff and Community</i> , 2015, 5, 65-66.	0.1	0
49	Recommendations on smoking cessation intervention from Malmö International Strategic Seminar. <i>Clinical Health Promotion - Research and Best Practice for Patients Staff and Community</i> , 2015, 5, 25-25.	0.1	0
50	Pregnant smokers: Potential for improvement of intervention. <i>Clinical Health Promotion - Research and Best Practice for Patients Staff and Community</i> , 2015, 5, 67-73.	0.1	0
51	Experience of pain and lifestyle risk factors. <i>Clinical Health Promotion - Research and Best Practice for Patients Staff and Community</i> , 2015, 5, 74-80.	0.1	0
52	Clinical Treatment + Clinical Health Promotion = Better Treatment Results Immediately. <i>Clinical Health Promotion - Research and Best Practice for Patients Staff and Community</i> , 2014, 4, 3-4.	0.1	0
53	Good Clinical Health Promotion Practice. <i>Clinical Health Promotion - Research and Best Practice for Patients Staff and Community</i> , 2014, 4, 39-40.	0.1	0
54	The Gold Standard Programme: smoking cessation interventions for disadvantaged smokers are effective in a real-life setting. <i>Tobacco Control</i> , 2013, 22, e9-e9.	1.8	32
