#	Paper	IF	Citations
129	Assessing Time of Eating in Commensality Research. <i>International Journal of Environmental Research and Public Health</i> , 2021 , 18,	4.6	3
128	Assessing Commensality in Research. <i>International Journal of Environmental Research and Public Health</i> , 2021 , 18,	4.6	4
127	Process evaluation of the Sophia Step Study- a primary care based three-armed randomized controlled trial using self-monitoring of steps with and without counseling in prediabetes and type 2 diabetes. <i>BMC Public Health</i> , 2021 , 21, 1191	4.1	2
126	Waist circumference and waist-to-height ratio in 7-year-old children-WHO Childhood Obesity Surveillance Initiative. <i>Obesity Reviews</i> , 2021 , 22 Suppl 6, e13208	10.6	1
125	Effects of a three-armed randomised controlled trial using self-monitoring of daily steps with and without counselling in prediabetes and type 2 diabetes-the Sophia Step Study. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2021 , 18, 121	8.4	2
124	Acquiring competence: Sommeliers on GoodFood and beverage combinations. <i>International Journal of Gastronomy and Food Science</i> , 2020 , 20, 100199	2.8	2
123	Beverage consumption patterns and energy contribution from beverages per meal type: results from a national dietary survey in Sweden - CORRIGENDUM. <i>Public Health Nutrition</i> , 2019 , 22, 573	3.3	1
122	Prevalence of Severe Obesity among Primary School Children in 21 European Countries. <i>Obesity Facts</i> , 2019 , 12, 244-258	5.1	87
121	Do substantial BMI reduction episodes among Swedish schoolchildren have any impact on their final height?. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2018 , 107, 1223-1229	3.1	1
120	Malnutrition among older adults living in Portuguese nursing homes: the PEN-3S study. <i>Public Health Nutrition</i> , 2018 , 1-12	3.3	9
119	Beverage consumption patterns and energy contribution from beverages per meal type: results from a national dietary survey in Sweden. <i>Public Health Nutrition</i> , 2018 , 21, 3318-3327	3.3	2
118	Aspects of Food, Nutrition, and Health in Sweden 2018 , 73-97		2
117	Food and beverage dinner combinations, patterns among Swedish adults. <i>International Journal of Gastronomy and Food Science</i> , 2018 , 14, 20-26	2.8	5
116	Compliance to the recommended use of folic acid supplements for women in Sweden is higher among those under treatment for infertility than among fertile controls and is also related to socioeconomic status and lifestyle. <i>Food and Nutrition Research</i> , 2017 , 61, 1334483	3.1	5
115	Med Diet 4.0: the Mediterranean diet with four sustainable benefits. <i>Public Health Nutrition</i> , 2017 , 20, 1322-1330	3.3	136
114	Worldwide trends in body-mass index, underweight, overweight, and obesity from 1975 to 2016: a pooled analysis of 2416 population-based measurement studies in 128.9 million children, adolescents, and adults. <i>Lancet, The</i> , 2017 , 390, 2627-2642	40	2980
113	Reallocating bouted sedentary time to non-bouted sedentary time, light activity and moderate-vigorous physical activity in adults with prediabetes and type 2 diabetes. <i>PLoS ONE</i> , 2017 , 12, e0181053	3.7	7

112	Folate intake in a Swedish adult population: Food sources and predictive factors. <i>Food and Nutrition Research</i> , 2017 , 61, 1328960	3.1	4
111	Reported habitual intake of breakfast and selected foods in relation to overweight status among seven- to nine-year-old Swedish children. <i>Scandinavian Journal of Public Health</i> , 2017 , 45, 886-894	3	15
110	Why is it so difficult to do a lot of exercise? A qualitative study of participant experiences of the Sophia Step Study. <i>International Diabetes Nursing</i> , 2017 , 14, 99-104		1
109	Methodology of the Comprehensive Program on Prevention and Control of Overweight and Obesity in Iranian Children and Adolescents: The IRAN-Ending Childhood Obesity (IRAN-ECHO) Program. <i>International Journal of Preventive Medicine</i> , 2017 , 8, 107	1.6	6
108	Using different growth references to measure thinness and overweight among Swedish primary school children showed considerable variations. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2016 , 105, 1158-65	3.1	10
107	WHO European Childhood Obesity Surveillance Initiative: Impact of Type of Clothing Worn during Anthropometric Measurements and Timing of the Survey on Weight and Body Mass Index Outcome Measures in 6-9-Year-Old Children. <i>Epidemiology Research International</i> , 2016 , 2016, 1-16		1
106	National survey of the Portuguese elderly nutritional status: study protocol. <i>BMC Geriatrics</i> , 2016 , 16, 139	4.1	15
105	Do descriptive norms related to parents and friends predict fruit and vegetable intake similarly among 11-year-old girls and boys?. <i>British Journal of Nutrition</i> , 2016 , 115, 168-75	3.6	6
104	Consumption of fruits and vegetables and probabilistic assessment of the cumulative acute exposure to organophosphorus and carbamate pesticides of schoolchildren in Slovenia. <i>Public Health Nutrition</i> , 2016 , 19, 557-63	3.3	14
103	Socioeconomic inequalities in childhood overweight: heterogeneity across five countries in the WHO European Childhood Obesity Surveillance Initiative (COSI-2008). <i>International Journal of Obesity</i> , 2016 , 40, 796-802	5.5	40
102	Predicting gender differences in liking for vegetables and preference for a variety of vegetables among 11-year-old children. <i>Appetite</i> , 2015 , 95, 285-92	4.5	13
101	WHO European Childhood Obesity Surveillance Initiative: associations between sleep duration, screen time and food consumption frequencies. <i>BMC Public Health</i> , 2015 , 15, 442	4.1	75
100	Physical activity promotion in the primary care setting in pre- and type 2 diabetes - the Sophia step study, an RCT. <i>BMC Public Health</i> , 2015 , 15, 647	4.1	25
99	WHO European Childhood Obesity Surveillance Initiative: health-risk behaviours on nutrition and physical activity in 6-9-year-old schoolchildren. <i>Public Health Nutrition</i> , 2015 , 18, 3108-24	3.3	51
98	Trajectories and Predictors of Steps in a Worksite Intervention: ASUKI-Step. <i>Health Behavior and Policy Review</i> , 2015 , 2, 46-61	1.2	3
97	Mediation of parental educational level on fruit and vegetable intake among schoolchildren in ten European countries. <i>Public Health Nutrition</i> , 2015 , 18, 89-99	3.3	24
96	Folic acid supplementation and methylenetetrahydrofolate reductase (MTHFR) gene variations in relation to in vitro fertilization pregnancy outcome. <i>Acta Obstetrica Et Gynecologica Scandinavica</i> , 2015 , 94, 65-71	3.8	17
95	Folic acid supplementation and IVF pregnancy outcome in women with unexplained infertility. <i>Reproductive BioMedicine Online</i> , 2014 , 28, 766-72	4	27

94	Vitamin A status in pregnant women in Iran in 2001 and its relationship with province and gestational age. <i>Food and Nutrition Research</i> , 2014 , 58,	3.1	5
93	WHO European Childhood Obesity Surveillance Initiative: School nutrition environment and body mass index in primary schools. <i>International Journal of Environmental Research and Public Health</i> , 2014 , 11, 11261-85	4.6	31
92	A dietary pattern rich in lignans, quercetin and resveratrol decreases the risk of oesophageal cancer. <i>British Journal of Nutrition</i> , 2014 , 112, 2002-9	3.6	40
91	The PRO GREENS intervention in Finnish schoolchildren - the degree of implementation affects both mediators and the intake of fruits and vegetables. <i>British Journal of Nutrition</i> , 2014 , 112, 1185-94	3.6	16
90	Does eating family meals and having the television on during dinner correlate with overweight? A sub-study of the PRO GREENS project, looking at children from nine European countries. <i>Public Health Nutrition</i> , 2014 , 17, 2528-36	3.3	17
89	Fruit and vegetable consumption in a sample of 11-year-old children in ten European countries--the PRO GREENS cross-sectional survey. <i>Public Health Nutrition</i> , 2014 , 17, 2436-44	3.3	57
88	U.S. Cohort Differences in Body Composition Outcomes of a 6-Month Pedometer-Based Physical Activity Intervention: The ASUKI Step Study. <i>Asian Journal of Sports Medicine</i> , 2014 , 5, e25748	1.4	8
87	Role of free school lunch in the associations between family-environmental factors and children's fruit and vegetable intake in four European countries. <i>Public Health Nutrition</i> , 2013 , 16, 1109-17	3.3	17
86	Effects of a 6-Month Walking Study on Blood Pressure and Cardiorespiratory Fitness in U.S. and Swedish Adults: ASUKI Step Study. <i>Asian Journal of Sports Medicine</i> , 2013 , 4, 114-24	1.4	17
85	"ASUKI Step" pedometer intervention in university staff: rationale and design. <i>BMC Public Health</i> , 2012 , 12, 657	4.1	3
84	Reasons given by mothers for discontinuing breastfeeding in Iran. <i>International Breastfeeding Journal</i> , 2012 , 7, 7	3.8	41
83	Understanding the process of establishing a food and nutrition policy: the case of Slovenia. <i>Health Policy</i> , 2012 , 107, 91-7	3.2	7
82	Dietary intake of lignans and risk of adenocarcinoma of the esophagus and gastroesophageal junction. <i>Cancer Causes and Control</i> , 2012 , 23, 837-44	2.8	23
81	Multi-level influences on childhood obesity in Sweden: societal factors, parental determinants and child's lifestyle. <i>International Journal of Obesity</i> , 2012 , 36, 969-76	5.5	73
80	Cooking in this issue--back to basics!. <i>Public Health Nutrition</i> , 2012 , 15, 1141	3.3	
79	Interpreting success and failure in food fortification. <i>Public Health Nutrition</i> , 2012 , 15, 1789-90	3.3	1
78	Core functions for the public health nutrition workforce in Europe: a consensus study. <i>Public Health Nutrition</i> , 2012 , 15, 1999-2004	3.3	14
77	Public health nutrition workforce development in seven European countries: constraining and enabling factors. <i>Public Health Nutrition</i> , 2012 , 15, 1989-98	3.3	15

76	Differences in fruit and vegetable intake and their determinants among 11-year-old schoolchildren between 2003 and 2009. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2011 , 8, 141	8.4	27
75	The year that passed 2011. <i>Public Health Nutrition</i> , 2011 , 14, 2081-2082	3.3	
74	Overweight and obesity in a representative sample of schoolchildren - exploring the urban-rural gradient in Sweden. <i>Obesity Reviews</i> , 2011 , 12, 305-14	10.6	78
73	Optimal vitamin A and suboptimal vitamin D status are common in Iranian infants. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2011 , 100, 439-44	3.1	10
72	Polyamines: total daily intake in adolescents compared to the intake estimated from the Swedish Nutrition Recommendations Objectified (SNO). <i>Food and Nutrition Research</i> , 2011 , 55,	3.1	21
71	Polyamines in foods: development of a food database. <i>Food and Nutrition Research</i> , 2011 , 55,	3.1	81
70	Consensus on the competencies required for public health nutrition workforce development in Europe - the JobNut project. <i>Public Health Nutrition</i> , 2011 , 14, 1439-49	3.3	25
69	High folate intake is related to better academic achievement in Swedish adolescents. <i>Pediatrics</i> , 2011 , 128, e358-65	7.4	26
68	Folate-mediated one-carbon metabolism and its effect on female fertility and pregnancy viability. <i>Nutrition Reviews</i> , 2010 , 68, 99-113	6.4	79
67	Variations in folate pathway genes are associated with unexplained female infertility. <i>Fertility and Sterility</i> , 2010 , 94, 130-7	4.8	61
66	A Historical Perspective of the Understanding of the Link between Diet and Coronary Heart Disease. <i>American Journal of Lifestyle Medicine</i> , 2009 , 3, 35S-38S	1.9	6
65	Breastfeeding in Iran: prevalence, duration and current recommendations. <i>International Breastfeeding Journal</i> , 2009 , 4, 8	3.8	59
64	Building global alliances for public health nutrition training. <i>Nutrition Reviews</i> , 2009 , 67 Suppl 1, S66-8	6.4	5
63	Personal, social and environmental predictors of daily fruit and vegetable intake in 11-year-old children in nine European countries. <i>European Journal of Clinical Nutrition</i> , 2008 , 62, 834-41	5.2	87
62	The causes of disease, health and well-being. <i>Public Health Nutrition</i> , 2008 , 11, 1201-1202	3.3	1
61	Matters of trust. <i>Public Health Nutrition</i> , 2008 , 11, 220-220	3.3	
60	The Santa saga. RUT YACH. A random uncontrollable tribulation. One year blow-up. <i>Public Health Nutrition</i> , 2008 , 11, 1203-1203	3.3	
59	Infant feeding in Sweden: socio-demographic determinants and associations with adiposity in childhood and adolescence. <i>International Breastfeeding Journal</i> , 2008 , 3, 23	3.8	13

58	Differences in prevalence of overweight and stunting in 11-year olds across Europe: The Pro Children Study. <i>European Journal of Public Health</i> , 2008 , 18, 126-30	2.1	42
57	Association of total plasma homocysteine with methylenetetrahydrofolate reductase genotypes 677C>T, 1298A>C, and 1793G>A and the corresponding haplotypes in Swedish children and adolescents. <i>International Journal of Molecular Medicine</i> , 2007 ,	4.4	4
56	Food fights, food peace, love and understanding and the role of this journal. <i>Public Health Nutrition</i> , 2007 , 10, 1-1	3.3	7
55	Scientific publishing, transparency and the role of the medical library. <i>Public Health Nutrition</i> , 2007 , 10, 215-217	3.3	
54	What's in, what's coming, what's wanted. <i>Public Health Nutrition</i> , 2007 , 10, 430-431	3.3	
53	Friends, vouchers, work force and plant foods. <i>Public Health Nutrition</i> , 2007 , 10, 538-539	3.3	
52	News on waists, energy density and Eurodiets. <i>Public Health Nutrition</i> , 2007 , 10, 755-756	3.3	
51	China calling. <i>Public Health Nutrition</i> , 2007 , 10, 756-757	3.3	
50	Berry important. <i>Public Health Nutrition</i> , 2007 , 10, 1207-1208	3.3	
49	Dietary intake among under-, normal- and overweight 9- and 15-year-old Estonian and Swedish schoolchildren. <i>Public Health Nutrition</i> , 2007 , 10, 311-22	3.3	24
48	Onward. <i>Public Health Nutrition</i> , 2007 , 10, 2-2	3.3	
47	What stops healthy choices?. <i>Public Health Nutrition</i> , 2007 , 10, 647-647	3.3	
46	Folic acid follies. <i>Public Health Nutrition</i> , 2007 , 10, 863-863	3.3	
45	Testing, testing. <i>Public Health Nutrition</i> , 2007 , 10, 864-864	3.3	
44	Association of total plasma homocysteine with methylenetetrahydrofolate reductase genotypes 677C>T, 1298A>C, and 1793G>A and the corresponding haplotypes in Swedish children and adolescents. <i>International Journal of Molecular Medicine</i> , 2007 , 19, 659-65	4.4	29
43	Novel mutations in the 5'-UTR of the FOLR1 gene. <i>Clinical Chemistry and Laboratory Medicine</i> , 2006 , 44, 161-7	5.9	14
42	Personal, social and environmental correlates of vegetable intake in normal weight and overweight 9 to 13-year old boys. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2006 , 3, 37	8.4	15
41	Changes in Aerobic Fitness in Swedish Children and Adolescents. <i>Journal of Physical Activity and Health</i> , 2006 , 3, 79-89	2.5	

40	The Women's Health Initiative. What is on trial: nutrition and chronic disease? Or misinterpreted science, media havoc and the sound of silence from peers?. <i>Public Health Nutrition</i> , 2006 , 9, 269-72	3.3	20
39	Socio-demographic determinants of initiation and duration of breastfeeding in northwest Russia. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2005 , 94, 588-94	3.1	15
38	Serum lipids, glucose and insulin levels in healthy schoolchildren aged 9 and 15 years from Central Sweden: reference values in relation to biological, social and lifestyle factors. <i>Scandinavian Journal of Clinical and Laboratory Investigation</i> , 2005 , 65, 65-76	2	43
37	Large social disparities in spontaneous preterm birth rates in transitional Russia. <i>Public Health</i> , 2005 , 119, 77-86	4	15
36	Validation of the PDPAR as an adolescent diary: effect of accelerometer cut points. <i>Medicine and Science in Sports and Exercise</i> , 2005 , 37, 1224-30	1.2	65
35	Protection, promotion and support of breast-feeding in Europe: current situation. <i>Public Health Nutrition</i> , 2005 , 8, 39-46	3.3	98
34	Promoting and sustaining health through increased vegetable and fruit consumption among European schoolchildren: The Pro Children Project. <i>Zeitschrift Fur Gesundheitswissenschaften</i> , 2005 , 13, 97-101	1.4	5
33	Protection, promotion and support of breast-feeding in Europe: current situation. <i>Public Health Nutrition</i> , 2005 , 8, 39-46	3.3	96
32	Promoting fruit and vegetable consumption among European schoolchildren: rationale, conceptualization and design of the pro children project. <i>Annals of Nutrition and Metabolism</i> , 2005 , 49, 212-20	4.5	101
31	Fruit and vegetable intake in a sample of 11-year-old children in 9 European countries: The Pro Children Cross-sectional Survey. <i>Annals of Nutrition and Metabolism</i> , 2005 , 49, 236-45	4.5	223
30	Fruit and vegetable intake of mothers of 11-year-old children in nine European countries: The Pro Children Cross-sectional Survey. <i>Annals of Nutrition and Metabolism</i> , 2005 , 49, 246-54	4.5	21
29	Personal, social and environmental factors regarding fruit and vegetable intake among schoolchildren in nine European countries. <i>Annals of Nutrition and Metabolism</i> , 2005 , 49, 255-66	4.5	43
28	Socio-demographic determinants of initiation and duration of breastfeeding in northwest Russia. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2005 , 94, 588-594	3.1	27
27	Body movement and physical activity energy expenditure in children and adolescents: how to adjust for differences in body size and age. <i>American Journal of Clinical Nutrition</i> , 2004 , 79, 851-6	7	91
26	Social variations in infant growth performance in Severodvinsk, Northwest Russia: community-based cohort study. <i>Croatian Medical Journal</i> , 2004 , 45, 757-63	1.6	6
25	Effect of monitor placement and of activity setting on the MTI accelerometer output. <i>Medicine and Science in Sports and Exercise</i> , 2003 , 35, 320-6	1.2	126
24	Sampling procedure, participation rates and representativeness in the Swedish part of the European Youth Heart Study (EYHS). <i>Public Health Nutrition</i> , 2003 , 6, 291-9	3.3	59
23	International physical activity questionnaire: 12-country reliability and validity. <i>Medicine and Science in Sports and Exercise</i> , 2003 , 35, 1381-95	1.2	10155

22	Reply to AD Salbe et al. <i>American Journal of Clinical Nutrition</i> , 2003 , 78, 194-195	7	
21	The development of a European master programme in public health nutrition. <i>Forum of Nutrition</i> , 2003 , 56, 135-6		1
20	Adolescent nutrition--a multidimensional challenge. <i>Forum of Nutrition</i> , 2003 , 56, 253-4		
19	The European Youth Heart Survey (EYHS): an international study that addresses the multi-dimensional issues of CVD risk factors. <i>Forum of Nutrition</i> , 2003 , 56, 254-6		20
18	Physical activity but not energy expenditure is reduced in obese adolescents: a case-control study. <i>American Journal of Clinical Nutrition</i> , 2002 , 76, 935-41	7	183
17	Physical activity in groups of Swedish adults. <i>Scandinavian Journal of Nutrition</i> , 2002 , 46, 123-130		4
16	Energy expenditure assessed by heart rate and doubly labeled water in young athletes. <i>Medicine and Science in Sports and Exercise</i> , 2002 , 34, 1360-6	1.2	34
15	Assessing Physical Activity among Children with Accelerometers Using Different Time Sampling Intervals and Placements. <i>Pediatric Exercise Science</i> , 2002 , 14, 87-96	2	204
14	Hur aktiv är befolkningen egentligen? Hur dagens rekommendationer?. <i>Scandinavian Journal of Nutrition</i> , 2002 , 46, 87-90		1
13	Heart rate as an indicator of the intensity of physical activity in human adolescents. <i>European Journal of Applied Physiology</i> , 2001 , 85, 244-9	3.4	19
12	Physical activity in relation to aerobic fitness and body fat in 14- to 15-year-old boys and girls. <i>European Journal of Applied Physiology</i> , 2001 , 85, 195-201	3.4	64
11	Breast-feeding in sub-Saharan Africa: outlook for 2000. <i>Public Health Nutrition</i> , 2001 , 4, 932-932	3.3
