#	Article	IF	CITATIONS
1	Randomised single centre double-blind placebo controlled phase II trial of Tocovid SupraBio in combination with pentoxifylline in patients suffering long-term gastrointestinal adverse effects of radiotherapy for pelvic cancer: The PPALM study. Radiotherapy and Oncology, 2022, 168, 130-137.	0.3	8
2	A systematic review and meta-analysis on the prevalence of non-malignant, organic gastrointestinal disorders misdiagnosed as irritable bowel syndrome. Scientific Reports, 2022, 12, 1949.	1.6	13
3	The FOCCUS study: a prospective evaluation of the frequency, severity and treatable causes of gastrointestinal symptoms during and after chemotherapy. Supportive Care in Cancer, 2021, 29, 1443-1453.	1.0	12
4	Chronic diarrhoea in an oncology patient – Clinical assessment and decision making. Bailliere's Best Practice and Research in Clinical Gastroenterology, 2020, 48-49, 101708.	1.0	1
5	Diagnosis and management of bile acid diarrhoea: a survey of UK expert opinion and practice. Frontline Gastroenterology, 2020, 11, 358-363.	0.9	21
6	Bowel dysfunction in survivors of gynaecologic malignancies. Supportive Care in Cancer, 2020, 28, 5501-5510.	1.0	6
7	A proposed tailored investigational algorithm for women treated for gynaecological cancer with long-term gastrointestinal consequences. Supportive Care in Cancer, 2020, 28, 4881-4889.	1.0	7
8	What is the cost of delayed diagnosis of bile acid malabsorption and bile acid diarrhoea?. Frontline Gastroenterology, 2019, 10, 72-76.	0.9	13
9	Interventions to reduce acute and late adverse gastrointestinal effects of pelvic radiotherapy. The Cochrane Library, 2017, , .	1.5	2
10	Guide to managing persistent upper gastrointestinal symptoms during and after treatment for cancer. Frontline Gastroenterology, 2017, 8, 295-323.	0.9	10
11	The efficacy of a low-fat diet to manage the symptoms of bile acid malabsorption – outcomes in patients previously treated for cancer. Clinical Medicine, 2017, 17, 412-418.	0.8	24
12	GI Consequences of Cancer Treatment: A Clinical Perspective. Radiation Research, 2016, 185, 341-348.	0.7	19
13	The holistic management of consequences of cancer treatment by a gastrointestinal and nutrition team: a financially viable approach to an enormous problem?. Clinical Medicine, 2016, 16, 240-246.	0.8	25
14	Management of bile acid malabsorption using low-fat dietary interventions: a useful strategy applicable to some patients with diarrhoea-predominant irritable bowel syndrome?. Clinical Medicine, 2015, 15, 536-540.	0.8	27
15	Guidance: The practical management of the gastrointestinal symptoms of pelvic radiation disease. Frontline Gastroenterology, 2015, 6, 53-72.	0.9	61
16	Radiation enteropathy—pathogenesis, treatment and prevention. Nature Reviews Gastroenterology and Hepatology, 2014, 11, 470-479.	8.2	312
17	Lenalidomide-induced diarrhea in patients with myeloma is caused by bile acid malabsorption that responds to treatment. Blood, 2014, 124, 2467-2468.	0.6	57
18	Algorithm-based management of patients with gastrointestinal symptoms in patients after pelvic radiation treatment (ORBIT): a randomised controlled trial Lancet The 2013 382 2084-2092	6.3	134

#	Article	IF	CITATIONS
19	Managing gastrointestinal symptoms after cancer treatment: a practical approach for gastroenterologists. Frontline Gastroenterology, 2013, 4, 57-68.	0.9	16
20	Practice guidance on the management of acute and chronic gastrointestinal problems arising as a result of treatment for cancer. Gut, 2012, 61, 179-192.	6.1	234
21	"Pelvic radiation diseaseâ€+ New understanding and new solutions for a new disease in the era of cancer survivorship. Scandinavian Journal of Gastroenterology, 2011, 46, 389-397.	0.6	102
22	A physiological approach to modernize the management of cancer chemotherapy-induced gastrointestinal toxicity. Current Opinion in Supportive and Palliative Care, 2010, 4, 19-25.	0.5	10
