#	ARTICLE	IF	CITATIONS
1	An adaptive method for tuning process noise covariance matrix in EKF-based three-phase distribution system state estimation. <i>International Journal of Electrical Power and Energy Systems</i> , 2021, 132, 107192.	5.5	5
2	Using Branch Current Measurements for Parameter Identification in Extended Kalman Filter based Distribution System State Estimation. , 2021, , .		1
3	Optimal parameterization of Kalman filter based three-phase dynamic state estimator for active distribution networks. <i>International Journal of Electrical Power and Energy Systems</i> , 2018, 101, 472-481.	5.5	21
4	Analysis of faults in active distribution network with and without synchronous generator using instantaneous symmetrical components in time domain. <i>Electrical Engineering</i> , 2018, 100, 2117-2127.	2.0	3
5	Novel multi-objective optimization method of electric and magnetic field emissions from double-circuit overhead power line. <i>International Transactions on Electrical Energy Systems</i> , 2017, 27, e2243.	1.9	6
6	Optimization of electric and magnetic field emissions produced by independent parallel overhead power lines. <i>Serbian Journal of Electrical Engineering</i> , 2017, 14, 199-216.	0.4	3
7	Modeling of photovoltaic modules using a gray-box neural network approach. <i>Thermal Science</i> , 2017, 21, 2837-2850.	1.1	0
8	ANN-based correlation of measurements in micro-grid state estimation. <i>International Transactions on Electrical Energy Systems</i> , 2015, 25, 2181-2202.	1.9	13
9	A three-phase state estimation in active distribution networks. <i>International Journal of Electrical Power and Energy Systems</i> , 2014, 54, 154-162.	5.5	45
10	Transmission expansion planning based on Locational Marginal Prices and ellipsoidal approximation of uncertainties. <i>International Journal of Electrical Power and Energy Systems</i> , 2013, 53, 175-183.	5.5	7
11	Modeling of photovoltaic and wind turbine based distributed generation in state estimation. , 2012, , .		4
12	Load reallocation based algorithm for state estimation in distribution networks with distributed generators. <i>Electric Power Systems Research</i> , 2012, 84, 72-82.	3.6	14
13	Generalized charge simulation method for the calculation of the electric field in high voltage substations. <i>Electrical Engineering</i> , 2010, 92, 69-77.	2.0	24
