#	ARTICLE	IF	CITATIONS
1	Relationship-based social policy: personal and policy constructions of 'care'. <i>Critical Social Policy</i> , 2002, 22, 669-687.	1.9	80
2	Discussing the sexual consequences of treatment in radiotherapy and urology consultations with couples affected by prostate cancer. <i>BJU International</i> , 2012, 109, 98-103.	2.5	73
3	Engaging patients in health care: An empirical study of the role of engagement on attitudes and action. <i>Patient Education and Counseling</i> , 2009, 74, 84-90.	2.2	72
4	Patient and public involvement: models and muddles. <i>Journal of Clinical Nursing</i> , 2009, 18, 2547-2554.	3.0	66
5	Cancer as biographical disruption: constructions of living with cancer. <i>Supportive Care in Cancer</i> , 2012, 20, 2033-2040.	2.2	65
6	â€œStuck in the Middle with Youâ€ The Ethics and Process of Qualitative Research th Two People in an Intimate Relationship. <i>Qualitative Health Research</i> , 2003, 13, 1453-1462.	2.1	64
7	Treatment decisionâ€making in cancer care: the role of the carer. <i>Journal of Clinical Nursing</i> , 2010, 19, 2023-2031.	3.0	60
8	Theoretical and Practical Reflections on Sharing Transcripts With Participants. <i>Qualitative Health Research</i> , 2005, 15, 1114-1128.	2.1	57
9	Men with prostate cancer over the first year of illness: their experiences as biographical disruption. <i>Supportive Care in Cancer</i> , 2010, 18, 11-19.	2.2	47
10	Developing the DESCARTE Model. <i>Qualitative Health Research</i> , 2016, 26, 626-639.	2.1	46
11	The importance of relationships in the experience of cancer: A re-working of the policy ideal of the whole-systems approach. <i>European Journal of Oncology Nursing</i> , 2010, 14, 23-28.	2.1	42
12	Challenging symptom profiles of life-limiting conditions in children: a survey of care professionals and families. <i>Palliative Medicine</i> , 2011, 25, 357-364.	3.1	38
13	Conflict in a paediatric hospital: a prospective mixed-method study. <i>Archives of Disease in Childhood</i> , 2016, 101, 23-27.	1.9	38
14	Prioritisation of future research topics for childrenâ€™s hospice care by its key stakeholders: a Delphi study. <i>Palliative Medicine</i> , 2009, 23, 398-405.	3.1	37
15	Adolescents' awareness of cancer risk factors and associations with health-related behaviours. <i>Health Education Research</i> , 2013, 28, 816-827.	1.9	36
16	Cancer awareness among adolescents in Britain: a cross-sectional study. <i>BMC Public Health</i> , 2012, 12, 580.	2.9	35
17	Avoiding costly hospitalisation at end of life: findings from a specialist palliative care pilot in residential care for older adults. <i>BMJ Supportive and Palliative Care</i> , 2018, 8, 102-109.	1.6	35
18	Increased cancer awareness among British adolescents after a school-based educational intervention: a controlled before-and-after study with 6-month follow-up. <i>BMC Public Health</i> , 2013, 13, 190.	2.9	32

#	ARTICLE	IF	CITATIONS
19	Relationship Difficulties in Dementia Care. <i>Dementia</i> , 2003, 2, 67-84.	2.0	31
20	Service user involvement in research may lead to contrary rather than collaborative accounts: findings from a qualitative palliative care study. <i>Journal of Advanced Nursing</i> , 2016, 72, 759-769.	3.3	31
21	Cancer symptom awareness and barriers to medical help seeking in Scottish adolescents: a cross-sectional study. <i>BMC Public Health</i> , 2014, 14, 1117.	2.9	30
22	Conflict escalation in paediatric services: findings from a qualitative study. <i>Archives of Disease in Childhood</i> , 2015, 100, 769-773.	1.9	30
23	Reducing time in acute hospitals: A stepped-wedge randomised control trial of a specialist palliative care intervention in residential care homes. <i>Palliative Medicine</i> , 2020, 34, 571-579.	3.1	30
24	Scottish adolescents' sun-related behaviours, tanning attitudes and associations with skin cancer awareness: a cross-sectional study. <i>BMJ Open</i> , 2014, 4, e005137.	1.9	29
25	A relational understanding of sibling experiences of children with rare life-limiting conditions. <i>Journal of Child Health Care</i> , 2014, 18, 230-240.	1.4	27
26	Improved Quality of Death and Dying in Care Homes: A Palliative Care Stepped Wedge Randomized Control Trial in Australia. <i>Journal of the American Geriatrics Society</i> , 2020, 68, 305-312.	2.6	27
27	Conceptualising psychological distress in families in palliative care: Findings from a systematic review. <i>Palliative Medicine</i> , 2015, 29, 605-632.	3.1	26
28	Couple-Based Psychosexual Support Following Prostate Cancer Surgery: Results of a Feasibility Pilot Randomized Control Trial. <i>Journal of Sexual Medicine</i> , 2016, 13, 1233-1242.	0.6	26
29	Advocacy in Practice: The Troubled Position of Advocates in Adult Services. <i>British Journal of Social Work</i> , 2005, 35, 321-335.	1.4	25
30	Reducing healthcare conflict: outcomes from using the conflict management framework. <i>Archives of Disease in Childhood</i> , 2019, 104, 328-332.	1.9	25
31	The nature of conflict in palliative care: A qualitative exploration of the experiences of staff and family members. <i>Patient Education and Counseling</i> , 2017, 100, 1459-1465.	2.2	24
32	The use of technology in cancer care: applying Foucault's ideas to explore the changing dynamics of power in health care. <i>Journal of Advanced Nursing</i> , 2009, 65, 306-315.	3.3	23
33	Death of a close friend: Short and long-term impacts on physical, psychological and social well-being. <i>PLoS ONE</i> , 2019, 14, e0214838.	2.5	22
34	Exploring the experiences and perspectives of families using a children's hospice and professionals providing hospice care to identify future research priorities for children's hospice care. <i>Palliative Medicine</i> , 2008, 22, 921-928.	3.1	21
35	Concepts and Understandings of Dementia by 'Gatekeepers' and Minority Ethnic 'Service Users'. <i>Journal of Health Psychology</i> , 2003, 8, 645-655.	2.3	20
36	School-based brief psycho-educational intervention to raise adolescent cancer awareness and address barriers to medical help-seeking about cancer: a cluster randomised controlled trial. <i>Psycho-Oncology</i> , 2016, 25, 760-771.	2.3	20

#	ARTICLE	IF	CITATIONS
37	Training paediatric healthcare staff in recognising, understanding and managing conflict with patients and families: findings from a survey on immediate and 6-month impact. <i>Archives of Disease in Childhood</i> , 2017, 102, 250-254.	1.9	20
38	Adolescent Cancer Education (ACE) to increase adolescent and parent cancer awareness and communication: study protocol for a cluster randomised controlled trial. <i>Trials</i> , 2013, 14, 286.	1.6	19
39	Improving specialist palliative care in residential care for older people: a checklist to guide practice. <i>BMJ Supportive and Palliative Care</i> , 2018, 8, 347-353.	1.6	18
40	Normalising and planning for death in residential care: findings from a qualitative focus group study of a specialist palliative care intervention. <i>BMJ Supportive and Palliative Care</i> , 2019, 9, e12-e12.	1.6	18
41	How and why are subcutaneous fluids administered in an advanced illness population: a systematic review. <i>Journal of Clinical Nursing</i> , 2017, 26, 1204-1216.	3.0	17
42	Defining 'specialist palliative care': findings from a Delphi study of clinicians. <i>Australian Health Review</i> , 2020, 44, 313.	1.1	17
43	The role of interpersonal relationships in men's attendance in primary care: qualitative findings in a cohort of men with prostate cancer. <i>Supportive Care in Cancer</i> , 2014, 22, 409-415.	2.2	16
44	Developing an Alcohol Awareness Course for Clients with a Learning Disability. <i>British Journal of Learning Disabilities</i> , 1999, 27, 16-19.	1.1	15
45	Adults with intellectual disabilities affected by cancer: critical challenges for the involvement agenda. <i>European Journal of Cancer Care</i> , 2010, 19, 91-97.	1.5	15
46	What clinicians think of manualized psychotherapy interventions: findings from a systematic review. <i>Journal of Family Therapy</i> , 2015, 37, 409-428.	1.0	15
47	Co-constructing sexual recovery after prostate cancer: a qualitative study with couples. <i>Translational Andrology and Urology</i> , 2015, 4, 131-8.	1.4	14
48	Clinical Implications for Supporting Caregivers at the End-of-Life: Findings and from a Qualitative Study. <i>Contemporary Family Therapy</i> , 2012, 34, 282-292.	1.3	13
49	Where should people with dementia live? Using the views of service users to inform models of care. <i>British Journal of Learning Disabilities</i> , 2008, 36, 6-12.	1.1	12
50	Exploring the feasibility and acceptability of couple-based psychosexual support following prostate cancer surgery: study protocol for a pilot randomised controlled trial. <i>Trials</i> , 2014, 15, 183.	1.6	12
51	Distance education methods are useful for delivering education to palliative caregivers: A single-arm trial of an education package (PalliativE Caregivers Education Package). <i>Palliative Medicine</i> , 2018, 32, 581-588.	3.1	12
52	Relational mechanisms and psychological outcomes in couples affected by breast cancer: a systematic narrative analysis of the literature. <i>BMJ Supportive and Palliative Care</i> , 2013, 3, 309-317.	1.6	11
53	Family Meetings in Inpatient Specialist Palliative Care: A Mechanism to Convey Empathy. <i>Journal of Pain and Symptom Management</i> , 2018, 55, 1253-1259.	1.2	11
54	Insights from parents of a child with leukaemia and healthcare professionals about sharing illness and treatment information: A qualitative research study. <i>International Journal of Nursing Studies</i> , 2018, 83, 91-102.	5.6	11

#	ARTICLE	IF	CITATIONS
55	The Discursive Performance of Change Process in Systemic and Constructionist Therapies: A Systematic Meta-analysis Review of In-session Therapy Discourse. <i>Family Process</i> , 2021, 60, 42-63.	2.6	11
56	Nurses respond to patients' psychosocial needs by dealing, ducking, diverting and deferring: an observational study of a hospice ward. <i>BMC Nursing</i> , 2015, 14, 60.	2.5	10
57	The Care and Abuse of Minoritized Ethnic Groups: The Role of Statutory Services. <i>Critical Social Policy</i> , 2004, 24, 312-331.	1.9	9
58	Observations of professional-patient relationships: A mixed-methods study exploring whether familiarity is a condition for nurses' provision of psychosocial support. <i>Palliative Medicine</i> , 2014, 28, 256-263.	3.1	9
59	An analysis of key principles in <i>Valuing People</i> . <i>Journal of Intellectual Disabilities</i> , 2006, 10, 249-260.	1.4	8
60	Recognition by family members that relatives with neurodegenerative disease are likely to die within a year: A meta-ethnography. <i>Palliative Medicine</i> , 2012, 26, 108-122.	3.1	8
61	The Healthcare Conflict Scale: development, validation and reliability testing of a tool for use across clinical settings. <i>Journal of Interprofessional Care</i> , 2019, 33, 680-688.	1.7	8
62	Palliative care Needs Rounds in rural residential aged care: A mixed-methods study exploring experiences and perceptions of staff and general practitioners. <i>Progress in Palliative Care</i> , 2020, 28, 308-317.	1.2	8
63	How is Systemic and Constructionist Therapy Change Process Narrated in Retrospective Accounts of Therapy? A Systematic Meta-analysis Review. <i>Family Process</i> , 2021, 60, 64-83.	2.6	8
64	'Tinged with Bitterness': Re-presenting stress in family care. <i>Disability and Society</i> , 2002, 17, 759-768.	2.2	7
65	<i>Valuing People: hopes and dreams for the future</i> . <i>British Journal of Learning Disabilities</i> , 2005, 34, 050905073420002-???	1.1	7
66	Context and mechanisms that enable implementation of specialist palliative care Needs Rounds in care homes: results from a qualitative interview study. <i>BMC Palliative Care</i> , 2021, 20, 118.	1.8	6
67	A cohort study reporting clinical risk factors and individual risk perceptions of prostate cancer: implications for PSA testing. <i>BJU International</i> , 2013, 111, 389-395.	2.5	5
68	The supportive care needs of carers of people affected by cancer stationed in British Forces Germany. <i>European Journal of Cancer Care</i> , 2011, 20, 212-219.	1.5	4
69	Transforming training into practice with the conflict management framework: a mixed methods study. <i>BMJ Paediatrics Open</i> , 2021, 5, e001088.	1.4	4
70	Couple therapy following prostate cancer surgery: a manual to guide treatment. <i>Journal of Family Therapy</i> , 2018, 40, S86.	1.0	3
71	The role and value of family therapy for people living with cancer: a rapid review of recent evidence. <i>Current Opinion in Supportive and Palliative Care</i> , 2020, 14, 263-269.	1.3	3
72	Palliative and end-of-life care in care homes: protocol for codesigning and implementing an appropriate scalable model of Needs Rounds in the UK. <i>BMJ Open</i> , 2021, 11, e049486.	1.9	3

#	ARTICLE	IF	CITATIONS
73	Do health behaviours change after colonoscopy? A prospective cohort study on diet, alcohol, physical activity and smoking among patients and their partners. <i>BMJ Open</i> , 2014, 4, e003706.	1.9	2
74	Supporting the provision of palliative care in the home environment: a proof-of-concept single-arm trial of a Palliative Carers Education Package (PrECEPt). <i>BMJ Open</i> , 2016, 6, e012681.	1.9	2
75	What can systemic psychotherapy offer clinical practice and public debates on assisted dying?. <i>Journal of Family Therapy</i> , 2018, 40, 413-427.	1.0	2
76	Introducing research methods and reflexivity into family therapy training. <i>Journal of Family Therapy</i> , 2008, 30, 517-528.	1.0	1
77	â€œQuite an awkward situation to be inâ€™: perceptions of patients, carers and health and social care professionals of the supportive cancer care in British military personnel stationed in Germany. <i>Supportive Care in Cancer</i> , 2009, 17, 1269-1276.	2.2	1
78	A meta-ethnography of how children and young people with chronic non-cancer pain and their families experience and understand their condition, pain services, and treatments. <i>The Cochrane Library</i> , 2022, 2022, .	2.8	1
79	Making Valuing People Work. Strategies for Change in Services for People with Learning Disabilities. <i>British Journal of Learning Disabilities</i> , 2004, 32, 199-200.	1.1	0
80	Boyd H. Davis (ed.), <i>Alzheimer Talk, Text and Context</i> , Palgrave, London, 2005, 254 pp., hbk Â£50, ISBN 1 4039 3532 7.. <i>Ageing and Society</i> , 2006, 26, 329-331.	1.7	0
81	Cancer and people with learning disabilities: critical issues in theory, practice and experience. <i>British Journal of Learning Disabilities</i> , 2008, 36, 147-148.	1.1	0
