#	Paper	IF	Citations
86	What has made the population of Japan healthy?. <i>Lancet, The</i> , 2011 , 378, 1094-105	4.0	284
85	Validity of the Center for Epidemiologic Studies Depression Scale as a screening instrument of major depressive disorder among Japanese workers. <i>American Journal of Industrial Medicine</i> , 2007 , 50, 8-12	2.7	105
84	Trends in cause specific mortality across occupations in Japanese men of working age during period of economic stagnation, 1980-2005: retrospective cohort study. <i>BMJ, The</i> , 2012 , 344, e1191	5.9	82
83	Japanese citizens' behavioral changes and preparedness against COVID-19: An online survey during the early phase of the pandemic. <i>PLoS ONE</i> , 2020 , 15, e0234292	3.7	76
82	Preventing heat illness in the anticipated hot climate of the Tokyo 2020 Summer Olympic Games. <i>Environmental Health and Preventive Medicine</i> , 2017 , 22, 68	4.2	48
81	A review of Vietnam's healthcare reform through the Direction of Healthcare Activities (DOHA). <i>Environmental Health and Preventive Medicine</i> , 2017 , 22, 74	4.2	41
80	The economic impact of loss of performance due to absenteeism and presenteeism caused by depressive symptoms and comorbid health conditions among Japanese workers. <i>Industrial Health</i> , 2013 , 51, 482-9	2.5	41
79	An epidemiological study of work-related violence experienced by physicians who graduated from a medical school in Japan. <i>Journal of Occupational Health</i> , 2008 , 50, 357-61	2.3	41
78	Wearing face masks in public during the influenza season may reflect other positive hygiene practices in Japan. <i>BMC Public Health</i> , 2012 , 12, 1065	4.1	39
77	Association between asymptomatic hyperuricemia and new-onset chronic kidney disease in Japanese male workers: a long-term retrospective cohort study. <i>BMC Nephrology</i> , 2011 , 12, 31	2.7	37
76	Environmental Sampling for Severe Acute Respiratory Syndrome Coronavirus 2 During a COVID-19 Outbreak on the Diamond Princess Cruise Ship. <i>Journal of Infectious Diseases</i> , 2020 , 222, 1098-1102	7	37
75	Incidence rate of needlestick and sharps injuries in 67 Japanese hospitals: a national surveillance study. <i>PLoS ONE</i> , 2013 , 8, e77524	3.7	32
74	Physician job satisfaction and working conditions in Japan. <i>Journal of Occupational Health</i> , 2009 , 51, 261-63	2.3	30
73	Effects of overtime work on blood pressure and body mass index in Japanese male workers. <i>Occupational Medicine</i> , 2006 , 56, 578-80	2.1	30
72	Development of Japanese version of the checklist individual strength questionnaire in a working population. <i>Journal of Occupational Health</i> , 2007 , 49, 453-60	2.3	28
71	Factors on working conditions and prolonged fatigue among physicians in Japan. <i>International Archives of Occupational and Environmental Health</i> , 2008 , 82, 59-66	3.2	28
70	Association of depression and suicidal ideation with unreasonable patient demands and complaints among Japanese physicians: a national cross-sectional survey. <i>International Journal of Behavioral Medicine</i> , 2011 , 18, 384-90	2.6	27

69	Effort-reward imbalance and depression in Japanese medical residents. <i>Journal of Occupational Health</i> , 2008 , 50, 498-504	2.3	27
68	Knowledge of HBV and HCV and individuals' Attitudes toward HBV- and HCV-infected colleagues: a national cross-sectional study among a working population in Japan. <i>PLoS ONE</i> , 2013 , 8, e76921	3.7	26
67	Influenza vaccination uptake among the working age population of Japan: results from a national cross-sectional survey. <i>PLoS ONE</i> , 2013 , 8, e59272	3.7	24
66	Reasons for and against receiving influenza vaccination in a working age population in Japan: a national cross-sectional study. <i>BMC Public Health</i> , 2013 , 13, 647	4.1	22
65	Reluctance to care for patients with HIV or hepatitis B / C in Japan. <i>BMC Pregnancy and Childbirth</i> , 2016 , 16, 31	3.2	20
64	Occupational differences in suicide mortality among Japanese men of working age. <i>Journal of Affective Disorders</i> , 2016 , 190, 316-321	6.6	19
63	Emergency response technical work at Fukushima Dai-ichi nuclear power plant: occupational health challenges posed by the nuclear disaster. <i>Occupational and Environmental Medicine</i> , 2012 , 69, 599-602	2.1	19
62	Socioeconomic status and self-reported health among middle-aged Japanese men: results from a nationwide longitudinal study. <i>BMJ Open</i> , 2015 , 5, e008178	3	18
61	Nurses' Willingness to care for patients infected with HIV or Hepatitis B / C in Vietnam. <i>Environmental Health and Preventive Medicine</i> , 2017 , 22, 9	4.2	17
60	Sociodemographic factors and prejudice toward HIV and hepatitis B/C status in a working-age population: results from a national, cross-sectional study in Japan. <i>PLoS ONE</i> , 2014 , 9, e96645	3.7	17
59	National survey of the association of depressive symptoms with the number of off duty and on-call, and sleep hours among physicians working in Japanese hospitals: a cross sectional study. <i>BMC Public Health</i> , 2010 , 10, 127	4.1	17
58	Lung, gastric and colorectal cancer mortality by occupation and industry among working-aged men in Japan. <i>Scientific Reports</i> , 2017 , 7, 43204	4.9	16
57	Inequality in mortality by occupation related to economic crisis from 1980 to 2010 among working-age Japanese males. <i>Scientific Reports</i> , 2016 , 6, 22255	4.9	16
56	Risk factors of household transmission of pandemic (H1N1) 2009 among patients treated with antivirals: a prospective study at a primary clinic in Japan. <i>PLoS ONE</i> , 2012 , 7, e31519	3.7	16
55	Associations of health behaviors on depressive symptoms among employed men in Japan. <i>Industrial Health</i> , 2006 , 44, 486-92	2.5	15
54	Environmental and sociodemographic factors associated with household malaria burden in the Congo. <i>Malaria Journal</i> , 2019 , 18, 53	3.6	14
53	Health risks and precautions for visitors to the Tokyo 2020 Olympic and Paralympic Games. <i>Travel Medicine and Infectious Disease</i> , 2018 , 22, 3-7	8.4	14
52	The association of needlestick injury with depressive symptoms among first-year medical residents in Japan. <i>Industrial Health</i> , 2007 , 45, 750-5	2.5	13

51	Health preparedness plan for dengue detection during the 2020 summer Olympic and Paralympic games in Tokyo. <i>PLoS Neglected Tropical Diseases</i> , 2018 , 12, e0006755	4.8	13
50	Mistrust surrounding vaccination recommendations by the Japanese government: results from a national survey of working-age individuals. <i>BMC Public Health</i> , 2015 , 15, 426	4.1	12
49	Selenium supplementation in HIV-infected individuals: A systematic review of randomized controlled trials. <i>Clinical Nutrition ESPEN</i> , 2019 , 34, 1-7	1.3	11
48	Factors of working conditions and prolonged fatigue among teachers at public elementary and junior high schools. <i>Industrial Health</i> , 2011 , 49, 434-42	2.5	11
47	Awareness and behavior of oncologists and support measures in medical institutions related to ongoing employment of cancer patients in Japan. <i>Japanese Journal of Clinical Oncology</i> , 2012 , 42, 295-301 ^{2,8}	3.8	11
46	Effort-reward imbalance and social support are associated with chronic fatigue among medical residents in Japan. <i>International Archives of Occupational and Environmental Health</i> , 2008 , 81, 331-6	3.2	11
45	Declining rates of tobacco use in the Japanese medical profession, 1965-2009. <i>Journal of Epidemiology</i> , 2013 , 23, 4-11	3.4	10
44	Decontamination work in the area surrounding Fukushima Dai-ichi Nuclear Power Plant: another occupational health challenge of the nuclear disaster. <i>Archives of Environmental and Occupational Health</i> , 2012 , 67, 128-32	2	10
43	Occupational exposure to blood or body fluids as a result of needlestick injuries and other sharp device injuries among medical residents in Japan. <i>Infection Control and Hospital Epidemiology</i> , 2007 , 28, 507-9	2	10
42	HIV testing and attitudes among the working-age population of Japan: annual health checkups may offer an effective way forwards. <i>Industrial Health</i> , 2016 , 54, 116-22	2.5	10
41	Association of knowledge of HIV and other factors with individuals' attitudes toward HIV infection: a national cross-sectional survey among the Japanese non-medical working population. <i>PLoS ONE</i> , 2013 , 8, e68495	3.7	9
40	The effect of perceived social support on psychological distress and life satisfaction among Nepalese migrants in Japan. <i>PLoS ONE</i> , 2021 , 16, e0246271	3.7	8
39	Barriers to the acceptance of work colleagues infected with Hepatitis B and Hepatitis C in Japan. <i>Journal of Occupational Health</i> , 2016 , 58, 269-75	2.3	7
38	Associations of excessive sleepiness on duty with sleeping hours and number of days of overnight work among medical residents in Japan. <i>Journal of Occupational Health</i> , 2007 , 49, 523-7	2.3	7
37	Dimensions of women's empowerment on access to skilled delivery services in Nepal. <i>BMC Pregnancy and Childbirth</i> , 2020 , 20, 622	3.2	7
36	Associations between psychological distress and the most concerning present personal problems among working-age men in Japan. <i>BMC Public Health</i> , 2015 , 15, 305	4.1	6
35	Serum selenium levels in tuberculosis patients: A systematic review and meta-analysis. <i>Journal of Trace Elements in Medicine and Biology</i> , 2018 , 50, 257-262	4.1	6
34	Hepatitis screening in Japanese individuals of working age and prejudice against infected persons in the workplace. <i>Journal of Occupational Health</i> , 2014 , 55, 392-7	2.3	6

33	Work-family conflict and prolonged fatigue among Japanese married male physicians. <i>International Archives of Occupational and Environmental Health</i> , 2011 , 84, 937-42	3.2	6
32	Factors associated with preferences for health system goals in Japan: a pilot study of the World Health Survey. <i>Asia-Pacific Journal of Public Health</i> , 2011 , 23, 721-9	2	6
31	Bacterial hazards of sludge brought ashore by the tsunami after the great East Japan earthquake of 2011. <i>Journal of Occupational Health</i> , 2012 , 54, 255-62	2.3	6
30	Associations of depressive symptoms with regular leisure activity and family social support among Japanese workers. <i>Industrial Health</i> , 2007 , 45, 181-5	2.5	6
29	A Socio-Demographic Examination of Adults Responding to Governmental Vaccination Recommendations during the Japanese Rubella Outbreak of 2013. <i>PLoS ONE</i> , 2015 , 10, e0129900	3.7	6
28	Differences in stroke and ischemic heart disease mortality by occupation and industry among Japanese working-aged men. <i>SSM - Population Health</i> , 2016 , 2, 745-749	3.8	5
27	Work Content and Serious Mental Illness among Middle-Aged Men: Results from a 6-Year Longitudinal Study in Japan. <i>PLoS ONE</i> , 2015 , 10, e0131203	3.7	5
26	Assessing the Impact of Nationwide Smoking Cessation Interventions among Employed, Middle-Aged Japanese Men, 2005-2010. <i>PLoS ONE</i> , 2016 , 11, e0155151	3.7	5
25	Co-worker perceptions of return-to-work opportunities for Japanese cancer survivors. <i>Psycho-Oncology</i> , 2017 , 26, 309-315	3.9	4
24	Assessing the prevalence of hepatitis B virus infection among health care workers in a referral hospital in Kisantu, Congo DR: a pilot study. <i>Industrial Health</i> , 2019 , 57, 621-626	2.5	4
23	Local perspectives on Ebola during its tenth outbreak in DR Congo: A nationwide qualitative study. <i>PLoS ONE</i> , 2020 , 15, e0241120	3.7	4
22	An awareness survey of surgeons involved in breast cancer treatment regarding their patients returning to work. <i>Nagoya Journal of Medical Science</i> , 2014 , 76, 315-22	0.7	4
21	New Reforms to Limit the Excessive Working Hours of Japanese Physicians and Help Prevent Karoshi. <i>Journal of Occupational and Environmental Medicine</i> , 2019 , 61, e304-e305	2	4
20	Factors associated with participation in an ongoing national catch-up campaign against rubella: a cross-sectional internet survey among 1680 adult men in Japan. <i>BMC Public Health</i> , 2021 , 21, 292	4.1	4
19	Application of the stratum-specific likelihood ratio (SSLR) analysis to results of a depressive symptoms screening survey among Japanese workers. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2007 , 42, 410-3	4.5	3
18	Gastric cancer mortality rates by occupation and industry among male and female workers aged 25-64 years in Japan. <i>Industrial Health</i> , 2020 , 58, 554-564	2.5	3
17	Mental health of working-age populations in Japan who provide nursing care for a person at home: A cross-sectional analysis. <i>Journal of Occupational Health</i> , 2018 , 60, 458-466	2.3	3
16	Attitudes of nurses toward HIV-infected colleagues in Japan. <i>Contemporary Nurse</i> , 2017 , 53, 133-142	1.5	2

15	A consensus for occupational health management of healthcare workers infected with human immunodeficiency virus, hepatitis B virus, and / or hepatitis C virus. <i>Journal of Occupational Health</i> , 2017 , 59, 304-308	2.3	2
14	Evaluation of validity of the urine dipstick test for identification of reduced glomerular filtration rate in Japanese male workers aged 40 years and over. <i>Journal of Occupational Health</i> , 2012 , 54, 176-80	2.3	2
13	Mortality by occupation and industry among Japanese men in the 2015 fiscal year. <i>Environmental Health and Preventive Medicine</i> , 2020 , 25, 37	4.2	2
12	Sharp injuries in Japanese operating theaters of HIV/AIDS referral hospitals 2009-2011. <i>Industrial Health</i> , 2016 , 54, 224-9	2.5	2
11	Mortality risks among blue- and white-collar workers: A time series study among Japanese men aged 25-64 years from 1980 to 2015. <i>Journal of Occupational Health</i> , 2021 , 63, e12215	2.3	2
10	Secondary Attack Rate among Non-Spousal Household Contacts of Coronavirus Disease 2019 in Tsuchiura, Japan, August 2020-February 2021. <i>International Journal of Environmental Research and Public Health</i> , 2021 , 18,	4.6	2
9	Changes in cause-specific mortality trends across occupations in working-age Japanese women from 1980 to 2015: a cross-sectional analysis.. <i>BMC Womens Health</i> , 2022 , 22, 44	2.9	2
8	Infection and transmission of COVID-19 among students and teachers in schools in Japan after the reopening in June 2020. <i>BMJ Paediatrics Open</i> , 2020 , 4, e000854	2.4	1
7	Factors associated with adults' actions to confirm their own rubella immune status in Japan's drive toward rubella elimination: Cross-sectional online survey of non-healthcare workers in their 20s to 40s. <i>Environmental Health and Preventive Medicine</i> , 2021 , 26, 77	4.2	1
6	Autistic and Attention Deficit/Hyperactivity Disorder Traits Are Associated with Suboptimal Performance among Japanese University Students. <i>JMA Journal</i> , 2020 , 3, 216-231	1	0
5	Public health responses to COVID-19 in Japan.. <i>Global Health & Medicine</i> , 2022 , 4, 78-82	2.4	0
4	Method-specific suicide trends from 1979 to 2016 among Japanese adolescents.. <i>Journal of Affective Disorders</i> , 2022 , 310, 129-134	6.6	0
3	Does poor spousal health negatively affect own health among elderly retired Japanese couples? A 1-year follow-up study. <i>SSM - Population Health</i> , 2021 , 16, 100970	3.8	
2	A Consensus on Immunization Recommendations for Healthcare and Other Workers at the Tokyo 2020 Olympic and Paralympic Games: A Delphi Survey. <i>JMA Journal</i> , 2019 , 2, 80-84	1	
1	Malaria rapid diagnostic test (HRP2/pLDH) positivity, incidence, care accessibility and impact of community WASH Action programme in DR Congo: mixed method study involving 625 households. <i>Malaria Journal</i> , 2021 , 20, 117	3.6
