#	ARTICLE	IF	CITATIONS
1	The Hassan Neonatal Morbidity Composite Scale and Neonatal Length of Stay—A Validation Study. American Journal of Perinatology, 2024, 41, 098-105.	1.4	1
2	Congenital anomalies of the kidney and urinary tract (CAKUT) in critically ill infants: a multicenter cohort study. Pediatric Nephrology, 2023, 38, 161-172.	1.7	4
3	Medication Use in the Neonatal Intensive Care Unit and Changes from 2010 to 2018. Journal of Pediatrics, 2022, 240, 66-71.e4.	1.8	50
4	Mortality Risk Factors among Infants Receiving Dialysis in the Neonatal Intensive Care Unit. Journal of Pediatrics, 2022, 242, 159-165.	1.8	6
5	Changing Tocolytic Exposures Among Neonatal Intensive Care Unit Admitted Preterm Infants. American Journal of Perinatology, 2022, , .	1.4	0
6	Association between postmenstrual age and furosemide dosing practices in very preterm infants. Journal of Perinatology, 2022, 42, 461-467.	2.0	2
7	Spontaneous intestinal perforation (SIP) will soon become the most common form of surgical bowel disease in the extremely low birth weight (ELBW) infant. Journal of Perinatology, 2022, 42, 423-429.	2.0	18
8	Ampicillin dosing in premature infants for early-onset sepsis: exposure-driven efficacy, safety, and stewardship. Journal of Perinatology, 2022, 42, 959-964.	2.0	4
9	Association between neonatal intensive care unit medication safety practices, adverse events, and death. Journal of Perinatology, 2021, 41, 1739-1744.	2.0	2
10	Thrombosis in infants in the neonatal intensive care unit: Analysis of a large national database. Journal of Thrombosis and Haemostasis, 2021, 19, 400-407.	3.8	22
11	Early-onset sepsis in term infants admitted to neonatal intensive care units (2011 to 2016). Journal of Perinatology, 2021, 41, 157-163.	2.0	18
12	Longitudinal Survey of COVID-19 Burden and Related Policies in U.S. Neonatal Intensive Care Units. American Journal of Perinatology, 2021, 38, 093-098.	1.4	10
13	Association between Nephrotoxic Drug Combinations and Acute Kidney Injury in the Neonatal Intensive Care Unit. Journal of Pediatrics, 2021, 228, 213-219.	1.8	31
14	Utilization of Erythropoietin within the United States Neonatal Intensive Care Units from 2008 to 2017. American Journal of Perinatology, 2021, 38, 734-740.	1.4	1
15	Vasoactive medications in extremely low gestational age neonates during the first postnatal week. Journal of Perinatology, 2021, 41, 2330-2336.	2.0	6
16	Survival of Ventilated Extremely Premature Neonates With Severe Intraventricular Hemorrhage. Pediatrics, 2021, 147, .	2.1	12
17	Brief correspondence: kratom. Journal of Perinatology, 2021, 41, 1511-1511.	2.0	1
18	Association between Hyperbilirubinemia and Hearing Screen Failure in the Neonatal Intensive Care Unit in Infants Born Preterm. Journal of Pediatrics, 2021, 231, 68-73.	1.8	1

#	ARTICLE	IF	CITATIONS
19	Comparative efficacy and safety of late surfactant preparations: a retrospective study. Journal of Perinatology, 2021, , .	2.0	3
20	Low Rate of Spontaneous Closure in Premature Infants Discharged with a Patent Ductus Arteriosus: A Multicenter Prospective Study. Journal of Pediatrics, 2021, , .	1.8	9
21	Changes in Use of Respiratory Support for Preterm Infants in the US, 2008-2018. JAMA Pediatrics, 2021, 175, 1017.	6.2	27
22	Hydrops fetalisâ€”trends in associated diagnoses and mortality from 1997â€”2018. Journal of Perinatology, 2021, 41, 2537-2543.	2.0	1
23	Association of outborn versus inborn birth status on the in-hospital outcomes of neonates treated with therapeutic hypothermia: A propensity score-weighted cohort study. Resuscitation, 2021, 167, 82-88.	3.0	0
24	Outcomes of outborn extremely preterm neonates admitted to a NICU with respiratory distress. Archives of Disease in Childhood: Fetal and Neonatal Edition, 2020, 105, 33-40.	2.8	24
25	Impact of Gastrostomy Tube Placement on Shortâ€”Term Weight Gain in Hospitalized Premature Infants. Journal of Parenteral and Enteral Nutrition, 2020, 44, 355-360.	2.6	3
26	Two-Year Outcomes of Infants with Stage 2 or Higher Retinopathy of Prematurity: Results from a Large Multicenter Registry. American Journal of Perinatology, 2020, 37, 196-203.	1.4	3
27	Wide variation in caffeine discontinuation timing in premature infants. Journal of Perinatology, 2020, 40, 288-293.	2.0	9
28	Association of Adverse Hearing, Growth, and Discharge Age Outcomes With Postnatal Cytomegalovirus Infection in Infants With Very Low Birth Weight. JAMA Pediatrics, 2020, 174, 133.	6.2	35
29	A Pharmacoepidemiologic Study of the Safety and Effectiveness of Clindamycin in Infants. Pediatric Infectious Disease Journal, 2020, 39, 204-210.	2.0	6
30	Pharmacoepidemiology of Furosemide in the Neonatal Intensive Care Unit. Neonatology, 2020, 117, 780-784.	2.0	6
31	Paradoxical Antibiotic Effect of Ampicillin. Pediatric Infectious Disease Journal, 2020, 39, 725-729.	2.0	5
32	Dosing of Antimicrobials in the Neonatal Intensive Care Unit. Pediatric Infectious Disease Journal, 2020, 39, 713-717.	2.0	5
33	The Denominator Matters! Lessons from Large Database Research in Neonatology. Children, 2020, 7, 216.	1.5	3
34	Differential classification of infants in United States neonatal intensive care units for weight, length, and head circumference by United States and international growth curves. Annals of Human Biology, 2020, 47, 564-571.	1.0	6
35	Progressive Metabolic Dysfunction and Nutritional Variability Precedes Necrotizing Enterocolitis. Nutrients, 2020, 12, 1275.	4.1	15
36	Authorsâ€™ response to thrombocytopenia following exchange transfusion in neonates. Journal of Perinatology, 2020, 40, 1119-1119.	2.0	1

#	ARTICLE	IF	CITATIONS
37	Probiotic Use and Safety in the Neonatal Intensive Care Unit: A Matched Cohort Study. <i>Journal of Pediatrics</i> , 2020, 222, 59-64.e1.	1.8	29
38	Exchange transfusion safety and outcomes in neonatal hyperbilirubinemia. <i>Journal of Perinatology</i> , 2020, 40, 1506-1512.	2.0	31
39	Outcomes associated with surfactant in more mature and larger premature infants with respiratory distress syndrome. <i>Journal of Perinatology</i> , 2020, 40, 1171-1177.	2.0	2
40	Ten-year trends in infant neuroimaging from US Neonatal Intensive Care Units. <i>Journal of Perinatology</i> , 2020, 40, 1389-1393.	2.0	3
41	Gastroschisis prevalence substantially decreased from 2009 through 2018 after a 3-fold increase from 1997 to 2008. <i>Journal of Pediatric Surgery</i> , 2020, 55, 2640-2641.	1.6	10
42	Sildenafil Exposure in the Neonatal Intensive Care Unit. <i>American Journal of Perinatology</i> , 2019, 36, 262-267.	1.4	13
43	Effect of intravenous contrast for CT abdomen and pelvis on detection of urgent and non-urgent pathology: can repeat CT within 72Âhours be avoided?. <i>Emergency Radiology</i> , 2019, 26, 601-608.	1.8	4
44	Risk of development of treated retinopathy of prematurity in very low birth weight infants. <i>Journal of Perinatology</i> , 2019, 39, 1562-1568.	2.0	11
45	Birth Size and Gestational Age Specific Outcomes of Inhaled Nitric Oxide Therapy in Preterm Neonates with Clinically Diagnosed Pulmonary Hypertension. <i>American Journal of Perinatology</i> , 2019, 36, 1471-1480.	1.4	2
46	The Use of Oxygen at Discharge: Is It Safe? Is It Effective?. <i>Pediatrics</i> , 2019, 143, e20190372.	2.1	1
47	Outcomes of preterm infants conceived with in vitro fertilization. <i>Journal of Perinatology</i> , 2019, 39, 717-722.	2.0	8
48	Furosemide Exposure and Prevention of Bronchopulmonary Dysplasia in Premature Infants. <i>Journal of Pediatrics</i> , 2019, 208, 134-140.e2.	1.8	45
49	The Association of Hydrocortisone Dosage on Mortality in Infants Born Extremely Premature. <i>Journal of Pediatrics</i> , 2019, 207, 143-147.e3.	1.8	3
50	Variation in Gastrostomy Tube Placement in Premature Infants in the United States. <i>American Journal of Perinatology</i> , 2019, 36, 1243-1249.	1.4	21
51	Surfactant Administration in Preterm Infants: Drug Development Opportunities. <i>Journal of Pediatrics</i> , 2019, 208, 163-168.	1.8	14
52	Morbidity and mortality with early pulmonary haemorrhage in preterm neonates. <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 2019, 104, F63-F68.	2.8	18
53	Safety, Effectiveness and Exposure-response of Micafungin in Infants. <i>Pediatric Infectious Disease Journal</i> , 2019, 38, e26-e28.	2.0	1
54	Reply to the Letter to the Editor "Accurate Direct Measures Are Required to Validate Derived Measures". <i>Neonatology</i> , 2018, 113, 267-268.	2.0	1

#	ARTICLE	IF	CITATIONS
55	The Benefit of a Triage System to Expedite Acute Stroke Head Computed Tomography Interpretations. <i>Journal of Stroke and Cerebrovascular Diseases</i> , 2018, 27, 1190-1193.	1.6	5
56	The impact of altitude on screening for critical congenital heart disease. <i>Journal of Perinatology</i> , 2018, 38, 530-536.	2.0	12
57	Inhaled Nitric Oxide in Extremely Premature Neonates With Respiratory Distress Syndrome. <i>Pediatrics</i> , 2018, 141, .	2.1	30
58	Antenatal methadone vs buprenorphine exposure and length of hospital stay in infants admitted to the intensive care unit with neonatal abstinence syndrome. <i>Journal of Perinatology</i> , 2018, 38, 75-79.	2.0	23
59	A multi-institution analysis of predictors of timing of inguinal hernia repair among premature infants. <i>Journal of Pediatric Surgery</i> , 2018, 53, 784-788.	1.6	8
60	Association between oral sildenafil dosing, predicted exposure, and systemic hypotension in hospitalised infants. <i>Cardiology in the Young</i> , 2018, 28, 85-92.	0.8	4
61	Early lumbar puncture and risk of intraventricular hemorrhage in very low birth weight infants. <i>Early Human Development</i> , 2018, 117, 1-6.	1.8	6
62	BMI Is a Better Body Proportionality Measure than the Ponderal Index and Weight-for-Length for Preterm Infants. <i>Neonatology</i> , 2018, 113, 108-116.	2.0	20
63	Evaluation of Gentamicin Exposure in the Neonatal Intensive Care Unit and Hearing Function at Discharge. <i>Journal of Pediatrics</i> , 2018, 203, 131-136.	1.8	5
64	Outcomes of early inhaled nitric oxide use in premature African American neonates. <i>Journal of Perinatology</i> , 2018, 38, 1657-1665.	2.0	5
65	Prolonged furosemide exposure and risk of abnormal newborn hearing screen in premature infants. <i>Early Human Development</i> , 2018, 125, 26-30.	1.8	20
66	Morphine vs Methadone Treatment for Infants with Neonatal Abstinence Syndrome. <i>Journal of Pediatrics</i> , 2018, 203, 185-189.	1.8	19
67	Prevalence and safety of diazoxide in the neonatal intensive care unit. <i>Journal of Perinatology</i> , 2018, 38, 1496-1502.	2.0	26
68	Predictors of Prolonged Breast Milk Provision to Very Low Birth Weight Infants. <i>Journal of Pediatrics</i> , 2018, 202, 23-30.e1.	1.8	17
69	Association of Atrial Septal Defects and Bronchopulmonary Dysplasia in Premature Infants. <i>Journal of Pediatrics</i> , 2018, 202, 56-62.e2.	1.8	16
70	Perianesthetic and Anesthesia-Related Mortality in a Southeastern United States Population: A Longitudinal Review of a Prospectively Collected Quality Assurance Data Base. <i>Anesthesia and Analgesia</i> , 2018, 127, 730-735.	2.2	17
71	NICU management and outcomes of infants with trisomy 21 without major anomalies. <i>Journal of Perinatology</i> , 2018, 38, 1068-1073.	2.0	12
72	External Evaluation of a Gentamicin Infant Population Pharmacokinetic Model Using Data from a National Electronic Health Record Database. <i>Antimicrobial Agents and Chemotherapy</i> , 2018, 62, .	3.2	5

#	ARTICLE	IF	CITATIONS
73	Racial/ethnic differences in necrotizing enterocolitis incidence and outcomes in premature very low birth weight infants. <i>Journal of Perinatology</i> , 2018, 38, 1386-1390.	2.0	49
74	Association of Early Inhaled Nitric Oxide With the Survival of Preterm Neonates With Pulmonary Hypoplasia. <i>JAMA Pediatrics</i> , 2018, 172, e180761.	6.2	35
75	Association between Furosemide Exposure and Patent Ductus Arteriosus in Hospitalized Infants of Very Low Birth Weight. <i>Journal of Pediatrics</i> , 2018, 199, 231-236.	1.8	23
76	Longitudinal BMI Growth Curves for Surviving Preterm NICU Infants Based on a Large US Sample. <i>Pediatrics</i> , 2018, 142, .	2.1	13
77	National Survey of Neonatal Intensive Care Unit Medication Safety Practices. <i>American Journal of Perinatology</i> , 2018, 35, 1419-1422.	1.4	5
78	Incidence of Breakthrough Urinary Tract Infection in Hospitalized Infants Receiving Antibiotic Prophylaxis. <i>Clinical Pediatrics</i> , 2017, 56, 65-70.	0.8	4
79	Respiratory Support for Very Low Birth Weight Infants Receiving Dexamethasone. <i>Journal of Pediatrics</i> , 2017, 183, 26-30.e3.	1.8	8
80	Major anomalies and birth-weight influence NICU interventions and mortality in infants with trisomy 13 or 18. <i>Journal of Perinatology</i> , 2017, 37, 420-426.	2.0	23
81	Association of in utero magnesium exposure and spontaneous intestinal perforations in extremely low birth weight infants. <i>Journal of Perinatology</i> , 2017, 37, 641-644.	2.0	17
82	Impact of l-carnitine supplementation on metabolic profiles in premature infants. <i>Journal of Perinatology</i> , 2017, 37, 566-571.	2.0	12
83	Efficiency Analysis of an Interoperable Healthcare Operations Platform. <i>Journal of Medical Systems</i> , 2017, 41, 52.	3.6	2
84	Does quality improvement work in neonatology improve clinical outcomes?. <i>Current Opinion in Pediatrics</i> , 2017, 29, 129-134.	2.0	20
85	Association between early echocardiography, therapy for patent ductus arteriosus, and outcomes in very low birth weight infants. <i>Cardiology in the Young</i> , 2017, 27, 1732-1739.	0.8	7
86	Antihypertensive drug exposure in premature infants from 1997 to 2013. <i>Cardiology in the Young</i> , 2017, 27, 905-911.	0.8	7
87	In-Hospital Outcomes Following Extracorporeal Membrane Oxygenation in a Retrospective Cohort of Infants. <i>American Journal of Perinatology</i> , 2017, 34, 1347-1353.	1.4	3
88	Use of Population Pharmacokinetics and Electronic Health Records to Assess Piperacillinâ€Tazobactam Safety in Infants. <i>Pediatric Infectious Disease Journal</i> , 2017, 36, 855-859.	2.0	11
89	Changes in the Diagnosis and Management of Patent Ductus Arteriosus from 2006 to 2015 in United States Neonatal Intensive Care Units. <i>Journal of Pediatrics</i> , 2017, 189, 105-112.	1.8	96
90	Safety of High-dose Acyclovir in Infants With Suspected and Confirmed Neonatal Herpes Simplex Virus Infections. <i>Pediatric Infectious Disease Journal</i> , 2017, 36, 369-373.	2.0	18

#	ARTICLE	IF	CITATIONS
91	Incidence of Nasogastric and Gastrostomy Tube at Discharge Is Reduced after Implementing an Oral Feeding Protocol in Premature (<â€%30 weeks) Infants. American Journal of Perinatology, 2017, 34, 606-613.	1.4	27
92	Timing of Multiorgan Dysfunction among Hospitalized Infants with Fatal Fulminant Sepsis. American Journal of Perinatology, 2017, 34, 633-639.	1.4	31
93	Early Caffeine Prophylaxis and Risk of Failure of Initial Continuous Positive Airway Pressure in Very Low Birth Weight Infants. Journal of Pediatrics, 2017, 190, 108-111.e1.	1.8	19
94	Prevalence of Hypoalbuminemia and Elevated Bilirubin/Albumin Ratios in a Large Cohort of Infants in the Neonatal Intensive Care Unit. Journal of Pediatrics, 2017, 188, 280-286.e4.	1.8	21
95	Safety of Enalapril in Infants Admitted to the Neonatal Intensive Care Unit. Pediatric Cardiology, 2017, 38, 155-161.	1.3	28
96	Changing antiepileptic drug use for seizures in US neonatal intensive care units from 2005 to 2014. Journal of Perinatology, 2017, 37, 296-300.	2.0	33
97	Risk factors for group B streptococcal disease in neonates of mothers with negative antenatal testing. Journal of Perinatology, 2017, 37, 157-161.	2.0	12
98	Sedation, Analgesia, and Paralysis during Mechanical Ventilation of Premature Infants. Journal of Pediatrics, 2017, 180, 99-104.e1.	1.8	46
99	Effectiveness of Granulocyte Colony-Stimulating Factor in Hospitalized Infants with Neutropenia. American Journal of Perinatology, 2017, 34, 458-464.	1.4	16
100	Exposure to any antenatal corticosteroids and outcomes in preterm infants by gestational age: prospective cohort study. BMJ: British Medical Journal, 2017, 356, j1039.	2.3	109
101	High-Frequency Oscillatory Ventilation. , 2017, , 337-345.		1
102	The epidemiology, prevalence and hospital outcomes of infants with gastroschisis. Journal of Perinatology, 2016, 36, 901-905.	2.0	23
103	Safety of histamine-2 receptor blockers in hospitalized VLBW infants. Early Human Development, 2016, 99, 27-30.	1.8	29
104	Do We Need Another Set of Growth Charts for Premature Infants?. Pediatrics, 2016, 138, .	2.1	14
105	Daily mortality of infants born at less than 30 weeks' gestation. Early Human Development, 2016, 96, 27-30.	1.8	27
106	Insulin, Hyperglycemia, and Severe Retinopathy of Prematurity in Extremely Low-Birth-Weight Infants. American Journal of Perinatology, 2016, 33, 393-400.	1.4	16
107	Understanding Outliers and Defining Value in Neonatal Healthcare. Journal of Pediatrics, 2016, 173, 15-16.	1.8	2
108	Electronic Health Records and Pharmacokinetic Modeling to Assess the Relationship between Ampicillin Exposure and Seizure Risk in Neonates. Journal of Pediatrics, 2016, 178, 125-129.e1.	1.8	27

#	ARTICLE	IF	CITATIONS
109	Cardiopulmonary resuscitation in hospitalized infants. Early Human Development, 2016, 101, 17-22.	1.8	13
110	Risk Factors and In-Hospital Outcomes following Tracheostomy in Infants. Journal of Pediatrics, 2016, 173, 39-44.e1.	1.8	54
111	A Multifaceted Approach to Improving Outcomes in the NICU: The Pediatrix 100,000 Babies Campaign. Pediatrics, 2016, 137, .	2.1	90
112	Enteral Feeding with Human Milk Decreases Time to Discharge in Infants following Gastroschisis Repair. Journal of Pediatrics, 2016, 170, 85-89.	1.8	29
113	The complete blood cell count in a refined cohort of preterm NEC: the importance of gestational age and day of diagnosis when using the CBC to estimate mortality. Journal of Perinatology, 2016, 36, 121-125.	2.0	19
114	Sildenafil and retinopathy of prematurity risk in very low birth weight infants. Journal of Perinatology, 2016, 36, 137-140.	2.0	17
115	Increasing Incidence of the Neonatal Abstinence Syndrome in U.S. Neonatal ICUs. Obstetrical and Gynecological Survey, 2015, 70, 551-552.	0.4	3
116	Use and Safety of Erythromycin and Metoclopramide in Hospitalized Infants. Journal of Pediatric Gastroenterology and Nutrition, 2015, 61, 334-339.	1.8	26
117	Neonatal Escherichia coli Bloodstream Infections. Pediatric Infectious Disease Journal, 2015, 34, 933-936.	2.0	31
118	Survival Benefit of Empirical Therapy for Staphylococcus aureus Bloodstream Infections in Infants. Pediatric Infectious Disease Journal, 2015, 34, 1175-1179.	2.0	31
119	Cefepime and Ceftazidime Safety in Hospitalized Infants. Pediatric Infectious Disease Journal, 2015, 34, 964-968.	2.0	14
120	17-hydroxyprogesterone caproate for preterm rupture of the membranes: a multicenter, randomized, double-blind, placebo-controlled trial. American Journal of Obstetrics and Gynecology, 2015, 213, 364.e1-364.e12.	1.3	14
121	Sedatives and Analgesics Given to Infants in Neonatal Intensive Care Units at the End of Life. Journal of Pediatrics, 2015, 167, 299-304.e3.	1.8	15
122	Adverse Events After Routine Immunization of Extremely Low-Birth-Weight Infants. JAMA Pediatrics, 2015, 169, 740.	6.2	35
123	Safety of octreotide in hospitalized infants. Early Human Development, 2015, 91, 387-392.	1.8	28
124	Postnatal Cytomegalovirus Infection and the Risk for Bronchopulmonary Dysplasia. JAMA Pediatrics, 2015, 169, e153785.	6.2	71
125	BMI Curves for Preterm Infants. Pediatrics, 2015, 135, e572-e581.	2.1	89
126	Association between positive urine cultures and necrotizing enterocolitis in a large cohort of hospitalized infants. Early Human Development, 2015, 91, 583-586.	1.8	8

#	ARTICLE	IF	CITATIONS
127	Increasing Incidence of the Neonatal Abstinence Syndrome in U.S. Neonatal ICUs. New England Journal of Medicine, 2015, 372, 2118-2126.	27.0	387
128	Treatment of supraventricular tachycardia in infants: Analysis of a large multicenter database. Early Human Development, 2015, 91, 345-350.	1.8	49
129	The Pediatrix BabySteps® Data Warehouse – A Unique National Resource for Improving Outcomes for Neonates. Indian Journal of Pediatrics, 2015, 82, 71-79.	0.8	30
130	No Survival Benefit With Empirical Vancomycin Therapy for Coagulase-negative Staphylococcal Bloodstream Infections in Infants. Pediatric Infectious Disease Journal, 2015, 34, 371-375.	2.0	40
131	Off-Label Use of Inhaled Nitric Oxide After Release of NIH Consensus Statement. Pediatrics, 2015, 135, 643-648.	2.1	60
132	Burden of Invasive <i>Staphylococcus aureus</i> Infections in Hospitalized Infants. JAMA Pediatrics, 2015, 169, 1105.	6.2	88
133	Necrotizing Enterocolitis in Infants with Ductal-Dependent Congenital Heart Disease. American Journal of Perinatology, 2015, 32, 633-638.	1.4	64
134	Rifampin Use and Safety in Hospitalized Infants. American Journal of Perinatology, 2015, 32, 565-570.	1.4	7
135	Management Practice and Mortality for Infants with Congenital Diaphragmatic Hernia. American Journal of Perinatology, 2015, 32, 887-894.	1.4	23
136	Comparative effectiveness and safety of indomethacin versus ibuprofen for the treatment of patent ductus arteriosus. Early Human Development, 2015, 91, 725-729.	1.8	17
137	Anaerobic Antimicrobial Therapy After Necrotizing Enterocolitis in VLBW Infants. Pediatrics, 2015, 135, e117-e125.	2.1	45
138	Etiologies of NICU Deaths. Pediatrics, 2015, 135, e59-e65.	2.1	98
