#	ARTICLE	IF	CITATIONS
1	High-risk sexual behaviours in young people experiencing a first episode of psychosis. <i>Microbial Biotechnology</i> , 2023, 17, 159-166.	0.9	7
2	The association between social deprivation and the rate of identification of individuals at Ultra-High Risk for psychosis and transition to psychosis. <i>International Journal of Social Psychiatry</i> , 2023, 69, 294-303.	1.6	0
3	What impact does illness severity have on the sexual health of young people affected by mental health disorders? A comparison of inpatients and outpatients. <i>Australasian Psychiatry</i> , 2022, 30, 705-711.	0.4	1
4	Cannabidiol for at risk for psychosis youth: A randomized controlled trial. <i>Microbial Biotechnology</i> , 2022, 16, 419-432.	0.9	9
5	The incidence and admission rate for first-episode psychosis in young people before and during the COVID-19 pandemic in Melbourne, Australia. <i>Australian and New Zealand Journal of Psychiatry</i> , 2022, 56, 811-817.	1.3	19
6	Outcomes for first-episode psychosis after entry via an at-risk mental state clinic compared to direct entry to a first episode of psychosis service: A systematic review and meta-analysis. <i>Schizophrenia Research</i> , 2022, 240, 214-219.	1.1	4
7	Proportion and characteristics of young people in a first-episode psychosis clinic who first attended an at-risk mental state service or other specialist youth mental health service. <i>Schizophrenia Research</i> , 2022, 241, 94-101.	1.1	11
8	Delivery of an online psychosocial recovery program during COVID-19: A survey of young people attending a youth mental health service. <i>Microbial Biotechnology</i> , 2022, 16, 1259-1266.	0.9	1
9	Pathways to care for first-generation migrants with first episode psychosis in northwestern metropolitan Melbourne. <i>Australian and New Zealand Journal of Psychiatry</i> , 2022, , 000486742210759.	1.3	3
10	Young migrants to Australia identified as being at ultra-high risk for psychosis: Pathways to care and clinical characteristics. <i>Schizophrenia Research</i> , 2022, 241, 156-160.	1.1	1
11	Tobacco smoking in young people seeking treatment for mental ill-health: what are their attitudes, knowledge and behaviours towards quitting?. <i>Irish Journal of Psychological Medicine</i> , 2021, 38, 30-39.	0.7	6
12	Risk of psychotic disorders in migrants to Australia. <i>Psychological Medicine</i> , 2021, 51, 1192-1200.	2.7	21
13	Physical health trajectories of young people commenced on clozapine. <i>Irish Journal of Psychological Medicine</i> , 2021, 38, 49-55.	0.7	3
14	Evaluation of an exercise physiology service in a youth mental health service. <i>Irish Journal of Psychological Medicine</i> , 2021, 38, 56-61.	0.7	5
15	Symptomatic, functional and service utilization outcomes of migrants with a first episode of psychosis. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2021, 56, 1389-1397.	1.6	4
16	Socio-demographic and clinical characteristics of migrants to Ireland presenting with a first episode of psychosis. <i>Irish Journal of Psychological Medicine</i> , 2021, , 1-7.	0.7	1
17	A double-edged sword " Metabolic complications of clozapine in a rural area. <i>Schizophrenia Research</i> , 2021, 228, 260-261.	1.1	0
18	The associations between migrant status and ethnicity and the identification of individuals at ultra-high risk for psychosis and transition to psychosis: a systematic review. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2021, 56, 1923-1941.	1.6	8

#	ARTICLE	IF	CITATIONS
19	Differentiating the effect of antipsychotic medication and illness on brain volume reductions in first-episode psychosis: A Longitudinal, Randomised, Triple-blind, Placebo-controlled MRI Study. <i>Neuropsychopharmacology</i> , 2021, 46, 1494-1501.	2.8	44
20	Addressing physical health in mental illness: the urgent need to translate evidence-based interventions into routine clinical practice. <i>Irish Journal of Psychological Medicine</i> , 2021, 38, 1-5.	0.7	5
21	A pilot study of a yoga intervention for the treatment of anxiety in young people with early psychosis. <i>Microbial Biotechnology</i> , 2021, , .	0.9	5
22	Temporal variation in the incidence of treated psychotic disorders in young people. <i>Schizophrenia Research</i> , 2021, 231, 221-226.	1.1	4
23	Response to "Diagnostic uncertainty, antipsychotic dosing, and optimal psychosocial interventions: Unanswered questions in first-episode psychosis". <i>Schizophrenia Research</i> , 2021, 231, 1-2.	1.1	0
24	Risk of first-episode psychosis in migrants to the Republic of Ireland. <i>Psychological Medicine</i> , 2021, , 1-8.	2.7	2
25	Effective Connectivity of Fronto-Striato-Thalamic Circuitry Across the Psychosis Continuum. <i>Biological Psychiatry</i> , 2021, 89, S356.	0.7	2
26	Longitudinal Changes in Functional Connectivity in Antipsychotic-Treated and Antipsychotic-Naive Patients With First Episode Psychosis: A Randomized, Triple-Blind Placebo-Controlled fMRI Study. <i>Biological Psychiatry</i> , 2021, 89, S174.	0.7	0
27	Cognitive ability and metabolic physical health in first-episode psychosis. <i>Schizophrenia Research: Cognition</i> , 2021, 24, 100194.	0.7	5
28	Sedentary behaviour in young people presenting with a first episode of psychosis before and during the covid-19 pandemic restrictions. <i>Schizophrenia Research</i> , 2021, 233, 31-33.	1.1	2
29	Improving the Sexual Health of Young People (under 25) in High-Risk Populations: A Systematic Review of Behavioural and Psychosocial Interventions. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 9063.	1.2	5
30	Functional Connectivity in Antipsychotic-Treated and Antipsychotic-Naive Patients With First-Episode Psychosis and Low Risk of Self-harm or Aggression. <i>JAMA Psychiatry</i> , 2021, 78, 994.	6.0	40
31	The association between vitamin D and symptom domains in psychotic disorders: A systematic review. <i>Schizophrenia Research</i> , 2021, 237, 79-92.	1.1	7
32	The association between migrant status and transition in an ultra-high risk for psychosis population. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2021, 56, 943-952.	1.6	5
33	The need for early intervention for psychosis to persist throughout the COVID-19 pandemic and beyond. <i>Irish Journal of Psychological Medicine</i> , 2021, 38, 214-219.	0.7	14
34	The use of clozapine in a rural and remote region of Australia. <i>Australasian Psychiatry</i> , 2021, 29, 134-138.	0.4	2
35	Early intervention in psychosis: health economic evaluation using the net benefit approach in a real-world setting. <i>British Journal of Psychiatry</i> , 2020, 217, 484-490.	1.7	20
36	Prevalence of subthreshold positive symptoms in young people without psychotic disorders presenting to a youth mental health service. <i>Schizophrenia Research</i> , 2020, 215, 446-448.	1.1	3

#	ARTICLE	IF	CITATIONS
37	Physical health assistance in early recovery of psychosis: Study protocol for a randomized controlled trial. <i>Microbial Biotechnology</i> , 2020, 14, 587-593.	0.9	6
38	Migrant status and identification as ultra-high risk for psychosis and transitioning to a psychotic disorder. <i>Acta Psychiatrica Scandinavica</i> , 2020, 141, 52-59.	2.2	15
39	The effect of Clinical Practice Guidelines on prescribing practice in mental health: A systematic review. <i>Psychiatry Research</i> , 2020, 284, 112671.	1.7	13
40	Reduction in the prescription of Olanzapine as a first-line treatment for first episode psychosis following the implementation of clinical practice guidelines. <i>Schizophrenia Research</i> , 2020, 215, 469-470.	1.1	4
41	Prevalence and outcomes of young people with concurrent autism spectrum disorder and first episode of psychosis. <i>Schizophrenia Research</i> , 2020, 216, 310-315.	1.1	14
42	Terminology and assessment tools of psychosis: A systematic narrative review. <i>Psychiatry and Clinical Neurosciences</i> , 2020, 74, 226-246.	1.0	27
43	A systematic review of the effectiveness of group-based exercise interventions for individuals with first episode psychosis. <i>Psychiatry Research</i> , 2020, 293, 113402.	1.7	10
44	Rates and Predictors of Relapse in First-Episode Psychosis: An Australian Cohort Study. <i>Schizophrenia Bulletin Open</i> , 2020, 1, .	0.9	23
45	The potential impact of COVID-19 on psychosis: A rapid review of contemporary epidemic and pandemic research. <i>Schizophrenia Research</i> , 2020, 222, 79-87.	1.1	272
46	The relationship between early risk-taking behavior and mental health problems among a nationally representative sample of Australian youth. <i>Journal of Affective Disorders</i> , 2020, 272, 239-248.	2.0	7
47	Psychosocial Intervention With or Without Antipsychotic Medication for First-Episode Psychosis: A Randomized Noninferiority Clinical Trial. <i>Schizophrenia Bulletin Open</i> , 2020, 1, .	0.9	45
48	Assessing physical activity in people with mental illness: 23-country reliability and validity of the simple physical activity questionnaire (SIMPAQ). <i>BMC Psychiatry</i> , 2020, 20, 108.	1.1	73
49	A case of multiple sclerosis presenting as first-episode psychosis in a young person. <i>Australian and New Zealand Journal of Psychiatry</i> , 2020, 54, 942-942.	1.3	2
50	Outcomes for migrants with a first episode of psychosis: A systematic review. <i>Schizophrenia Research</i> , 2020, 222, 42-48.	1.1	7
51	Preliminary psychometric properties of a measure of social inclusion for young adults aged 18 to 25 with serious mental illness.. <i>Psychiatric Rehabilitation Journal</i> , 2020, 43, 156-169.	0.8	6
52	High-risk sexual behaviour in young people with mental health disorders. <i>Microbial Biotechnology</i> , 2019, 13, 867-873.	0.9	17
53	Is a higher dose of antipsychotic medication required to treat a relapse following discontinuation in first episode psychosis?. <i>Schizophrenia Research</i> , 2019, 204, 407-408.	1.1	4
54	Delays and barriers to the commencement of clozapine in eligible people with a psychotic disorder: A literature review. <i>Microbial Biotechnology</i> , 2019, 13, 18-23.	0.9	35

#	ARTICLE	IF	CITATIONS
55	The Lancet Psychiatry Commission: a blueprint for protecting physical health in people with mental illness. <i>Lancet Psychiatry</i> , 2019, 6, 675-712.	3.7	815
56	Defining disengagement from mental health services for individuals experiencing first episode psychosis: a systematic review. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2019, 54, 1325-1335.	1.6	9
57	Residential social drift in the two years following a first episode of psychosis. <i>Schizophrenia Research</i> , 2019, 210, 323-325.	1.1	7
58	38.1 MIGRANTS FROM AFRICA TO AUSTRALIA HAVE AN INCREASED RISK OF DEVELOPING A PSYCHOTIC DISORDER BUT ARE UNDER-REPRESENTED IN ULTRA-HIGH RISK FOR PSYCHOSIS CLINICS. <i>Schizophrenia Bulletin</i> , 2019, 45, S149-S149.	2.3	1
59	Group differences in social inclusion between young adults aged 18 to 25 with serious mental illness and same-aged peers from the general community. <i>International Journal of Social Psychiatry</i> , 2019, 65, 631-642.	1.6	5
60	Incidence of treated first episode psychosis from an Australian early intervention service and its association with neighbourhood characteristics. <i>Schizophrenia Research</i> , 2019, 209, 206-211.	1.1	24
61	The association between community and service level factors and rates of disengagement in individuals with first episode psychosis. <i>Schizophrenia Research</i> , 2019, 210, 122-127.	1.1	8
62	The rates and determinants of disengagement and subsequent re-engagement in young people with first-episode psychosis. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2019, 54, 945-953.	1.6	22
63	Characteristics and outcomes of young people with substance induced psychotic disorder. <i>Schizophrenia Research</i> , 2019, 206, 257-262.	1.1	24
64	Prevalence and predictors of restrictive interventions in a youth-specific mental health inpatient unit. <i>Microbial Biotechnology</i> , 2019, 13, 1105-1110.	0.9	6
65	Rates, determinants and outcomes associated with the use of community treatment orders in young people experiencing first episode psychosis. <i>International Journal of Law and Psychiatry</i> , 2019, 62, 85-89.	0.5	6
66	Can antipsychotic dose reduction lead to better functional recovery in first-episode psychosis? A randomized controlled trial of antipsychotic dose reduction. The reduce trial: Study protocol. <i>Microbial Biotechnology</i> , 2019, 13, 1345-1356.	0.9	19
67	Staged treatment and acceptability guidelines in early psychosis study (STAGES): A randomized placebo controlled trial of intensive psychosocial treatment plus or minus antipsychotic medication for first-episode psychosis with low risk of self-harm or aggression. Study protocol and baseline characteristics of participants. <i>Microbial Biotechnology</i> , 2019, 13, 953-960.	0.9	19
68	Rethinking vulnerable groups in clinical research. <i>Irish Journal of Psychological Medicine</i> , 2019, 36, 63-71.	0.7	16
69	Response to Lex Wunderink's query as to whether the development of supersensitivity could explain the greater risk of relapse in individuals with a longer duration of treatment with antipsychotic medication. <i>Schizophrenia Research</i> , 2018, 197, 599-600.	1.1	0
70	Clozapine use in early psychosis. <i>Schizophrenia Research</i> , 2018, 199, 374-379.	1.1	23
71	Inpatient care for emerging adults affected by mental health disorders. <i>Microbial Biotechnology</i> , 2018, 12, 771-773.	0.9	2
72	Effects of Cannabis Use in Those at Ultra-High Risk for Psychosis. , 2018, , 167-181.		4

#	ARTICLE	IF	CITATIONS
73	Early Intervention – An Implementation Challenge for 21st Century Mental Health Care. <i>JAMA Psychiatry</i> , 2018, 75, 545.	6.0	71
74	Rates and predictors of relapse following discontinuation of antipsychotic medication after a first episode of psychosis. <i>Schizophrenia Research</i> , 2018, 195, 231-236.	1.1	49
75	Negative symptoms of psychosis: A life course approach and implications for prevention and treatment. <i>Microbial Biotechnology</i> , 2018, 12, 561-571.	0.9	28
76	Clinical and demographic predictors of continuing remission or relapse following discontinuation of antipsychotic medication after a first episode of psychosis. A systematic review. <i>Schizophrenia Research</i> , 2018, 197, 9-18.	1.1	51
77	Screening for the ultra-high risk state in a youth mental health service. <i>Schizophrenia Research</i> , 2018, 202, 401-403.	1.1	4
78	Subjective and objective quality of life at first presentation with psychosis. <i>Microbial Biotechnology</i> , 2017, 11, 401-410.	0.9	8
79	Predictors of favourable outcome in young people with a first episode psychosis without antipsychotic medication. <i>Schizophrenia Research</i> , 2017, 185, 130-136.	1.1	19
80	Sexual functioning and experiences in young people affected by mental health disorders. <i>Psychiatry Research</i> , 2017, 253, 249-255.	1.7	21
81	Service users' perspective of their admission: a report of study findings. <i>Irish Journal of Psychological Medicine</i> , 2017, 34, 251-260.	0.7	7
82	Predictors of change in social networks, support and satisfaction following a first episode psychosis: A cohort study. <i>International Journal of Nursing Studies</i> , 2017, 76, 28-35.	2.5	8
83	Coercion: an understudied issue in mental health. <i>Irish Journal of Psychological Medicine</i> , 2017, 34, 221-222.	0.7	0
84	A randomized study of a smartphone application compared with booklet to improve service users' knowledge of their legal rights. <i>Irish Journal of Psychological Medicine</i> , 2017, 34, 287-293.	0.7	0
