#	ARTICLE	IF	CITATIONS
1	Fears, beliefs, and quality of life of patients with cancer vs the general population during the coronavirus disease 2019 (COVID-19) pandemic in Lombardy. <i>Tumori</i> , 2022, 108, 431-438.	1.1	4
2	Physicians' Opinion and Practice With the Continuous Use of Sedatives in the Last Days of Life. <i>Journal of Pain and Symptom Management</i> , 2022, 63, 78-87.	1.2	16
3	Italian version of the Edmonton Symptom Assessment System (ESAS)â€œTotal Care (TC): development and psychometric validation in patients undergoing cancer treatment or follow-up. <i>Supportive Care in Cancer</i> , 2022, 30, 1923-1933.	2.2	7
4	Quality of life improvement in breast cancer survivors affected by upper limb lymphedema through a novel multiperspective physical activity methodology: a monocentric pilot study. <i>Breast Cancer</i> , 2022, , 1.	2.9	2
5	Intercountry and intracountry variations in opinions of palliative care specialist physicians in Germany, Italy, Japan and UK about continuous use of sedatives: an international cross-sectional survey. <i>BMJ Open</i> , 2022, 12, e060489.	1.9	4
6	Exclusive endocrine therapy or partial breast irradiation for women aged â‰¥70 â‰¥ years with luminal A-like early stage breast cancer (NCT04134598 â€œEUROPA): Proof of concept of a randomized controlled trial comparing health related quality of life by patient reported outcome measures. <i>Journal of Geriatric Oncology</i> , 2021, 12, 182-189.	1.0	42
7	Functional impairment, symptom severity, and overall quality of life in patients with advanced lung or colorectal cancer in six European countries: baseline findings from the ACTION study. <i>Supportive Care in Cancer</i> , 2021, 29, 5797-5810.	2.2	6
8	Rapid and sound assessment of well-being within a multi-dimensional approach: The Well-being Numerical Rating Scales (WB-NRSs). <i>PLoS ONE</i> , 2021, 16, e0252709.	2.5	9
9	Ethical Concerns With Continuous Deep Sedation Until Death in France. <i>Journal of Pain and Symptom Management</i> , 2021, 62, e5-e6.	1.2	0
10	Act of Consoling Helps Those Who Console: A Multicenter Observational Survey Study in Hospice Services. <i>Journal of Palliative Medicine</i> , 2021, 24, 1226-1231.	1.1	0
11	Missing not at random in end of life care studies: multiple imputation and sensitivity analysis on data from the ACTION study. <i>BMC Medical Research Methodology</i> , 2021, 21, 13.	3.1	18
12	The Path of Cicely Saunders: The â€œPeculiar Beautyâ€œ of Palliative Care. <i>Journal of Palliative Care</i> , 2020, 35, 3-7.	1.0	17
13	Coping strategies of patients with advanced lung or colorectal cancer in six European countries: Insights from the ACTION Study. <i>Psycho-Oncology</i> , 2020, 29, 347-355.	2.3	12
14	Primary palliative care for older people in three European countries: a mortality follow-back quality study. <i>BMJ Supportive and Palliative Care</i> , 2020, 10, 462-468.	1.6	8
15	Tailored Sailing Experience to Reduce Psychological Distress and Improve the Quality of Life of Breast Cancer Survivors: A Survey-Based Pilot Study. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 4406.	2.6	5
16	Advance care planning in patients with advanced cancer: A 6-country, cluster-randomised clinical trial. <i>PLoS Medicine</i> , 2020, 17, e1003422.	8.4	68
17	Title is missing!. , 2020, 17, e1003422.		0
18	Title is missing!. , 2020, 17, e1003422.		0

#	ARTICLE	IF	CITATIONS
19	Title is missing!. , 2020, 17, e1003422.		0
20	Title is missing!. , 2020, 17, e1003422.		0
21	Title is missing!. , 2020, 17, e1003422.		0
22	Title is missing!. , 2020, 17, e1003422.		0
23	Title is missing!. , 2020, 17, e1003422.		0
24	Psychological well-being and quality of life in visually impaired baseball players: An Italian national survey. PLoS ONE, 2019, 14, e0218124.	2.5	10
25	Interprofessional spiritual care in oncology: a literature review. ESMO Open, 2019, 4, e000465.	4.5	61
26	Assessing Emotional Functioning with Increased Power: Relative Validity of a Customized EORTC Short Form in the International ACTION Trial. Value in Health, 2019, 22, 92-98.	0.3	3
27	Discussions about palliative sedation in hospice: Frequency, timing and factors associated with patient involvement. European Journal of Cancer Care, 2019, 28, e13019.	1.5	7
28	Sociodemographic, clinical, and psychological characteristics identify groups of Italian cancer patients with high rates of unmet needs. Tumori, 2019, 105, 288-295.	1.1	5
29	Construction of new personal meanings by cancer patients: a qualitative analysis in an Italian patient population. Supportive Care in Cancer, 2019, 27, 1911-1918.	2.2	3
30	Relationships among unmet needs, depression, and anxiety in non-advanced cancer patients. Tumori, 2019, 105, 144-150.	1.1	23
31	Self-reported active lifestyle behavior and upper limb disability in breast cancer survivors following a structured adapted physical activity intervention. Gazzetta Medica Italiana Archivio Per Le Scienze Mediche, 2019, 178, .	0.1	0
32	Does low-dose aspirin use for cardiovascular disease prevention reduce colorectal cancer deaths? A comparison of two cohorts in the Florence district, Italy. European Journal of Cancer Prevention, 2018, 27, 134-139.	1.3	8
33	Live music intervention for cancer inpatients: The Music Givers format. Palliative and Supportive Care, 2018, 16, 777-784.	1.0	10
34	Longitudinal assessment of the impact of adapted physical activity on upper limb disability and quality of life in breast cancer survivors from an Italian cohort. Supportive Care in Cancer, 2018, 26, 329-332.	2.2	18
35	Integration of oncology and palliative care: a Lancet Oncology Commission. Lancet Oncology, The, 2018, 19, e588-e653.	10.7	452
36	Unmet needs of Italian cancer patients in different stages of the disease and care process. Tumori, 2018, 104, 285-291.	1.1	14

#	ARTICLE	IF	CITATIONS
37	Differences in primary palliative care between people with organ failure and people with cancer: An international mortality follow-back study using quality indicators. <i>Palliative Medicine</i> , 2018, 32, 1498-1508.	3.1	13
38	Quality of primary palliative care for older people with mild and severe dementia: an international mortality follow-back study using quality indicators. <i>Age and Ageing</i> , 2018, 47, 824-833.	1.6	13
39	Spiritual care in cancer patients: a need or an option?. <i>Current Opinion in Oncology</i> , 2018, 30, 212-218.	2.4	47
40	Are Three Items Sufficient to Measure Sense of Coherence?. <i>European Journal of Psychological Assessment</i> , 2018, 34, 229-237.	3.0	12
41	Effects of a specific adapted upper limb exercise on lymphedema in breast cancer survivors: a pilot study. <i>Gazzetta Medica Italiana Archivio Per Le Scienze Mediche</i> , 2018, 177, .	0.1	1
42	Final transitions to place of death: patients and families wishes. <i>Journal of Public Health</i> , 2017, 39, e302-e311.	1.8	5
43	End-of-life care for people dying with dementia in general practice in Belgium, Italy and Spain: A cross-sectional, retrospective study. <i>Geriatrics and Gerontology International</i> , 2017, 17, 1667-1676.	1.5	10
44	Parental presence in Italian pediatric intensive care units: a reappraisal of current visiting policies. <i>Intensive Care Medicine</i> , 2017, 43, 458-459.	8.2	7
45	Accelerated partial breast irradiation using intensity modulated radiotherapy versus whole breast irradiation: Health-related quality of life final analysis from the Florence phase 3 trial. <i>European Journal of Cancer</i> , 2017, 76, 17-26.	2.8	43
46	Differences in place of death between lung cancer and COPD patients: a 14-country study using death certificate data. <i>Npj Primary Care Respiratory Medicine</i> , 2017, 27, 14.	2.6	52
47	Live concerts reduce cancer inpatients' anxiety. <i>European Journal of Cancer Care</i> , 2017, 26, e12590.	1.5	2
48	Palliative sedation: ethical aspects. <i>Minerva Anestesiologica</i> , 2017, 83, 1317-1323.	1.0	19
49	Long-Term Benefits of Adapted Physical Activity on Upper Limb Performance and Quality of Life in Breast Cancer Survivors. <i>Journal of Functional Morphology and Kinesiology</i> , 2017, 2, 38.	2.4	4
50	Mechanical ventilation withdrawal at end of life: terminal extubation and terminal weaning. <i>Minerva Anestesiologica</i> , 2017, 83, 350-352.	1.0	3
51	Assessing unmet needs in patients with cancer: An investigation of differential item functioning of the Needs Evaluation Questionnaire across gender, age and phase of the disease. <i>PLoS ONE</i> , 2017, 12, e0179765.	2.5	21
52	Hospitalisations at the end-of-life in four European countries: a population-based study via epidemiological surveillance networks. <i>Journal of Epidemiology and Community Health</i> , 2016, 70, 430-436.	3.7	28
53	Evaluation of Social Support, Quality of Life, and Body Image in Women with Breast Cancer. <i>Breast Care</i> , 2016, 11, 28-32.	1.4	52
54	Psychological Distress and Health-Related Quality of Life among Head and Neck Cancer Patients during the First Year after Treatment. <i>Tumori</i> , 2016, 102, 96-102.	1.1	18

#	ARTICLE	IF	CITATIONS
55	Advance care planning "a multi-centre cluster randomised clinical trial: the research protocol of the ACTION study. BMC Cancer, 2016, 16, 264.	2.6	43
56	Use of the Needs Evaluation Questionnaire with cancer outpatients. Supportive Care in Cancer, 2016, 24, 3507-3515.	2.2	22
57	Differences in psychophysical well-being and signs of depression in couples undergoing their first consultation for assisted reproduction technology (ART): an Italian pilot study. European Journal of Obstetrics, Gynecology and Reproductive Biology, 2016, 197, 179-185.	1.1	26
58	Place of death in the population dying from diseases indicative of palliative care need: a cross-national population-level study in 14 countries. Journal of Epidemiology and Community Health, 2016, 70, 17-24.	3.7	150
59	Is it possible to encourage hope in non-advanced cancer patients? We must try. Annals of Oncology, 2016, 27, 513-519.	1.2	26
60	Seeking and experiencing meaning: Exploring the role of meaning in promoting mental adjustment and eudaimonic well-being in cancer patients. Palliative and Supportive Care, 2015, 13, 673-681.	1.0	19
61	Complementary needs behind complementary therapies in cancer patients. Psycho-Oncology, 2015, 24, 1124-1130.	2.3	17
62	Transitions between health care settings in the final three months of life in four EU countries. European Journal of Public Health, 2015, 25, 569-575.	0.3	53
63	Contesting the Equivalency of Continuous Sedation until Death and Physician-assisted Suicide/Euthanasia: A Commentary on LiPuma. Journal of Medicine and Philosophy, 2015, 40, 529-553.	0.8	9
64	Physical and Psychological Distress Are Related to Dying Peacefully in Residents With Dementia in Long-Term Care Facilities. Journal of Pain and Symptom Management, 2015, 50, 1-8.	1.2	13
65	International study of the place of death of people with cancer: a population-level comparison of 14 countries across 4 continents using death certificate data. British Journal of Cancer, 2015, 113, 1397-1404.	6.4	158
66	Do you agree with the doctor's decision to continue treatment? A scenario-based study of hospital nurses in Italy. Annali Dell'Istituto Superiore Di Sanita, 2015, 51, 352-7.	0.4	0
67	Actual and Preferred Place of Death of Home-Dwelling Patients in Four European Countries: Making Sense of Quality Indicators. PLoS ONE, 2014, 9, e93762.	2.5	119
68	Factors Associated with Fulfilling the Preference for Dying at Home among Cancer Patients: The role of General Practitioners. Journal of Palliative Care, 2014, 30, 141-150.	1.0	16
69	Sexual Satisfaction Assessment in 194 Nonmetastatic Cancer Patients on Treatment or in follow-up. Tumori, 2014, 100, 232-236.	1.1	2
70	Care provided and care setting transitions in the last three months of life of cancer patients: a nationwide monitoring study in four European countries. BMC Cancer, 2014, 14, 960.	2.6	32
71	End-of-life care in general practice: A cross-sectional, retrospective survey of "cancer"™, "organ failure"™ and "old-age/dementia"™ patients. Palliative Medicine, 2014, 28, 965-975.	3.1	53
72	Burden on family carers and care-related financial strain at the end of life: a cross-national population-based study. European Journal of Public Health, 2014, 24, 819-826.	0.3	33

#	ARTICLE	IF	CITATIONS
73	How do general end-of-life treatment goals and values relate to specific treatment preferences? A population-based study. <i>Palliative Medicine</i> , 2014, 28, 1206-1212.	3.1	16
74	Physician-reported practices on continuous deep sedation until death: A descriptive and comparative study. <i>Palliative Medicine</i> , 2014, 28, 491-500.	3.1	14
75	Hospitalizations of cancer patients in the last month of life: quality indicator scores reveal large variation between four European countries in a mortality follow-back study. <i>BMC Palliative Care</i> , 2014, 13, 54.	1.8	20
76	A comparison of drugs and procedures of care in the Italian hospice and hospital settings: the final three days of life for cancer patients. <i>BMC Health Services Research</i> , 2014, 14, 496.	2.2	13
77	Experience of an information aid for newly diagnosed multiple sclerosis patients: a qualitative study on the SIMS trial. <i>Health Expectations</i> , 2014, 17, 36-48.	2.6	12
78	End-of-Life Communication: A Retrospective Survey of Representative General Practitioner Networks in Four Countries. <i>Journal of Pain and Symptom Management</i> , 2014, 47, 604-619.e3.	1.2	66
79	How Are Patient Populations Characterized in Studies Investigating Depression in Advanced Cancer? Results From a Systematic Literature Review. <i>Journal of Pain and Symptom Management</i> , 2014, 48, 678-698.	1.2	15
80	Use and Perceived Benefits of Complementary Therapies by Cancer Patients Receiving Conventional Treatment in Italy. <i>Journal of Pain and Symptom Management</i> , 2014, 47, 26-34.	1.2	32
81	The Edmonton Symptom Assessment System (ESAS) as a screening tool for depression and anxiety in non-advanced patients with solid or haematological malignancies on cure or follow-up. <i>Supportive Care in Cancer</i> , 2014, 22, 783-793.	2.2	33
82	Validation of the Consensus-Definition for Cancer Cachexia and evaluation of a classification model—a study based on data from an international multicentre project (EPCRC-CSA). <i>Annals of Oncology</i> , 2014, 25, 1635-1642.	1.2	190
83	Liverpool Care Pathway for patients with cancer in hospital: a cluster randomised trial. <i>Lancet</i> , The, 2014, 383, 226-237.	13.7	76
84	Feasibility of assessing quality of care at the end of life in two cluster trials using an after-death approach with multiple assessments. <i>BMC Palliative Care</i> , 2014, 13, 36.	1.8	2
85	Are There Differences in the Prevalence of Palliative Care-Related Problems in People Living With Advanced Cancer and Eight Non-Cancer Conditions? A Systematic Review. <i>Journal of Pain and Symptom Management</i> , 2014, 48, 660-677.	1.2	322
86	Evidence for Adapted Physical Activity as an Effective Intervention for Upper Limb Mobility and Quality of Life in Breast Cancer Survivors. <i>Journal of Physical Activity and Health</i> , 2014, 11, 814-822.	2.0	18
87	Sexual satisfaction assessment in 194 nonmetastatic cancer patients on treatment or in follow-up. <i>Tumori</i> , 2014, 100, 232-6.	1.1	2
88	Cost profiles of colorectal cancer patients in Italy based on individual patterns of care. <i>BMC Cancer</i> , 2013, 13, 329.	2.6	18
89	Impact of a psycho-oncological rehabilitation intervention on psychological distress: the experience of CeRiOn (Oncological Rehabilitation Centre) Florence 2007–2010. <i>Supportive Care in Cancer</i> , 2013, 21, 2381-2386.	2.2	3
90	Nationwide continuous monitoring of end-of-life care via representative networks of general practitioners in Europe. <i>BMC Family Practice</i> , 2013, 14, 73.	2.9	39

#	ARTICLE	IF	CITATIONS
91	Partial liberalization of visiting policies and ICU staff: a before-and-after study. <i>Intensive Care Medicine</i> , 2013, 39, 2180-2187.	8.2	65
