

Emanuela Sozio

List of Publications by Citations

Source: <https://exaly.com/author-pdf/596995/emanuela-sozio-publications-by-citations.pdf>

Version: 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
37	AmpC β -lactamase-producing Enterobacterales: what a clinician should know. <i>Infection</i> , 2019 , 47, 363-375	5.8	54
36	Assessment of risk factors for candidemia in non-neutropenic patients hospitalized in Internal Medicine wards: A multicenter study. <i>European Journal of Internal Medicine</i> , 2017 , 41, 33-38	3.9	27
35	The role of biofilm forming on mortality in patients with candidemia: a study derived from real world data. <i>Infectious Diseases</i> , 2018 , 50, 214-219	3.1	17
34	Exploring ecological modelling to investigate factors governing the colonization success in nosocomial environment of <i>Candida albicans</i> and other pathogenic yeasts. <i>Scientific Reports</i> , 2016 , 6, 26860	4.9	17
33	Impact of infectious diseases consultation as a part of an antifungal stewardship programme on candidemia outcome in an Italian tertiary-care, University hospital. <i>Journal of Chemotherapy</i> , 2018 , 30, 304-309	2.3	17
32	Independent risk factors for mortality in critically ill patients with candidemia on Italian Internal Medicine Wards. <i>Internal and Emergency Medicine</i> , 2018 , 13, 199-204	3.7	16
31	Focus on the prophylaxis, epidemiology and therapy of methicillin-resistant <i>Staphylococcus aureus</i> surgical site infections and a position paper on associated risk factors: the perspective of an Italian group of surgeons. <i>World Journal of Emergency Surgery</i> , 2016 , 11, 26	9.2	16
30	Candidemia in Patients with Body Temperature Below 37°C and Admitted to Internal Medicine Wards: Assessment of Risk Factors. <i>American Journal of Medicine</i> , 2016 , 129, 1330.e1-1330.e6	2.4	15
29	Peripherally inserted central catheter as a predominant risk factor for candidemia in critically ill patients in Internal Medicine wards in Italy. <i>Intensive Care Medicine</i> , 2015 , 41, 1498-9	14.5	14
28	Blood ozonization in patients with mild to moderate COVID-19 pneumonia: a single centre experience. <i>Internal and Emergency Medicine</i> , 2021 , 16, 669-675	3.7	12
27	Early recognition of methicillin-resistant surgical site infections using risk and protective factors identified by a group of Italian surgeons through Delphi method. <i>World Journal of Emergency Surgery</i> , 2017 , 12, 25	9.2	11
26	MR-proADM as prognostic factor of outcome in COVID-19 patients. <i>Scientific Reports</i> , 2021 , 11, 5121	4.9	11
25	Clinical Management of Adult Patients with COVID-19 Outside Intensive Care Units: Guidelines from the Italian Society of Anti-Infective Therapy (SITA) and the Italian Society of Pulmonology (SIP). <i>Infectious Diseases and Therapy</i> , 2021 , 10, 1837-1885	6.2	10
24	Procalcitonin, white blood cell count and C-reactive protein as predictors of <i>S. aureus</i> infection and mortality in infective endocarditis. <i>International Journal of Cardiology</i> , 2020 , 301, 190-194	3.2	7
23	Variable incidence of candidemia in patients admitted to ICUs or medical wards of large tertiary-care Italian hospitals. <i>Clinical Microbiology and Infection</i> , 2015 , 21, e71-2	9.5	6
22	A prediction rule for early recognition of patients with candidemia in Internal Medicine: results from an Italian, multicentric, case-control study. <i>Infection</i> , 2018 , 46, 625-633	5.8	6
21	Personalized machine learning approach to predict candidemia in medical wards. <i>Infection</i> , 2020 , 48, 749-759	5.8	6

20	Fungicidal activity and PK/PD of caspofungin as tools to guide antifungal therapy in a fluconazole-resistant <i>C. parapsilosis</i> candidemia. <i>Journal of Chemotherapy</i> , 2017 , 29, 376-379	2.3	5
19	Mid-regional pro-adrenomedullin as a supplementary tool to clinical parameters in cases of suspicion of infection in the emergency department. <i>Expert Review of Molecular Diagnostics</i> , 2021 , 21, 397-404	3.8	4
18	Risk factors for candidaemia in critically ill patients in intensive care units as compared to internal medicine wards. <i>Infectious Diseases</i> , 2017 , 49, 153-154	3.1	3
17	Statins during daptomycin therapy: to give or not to give?. <i>Minerva Anestesiologica</i> , 2019 , 85, 689-690	1.9	3
16	D-Dimer as Biomarker for Early Prediction of Clinical Outcomes in Patients With Severe Invasive Infections Due to and. <i>Frontiers in Medicine</i> , 2021 , 8, 627830	4.9	3
15	Reading and understanding an antibiogram. <i>Italian Journal of Medicine</i> , 2016 , 10, 289	0.5	3
14	Antifungal Stewardship Programs and Candidemia. <i>Clinical Infectious Diseases</i> , 2020 , 70, 1522-1523	11.6	2
13	Validation of a Saliva-Based Test for the Molecular Diagnosis of SARS-CoV-2 Infection.. <i>Disease Markers</i> , 2022 , 2022, 6478434	3.2	2
12	Daptomycin-based aminoglycoside-sparing therapy for streptococcal endocarditis: a retrospective multicenter study. <i>Journal of Chemotherapy</i> , 2021 , 33, 435-439	2.3	2
11	Blood ozonization in patients with mild to moderate COVID-19 pneumonia: a single centre experience: reply. <i>Internal and Emergency Medicine</i> , 2021 , 16, 795-796	3.7	2
10	Potential role of IgM-enriched immunoglobulin as adjuvant treatment for invasive meningococcal disease. <i>Intensive Care Medicine</i> , 2018 , 44, 261-262	14.5	2
9	Pericardial Cytokine "Storm" in a COVID-19 Patient: the Confirmation of a Hypothesis. <i>Inflammation</i> , 2021 , 1	5.1	2
8	Icatibant in Severe Acute Respiratory Syndrome Coronavirus 2 Infection: A Case Report. <i>Journal of Investigational Allergology and Clinical Immunology</i> , 2021 , 31, 451-452	2.3	1
7	Accuracy of point-of-care ultrasound to identify the source of infection in septic patients: a prospective study-comment. <i>Internal and Emergency Medicine</i> , 2017 , 12, 1335-1336	3.7	1
6	A Response to: Letter to the Editor Regarding Management of Adult Patients with COVID-19 Outside Intensive Care Units: Guidelines from the Italian Society of Anti-Infective Therapy (SITA) and the Italian Society of Pulmonology (SIP). <i>Infectious Diseases and Therapy</i> , 2021 , 11, 635	6.2	1
5	VALIDATION OF A SALIVA-BASED TEST FOR THE MOLECULAR DIAGNOSIS OF SARS-CoV-2 INFECTION		1
4	Monitoring the SPREAD of the SARS-CoV-2 lineage B.1.621 in Udine, Italy.. <i>Journal of Clinical Pathology</i> , 2021 ,	3.9	1
3	CORonavirus-19 mild to moderate pneumonia Management with blood Ozonization in patients with Respiratory failure (CORMOR) multicentric prospective randomized clinical trial. <i>International Immunopharmacology</i> , 2021 , 98, 107874	5.8	0

- 2 Meningococcal and pneumococcal meningitis in the ICU: an epidemiological report from the Italian GiViTI registry. *Minerva Anestesiologica*, **2021**, 87, 248-250 1.9
- 1 Local occurrence and fast spread of B.1.1.7 lineage: A glimpse into Friuli Venezia Giulia.. *PLoS ONE*, **2021**, 16, e0261229 3.7
