#	ARTICLE	IF	CITATIONS
1	A focus on the association of Apol1 with kidney disease in children. <i>Pediatric Nephrology</i> , 2021, 36, 777-788.	0.9	15
2	Exploring association between MBL2 gene polymorphisms and the occurrence of clinical blackwater fever through a caseâ€“control study in Congolese children. <i>Malaria Journal</i> , 2020, 19, 25.	0.8	1
3	Predictive Model for the Risk of Severe Acute Malnutrition in Children. <i>Journal of Nutrition and Metabolism</i> , 2019, 2019, 1-7.	0.7	27
4	APOL1 Risk Genotypes Are Associated WithÂEarly Kidney Damage in Children inÂSub-Saharan Africa. <i>Kidney International Reports</i> , 2019, 4, 930-938.	0.4	39
5	The clinical characteristics of Congolese children and adolescents suffering from sickle-cell anemia are marked by the high frequencies of epistaxis compared to Western series. <i>Pediatric Hematology and Oncology</i> , 2019, 36, 267-276.	0.3	6
6	The Lipodystrophy Syndrome in HIV-Infected Children under Antiretroviral Therapy: A First Report from the Central Africa. <i>International Journal of Pediatrics (United Kingdom)</i> , 2019, 2019, 1-6.	0.2	6
7	Magnitude of elevated iron stores and risk associated in steady state sickle cell anemia Congolese children: a cross sectional study. <i>BMC Hematology</i> , 2019, 19, 3.	2.6	6
8	Trace elements in children suffering from sickle cell anemia: A caseâ€“control study. <i>Journal of Clinical Laboratory Analysis</i> , 2018, 32, .	0.9	7
9	Protective <i>BCL11A</i> and <i>HBS1L</i> polymorphisms in a cohort of 102 Congolese patients suffering from sickle cell anemia. <i>Journal of Clinical Laboratory Analysis</i> , 2018, 32, .	0.9	6
10	Association between sickle cell anemia and alpha thalassemia reveals a high prevalence of the ± 3.7 triplication in congolese patients than in worldwide series. <i>Journal of Clinical Laboratory Analysis</i> , 2018, 32, .	0.9	10
11	Clinical side effects after oral administration of palm oil and <i>Alchornea cordifolia</i> decoction in a child. <i>Pediatrica Medica E Chirurgica</i> , 2018, 40, .	0.1	1
12	The Impact of Artesunate-Amodiaquine on <i>Schistosoma mansoni</i> Infection among Children Infected by <i>Plasmodium</i> in Rural Area of Lemfu, Kongo Central, Democratic Republic of the Congo. <i>BioMed Research International</i> , 2018, 2018, 1-7.	0.9	8
13	Albumin, copper, manganese and cobalt levels in children suffering from sickle cell anemia at Kasumbalesa, in Democratic Republic of Congo. <i>BMC Hematology</i> , 2018, 18, 23.	2.6	3
14	Clinical phenotypes and the biological parameters of Congolese patients suffering from sickle cell anemia: A first report from Central Africa. <i>Journal of Clinical Laboratory Analysis</i> , 2017, 31, .	0.9	14
15	Glomerular hyperfiltration is strongly correlated with age in Congolese children with sickle cell anaemia. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2017, 106, 819-824.	0.7	10
16	Mosquito-borne viruses circulating in Kinshasa, Democratic Republic of the Congo. <i>International Journal of Infectious Diseases</i> , 2017, 57, 32-37.	1.5	19
17	Validity of simple clinical and biological parameters as screening tool for sickle cell anemia for referral to tertiary center in highly resource constraints. <i>Journal of Clinical Laboratory Analysis</i> , 2017, 31, .	0.9	1
18	Congolese children with sickle cell trait may exhibit glomerular hyperfiltration: A case control study. <i>Journal of Clinical Laboratory Analysis</i> , 2017, 31, .	0.9	6

#	ARTICLE	IF	CITATIONS
19	Detection of human parvovirus B19 in serum samples from children under 5 years of age with rashâ€“fever illnesses in the Democratic Republic of the Congo. <i>International Journal of Infectious Diseases</i> , 2017, 65, 4-7.	1.5	7
20	Factors Associated with Growth Retardation in Children Suffering from Sickle Cell Anemia: First Report from Central Africa. <i>Anemia</i> , 2017, 2017, 1-6.	0.5	17
21	Prevalence and determinants of microalbuminuria in children suffering from sickle cell anemia in steady state. <i>CKJ: Clinical Kidney Journal</i> , 2017, 10, 479-486.	1.4	14
22	Acute Crises and Complications of Sickle Cell Anemia among Patients Attending a Pediatric Tertiary Unit in Kinshasa, Democratic Republic of Congo. <i>Hematology Reports</i> , 2017, 9, 6952.	0.3	8
23	Determinants of Antenatal Care Attendance among Pregnant Women Living in Endemic Malaria Settings: Experience from the Democratic Republic of Congo. <i>Obstetrics and Gynecology International</i> , 2016, 2016, 1-7.	0.5	37
24	High School Students Are a Target Group for Fight against Self-Medication with Antimalarial Drugs: A Pilot Study in University of Kinshasa, Democratic Republic of Congo. <i>Journal of Tropical Medicine</i> , 2016, 2016, 1-3.	0.6	6
25	Spirulina Supplements Improved the Nutritional Status of Undernourished Children Quickly and Significantly: Experience from Kisantu, the Democratic Republic of the Congo. <i>International Journal of Pediatrics (United Kingdom)</i> , 2016, 2016, 1-5.	0.2	21
26	Albuminuria, serum antioxidant enzyme levels and markers of hemolysis and inflammation in steady state children with sickle cell anemia. <i>BMC Nephrology</i> , 2016, 17, 178.	0.8	13
27	Microalbuminuria among HIV-infected antiretroviral therapy-naïve children in the Democratic Republic of Congo. <i>Pediatric Nephrology</i> , 2016, 31, 769-772.	0.9	6
28	High rate of sickle cell anaemia in Sub-Saharan Africa underlines the need to screen all children with severe anaemia for the disease. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2015, 104, 1269-1273.	0.7	15
29	Nephrotic Syndrome in a Child Suffering from Tetralogy of Fallot: A Rare Association. <i>Case Reports in Pediatrics</i> , 2015, 2015, 1-3.	0.2	0
30	Voluntary Counseling and Testing for HIV in Rural Area of Democratic Republic of the Congo: Knowledge, Attitude, and Practice Survey among Service Users. <i>Journal of Tropical Medicine</i> , 2015, 2015, 1-5.	0.6	4
31	A Rare Occurrence of Neonatal Nephroblastoma in Sub-Saharan Africa: A Case Report and Management in a Resource-Constrained Region. <i>Rare Tumors</i> , 2015, 7, 50-52.	0.3	1
32	Simple markers for the detection of severe immunosuppression in children with HIV infection in highly resource-scarce settings: experience from the Democratic Republic of Congo. <i>Pathogens and Global Health</i> , 2015, 109, 300-304.	1.0	1
33	Interactions between malaria and HIV infections in pregnant women: a first report of the magnitude, clinical and laboratory features, and predictive factors in Kinshasa, the Democratic Republic of Congo. <i>Malaria Journal</i> , 2015, 14, 82.	0.8	17
34	Cherubism in Sub-Saharan Africa: A First Case-Report in a Child. <i>Rare Tumors</i> , 2015, 7, 11-13.	0.3	2
35	Rare Occurrence of Ectopia Cordis in a Congolese Neonate. <i>Pediatrics and Neonatology</i> , 2015, 56, 132-133.	0.3	3
36	Severe malaria in children: A descriptive report from Kinshasa, the Democratic Republic of Congo. <i>Journal of Tropical Pediatrics</i> , 2015, 61, 272-278.	0.7	16

#	ARTICLE	IF	CITATIONS
37	Correlation between the Lactate Dehydrogenase Levels with Laboratory Variables in the Clinical Severity of Sickle Cell Anemia in Congolese Patients. PLoS ONE, 2015, 10, e0123568.	1.1	19
38	Assessment of attitudes towards adverse events following immunization with oral poliovirus vaccine: a pilot study among high school students of Kinshasa, the Democratic Republic of Congo. Pathogens and Global Health, 2014, 108, 292-297.	1.0	2
39	The challenges of caring for children with nephrotic syndrome in a tertiary institution in the Democratic Republic of Congo. Acta Paediatrica, International Journal of Paediatrics, 2014, 103, e365-9.	0.7	10
40	Prevalence of Sickle Cell Disease in a Pediatric Population Suffering From Severe Infections: A Congolese Experience. Hemoglobin, 2014, 38, 225-229.	0.4	10
41	Challenge of Managing Sickle Cell Disease in a Pediatric Population Living in Kinshasa, Democratic Republic of Congo: A Sickle Cell Center Experience. Hemoglobin, 2014, 38, 196-200.	0.4	26
42	Renal Function in Children Suffering from Sickle Cell Disease: Challenge of Early Detection in Highly Resource-Scarce Settings. PLoS ONE, 2014, 9, e96561.	1.1	31
43	Malaria, clinical features and acute crisis in children suffering from sickle cell disease in resource-limited settings: a retrospective description of 90 cases. Pathogens and Global Health, 2013, 107, 198-201.	1.0	17
44	Adverse events following immunization with oral poliovirus in Kinshasa, Democratic Republic of Congo: preliminary results. Pathogens and Global Health, 2013, 107, 381-384.	1.0	18
45	Nocturnal enuresis in children in Kinshasa, Democratic Republic of Congo. Acta Paediatrica, International Journal of Paediatrics, 2012, 101, e475-8.	0.7	15
46	Acute renal failure in Congolese children: a tertiary institution experience. Acta Paediatrica, International Journal of Paediatrics, 2012, 101, e514-8.	0.7	37
