#	ARTICLE	IF	CITATIONS
1	Validation of a portable, self-contained individual feeding unit for monitoring supplement intake of grazing cattle. <i>Applied Animal Science</i> , 2022, 38, 150-156.	0.4	2
2	Pregnancy maintenance following sequential induced prostaglandin pulses in beef cows. <i>Domestic Animal Endocrinology</i> , 2022, 80, 106724.	0.8	0
3	Supplementing a blend of magnesium oxide to feedlot cattle: effects on ruminal, physiological, and productive responses. <i>Journal of Animal Science</i> , 2022, 100, .	0.2	5
4	Technical Note: Coccygeal vein catheterization for sampling of reproductive tract-derived products from the uterineâ€“ovarian drainage. <i>Journal of Animal Science</i> , 2021, 99, .	0.2	0
5	Supplementing organic-complexed or inorganic Co, Cu, Mn, and Zn to beef cows during gestation: postweaning responses of offspring reared as replacement heifers or feeder cattle. <i>Journal of Animal Science</i> , 2021, 99, .	0.2	9
6	Supplementing organic-complexed or inorganic Co, Cu, Mn, and Zn to beef cows during gestation: physiological and productive response of cows and their offspring until weaning. <i>Journal of Animal Science</i> , 2021, 99, .	0.2	10
7	Influence of amount and frequency of protein supplementation to steers consuming low-quality, cool-season forage: intake, nutrient digestibility, and ruminal fermentation. <i>Journal of Animal Science</i> , 2021, 99, .	0.2	2
8	Influence of amount and frequency of protein supplementation to ruminants consuming low-quality cool-season forages: efficiency of nitrogen utilization in lambs and performance of gestating beef cows. <i>Journal of Animal Science</i> , 2021, 99, .	0.2	3
9	Supplementing Trace Minerals to Beef Cows during Gestation to Enhance Productive and Health Responses of the Offspring. <i>Animals</i> , 2021, 11, 1159.	1.0	9
10	Omega-6 Fatty Acids: A Sustainable Alternative to Improve Beef Production Efficiency. <i>Animals</i> , 2021, 11, 1764.	1.0	4
11	Effects of temperament on body parameters, ovarian structures and inflammatory response in grazing Nellore cows following fixed-time artificial insemination. <i>Journal of Veterinary Behavior: Clinical Applications and Research</i> , 2021, 44, 50-54.	0.5	3
12	Effects of body condition score at initiation of the breeding season on reproductive performance and overall productivity of <i>Bos taurus</i> and <i>B. indicus</i> beef cows. <i>Animal Reproduction Science</i> , 2021, 232, 106820.	0.5	9
13	Impacts of Nutritional Management During Early Postnatal Life on Long-Term Physiological and Productive Responses of Beef Cattle. <i>Frontiers in Animal Science</i> , 2021, 2, .	0.8	8
14	Effects of Ionophores on Ruminal Function of Beef Cattle. <i>Animals</i> , 2021, 11, 2871.	1.0	19
15	PSVIII-28 Dietary impacts on rumen, vaginal, and uterine environments in beef heifers. <i>Journal of Animal Science</i> , 2021, 99, 322-322.	0.2	0
16	Strategic administration of an appeasing substance to improve performance and physiological responses of <i>Bos indicus</i> feedlot cattle. <i>Journal of Animal Science</i> , 2021, 99, .	0.2	2
17	Effects of supplemental fat and roughage level on intake, growth performance, and health of newly received feedlot calves. <i>Translational Animal Science</i> , 2021, 5, S25-S29.	0.4	2
18	Effects of supplementation with a bioactive phyto-compound on intake, growth performance, and health of newly received feedlot calves. <i>Translational Animal Science</i> , 2021, 5, S16-S19.	0.4	1

#	ARTICLE	IF	CITATIONS
19	Effects of Temperament on the Reproduction of Beef Cattle. <i>Animals</i> , 2021, 11, 3325.	1.0	9
20	Using pregnancy associated glycoproteins (PAG) for pregnancy detection at day 24 of gestation in beef cattle. <i>Theriogenology</i> , 2020, 141, 128-133.	0.9	25
21	Short communication: administering an appeasing substance to <i>Bos indicus</i> -influenced beef cattle at weaning and feedlot entry. <i>Animal</i> , 2020, 14, 566-569.	1.3	12
22	Supplementing a yeast-derived product to feedlot cattle consuming monensin: Impacts on performance, physiological responses, and carcass characteristics. <i>Livestock Science</i> , 2020, 232, 103907.	0.6	9
23	Pregnancy loss in beef cattle: A meta-analysis. <i>Animal Reproduction Science</i> , 2020, 212, 106251.	0.5	95
24	Administering an appeasing substance to optimize performance and health responses in feedlot receiving cattle. <i>Journal of Animal Science</i> , 2020, 98, .	0.2	10
25	Supplementing <i>Yucca schidigera</i> extract to mitigate frothy bloat in beef cattle receiving a high-concentrate diet. <i>Journal of Animal Science</i> , 2020, 98, .	0.2	8
26	Technical Note: Using enzyme-linked immunosorbent assays to evaluate humoral responses to vaccination against respiratory viruses in beef cattle. <i>Journal of Animal Science</i> , 2020, 98, .	0.2	3
27	Using low-moisture molasses-based blocks to supplement Ca salts of soybean oil to forage-fed beef cows. <i>Translational Animal Science</i> , 2020, 4, 933-941.	0.4	4
28	Supplementing Ca salts of soybean oil to late-gestating beef cows: impacts on performance and physiological responses of the offspring. <i>Journal of Animal Science</i> , 2020, 98, .	0.2	9
29	Administering an appeasing substance to beef calves at weaning to optimize productive and health responses during a 42-d preconditioning program. <i>Journal of Animal Science</i> , 2020, 98, .	0.2	8
30	Impacts of subclinical hypocalcemia on physiological, metabolic, and productive responses of Holstein \times Gir dairy cows ¹ . <i>Translational Animal Science</i> , 2020, 4, 1060-1069.	0.4	5
31	Administering an Appeasing Substance to Gir \times Holstein Female Dairy Calves on Pre-Weaning Performance and Disease Incidence. <i>Animals</i> , 2020, 10, 1961.	1.0	8
32	The effect of clitoral stimulation post artificial insemination on pregnancy rates of multiparous <i>Bos indicus</i> beef cows submitted to estradiol/progesterone-based estrus synchronization protocol. <i>Journal of Animal Science</i> , 2020, 98, .	0.2	2
33	Short communication: Administration of an appeasing substance to <i>Bos indicus</i> -influenced beef cattle improves performance after weaning and carcass pH. <i>Livestock Science</i> , 2020, 238, 104067.	0.6	8
34	Administering an additional prostaglandin F ₂ α injection to <i>Bos indicus</i> beef cows during a treatment regimen for fixed-time artificial insemination. <i>Animal Reproduction Science</i> , 2020, 219, 106535.	0.5	5
35	Effects of estrous expression and intensity of behavioral estrous symptoms on variables associated with fertility in beef cows treated for fixed-time artificial insemination. <i>Animal Reproduction Science</i> , 2020, 214, 106308.	0.5	13
36	Cattle adapted to tropical and subtropical environments: social, nutritional, and carcass quality considerations. <i>Journal of Animal Science</i> , 2020, 98, .	0.2	49

#	ARTICLE	IF	CITATIONS
37	Cattle adapted to tropical and subtropical environments: genetic and reproductive considerations. <i>Journal of Animal Science</i> , 2020, 98, .	0.2	20
38	Impact of a cattle brush on feedlot steer behavior, productivity and stress physiology. <i>Applied Animal Behaviour Science</i> , 2020, 228, 104995.	0.8	20
39	Sire contribution to pregnancy loss in different periods of embryonic and fetal development of beef cows. <i>Theriogenology</i> , 2020, 154, 84-91.	0.9	21
40	267 Supplementing Ca salts of soybean oil to late-gestating beef cows: Impacts on performance and physiological responses of the offspring. <i>Journal of Animal Science</i> , 2020, 98, 192-192.	0.2	9
41	268 Administering an appeasing substance to optimize welfare and performance of receiving cattle. <i>Journal of Animal Science</i> , 2020, 98, 193-193.	0.2	6
42	266 Administering an appeasing substance to beef calves at weaning to optimize welfare and productivity. <i>Journal of Animal Science</i> , 2020, 98, 194-194.	0.2	2
43	New approaches to diagnose and target reproductive failure in cattle. <i>Animal Reproduction</i> , 2020, 17, e20200057.	0.4	22
44	Supplementing Ca salts of soybean oil to late-gestating beef cows: impacts on performance and physiological responses of the offspring. <i>Translational Animal Science</i> , 2020, 4, S22-S26.	0.4	4
45	Impacts of commingling on health and productive responses of beef heifers during feedlot receiving. <i>Translational Animal Science</i> , 2020, 4, S79-S83.	0.4	1
46	Administering an appeasing substance to beef calves at weaning to optimize welfare and productivity. <i>Translational Animal Science</i> , 2020, 4, S74-S78.	0.4	0
47	Administering an appeasing substance to optimize welfare and performance of receiving cattle1. <i>Translational Animal Science</i> , 2020, 4, S1-S5.	0.4	1
48	Impacts of commingling cattle from different sources on their physiological, health, and performance responses during feedlot receiving. <i>Translational Animal Science</i> , 2020, 4, txa204.	0.4	4
49	Effects of polyunsaturated fatty acids supplementation on reproductive parameters associated with the performance of suckled beef cows. <i>Animal</i> , 2019, 13, 349-357.	1.3	0
50	Physiologic and innate immunity responses to bacterial lipopolysaccharide administration in beef heifers supplemented with OmniGen-AF. <i>Animal</i> , 2019, 13, 153-160.	1.3	3
51	Supplementing an immunomodulatory feed ingredient to improve thermoregulation and performance of finishing beef cattle under heat stress conditions. <i>Journal of Animal Science</i> , 2019, 97, 4085-4092.	0.2	19
52	Supplementing calcium salts of soybean oil to beef steers early in life to enhance carcass development and quality1. <i>Journal of Animal Science</i> , 2019, 97, 4182-4192.	0.2	13
53	153 Supplementing an immunomodulatory feed ingredient to modulate thermoregulation and performance in finishing beef cattle under heat stress conditions. <i>Journal of Animal Science</i> , 2019, 97, 48-48.	0.2	0
54	Impacts of postweaning growth rate of replacement beef heifers on their reproductive development and productivity as primiparous cows1. <i>Journal of Animal Science</i> , 2019, 97, 4171-4181.	0.2	9

#	ARTICLE	IF	CITATIONS
55	105 Altering the time of vaccination against respiratory pathogens enhanced antibody response and health of feedlot cattle. <i>Journal of Animal Science</i> , 2019, 97, 39-40.	0.2	1
56	118 Administering a synthetic appeasing pheromone to <i>Bos indicus</i> -influenced beef cattle at weaning and feedlot entry. <i>Journal of Animal Science</i> , 2019, 97, 52-53.	0.2	0
57	Productive and physiological responses of lactating dairy cows supplemented with phytogetic feed ingredients ¹ . <i>Translational Animal Science</i> , 2019, 3, 1133-1142.	0.4	13
58	Impacts of administering prostaglandin F ₂ ± analogue 24 h prior to progesterone insert removal on expression of estrus in beef females. <i>Livestock Science</i> , 2019, 226, 82-86.	0.6	4
59	7 Supplementing an immunomodulatory feed ingredient to modulate thermoregulation and performance in finishing beef cattle under heat stress conditions. <i>Journal of Animal Science</i> , 2019, 97, 13-13.	0.2	0
60	150 Administration of prostaglandin F ₂ ± 24 h prior to CIDR removal impacts reproductive performance of suckled beef cows assigned to the 7-d CO-Synch + CIDR protocol. <i>Journal of Animal Science</i> , 2019, 97, 48-49.	0.2	0
61	Effects on Animal Health and Immune Function. <i>Veterinary Clinics of North America - Food Animal Practice</i> , 2019, 35, 331-341.	0.5	14
62	Effects of a single trace mineral injection on body parameters, ovarian structures, pregnancy rate and components of the innate immune system of grazing Nellore cows synchronized to a fixed-time AI protocol. <i>Livestock Science</i> , 2019, 225, 123-128.	0.6	9
63	Estrous expression during a fixed-time artificial insemination protocol enhances development and interferon-tau messenger RNA expression in conceptuses from <i>Bos indicus</i> beef cows. <i>Animal</i> , 2019, 13, 2569-2575.	1.3	10
64	Effects of a single trace mineral injection at beginning of fixed-time AI treatment regimen on reproductive function and antioxidant response of grazing Nellore cows. <i>Animal Reproduction Science</i> , 2019, 211, 106234.	0.5	6
65	Early career achievement award: supplementing omega-6 fatty acids to enhance early embryonic development and pregnancy establishment in <i>Bos indicus</i> and <i>B. taurus</i> beef cows ¹ . <i>Journal of Animal Science</i> , 2019, 97, 485-495.	0.2	12
66	Pre- and post-weaning injections of bovine somatotropin to optimize puberty achievement of <i>Bos indicus</i> beef heifers ¹ . <i>Translational Animal Science</i> , 2019, 3, 443-455.	0.4	5
67	Effects of supplement type and narasin inclusion on supplement intake by <i>Bos indicus</i> beef bulls grazing a warm-season forage. <i>Translational Animal Science</i> , 2019, 3, 263-273.	0.4	8
68	Effects of temperament on growth, plasma cortisol concentrations and puberty attainment in Nelore beef heifers. <i>Animal</i> , 2019, 13, 1208-1213.	1.3	20
69	Productive and physiological responses of feeder cattle supplemented with <i>Yucca schidigera</i> extract during feedlot receiving ¹ . <i>Journal of Animal Science</i> , 2019, 97, 208-219.	0.2	17
70	Impact of 24-h feed, water, or feed and water deprivation on feed intake, metabolic, and inflammatory responses in beef heifers. <i>Journal of Animal Science</i> , 2019, 97, 398-406.	0.2	22
71	Effects of vaccination timing against respiratory pathogens on performance, antibody response, and health in feedlot cattle ¹ . <i>Journal of Animal Science</i> , 2019, 97, 620-630.	0.2	10
72	Supplementing Ca salts of soybean oil after artificial insemination increases pregnancy success in <i>Bos taurus</i> beef cows ¹ . <i>Journal of Animal Science</i> , 2018, 96, 2838-2850.	0.2	12

#	ARTICLE	IF	CITATIONS
73	Prewaning injections of bovine ST enhanced reproductive performance of Bos indicus-influenced replacement beef heifers. <i>Journal of Animal Science</i> , 2018, 96, 618-631.	0.2	7
74	Impacts of estrus expression and intensity during a timed-AI protocol on variables associated with fertility and pregnancy success in Bos indicus-influenced beef cows ¹ . <i>Journal of Animal Science</i> , 2018, 96, 236-249.	0.2	33
75	Supplementing a yeast-derived product to enhance productive and health responses of beef steers. <i>Animal</i> , 2018, 12, 1576-1583.	1.3	13
76	Performance, health and physiological responses of newly weaned feedlot cattle supplemented with feed-grade antibiotics or alternative feed ingredients. <i>Animal</i> , 2018, 12, 2521-2528.	1.3	16
77	Effects of supplemental calcium salts of palm oil and chromium-propionate on insulin sensitivity and productive and reproductive traits of mid- to late-lactating Holstein Å— Gir dairy cows consuming excessive energy. <i>Journal of Dairy Science</i> , 2018, 101, 491-504.	1.4	5
78	Supplementing calcium salts of soybean oil after artificial insemination increases pregnancy success in Bos taurus beef cows ¹ . <i>Translational Animal Science</i> , 2018, 2, S9-S13.	0.4	2
79	Impact of 24-h feed or water, or both, deprivation on feed intake, metabolic, and inflammatory response in beef heifers. <i>Translational Animal Science</i> , 2018, 2, S95-S95.	0.4	1
80	Supplementing Micro-Aid to optimize health and performance of receiving cattle ¹ . <i>Translational Animal Science</i> , 2018, 2, S22-S26.	0.4	1
81	Effects of monensin inclusion into increasing amount of concentrate on growth and physiological parameters of early-weaned beef calves consuming warm-season grasses. <i>Journal of Animal Science</i> , 2018, 96, 5112-5123.	0.2	3
82	42 Performance, Health, and Physiological Responses of Newly-Weaned Cattle Supplemented with Feed Grade Antibiotics or Alternative Feed Additives during Feedlot Receiving.. <i>Journal of Animal Science</i> , 2018, 96, 22-22.	0.2	0
83	Reducing parturition urine pH by supplementing anionic feed ingredients: Effects on physiological and productive responses of Holstein Å— Gir cows. <i>Journal of Dairy Science</i> , 2018, 101, 9296-9308.	1.4	4
84	Invited Paper : Nutritional and management considerations for beef cattle experiencing stress-induced inflammation 1 1This article was based on a presentation at the ARPAS Symposium “Understanding Inflammation and Inflammatory Biomarkers to Improve Animal Performance” at the 2016 Joint Annual Meeting, July 19-23, 2016, Salt Lake City, Utah.. <i>The Professional Animal Scientist</i> , 2017, 33, 1-11.	0.7	59
85	Effects of concentrate type and chromium propionate on insulin sensitivity, productive and reproductive parameters of lactating dairy cows consuming excessive energy. <i>Animal</i> , 2017, 11, 436-444.	1.3	12
86	Supplementing an immunomodulatory feed ingredient to modulate thermoregulation, physiologic, and production responses in lactating dairy cows under heat stress conditions. <i>Journal of Dairy Science</i> , 2017, 100, 4829-4838.	1.4	31
87	Effects of organic complexed or inorganic Co, Cu, Mn and Zn supplementation during a 45-day preconditioning period on productive and health responses of feeder cattle. <i>Animal</i> , 2017, 11, 1949-1956.	1.3	8
88	Impacts of stocking density on development and puberty attainment of replacement beef heifers. <i>Animal</i> , 2017, 11, 2260-2267.	1.3	26
89	Effects of melengestrol acetate supplementation after fixed-timed artificial insemination on pregnancy rates of Bos indicus beef cows. <i>Livestock Science</i> , 2017, 206, 71-75.	0.6	5
90	Effects of intravenous lipopolysaccharide administration on feed intake, ruminal forage degradability, and liquid parameters and physiological responses in beef cattle. <i>Journal of Animal Science</i> , 2017, 95, 2859-2870.	0.2	14

#	ARTICLE	IF	CITATIONS
91	Effects of temperament on physiological, productive, and reproductive responses in Bos indicus beef cows ¹ . Journal of Animal Science, 2017, 95, 1-8.	0.2	16
92	Effects of supplementing calcium salts of polyunsaturated fatty acids to late-gestating beef cows on performance and physiological responses of the offspring ¹ . Journal of Animal Science, 2017, 95, 5347-5357.	0.2	30
93	Physiologic, health, and performance responses of beef steers supplemented with an immunomodulatory feed ingredient during feedlot receiving ¹ . Journal of Animal Science, 2017, 95, 4945-4957.	0.2	15
94	485 Impacts of estrus expression and intensity during a fixed-time AI protocol on parameters associated with fertility and pregnancy success in beef cows. Journal of Animal Science, 2017, 95, 237-237.	0.2	0
95	501 Pre-weaning injections of bovine somatotropin altered liver gene expression, and enhanced puberty attainment and calving rates of Bos indicus-influenced beef heifers. Journal of Animal Science, 2017, 95, 244-245.	0.2	0
96	Reproductive programs for beef cattle: incorporating management and reproductive techniques for better fertility. Animal Reproduction, 2017, 14, 547-557.	0.4	16
97	Effects of temperament on physiological, productive, and reproductive responses in beef cows. Journal of Animal Science, 2017, 95, 1.	0.2	32
98	Effects of a simulated wolf encounter on brain and blood biomarkers of stress-related psychological disorders in beef cows with or without previous exposure to wolves. Journal of Animal Science, 2017, 95, 1154.	0.2	0
99	Effects of intravenous lipopolysaccharide administration on feed intake, ruminal forage degradability, and liquid parameters and physiological responses in beef cattle. Journal of Animal Science, 2017, 95, 2859.	0.2	1
100	Effects of timing of anabolic implant insertion on growth and immunity of recently weaned beef steers ¹ . Journal of Animal Science, 2016, 94, 3051-3060.	0.2	0
101	Frequency of wet brewers grains supplementation during late gestation of beef cows and its effects on offspring postnatal growth and immunity ¹ . Journal of Animal Science, 2016, 94, 2553-2563.	0.2	10
102	Post- artificial insemination supplementation with calcium salts of soybean oil influences pregnancy establishment factors in Bos indicus beef cows ¹ . Journal of Animal Science, 2016, 94, 4892-4902.	0.2	15
103	Expression of estrus modifies the gene expression profile in reproductive tissues on Day 19 of gestation in beef cows. Theriogenology, 2016, 85, 645-655.	0.9	64
104	Physiologic, health, and production responses of dairy cows supplemented with an immunomodulatory feed ingredient during the transition period. Journal of Dairy Science, 2016, 99, 5562-5572.	1.4	37
105	Clinical response after chitosan microparticle administration and preliminary assessment of efficacy in preventing metritis in lactating dairy cows. Journal of Dairy Science, 2016, 99, 8946-8955.	1.4	11
106	Impacts of cow body condition score during gestation on weaning performance of the offspring. Livestock Science, 2016, 191, 174-178.	0.6	36
107	Effects of vaccination against foot-and-mouth disease virus on reproductive performance of Bos indicus beef cows. Journal of Animal Science, 2016, 94, 401-405.	0.2	15
108	Impacts of meloxicam administration before temporary calf weaning on physiological and reproductive responses of Bos indicus beef cows ¹ . Journal of Animal Science, 2016, 94, 406-411.	0.2	1

#	ARTICLE	IF	CITATIONS
109	Effects of organic or inorganic cobalt, copper, manganese, and zinc supplementation to late-gestating beef cows on productive and physiological responses of the offspring ¹ . <i>Journal of Animal Science</i> , 2016, 94, 1215-1226.	0.2	61
110	Altering the time of vaccination against respiratory pathogens to enhance antibody response and performance of feeder cattle ¹ . <i>Journal of Animal Science</i> , 2016, 94, 3987-3995.	0.2	9
111	Decreasing the frequency and rate of wet brewers grains supplementation did not impact growth but reduced humoral immune response of preconditioning beef heifers ¹ . <i>Journal of Animal Science</i> , 2016, 94, 3030-3041.	0.2	8
112	053 Supplementation Levels and Monensin Effects on Performance of Early Weaned Calves Grazing Bahiagrass Pastures. <i>Journal of Animal Science</i> , 2016, 94, 26-26.	0.2	6
113	Short-term energy restriction during late gestation of beef cows decreases postweaning calf humoral immune response to vaccination ¹ . <i>Journal of Animal Science</i> , 2016, 94, 2542-2552.	0.2	22
114	Creep-feeding to stimulate metabolic imprinting in nursing beef heifers: impacts on heifer growth, reproductive and physiological variables. <i>Animal</i> , 2015, 9, 1500-1508.	1.3	25
115	Effects of rumen-protected choline supplementation on metabolic and performance responses of transition dairy cows ¹ . <i>Journal of Animal Science</i> , 2015, 93, 1896-1904.	0.2	27
116	Impacts of temperament on Nellore cattle: physiological responses, feedlot performance, and carcass characteristics ¹ . <i>Journal of Animal Science</i> , 2015, 93, 5419-5429.	0.2	67
117	Decreasing the frequency of energy supplementation from daily to three times weekly impairs growth and humoral immune response of preconditioning beef steers ¹ . <i>Journal of Animal Science</i> , 2015, 93, 5430-5441.	0.2	21
118	Stocking rate and monensin supplemental level effects on growth performance of beef cattle consuming warm-season grasses ¹ . <i>Journal of Animal Science</i> , 2015, 93, 3682-3689.	0.2	22
119	Effects of vaccination against respiratory pathogens on feed intake, metabolic, and inflammatory responses in beef heifers ¹ . <i>Journal of Animal Science</i> , 2015, 93, 4443-4452.	0.2	31
120	Increasing the metabolizable protein supply enhanced growth performance and led to variable results on innate and humoral immune response of preconditioning beef steers ¹ . <i>Journal of Animal Science</i> , 2015, 93, 4473-4485.	0.2	14
121	Effects of oral meloxicam administration to beef cattle receiving lipopolysaccharide administration or vaccination against respiratory pathogens ¹ . <i>Journal of Animal Science</i> , 2015, 93, 5018-5027.	0.2	16
122	Effects of excessive energy intake and supplementation with chromium propionate on insulin resistance parameters, milk production, and reproductive outcomes of lactating dairy cows. <i>Livestock Science</i> , 2015, 180, 121-128.	0.6	21
123	Effects of protein supplementation frequency on physiological responses associated with reproduction in beef cows ¹ . <i>Journal of Animal Science</i> , 2015, 93, 386-394.	0.2	15
124	Effects of excessive energy intake and supplementation with chromium propionate on insulin resistance parameters in nonlactating dairy cows ¹ . <i>Journal of Animal Science</i> , 2014, 92, 775-782.	0.2	21
125	Effects of meloxicam administration on physiological and performance responses of transported feeder cattle ¹ . <i>Journal of Animal Science</i> , 2014, 92, 4137-4144.	0.2	22
126	Effects of calcium salts of soybean oil on factors that influence pregnancy establishment in <i>Bos indicus</i> beef cows ¹ . <i>Journal of Animal Science</i> , 2014, 92, 2239-2250.	0.2	20

#	ARTICLE	IF	CITATIONS
127	Effects of supplementation of calcium salts of polyunsaturated fatty acids on serum concentrations of progesterone and insulin of pregnant dairy cows. <i>Revista Brasileira De Zootecnia</i> , 2014, 43, 20-26.	0.3	3
128	Incorporation of sexed semen into reproductive management of cow-calf operations. <i>Livestock Science</i> , 2014, 163, 165-171.	0.6	10
129	BILL E. KUNKLE INTERDISCIPLINARY BEEF SYMPOSIUM: Temperament and acclimation to human handling influence growth, health, and reproductive responses in <i>Bos taurus</i> and <i>Bos indicus</i> cattle. <i>Journal of Animal Science</i> , 2014, 92, 5325-5333.	0.2	52
130	Supplementation based on protein or energy ingredients to beef cattle consuming low-quality cool-season forages: II. Performance, reproductive, and metabolic responses of replacement heifers. <i>Journal of Animal Science</i> , 2014, 92, 2725-2734.	0.2	41
131	Supplementation based on protein or energy ingredients to beef cattle consuming low-quality cool-season forages: I. Forage disappearance parameters in rumen-fistulated steers and physiological responses in pregnant heifers. <i>Journal of Animal Science</i> , 2014, 92, 2716-2724.	0.2	12
132	Impacts of Reproductive Technologies on Beef Production in South America. <i>Advances in Experimental Medicine and Biology</i> , 2014, 752, 161-180.	0.8	18
