#	Article	IF	CITATIONS
1	Parent–child neural synchrony: a novel approach to elucidating dyadic correlates of preschool irritability. Journal of Child Psychology and Psychiatry and Allied Disciplines, 2020, 61, 1213-1223.	5.2	44
2	The effects of distraction and reappraisal on children's parasympathetic regulation of sadness and fear. Journal of Experimental Child Psychology, 2016, 142, 344-358.	1.4	41
3	Does the child brain rest?: An examination and interpretation of resting cognition in developmental cognitive neuroscience. NeuroImage, 2020, 212, 116688.	4.2	33
4	Adversity is Linked with Decreased Parent-Child Behavioral and Neural Synchrony. Developmental Cognitive Neuroscience, 2021, 48, 100937.	4.0	22
5	Dysfunction in interpersonal neural synchronization as a mechanism for social impairment in autism spectrum disorder. Autism Research, 2021, 14, 1585-1596.	3.8	17
6	Discrete emotion regulation strategy repertoires and parasympathetic physiology characterize psychopathology symptoms in childhood Developmental Psychology, 2018, 54, 718-730.	1.6	17
7	Cognitive flexibility-related prefrontal activation in preschoolers: A biological approach to temperamental effortful control. Developmental Cognitive Neuroscience, 2019, 38, 100651.	4.0	15
8	Parent emotion regulation socializes children's adaptive physiological regulation. Developmental Psychobiology, 2018, 60, 615-623.	1.6	14
9	Physiological contagion in parent–child dyads during an emotional challenge. Social Development, 2019, 28, 620-636.	1.3	12
10	Getting in synch: Unpacking the role of parent–child synchrony in the development of internalizing and externalizing behaviors. Development and Psychopathology, 2022, 34, 1901-1913.	2.3	12
11	Emotion regulation strategy knowledge moderates the link between cumulative stress and anxiety symptoms in childhood. International Journal of Behavioral Development, 2019, 43, 369-374.	2.4	6
12	Children's awareness of the context-appropriate nature of emotion regulation strategies across emotions. Cognition and Emotion, 2020, 34, 977-985.	2.0	5
13	Children's Maternal Representations Moderate the Efficacy of Parent–Child Interaction Therapy—Emotion Development (PCIT-ED) Treatment For Preschool Depression. Research on Child and Adolescent Psychopathology, 2022, 50, 1233-1246.	2.3	5
14	Motivated attention to fear-related stimuli: Evidence for the enhanced processing of fear in the late positive potential. Motivation and Emotion, 2018, 42, 299-308.	1.3	4
15	Parasympathetic regulation in cognitive and emotional challenge contexts differentially predicts specific aspects of children's emotional functioning. Developmental Psychobiology, 2019, 61, 275-289.	1.6	4
16	Building a Sense of Self: The Link between Emotion Regulation and Self-Esteem in Young Adults. University of California, Riverside Undergraduate Research Journal, 2018, 12, .	0.1	4
17	The reward positivity shows increased amplitude and decreased latency with increasing age in early childhood. Developmental Science, 2022, 25, e13196.	2.4	3
18	Psychophysiological Assessment of the Effectiveness of Emotion Regulation Strategies in Childhood. Journal of Visualized Experiments, 2017, , .	0.3	2

#	Article	IF	CITATIONS
19	Regulating emotions in two languages: How do emotion regulation strategies relate to physiological reactivity in emotional contexts?. International Journal of Bilingualism, 2019, 23, 1106-1120.	1.2	2
20	Developmental pathways from preschool temper tantrums to later psychopathology. Development and Psychopathology, 2023, 35, 1643-1655.	2.3	2
21	Caregiver Socialization of Reappraisal and Children's Cognitive Flexibility Jointly Predict Latinx Children's Anxiety. Journal of Child and Family Studies, 0, , 1.	1.3	1
22	Does Parenting Moderate the Relation between Stress and Children's Emotion Regulation?. University of California, Riverside Undergraduate Research Journal, 2018, 12, .	0.1	0
23	Parent Psychopathology and Parent-Child Conflict Interact to Predict Children's Anxiety but Not Depression. University of California, Riverside Undergraduate Research Journal, 2018, 12, .	0.1	0
