

Johannes Siegrist

List of Publications by Citations

Source: <https://exaly.com/author-pdf/5999022/johannes-siegrist-publications-by-citations.pdf>
Version: 2024-04-03

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.
The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

359 papers	21,964 citations	73 h-index	139 g-index
441 ext. papers	25,266 ext. citations	4.1 avg, IF	7.11 L-index

#	Paper	IF	Citations
359	Adverse health effects of high-effort/low-reward conditions.. <i>Journal of Occupational Health Psychology</i> , 1996 , 1, 27-41	5.7	2816
358	The measurement of effort-reward imbalance at work: European comparisons. <i>Social Science and Medicine</i> , 2004 , 58, 1483-99	5.1	1322
357	Job strain as a risk factor for coronary heart disease: a collaborative meta-analysis of individual participant data. <i>Lancet, The</i> , 2012 , 380, 1491-7	4.0	606
356	Coronary risk stratification, discrimination, and reclassification improvement based on quantification of subclinical coronary atherosclerosis: the Heinz Nixdorf Recall study. <i>Journal of the American College of Cardiology</i> , 2010 , 56, 1397-406	15.1	548
355	Two alternative job stress models and the risk of coronary heart disease. <i>American Journal of Public Health</i> , 1998 , 88, 68-74	5.1	500
354	Job strain, effort-reward imbalance and employee well-being: a large-scale cross-sectional study. <i>Social Science and Medicine</i> , 2000 , 50, 1317-27	5.1	440
353	Assessment of clinically silent atherosclerotic disease and established and novel risk factors for predicting myocardial infarction and cardiac death in healthy middle-aged subjects: rationale and design of the Heinz Nixdorf RECALL Study. Risk Factors, Evaluation of Coronary Calcium and Lifestyle. <i>American Heart Journal</i> , 2002 , 144, 212-8	4.9	424
352	Physical activity and risk of cardiovascular disease--a meta-analysis of prospective cohort studies. <i>International Journal of Environmental Research and Public Health</i> , 2012 , 9, 391-407	4.6	378
351	Long working hours and risk of coronary heart disease and stroke: a systematic review and meta-analysis of published and unpublished data for 603,838 individuals. <i>Lancet, The</i> , 2015 , 386, 1739-46 ⁴⁰	4.0	368
350	Health inequalities and the psychosocial environment-two scientific challenges. <i>Social Science and Medicine</i> , 2004 , 58, 1463-73	5.1	353
349	Low status control, high effort at work and ischemic heart disease: prospective evidence from blue-collar men. <i>Social Science and Medicine</i> , 1990 , 31, 1127-34	5.1	323
348	A short generic measure of work stress in the era of globalization: effort-reward imbalance. <i>International Archives of Occupational and Environmental Health</i> , 2009 , 82, 1005-13	3.2	293
347	Effort-reward imbalance and burnout among nurses. <i>Journal of Advanced Nursing</i> , 2000 , 31, 884-91	3.1	255
346	When reciprocity fails: effort-reward imbalance in relation to coronary heart disease and health functioning within the Whitehall II study. <i>Occupational and Environmental Medicine</i> , 2002 , 59, 777-84	2.1	236
345	Quality of work, well-being, and intended early retirement of older employees: baseline results from the SHARE Study. <i>European Journal of Public Health</i> , 2007 , 17, 62-8	2.1	225
344	Work stress and health risk behavior. <i>Scandinavian Journal of Work, Environment and Health</i> , 2006 , 32, 473-81	4.3	210
343	Chronic psychosocial stress at work and risk of depression: evidence from prospective studies. <i>European Archives of Psychiatry and Clinical Neuroscience</i> , 2008 , 258 Suppl 5, 115-9	5.1	195

342	Measuring Well-being Across Europe: Description of the ESS Well-being Module and Preliminary Findings. <i>Social Indicators Research</i> , 2009 , 91, 301-315	2.7	189
341	High effort, low reward, and cardiovascular risk factors in employed Swedish men and women: baseline results from the WOLF Study. <i>Journal of Epidemiology and Community Health</i> , 1998 , 52, 540-7	5.1	180
340	Association between job stress and depression among Japanese employees threatened by job loss in a comparison between two complementary job-stress models. <i>Scandinavian Journal of Work, Environment and Health</i> , 2001 , 27, 146-53	4.3	179
339	Effort-reward imbalance at work and health. <i>Research in Occupational Stress and Well Being</i> , 261-291	0.5	173
338	Socioeconomic status and health among the aged in the United States and Germany: a comparative cross-sectional study. <i>Social Science and Medicine</i> , 2003 , 57, 1643-52	5.1	163
337	A prospective study of cumulative job stress in relation to mental health. <i>BMC Public Health</i> , 2005 , 5, 67	4.1	163
336	Effort-Reward Imbalance at Work and Incident Coronary Heart Disease: A Multicohort Study of 90,164 Individuals. <i>Epidemiology</i> , 2017 , 28, 619-626	3.1	161
335	Effort-reward imbalance model and self-reported health: cross-sectional and prospective findings from the GAZEL cohort. <i>Social Science and Medicine</i> , 2004 , 58, 1531-41	5.1	161
334	Psychosocial work environment and myocardial infarction: improving risk estimation by combining two complementary job stress models in the SHEEP Study. <i>Journal of Epidemiology and Community Health</i> , 2002 , 56, 294-300	5.1	158
333	Social relationships, mental health and wellbeing in physical disability: a systematic review. <i>BMC Public Health</i> , 2017 , 17, 414	4.1	154
332	Job strain as a risk factor for leisure-time physical inactivity: an individual-participant meta-analysis of up to 170,000 men and women: the IPD-Work Consortium. <i>American Journal of Epidemiology</i> , 2012 , 176, 1078-89	3.8	153
331	Baseline recruitment and analyses of nonresponse of the Heinz Nixdorf Recall Study: identifiability of phone numbers as the major determinant of response. <i>European Journal of Epidemiology</i> , 2005 , 20, 489-96	12.1	150
330	Effort-reward imbalance, procedural injustice and relational injustice as psychosocial predictors of health: complementary or redundant models?. <i>Occupational and Environmental Medicine</i> , 2007 , 64, 659-65	2.1	146
329	Place, social exchange and health: proposed sociological framework. <i>Social Science and Medicine</i> , 2000 , 51, 1283-93	5.1	144
328	Effect of retirement on major chronic conditions and fatigue: French GAZEL occupational cohort study. <i>BMJ, The</i> , 2010 , 341, c6149	5.9	142
327	Long working hours, socioeconomic status, and the risk of incident type 2 diabetes: a meta-analysis of published and unpublished data from 222 120 individuals. <i>Lancet Diabetes and Endocrinology, the</i> , 2015 , 3, 27-34	18.1	141
326	Effects of organisational-level interventions at work on employees' health: a systematic review. <i>BMC Public Health</i> , 2014 , 14, 135	4.1	141
325	Sociological concepts in the etiology of chronic disease: the case of ischemic heart disease. <i>Social Science and Medicine</i> , 1986 , 22, 247-53	5.1	135

324	Perceived job insecurity as a risk factor for incident coronary heart disease: systematic review and meta-analysis. <i>BMJ, The</i> , 2013 , 347, f4746	5.9	133
323	Job strain as a risk factor for type 2 diabetes: a pooled analysis of 124,808 men and women. <i>Diabetes Care</i> , 2014 , 37, 2268-75	14.6	131
322	Social reciprocity and health: new scientific evidence and policy implications. <i>Psychoneuroendocrinology</i> , 2005 , 30, 1033-8	5	130
321	Chronic work stress, sickness absence, and hypertension in middle managers: general or specific sociological explanations?. <i>Social Science and Medicine</i> , 1997 , 45, 1111-20	5.1	128
320	Job strain and cardiovascular disease risk factors: meta-analysis of individual-participant data from 47,000 men and women. <i>PLoS ONE</i> , 2013 , 8, e67323	3.7	125
319	The psychosocial work environment and alcohol dependence: a prospective study. <i>Occupational and Environmental Medicine</i> , 2004 , 61, 219-24	2.1	123
318	Effort-reward imbalance at work and job dissatisfaction in Chinese healthcare workers: a validation study. <i>International Archives of Occupational and Environmental Health</i> , 2005 , 78, 198-204	3.2	119
317	Job strain in relation to body mass index: pooled analysis of 160 000 adults from 13 cohort studies. <i>Journal of Internal Medicine</i> , 2012 , 272, 65-73	10.8	115
316	Quantification of coronary atherosclerosis and inflammation to predict coronary events and all-cause mortality. <i>Journal of the American College of Cardiology</i> , 2011 , 57, 1455-64	15.1	115
315	Psychosocial work characteristics and self rated health in four post-communist countries. <i>Journal of Epidemiology and Community Health</i> , 2001 , 55, 624-30	5.1	114
314	Associations of Extrinsic and Intrinsic Components of Work Stress with Health: A Systematic Review of Evidence on the Effort-Reward Imbalance Model. <i>International Journal of Environmental Research and Public Health</i> , 2016 , 13, 432	4.6	112
313	Effort-reward imbalance and relational injustice at work predict sickness absence: the Whitehall II study. <i>Journal of Psychosomatic Research</i> , 2007 , 63, 433-40	4.1	111
312	Work stress and reduced health in young physicians: prospective evidence from Swiss residents. <i>International Archives of Occupational and Environmental Health</i> , 2008 , 82, 31-8	3.2	110
311	Effort-reward imbalance, overcommitment, and measures of cortisol and blood pressure over the working day. <i>Psychosomatic Medicine</i> , 2004 , 66, 323-9	3.7	110
310	Perceived work stress, overcommitment, and self-reported musculoskeletal pain: a cross-sectional investigation. <i>International Journal of Behavioral Medicine</i> , 2002 , 9, 122-38	2.6	107
309	Prevalence of peripheral arterial disease - results of the Heinz Nixdorf recall study. <i>European Journal of Epidemiology</i> , 2006 , 21, 279-85	12.1	106
308	The Japanese version of the Effort-Reward Imbalance Questionnaire: A study in dental technicians. <i>Work and Stress</i> , 2001 , 15, 86-96	6.1	105
307	Long working hours and alcohol use: systematic review and meta-analysis of published studies and unpublished individual participant data. <i>BMJ, The</i> , 2015 , 350, g7772	5.9	102

306	Neighbourhood socioeconomic status and cardiovascular risk factors: a multilevel analysis of nine cities in the Czech Republic and Germany. <i>BMC Public Health</i> , 2007 , 7, 255	4.1	99
305	Welfare regimes, labour policies and unhealthy psychosocial working conditions: a comparative study with 9917 older employees from 12 European countries. <i>Journal of Epidemiology and Community Health</i> , 2011 , 65, 793-9	5.1	97
304	Socio-economic position and quality of life among older people in 10 European countries: results of the SHARE study. <i>Ageing and Society</i> , 2007 , 27, 269-284	1.7	93
303	Psychosocial work stress is associated with poor self-rated health in Danish nurses: a test of the effort-reward imbalance model. <i>Scandinavian Journal of Caring Sciences</i> , 2006 , 20, 26-34	2.3	92
302	It's about time: physicians' perceptions of time constraints in primary care medical practice in three national healthcare systems. <i>Medical Care</i> , 2010 , 48, 95-100	3.1	86
301	Two models of job stress and depressive symptoms. Results from a population-based study. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2008 , 43, 72-8	4.5	85
300	Stress management interventions in the workplace improve stress reactivity: a randomised controlled trial. <i>Occupational and Environmental Medicine</i> , 2011 , 68, 126-33	2.1	83
299	Job strain and tobacco smoking: an individual-participant data meta-analysis of 166,130 adults in 15 European studies. <i>PLoS ONE</i> , 2012 , 7, e35463	3.7	81
298	Associations of job strain and lifestyle risk factors with risk of coronary artery disease: a meta-analysis of individual participant data. <i>Cmaj</i> , 2013 , 185, 763-9	3.5	81
297	Work characteristics, socioeconomic position and health: a systematic review of mediation and moderation effects in prospective studies. <i>Occupational and Environmental Medicine</i> , 2013 , 70, 663-9	2.1	80
296	Effort-reward imbalance at work and cardiovascular diseases. <i>International Journal of Occupational Medicine and Environmental Health</i> , 2010 , 23, 279-85	1.5	79
295	Algorithms for converting random-zero to automated oscillometric blood pressure values, and vice versa. <i>American Journal of Epidemiology</i> , 2006 , 164, 85-94	3.8	78
294	Association of impaired fasting glucose and coronary artery calcification as a marker of subclinical atherosclerosis in a population-based cohort--results of the Heinz Nixdorf Recall Study. <i>Diabetologia</i> , 2009 , 52, 81-9	10.3	77
293	Stress prevention in bus drivers: Evaluation of 13 natural experiments.. <i>Journal of Occupational Health Psychology</i> , 2000 , 5, 11-31	5.7	77
292	Evaluation of quality of life and description of the sociodemographic state in adolescent and young adult patients with phenylketonuria (PKU). <i>Health and Quality of Life Outcomes</i> , 2008 , 6, 25	3	76
291	Low socio-economic position is associated with poor social networks and social support: results from the Heinz Nixdorf Recall Study. <i>International Journal for Equity in Health</i> , 2008 , 7, 13	4.6	76
290	Reward frustration at work and intention to leave the nursing profession--prospective results from the European longitudinal NEXT study. <i>International Journal of Nursing Studies</i> , 2011 , 48, 628-35	5.8	74
289	Are changes in productive activities of older people associated with changes in their well-being? Results of a longitudinal European study. <i>European Journal of Ageing</i> , 2010 , 7, 59-68	3.6	74

288	Job strain and alcohol intake: a collaborative meta-analysis of individual-participant data from 140,000 men and women. <i>PLoS ONE</i> , 2012 , 7, e40101	3.7	74
287	Chronic work stress is associated with atherogenic lipids and elevated fibrinogen in middle-aged men. <i>Journal of Internal Medicine</i> , 1997 , 242, 149-56	10.8	73
286	Does a stressful psychosocial work environment mediate the effects of shift work on cardiovascular risk factors?. <i>Scandinavian Journal of Work, Environment and Health</i> , 1999 , 25, 376-81	4.3	72
285	Psychosocial work environment and the risk of coronary heart disease. <i>International Archives of Occupational and Environmental Health</i> , 2000 , 73 Suppl, S41-5	3.2	71
284	Social Position, Work Stress, and Retirement Intentions: A Study with Older Employees from 11 European Countries. <i>European Sociological Review</i> , 2013 , 29, 792-802	2.7	70
283	How valid is a short measure of effort-reward imbalance at work? A replication study from Sweden. <i>Occupational and Environmental Medicine</i> , 2010 , 67, 526-31	2.1	69
282	Smoking cessation and subclinical atherosclerosis--results from the Heinz Nixdorf Recall Study. <i>Atherosclerosis</i> , 2009 , 203, 221-7	3.1	68
281	Social productivity and well-being of older people: baseline results from the SHARE study. <i>European Journal of Ageing</i> , 2006 , 3, 67-73	3.6	68
280	Long working hours and depressive symptoms: systematic review and meta-analysis of published studies and unpublished individual participant data. <i>Scandinavian Journal of Work, Environment and Health</i> , 2018 , 44, 239-250	4.3	67
279	Work stress of primary care physicians in the US, UK and German health care systems. <i>Social Science and Medicine</i> , 2010 , 71, 298-304	5.1	66
278	Conceptual and methodological problems in research on the quality of life in clinical medicine. <i>Social Science and Medicine</i> , 1989 , 29, 463-8	5.1	66
277	Social Inequalities in Health 2006 ,		66
276	Social Productivity and Well-being of Older People: A Sociological Exploration. <i>Social Theory and Health</i> , 2004 , 2, 1-17	1.7	63
275	Social status and the quality of care for adult people with type I (insulin-dependent) diabetes mellitus--a population-based study. <i>Diabetologia</i> , 1998 , 41, 1139-50	10.3	62
274	When does work stress hurt? Testing the interaction with socioeconomic position in the Heinz Nixdorf Recall Study. <i>Journal of Epidemiology and Community Health</i> , 2008 , 62, 338-41	5.1	62
273	Social factors in the etiology of chronic disease: an overview. <i>Social Science and Medicine</i> , 1982 , 16, 353-67	5.1	62
272	Work stress and risk of death in men and women with and without cardiometabolic disease: a multicohort study. <i>Lancet Diabetes and Endocrinology</i> , 2018 , 6, 705-713	18.1	61
271	Working conditions in mid-life and mental health in older ages. <i>Advances in Life Course Research</i> , 2013 , 18, 16-25	3.1	59

270	Failed reciprocity in close social relationships and health: findings from the Whitehall II study. <i>Journal of Psychosomatic Research</i> , 2007 , 63, 403-11	4.1	59
269	Sex related cardiovascular risk stratification based on quantification of atherosclerosis and inflammation. <i>Atherosclerosis</i> , 2008 , 197, 662-72	3.1	55
268	Reported nonreciprocity of social exchange and depressive symptoms. Extending the model of effort-reward imbalance beyond work. <i>Journal of Psychosomatic Research</i> , 2003 , 55, 209-14	4.1	55
267	Lipodystrophy syndrome and self-assessment of well-being and physical appearance in HIV-positive patients. <i>AIDS Patient Care and STDs</i> , 2002 , 16, 413-7	5.8	54
266	Depressive symptoms and psychosocial stress at work among older employees in three continents. <i>Globalization and Health</i> , 2012 , 8, 27	10	53
265	Relationships of disability with age among adults aged 50 to 85: evidence from the United States, England and continental europe. <i>PLoS ONE</i> , 2013 , 8, e71893	3.7	53
264	Adverse psychosocial working conditions and risk of severe depressive symptoms. Do effects differ by occupational grade?. <i>European Journal of Public Health</i> , 2013 , 23, 415-20	2.1	52
263	Long-term effects of psychosocial work stress in midlife on health functioning after labor market exit--results from the GAZEL study. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2012 , 67, 471-80	4.6	52
262	Do changes in effort-reward imbalance at work contribute to an explanation of the social gradient in angina?. <i>Occupational and Environmental Medicine</i> , 2005 , 62, 223-30	2.1	52
261	The association between education and work stress: does the policy context matter?. <i>PLoS ONE</i> , 2015 , 10, e0121573	3.7	51
260	Subclinical coronary atherosclerosis predicts cardiovascular risk in different stages of hypertension: result of the Heinz Nixdorf Recall Study. <i>Hypertension</i> , 2012 , 59, 44-53	8.5	51
259	Work stress and the risk of recurrent coronary heart disease events: A systematic review and meta-analysis. <i>International Journal of Occupational Medicine and Environmental Health</i> , 2015 , 28, 8-19	1.5	50
258	Higher overcommitment to work is associated with lower norepinephrine secretion before and after acute psychosocial stress in men. <i>Psychoneuroendocrinology</i> , 2008 , 33, 92-9	5	49
257	Social productivity and depressive symptoms in early old age-results from the GAZEL study. <i>Aging and Mental Health</i> , 2008 , 12, 310-6	3.5	49
256	Atherogenic risk in men suffering from occupational stress. <i>Atherosclerosis</i> , 1988 , 69, 211-8	3.1	49
255	Subclinical coronary atherosclerosis and neighbourhood deprivation in an urban region. <i>European Journal of Epidemiology</i> , 2009 , 24, 25-35	12.1	48
254	Job stressors and coping characteristics in work-related disease: Issues of validity. <i>Work and Stress</i> , 1994 , 8, 130-140	6.1	48
253	Work Stress and Altered Biomarkers: A Synthesis of Findings Based on the Effort-Reward Imbalance Model. <i>International Journal of Environmental Research and Public Health</i> , 2017 , 14,	4.6	47

252	The mediating effect of social relationships on the association between socioeconomic status and subjective health - results from the Heinz Nixdorf Recall cohort study. <i>BMC Public Health</i> , 2012 , 12, 285	4.1	47
251	Stress Management in Bus Drivers: A Pilot Study Based on the Model of Effort-Reward Imbalance. <i>International Journal of Stress Management</i> , 1997 , 4, 297-305	3.5	47
250	Organisational downsizing and work stress: testing synergistic health effects in employed men and women. <i>Journal of Epidemiology and Community Health</i> , 2005 , 59, 694-9	5.1	47
249	The social context of active distress in patients with early myocardial infarction. <i>Social Science and Medicine</i> , 1982 , 16, 443-53	5.1	47
248	Work stress and depressive symptoms in older employees: impact of national labour and social policies. <i>BMC Public Health</i> , 2013 , 13, 1086	4.1	44
247	Housing and health in Germany. <i>Journal of Epidemiology and Community Health</i> , 2004 , 58, 216-22	5.1	44
246	Is the effect of work stress on cardiovascular mortality confounded by socioeconomic factors in the Valmet study?. <i>Journal of Epidemiology and Community Health</i> , 2004 , 58, 1019-20	5.1	44
245	Differential brain activation according to chronic social reward frustration. <i>NeuroReport</i> , 2005 , 16, 1899-903	3.3	44
244	Impaired quality of life as a risk factor in cardiovascular disease. <i>Journal of Chronic Diseases</i> , 1987 , 40, 571-8		43
243	Psychosocial stress among hospital doctors in surgical fields: results of a nationwide survey in Germany. <i>Deutsches Arzteblatt International</i> , 2010 , 107, 248-53	2.5	43
242	Job stress and job satisfaction of physicians in private practice: comparison of German and Norwegian physicians. <i>International Archives of Occupational and Environmental Health</i> , 2012 , 85, 819-28	3.2	42
241	Socio-economic position and health 2006 , 73-100		42
240	Validity and reliability of the effort-reward imbalance questionnaire in a sample of 673 Italian teachers. <i>International Archives of Occupational and Environmental Health</i> , 2010 , 83, 665-74	3.2	41
239	Associations of effort-reward imbalance at work and reported symptoms in different groups of male and female public transport workers. <i>Stress and Health</i> , 1998 , 14, 175-182		40
238	Interpersonal repression as a predictor of cancer. <i>Social Science and Medicine</i> , 1982 , 16, 493-8	5.1	40
237	Fragebogen zur Messung beruflicher Gratifikationskrisen. <i>Zeitschrift Fur Differentielle Und Diagnostische Psychologie</i> , 2004 , 25, 227-238		40
236	Daily siesta, cardiovascular risk factors, and measures of subclinical atherosclerosis: results of the Heinz Nixdorf Recall Study. <i>Sleep</i> , 2007 , 30, 1111-9	1.1	39
235	Measuring job stress and family stress in Chinese working women: a validation study focusing on blood pressure and psychosomatic symptoms. <i>Women and Health</i> , 2004 , 39, 31-46	1.7	39

234	Factorial invariance and stability of the Effort-Reward Imbalance Scales: a longitudinal analysis of two samples with different time lags. <i>International Journal of Behavioral Medicine</i> , 2008 , 15, 62-72	2.6	38
233	Chronic psychosocial stress at work and cardiovascular disease: the role of effort-reward imbalance. <i>International Journal of Law and Psychiatry</i> , 1999 , 22, 441-9	2.6	38
232	Disturbed Redox Homeostasis in Oxidative Distress: A Molecular Link From Chronic Psychosocial Work Stress to Coronary Heart Disease?. <i>Circulation Research</i> , 2017 , 121, 103-105	15.7	37
231	Plasma micronutrient status is improved after a 3-month dietary intervention with 5 daily portions of fruits and vegetables: implications for optimal antioxidant levels. <i>Nutrition Journal</i> , 2009 , 8, 10	4.3	37
230	Validating abbreviated measures of effort-reward imbalance at work in European cohort studies: the IPD-Work consortium. <i>International Archives of Occupational and Environmental Health</i> , 2014 , 87, 249-56	3.2	36
229	Prevalence of sleep apnea in healthy industrial workers. <i>Klinische Wochenschrift</i> , 1985 , 63, 807-11		36
228	Work stress is associated with diabetes and prediabetes: cross-sectional results from the MIPH Industrial Cohort Studies. <i>International Journal of Behavioral Medicine</i> , 2013 , 20, 495-503	2.6	35
227	Prevalence of mild cognitive impairment and its subtypes in the Heinz Nixdorf Recall study cohort. <i>Dementia and Geriatric Cognitive Disorders</i> , 2010 , 30, 362-73	2.6	35
