|----|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 1  | The relationship between wasting and stunting in young children: A systematic review. <i>Maternal and Child Nutrition</i> , 2022, 18, e13246.                                                                                                 | 3.0 | 44        |
| 2  | Serum cobalamin in children with moderate acute malnutrition in Burkina Faso: Secondary analysis of a randomized trial. <i>PLoS Medicine</i> , 2022, 19, e1003943.                                                                            | 8.4 | 4         |
| 3  | Thymus size in children with moderate malnutrition: a cohort study from Burkina Faso. <i>Pediatric Research</i> , 2021, 89, 1732-1741.                                                                                                        | 2.3 | 2         |
| 4  | Correlates of serum IGF-1 in young children with moderate acute malnutrition: a cross-sectional study in Burkina Faso. <i>American Journal of Clinical Nutrition</i> , 2021, 114, 965-972.                                                    | 4.7 | 3         |
| 5  | Early development in children with moderate acute malnutrition: A cross-sectional study in Burkina Faso. <i>Maternal and Child Nutrition</i> , 2020, 16, e12928.                                                                              | 3.0 | 19        |
| 6  | Association between admission criteria and body composition among young children with moderate acute malnutrition, a cross-sectional study from Burkina Faso. <i>Scientific Reports</i> , 2020, 10, 13266.                                    | 3.3 | 3         |
| 7  | Impact of food supplements on early child development in children with moderate acute malnutrition: A randomised 2 x 2 x 3 factorial trial in Burkina Faso. <i>PLoS Medicine</i> , 2020, 17, e1003442.                                        | 8.4 | 14        |
| 8  | Title is missing!. , 2020, 17, e1003442.                                                                                                                                                                                                      |     | 0         |
| 9  | Title is missing!. , 2020, 17, e1003442.                                                                                                                                                                                                      |     | 0         |
| 10 | Title is missing!. , 2020, 17, e1003442.                                                                                                                                                                                                      |     | 0         |
| 11 | Title is missing!. , 2020, 17, e1003442.                                                                                                                                                                                                      |     | 0         |
| 12 | Title is missing!. , 2020, 17, e1003442.                                                                                                                                                                                                      |     | 0         |
| 13 | Title is missing!. , 2020, 17, e1003442.                                                                                                                                                                                                      |     | 0         |
| 14 | Impact of food supplements on hemoglobin, iron status, and inflammation in children with moderate acute malnutrition: a 2x2x3 factorial randomized trial in Burkina Faso. <i>American Journal of Clinical Nutrition</i> , 2018, 107, 278-286. | 4.7 | 23        |
| 15 | Short Malnourished Children and Fat Accumulation With Food Supplementation. <i>Pediatrics</i> , 2018, 142, .                                                                                                                                  | 2.1 | 17        |
| 16 | Assessment of Regression Models for Adjustment of Iron Status Biomarkers for Inflammation in Children with Moderate Acute Malnutrition in Burkina Faso. <i>Journal of Nutrition</i> , 2017, 147, 125-132.                                     | 2.9 | 16        |
| 17 | Correlates of Physical Activity among Young Children with Moderate Acute Malnutrition. <i>Journal of Pediatrics</i> , 2017, 181, 235-241.                                                                                                     | 1.8 | 10        |
| 18 | Effectiveness of food supplements in increasing fat-free tissue accretion in children with moderate acute malnutrition: A randomised 2 x 2 x 3 factorial trial in Burkina Faso. <i>PLoS Medicine</i> , 2017, 14, e1002387.                    | 8.4 | 63        |

| #  | ARTICLE                                                                                                                                                                                                    | IF  | CITATIONS |
|----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 19 | Evaluation of the acceptability of improved supplementary foods for the treatment of moderate acute malnutrition in Burkina Faso using a mixed method approach. <i>Appetite</i> , 2016, 99, 34-45.         | 3.7 | 24        |
| 20 | Children with moderate acute malnutrition have inflammation not explained by maternal reports of illness and clinical symptoms: a cross-sectional study in Burkina Faso. <i>BMC Nutrition</i> , 2016, 2, . | 1.6 | 21        |
| 21 | Short children with a low midupper arm circumference respond to food supplementation: an observational study from Burkina Faso. <i>American Journal of Clinical Nutrition</i> , 2016, 103, 415-421.        | 4.7 | 22        |
| 22 | Acceptability of new formulations of corn-soy blends and lipid-based nutrient supplements in Province du PassorÃ©, Burkina Faso. <i>Appetite</i> , 2015, 91, 278-286.                                      | 3.7 | 25        |
