

Claire Glenton

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/6012596/claire-glenton-publications-by-year.pdf>

Version: 2024-04-19

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

121 papers	6,221 citations	38 h-index	77 g-index
129 ext. papers	7,727 ext. citations	5 avg, IF	6.15 L-index

#	Paper	IF	Citations
121	Cochrane Effective Practice and Organisation of Care (EPOC) Qualitative Evidence Syntheses, Differences From Reviews of Intervention Effectiveness and Implications for Guidance. <i>International Journal of Qualitative Methods, The</i> , 2022 , 21, 160940692110619	3.3	1
120	Using qualitative research to develop an elaboration of the TIDieR checklist for interventions to enhance vaccination communication: short report.. <i>Health Research Policy and Systems</i> , 2022 , 20, 31	3.7	
119	Health communication in and out of public health emergencies: to persuade or to inform?. <i>Health Research Policy and Systems</i> , 2022 , 20, 28	3.7	4
118	Community health workers at the dawn of a new era: 5. Roles and tasks. <i>Health Research Policy and Systems</i> , 2021 , 19, 128	3.7	9
117	Healthcare workers' perceptions and experiences of communicating with people over 50 years of age about vaccination: a qualitative evidence synthesis. <i>The Cochrane Library</i> , 2021 , 7, CD013706	5.2	3
116	Decision-support tools via mobile devices to improve quality of care in primary healthcare settings. <i>The Cochrane Library</i> , 2021 , 7, CD012944	5.2	3
115	Birth and death notification via mobile devices: a mixed methods systematic review. <i>The Cochrane Library</i> , 2021 , 7, CD012909	5.2	3
114	Qualitative Evidence Syntheses Within Cochrane Effective Practice and Organisation of Care: Developing a Template and Guidance. <i>International Journal of Qualitative Methods, The</i> , 2021 , 20, 160940692110419	3.3	1
113	Barriers and facilitators to healthcare workers' adherence with infection prevention and control guidelines for respiratory infectious diseases: a rapid qualitative evidence synthesis. <i>Emergencias</i> , 2021 , 33, 62-64	0.9	1
112	Rapid review methods more challenging during COVID-19: commentary with a focus on 8 knowledge synthesis steps. <i>Journal of Clinical Epidemiology</i> , 2020 , 126, 177-183	5.7	39
111	The TRANSFER Approach for assessing the transferability of systematic review findings. <i>BMC Medical Research Methodology</i> , 2020 , 20, 11	4.7	16
110	Effects of the Informed Health Choices podcast on the ability of parents of primary school children in Uganda to assess the trustworthiness of claims about treatment effects: one-year follow up of a randomised trial. <i>Trials</i> , 2020 , 21, 187	2.8	6
109	Development of the informed health choices resources in four countries to teach primary school children to assess claims about treatment effects: a qualitative study employing a user-centred approach. <i>Pilot and Feasibility Studies</i> , 2020 , 6, 18	1.9	7
108	GRADE guidelines 26: informative statements to communicate the findings of systematic reviews of interventions. <i>Journal of Clinical Epidemiology</i> , 2020 , 119, 126-135	5.7	174
107	Effects of the Informed Health Choices primary school intervention on the ability of children in Uganda to assess the reliability of claims about treatment effects, 1-year follow-up: a cluster-randomised trial. <i>Trials</i> , 2020 , 21, 27	2.8	10
106	Development of a checklist for people communicating evidence-based information about the effects of healthcare interventions: a mixed methods study. <i>BMJ Open</i> , 2020 , 10, e036348	3	8
105	A QuEST for speed: rapid qualitative evidence syntheses as a response to the COVID-19 pandemic. <i>Systematic Reviews</i> , 2020 , 9, 256	3	4

104	Tracking health commodity inventory and notifying stock levels via mobile devices: a mixed methods systematic review. <i>The Cochrane Library</i> , 2020 , 10, CD012907	5.2	4
103	Targeted client communication via mobile devices for improving maternal, neonatal, and child health. <i>The Cochrane Library</i> , 2020 , 8, CD013679	5.2	10
102	Targeted client communication via mobile devices for improving sexual and reproductive health. <i>The Cochrane Library</i> , 2020 , 8, CD013680	5.2	7
101	Mobile technologies to support healthcare provider to healthcare provider communication and management of care. <i>The Cochrane Library</i> , 2020 , 8, CD012927	5.2	18
100	Healthcare workers' perceptions and experiences of communicating with people over 50 about vaccination: a qualitative evidence synthesis. <i>The Cochrane Library</i> , 2020 ,	5.2	1
99	Barriers and facilitators to healthcare workers' adherence with infection prevention and control (IPC) guidelines for respiratory infectious diseases: a rapid qualitative evidence synthesis. <i>The Cochrane Library</i> , 2020 , 4, CD013582	5.2	209
98	Qualitative Evidence Synthesis (QES) for Guidelines: Paper 3 - Using qualitative evidence syntheses to develop implementation considerations and inform implementation processes. <i>Health Research Policy and Systems</i> , 2019 , 17, 74	3.7	16
97	Qualitative Evidence Synthesis (QES) for Guidelines: Paper 1 - Using qualitative evidence synthesis to inform guideline scope and develop qualitative findings statements. <i>Health Research Policy and Systems</i> , 2019 , 17, 76	3.7	20
96	Qualitative Evidence Synthesis (QES) for Guidelines: Paper 2 - Using qualitative evidence synthesis findings to inform evidence-to-decision frameworks and recommendations. <i>Health Research Policy and Systems</i> , 2019 , 17, 75	3.7	13
95	Systematic mapping of existing tools to appraise methodological strengths and limitations of qualitative research: first stage in the development of the CAMELOT tool. <i>BMC Medical Research Methodology</i> , 2019 , 19, 113	4.7	13
94	When 'Normal' Becomes Normative: A Case Study of Researchers' Quotation Errors When Referring to a Focus Group Sample Size Study. <i>International Journal of Qualitative Methods</i> , 2019 , 18, 160940691984125	3.3	1
93	Ugandan health workers' and mothers' views and experiences of the quality of maternity care and the use of informal solutions: A qualitative study. <i>PLoS ONE</i> , 2019 , 14, e0213511	3.7	18
92	Purposive sampling in a qualitative evidence synthesis: a worked example from a synthesis on parental perceptions of vaccination communication. <i>BMC Medical Research Methodology</i> , 2019 , 19, 26	4.7	66
91	Communication around HPV vaccination for adolescents in low- and middle-income countries: a systematic scoping overview of systematic reviews. <i>Systematic Reviews</i> , 2019 , 8, 190	3	11
90	Informed Health Choices media intervention for improving people's ability to critically appraise the trustworthiness of claims about treatment effects: a mixed-methods process evaluation of a randomised trial in Uganda. <i>BMJ Open</i> , 2019 , 9, e031510	3	3
89	Informed health choices intervention to teach primary school children in low-income countries to assess claims about treatment effects: process evaluation. <i>BMJ Open</i> , 2019 , 9, e030787	3	14
88	Development of mass media resources to improve the ability of parents of primary school children in Uganda to assess the trustworthiness of claims about the effects of treatments: a human-centred design approach. <i>Pilot and Feasibility Studies</i> , 2019 , 5, 155	1.9	8
87	Clients' perceptions and experiences of targeted digital communication accessible via mobile devices for reproductive, maternal, newborn, child, and adolescent health: a qualitative evidence synthesis. <i>The Cochrane Library</i> , 2019 , 10, CD013447	5.2	24

86	Barriers and facilitators to the implementation of doctor-nurse substitution strategies in primary care: a qualitative evidence synthesis. <i>The Cochrane Library</i> , 2019 , 4, CD010412	5.2	37
85	Decision-support tools via mobile devices to improve quality of care in primary healthcare settings. <i>The Cochrane Library</i> , 2018 ,	5.2	5
84	Birth and death notification via mobile devices. <i>The Cochrane Library</i> , 2018 ,	5.2	3
83	Developing Evidence to Decision Frameworks and an Interactive Evidence to Decision Tool for Making and Using Decisions and Recommendations in Health Care. <i>Global Challenges</i> , 2018 , 2, 1700081	4.3	9
82	Tracking health commodity inventory and notifying stock levels via mobile devices. <i>The Cochrane Library</i> , 2018 ,	5.2	6
81	Mobile-based technologies to support healthcare provider to healthcare provider communication and management of care. <i>The Cochrane Library</i> , 2018 ,	5.2	7
80	The GRADE Evidence to Decision (EtD) framework for health system and public health decisions. <i>Health Research Policy and Systems</i> , 2018 , 16, 45	3.7	89
79	Applying GRADE-CERQual to qualitative evidence synthesis findings: introduction to the series. <i>Implementation Science</i> , 2018 , 13, 2	8.4	338
78	Applying GRADE-CERQual to qualitative evidence synthesis findings-paper 2: how to make an overall CERQual assessment of confidence and create a Summary of Qualitative Findings table. <i>Implementation Science</i> , 2018 , 13, 10	8.4	161
77	Applying GRADE-CERQual to qualitative evidence synthesis findings-paper 3: how to assess methodological limitations. <i>Implementation Science</i> , 2018 , 13, 9	8.4	85
76	Applying GRADE-CERQual to qualitative evidence synthesis findings-paper 4: how to assess coherence. <i>Implementation Science</i> , 2018 , 13, 13	8.4	76
75	Applying GRADE-CERQual to qualitative evidence synthesis findings-paper 5: how to assess adequacy of data. <i>Implementation Science</i> , 2018 , 13, 14	8.4	77
74	Applying GRADE-CERQual to qualitative evidence synthesis findings-paper 6: how to assess relevance of the data. <i>Implementation Science</i> , 2018 , 13, 4	8.4	79
73	Applying GRADE-CERQual to qualitative evidence synthesis findings-paper 7: understanding the potential impacts of dissemination bias. <i>Implementation Science</i> , 2018 , 13, 12	8.4	32
72	Identification of preliminary core outcome domains for communication about childhood vaccination: An online Delphi survey. <i>Vaccine</i> , 2018 , 36, 6520-6528	4.1	9
71	Digital tracking, provider decision support systems, and targeted client communication via mobile devices to improve primary health care. <i>The Cochrane Library</i> , 2018 ,	5.2	6
70	Mobile-based technologies to support client to healthcare provider communication and management of care. <i>The Cochrane Library</i> , 2018 ,	5.2	4
69	Factors affecting the implementation of childhood vaccination communication strategies in Nigeria: a qualitative study. <i>BMC Public Health</i> , 2017 , 17, 200	4.1	34

68	Childhood vaccination communication outcomes unpacked and organized in a taxonomy to facilitate core outcome establishment. <i>Journal of Clinical Epidemiology</i> , 2017 , 84, 173-184	5.7	10
67	Parents' and informal caregivers' views and experiences of communication about routine childhood vaccination: a synthesis of qualitative evidence. <i>The Cochrane Library</i> , 2017 , 2, CD011787	5.2	110
66	Further exploration of dissemination bias in qualitative research required to facilitate assessment within qualitative evidence syntheses. <i>Journal of Clinical Epidemiology</i> , 2017 , 88, 133-139	5.7	21
65	Effects of the Informed Health Choices podcast on the ability of parents of primary school children in Uganda to assess claims about treatment effects: a randomised controlled trial. <i>Lancet, The</i> , 2017 , 390, 389-398	4.0	21
64	Effects of the Informed Health Choices primary school intervention on the ability of children in Uganda to assess the reliability of claims about treatment effects: a cluster-randomised controlled trial. <i>Lancet, The</i> , 2017 , 390, 374-388	4.0	41
63	Stakeholder perceptions of communication about vaccination in two regions of Cameroon: A qualitative case study. <i>PLoS ONE</i> , 2017 , 12, e0183721	3.7	13
62	Perceptions and experiences of childhood vaccination communication strategies among caregivers and health workers in Nigeria: A qualitative study. <i>PLoS ONE</i> , 2017 , 12, e0186733	3.7	14
61	Implementation considerations when expanding health worker roles to include safe abortion care: a five-country case study synthesis. <i>BMC Public Health</i> , 2017 , 17, 730	4.1	21
60	Delivery arrangements for health systems in low-income countries: an overview of systematic reviews. <i>The Cochrane Library</i> , 2017 , 9, CD011083	5.2	45
59	Using the COMMVAC taxonomy to map vaccination communication interventions in Mozambique. <i>Global Health Action</i> , 2017 , 10, 1321313	3	3
58	Factors that influence the provision of intrapartum and postnatal care by skilled birth attendants in low- and middle-income countries: a qualitative evidence synthesis. <i>The Cochrane Library</i> , 2017 , 11, CD011358	5.2	84
57	The comprehensive 'Communicate to Vaccinate' taxonomy of communication interventions for childhood vaccination in routine and campaign contexts. <i>BMC Public Health</i> , 2017 , 17, 423	4.1	24
56	A new resource for developing and strengthening large-scale community health worker programs. <i>Human Resources for Health</i> , 2017 , 15, 13	4.6	22
55	Improving GRADE evidence tables part 1: a randomized trial shows improved understanding of content in summary of findings tables with a new format. <i>Journal of Clinical Epidemiology</i> , 2016 , 74, 7-18	5.7	54
54	Current use was established and Cochrane guidance on selection of social theories for systematic reviews of complex interventions was developed. <i>Journal of Clinical Epidemiology</i> , 2016 , 75, 78-92	5.7	30
53	Expanding the evidence base for global recommendations on health systems: strengths and challenges of the OptimizeMNH guidance process. <i>Implementation Science</i> , 2016 , 11, 98	8.4	20
52	Extent, Awareness and Perception of Dissemination Bias in Qualitative Research: An Explorative Survey. <i>PLoS ONE</i> , 2016 , 11, e0159290	3.7	19
51	Communication strategies to promote the uptake of childhood vaccination in Nigeria: a systematic map. <i>Global Health Action</i> , 2016 , 9, 30337	3	20

50	Outcomes mapping study for childhood vaccination communication: too few concepts were measured in too many ways. <i>Journal of Clinical Epidemiology</i> , 2016 , 72, 33-44	5.7	10
49	Qualitative "trial-sibling" studies and "unrelated" qualitative studies contributed to complex intervention reviews. <i>Journal of Clinical Epidemiology</i> , 2016 , 74, 133-43	5.7	18
48	The swine flu vaccine, public attitudes, and researcher interpretations: a systematic review of qualitative research. <i>BMC Health Services Research</i> , 2016 , 16, 203	2.9	23
47	Optimizing the delivery of contraceptives in low- and middle-income countries through task shifting: a systematic review of effectiveness and safety. <i>Reproductive Health</i> , 2015 , 12, 27	3.5	23
46	Key concepts that people need to understand to assess claims about treatment effects. <i>Journal of Evidence-Based Medicine</i> , 2015 , 8, 112-25	3.9	38
45	Mapping how information about childhood vaccination is communicated in two regions of Cameroon: What is done and where are the gaps?. <i>BMC Public Health</i> , 2015 , 15, 1264	4.1	12
44	Parents' and informal caregivers' views and experiences of routine early childhood vaccination communication: qualitative evidence synthesis 2015 ,		5
43	Using qualitative evidence in decision making for health and social interventions: an approach to assess confidence in findings from qualitative evidence syntheses (GRADE-CERQual). <i>PLoS Medicine</i> , 2015 , 12, e1001895	11.6	429
42	Comparison between the standard and a new alternative format of the Summary-of-Findings tables in Cochrane review users: study protocol for a randomized controlled trial. <i>Trials</i> , 2015 , 16, 164	2.8	8
41	Factors that influence the provision of intrapartum and postnatal care by skilled birth attendants in low- and middle-income countries: a qualitative evidence synthesis. <i>The Cochrane Library</i> , 2015 ,	5.2	10
40	A summary to communicate evidence from systematic reviews to the public improved understanding and accessibility of information: a randomized controlled trial. <i>Journal of Clinical Epidemiology</i> , 2015 , 68, 182-90	5.7	37
39	Stakeholder views on the incorporation of traditional birth attendants into the formal health systems of low- and middle-income countries: a qualitative analysis of the HIFA2015 and CHILD2015 email discussion forums. <i>BMC Pregnancy and Childbirth</i> , 2014 , 14, 118	3.2	14
38	Delivery arrangements for health systems in low-income countries: an overview of systematic reviews 2014 ,		4
37	Qualitative Research Synthesis: How the Whole Can Be Greater than the Sum of Its Parts. <i>Anthropology in Action</i> , 2014 , 21,	0.7	3
36	Implementing large-scale programmes to optimise the health workforce in low- and middle-income settings: a multicountry case study synthesis. <i>Tropical Medicine and International Health</i> , 2014 , 19, 1437-56	2.3	21
35	Interventions aimed at communities to inform and/or educate about early childhood vaccination. <i>The Cochrane Library</i> , 2014 , CD010232	5.2	47
34	Policymakers' and other stakeholders' perceptions of key considerations for health system decisions and the presentation of evidence to inform those considerations: an international survey. <i>Health Research Policy and Systems</i> , 2013 , 11, 19	3.7	34
33	Completeness of reporting of setting and health worker cadre among trials on antenatal iron and folic acid supplementation in pregnancy: an assessment based on two Cochrane reviews. <i>Systematic Reviews</i> , 2013 , 2, 42	3	5

32	"Communicate to vaccinate": the development of a taxonomy of communication interventions to improve routine childhood vaccination. <i>BMC International Health and Human Rights</i> , 2013 , 13, 23	2.5	35
31	Nonrandomized studies are not always found even when selection criteria for health systems intervention reviews include them: a methodological study. <i>Journal of Clinical Epidemiology</i> , 2013 , 66, 367-70	5.7	7
30	A systematic review of qualitative evidence on barriers and facilitators to the implementation of task-shifting in midwifery services. <i>Midwifery</i> , 2013 , 29, 1211-21	2.8	81
29	The effects, safety and acceptability of compact, pre-filled, autodisable injection devices when delivered by lay health workers. <i>Tropical Medicine and International Health</i> , 2013 , 18, 1002-16	2.3	16
28	Barriers and facilitators to the implementation of lay health worker programmes to improve access to maternal and child health: qualitative evidence synthesis. <i>Cochrane Database of Systematic Reviews</i> , 2013 , CD010414		244
27	Barriers and facilitators to the implementation of lay health worker programmes to improve access to maternal and child health: qualitative evidence synthesis 2013 ,		86
26	Barriers and facilitators to the implementation of doctor-nurse substitution strategies in primary care: qualitative evidence synthesis. <i>The Cochrane Library</i> , 2013 ,	5.2	17
25	Scanning for satisfaction or digging for dismay? Comparing findings from a postal survey with those from a focus group-study. <i>BMC Medical Research Methodology</i> , 2012 , 12, 134	4.7	4
24	Community-directed interventions for informing and/or educating about early childhood vaccination 2012 ,		8
23	Can lay health workers increase the uptake of childhood immunisation? Systematic review and typology. <i>Tropical Medicine and International Health</i> , 2011 , 16, 1044-53	2.3	52
22	What about N? A methodological study of sample-size reporting in focus group studies. <i>BMC Medical Research Methodology</i> , 2011 , 11, 26	4.7	312
21	'Communicate to vaccinate' (COMMVAC). building evidence for improving communication about childhood vaccinations in low- and middle-income countries: protocol for a programme of research. <i>Implementation Science</i> , 2011 , 6, 125	8.4	34
20	Still too little qualitative research to shed light on results from reviews of effectiveness trials: a case study of a Cochrane review on the use of lay health workers. <i>Implementation Science</i> , 2011 , 6, 53	8.4	53
19	Evidence summaries tailored to health policy-makers in low- and middle-income countries. <i>Bulletin of the World Health Organization</i> , 2011 , 89, 54-61	8.2	74
18	Presenting the results of Cochrane Systematic Reviews to a consumer audience: a qualitative study. <i>Medical Decision Making</i> , 2010 , 30, 566-77	2.5	69
17	Summary-of-findings tables in Cochrane reviews improved understanding and rapid retrieval of key information. <i>Journal of Clinical Epidemiology</i> , 2010 , 63, 620-6	5.7	93
16	User testing and stakeholder feedback contributed to the development of understandable and useful Summary of Findings tables for Cochrane reviews. <i>Journal of Clinical Epidemiology</i> , 2010 , 63, 607-19	5.7	79
15	Lay health workers in primary and community health care for maternal and child health and the management of infectious diseases. <i>The Cochrane Library</i> , 2010 , CD004015	5.2	513

14	The female community health volunteer programme in Nepal: decision makers' perceptions of volunteerism, payment and other incentives. <i>Social Science and Medicine</i> , 2010 , 70, 1920-1927	5.1	176
13	Should we care what policy makers think? A response to Maes, Kohrt and Closser. <i>Social Science and Medicine</i> , 2010 , 71, 1379-1380	5.1	4
12	Use of qualitative methods alongside randomised controlled trials of complex healthcare interventions: methodological study. <i>BMJ, The</i> , 2009 , 339, b3496	5.9	428
11	Are vaccination programmes delivered by lay health workers cost-effective? A systematic review. <i>Human Resources for Health</i> , 2009 , 7, 81	4.6	18
10	User experiences of evidence-based online resources for health professionals: user testing of The Cochrane Library. <i>BMC Medical Informatics and Decision Making</i> , 2008 , 8, 34	3.6	49
9	Evidence that patients can understand and use?. <i>Zeitschrift Fur Evidenz, Fortbildung Und Qualitat Im Gesundheitswesen</i> , 2008 , 102, 493-6	1.4	10
8	Thou shalt versus thou shalt not: a meta-synthesis of GPs' attitudes to clinical practice guidelines. <i>British Journal of General Practice</i> , 2007 , 57, 971-8	1.6	177
7	Lay perceptions of evidence-based information--a qualitative evaluation of a website for back pain sufferers. <i>BMC Health Services Research</i> , 2006 , 6, 34	2.9	34
6	Summaries of findings, descriptions of interventions, and information about adverse effects would make reviews more informative. <i>Journal of Clinical Epidemiology</i> , 2006 , 59, 770-8	5.7	41
5	Portals to Wonderland: health portals lead to confusing information about the effects of health care. <i>BMC Medical Informatics and Decision Making</i> , 2005 , 5, 7	3.6	45
4	Chronic back pain sufferers--striving for the sick role. <i>Social Science and Medicine</i> , 2003 , 57, 2243-52	5.1	170
3	Developing patient-centred information for back pain sufferers. <i>Health Expectations</i> , 2002 , 5, 319-29	3.7	33
2	Computer-generated patient education materials: do they affect professional practice? A systematic review. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2002 , 9, 346-58	8.6	20
1	The use of evidence by health care user organizations. <i>Health Expectations</i> , 1998 , 1, 14-22	3.7	10
