

Adriana Farah

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/6024973/adriana-farah-publications-by-year.pdf>

Version: 2024-04-26

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
68	Headspace volatolome of peel flours from citrus fruits grown in Brazil. <i>Food Research International</i> , 2021 , 150, 110801	7	1
67	Three centuries on the science of coffee authenticity control. <i>Food Research International</i> , 2021 , 149, 110690	7	4
66	Effects of regular and decaffeinated roasted coffee (<i>Coffea arabica</i> and <i>Coffea canephora</i>) extracts and bioactive compounds on in vitro probiotic bacterial growth. <i>Food and Function</i> , 2020 , 11, 1410-1424	6.1	13
65	Therapeutic Potential of Link in Dental Biofilm Treatment. <i>Journal of Medicinal Food</i> , 2020 , 23, 998-1005	2.8	1
64	Antiproliferative effect of guava fruit extracts in MDA-MB-435 and MCF-7 human breast cancer cell lines. <i>Anais Da Academia Brasileira De Ciencias</i> , 2020 , 92, e20191500	1.4	5
63	Effect of roasting speed on the volatile composition of coffees with different cup quality. <i>Food Research International</i> , 2020 , 137, 109546	7	9
62	Contents of key bioactive and detrimental compounds in health performance coffees compared to conventional types of coffees sold in the United States market. <i>Food and Function</i> , 2020 , 11, 7561-7575	6.1	1
61	Caffeine Consumption through Coffee: Content in the Beverage, Metabolism, Health Benefits and Risks. <i>Beverages</i> , 2019 , 5, 37	3.4	31
60	Homeopathic medicine of <i>Melissa officinalis</i> combined or not with <i>Phytolacca decandra</i> in the treatment of possible sleep bruxism in children: A crossover randomized triple-blinded controlled clinical trial. <i>Phytomedicine</i> , 2019 , 58, 152869	6.5	11
59	Consumption of Chlorogenic Acids through Coffee and Health Implications. <i>Beverages</i> , 2019 , 5, 11	3.4	43
58	METHYLXANTHINES IN STIMULANT FOODS AND BEVERAGES COMMONLY CONSUMED IN BRAZIL. <i>Journal of Food Composition and Analysis</i> , 2019 , 78, 75-85	4.1	9
57	Treatment of dental biofilm with a tincture of leaves: an - study. <i>Natural Product Research</i> , 2019 , 33, 3432-3435	3.3	3
56	Cytotoxic and antibacterial effect of a red propolis mouthwash, with or without fluoride, on the growth of a cariogenic biofilm. <i>Archives of Oral Biology</i> , 2019 , 107, 104512	2.8	10
55	Antibacterial and Cytotoxic Potential of a Brazilian Red Propolis. <i>Pesquisa Brasileira Em Odontopediatria E Clinica Integrada</i> , 2019 , 19, 1-9	0.7	5
54	Fortification of Ground Roasted Coffees with Iron, Zinc, and Calcium Salts: Evaluation of Minerals Recovery in Filtered and Espresso Brews. <i>Beverages</i> , 2019 , 5, 4	3.4	3
53	Comparative oesophageal cancer risk assessment of hot beverage consumption (coffee, mate and tea): the margin of exposure of PAH vs very hot temperatures. <i>BMC Cancer</i> , 2018 , 18, 236	4.8	20
52	Coffee, maté and beans are the main contributors to the antioxidant capacity of Brazilian diet. <i>European Journal of Nutrition</i> , 2017 , 56, 1523-1533	5.2	18

51	Human Wellbeing Sociability, Performance, and Health 2017 , 493-520		5
50	Volatile Composition of Sweet Passion Fruit (<i>Passiflora alata</i> Curtis). <i>Journal of Chemistry</i> , 2017 , 2017, 1-9	2.3	6
49	Coffee Adulteration: More than Two Decades of Research. <i>Critical Reviews in Analytical Chemistry</i> , 2016 , 46, 83-92	5.2	64
48	Influence of a Brazilian wild green propolis on the enamel mineral loss and <i>Streptococcus mutans</i> count in dental biofilm. <i>Archives of Oral Biology</i> , 2016 , 65, 77-81	2.8	33
47	Distribution of Major Chlorogenic Acids and Related Compounds in Brazilian Green and Toasted <i>Ilex paraguariensis</i> (Mat) Leaves. <i>Journal of Agricultural and Food Chemistry</i> , 2016 , 64, 2361-70	5.7	14
46	Using Real-Time PCR as a tool for monitoring the authenticity of commercial coffees. <i>Food Chemistry</i> , 2016 , 199, 433-8	8.5	30
45	Are Pediatric Antibiotic Formulations Potentials Risk Factors for Dental Caries and Dental Erosion?. <i>Open Dentistry Journal</i> , 2016 , 10, 420-30	0.8	10
44	Effect of simultaneous consumption of soymilk and coffee on the urinary excretion of isoflavones, chlorogenic acids and metabolites in healthy adults. <i>Journal of Functional Foods</i> , 2015 , 19, 688-699	5.1	14
43	Highlights in the History of Coffee Science Related to Health 2015 , 11-17		5
42	The Coffee Plant and Beans 2015 , 5-10		14
41	<i>Coffea canephora</i> 2015 , 615-625		1
40	Bioavailability and Metabolism of Chlorogenic Acids from Coffee 2015 , 789-801		6
39	Overview of Currently Applied Techniques for Detection of Adulterants in Coffee and Potential Use of DNA-Based Methods as Promising New Analytical Tools 2015 , 953-961		2
38	Antibacterial effect of coffee: calcium concentration in a culture containing teeth/biofilm exposed to <i>Coffea Canephora</i> aqueous extract. <i>Letters in Applied Microbiology</i> , 2014 , 59, 342-7	2.9	12
37	Volatile fingerprint of Brazilian defective coffee seeds: corroboration of potential marker compounds and identification of new low quality indicators. <i>Food Chemistry</i> , 2014 , 153, 298-314	8.5	76
36	Antibacterial Effect of Aqueous Extracts and Bioactive Chemical Compounds of <i>Coffea canephora</i> against Microorganisms Involved in Dental Caries and Periodontal Disease. <i>Advances in Microbiology</i> , 2014 , 04, 978-985	0.6	4
35	Changes in triacylglycerols and free fatty acids composition during storage of roasted coffee. <i>LWT - Food Science and Technology</i> , 2013 , 50, 581-590	5.4	40
34	Furans and other volatile compounds in ground roasted and espresso coffee using headspace solid-phase microextraction: Effect of roasting speed. <i>Food and Bioproducts Processing</i> , 2013 , 91, 233-241	4.9	65

33	Zinc supplementation, production and quality of coffee beans. <i>Revista Ceres</i> , 2013 , 60, 293-299	0.7	16
32	Influence of natural coffee compounds, coffee extracts and increased levels of caffeine on the inhibition of <i>Streptococcus mutans</i> . <i>Food Research International</i> , 2012 , 49, 459-461	7	32
31	Chapter 7: Analysis of Caffeine by Liquid Chromatography-Mass Spectrometry. <i>Food and Nutritional Components in Focus</i> , 2012 , 103-129		1
30	Coffee Constituents 2012 , 21-58		100
29	Influence of coffee roasting on the incorporation of phenolic compounds into melanoidins and their relationship with antioxidant activity of the brew. <i>Journal of Agricultural and Food Chemistry</i> , 2012 , 60, 4265-75	5.7	101
28	Chlorogenic acids in Brazilian <i>Coffea arabica</i> cultivars from various consecutive crops. <i>Food Chemistry</i> , 2012 , 134, 611-614	8.5	49
27	Effect of <i>Coffea canephora</i> aqueous extract on microbial counts in ex vivo oral biofilms: a case study. <i>Planta Medica</i> , 2012 , 78, 755-60	3.1	17
26	Effect of simultaneous consumption of milk and coffee on chlorogenic acids bioavailability in humans. <i>Journal of Agricultural and Food Chemistry</i> , 2011 , 59, 7925-31	5.7	76
25	Inhibitory properties of <i>Coffea canephora</i> extract against oral bacteria and its effect on demineralisation of deciduous teeth. <i>Archives of Oral Biology</i> , 2011 , 56, 556-64	2.8	47
24	FORMULATION OF A SOY-COFFEE BEVERAGE BY RESPONSE SURFACE METHODOLOGY AND INTERNAL PREFERENCE MAPPING. <i>Journal of Sensory Studies</i> , 2010 , 25, 226	2.2	19
23	Kinetics of ochratoxin A destruction during coffee roasting. <i>Food Control</i> , 2010 , 21, 872-877	6.2	42
22	Modeling weight loss and chlorogenic acids content in coffee during roasting. <i>Journal of Agricultural and Food Chemistry</i> , 2010 , 58, 12238-43	5.7	49
21	Species, roasting degree and decaffeination influence the antibacterial activity of coffee against <i>Streptococcus mutans</i> . <i>Food Chemistry</i> , 2010 , 118, 782-788	8.5	54
20	Chlorogenic acids and other relevant compounds in Brazilian coffees processed by semi-dry and wet post-harvesting methods. <i>Food Chemistry</i> , 2010 , 118, 851-855	8.5	111
19	Composição volátil dos defeitos intrínsecos do café por CG/EM-headspace. <i>Quimica Nova</i> , 2009 , 32, 309-314	1.6	14
18	Chlorogenic acids and related compounds in medicinal plants and infusions. <i>Food Chemistry</i> , 2009 , 113, 1370-1376	8.5	184
17	The increase in human plasma antioxidant capacity after acute coffee intake is not associated with endogenous non-enzymatic antioxidant components. <i>International Journal of Food Sciences and Nutrition</i> , 2009 , 60 Suppl 6, 173-81	3.7	24
16	Chlorogenic acids from green coffee extract are highly bioavailable in humans. <i>Journal of Nutrition</i> , 2008 , 138, 2309-15	4.1	388

15	Comprehensive analysis of major and minor chlorogenic acids and lactones in economically relevant Brazilian coffee cultivars. <i>Food Chemistry</i> , 2008 , 106, 859-867	8.5	133
14	Volatile compounds as potential defective coffee beans markers. <i>Food Chemistry</i> , 2008 , 108, 1133-41	8.5	88
13	Fast simultaneous analysis of caffeine, trigonelline, nicotinic acid and sucrose in coffee by liquid chromatography-mass spectrometry. <i>Food Chemistry</i> , 2008 , 110, 1030-5	8.5	119
12	Effects of chronic coffee consumption on glucose kinetics in the conscious rat. <i>Canadian Journal of Physiology and Pharmacology</i> , 2007 , 85, 823-30	2.4	39
11	Chlorogenic acid compounds from coffee are differentially absorbed and metabolized in humans. <i>Journal of Nutrition</i> , 2007 , 137, 2196-201	4.1	216
10	Antibacterial activity of coffee extracts and selected coffee chemical compounds against enterobacteria. <i>Journal of Agricultural and Food Chemistry</i> , 2006 , 54, 8738-43	5.7	200
9	Chlorogenic acids and lactones in regular and water-decaffeinated arabica coffees. <i>Journal of Agricultural and Food Chemistry</i> , 2006 , 54, 374-81	5.7	155
8	Efeito do processo de descafeinação com diclorometano sobre a composição química dos cafés arábica e robusta antes e após a torra. <i>Química Nova</i> , 2006 , 29, 965-971	1.6	34
7	Phenolic compounds in coffee. <i>Brazilian Journal of Plant Physiology</i> , 2006 , 18, 23-36		397
6	Correlation between cup quality and chemical attributes of Brazilian coffee. <i>Food Chemistry</i> , 2006 , 98, 373-380	8.5	249
5	Effect of roasting on the formation of chlorogenic acid lactones in coffee. <i>Journal of Agricultural and Food Chemistry</i> , 2005 , 53, 1505-13	5.7	324
4	4-Caffeoyl-1,5-quinide in roasted coffee inhibits [³ H]naloxone binding and reverses anti-nociceptive effects of morphine in mice. <i>Psychopharmacology</i> , 2004 , 176, 146-53	4.7	27
3	Quinides of roasted coffee enhance insulin action in conscious rats. <i>Journal of Nutrition</i> , 2003 , 133, 3529-32	4.2	113
2	Oligosaccharide distribution in Brazilian soya bean cultivars. <i>Food Chemistry</i> , 1995 , 52, 385-387	8.5	28
1	Germination and Debittering Lupin Seeds Reduce Galactoside and Intestinal Carbohydrate Fermentation in Humans. <i>Journal of Food Science</i> , 1993 , 58, 627-630	3.4	11
