

Adam M Deane

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/6042254/adam-m-deane-publications-by-year.pdf>

Version: 2024-04-27

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
197	Vaptans for the Management of Hyponatremia in Neurocritical Care: a Systematic Review. <i>SN Comprehensive Clinical Medicine</i> , 2022 , 4, 1	2.7	0
196	β-Hydroxy-β-methylbutyrate (HMB) supplementation and functional outcomes in multi-trauma patients: a study protocol for a pilot randomised clinical trial (BOOST trial).. <i>Pilot and Feasibility Studies</i> , 2022 , 8, 21	1.9	0
195	Protocol summary and statistical analysis plan for intensive nutrition therapy compared to usual care in critically ill adults (INTENT): a phase II randomised controlled trial.. <i>BMJ Open</i> , 2022 , 12, e050153	3	0
194	Conservative or liberal oxygen therapy for mechanically ventilated adults with acute brain pathologies: A post-hoc subgroup analysis. <i>Journal of Critical Care</i> , 2022 , 71, 154079	4	0
193	The impact of a modified carbohydrate formula, and its constituents, on glycaemic control and inflammatory markers: A nested mechanistic sub-study. <i>Journal of Human Nutrition and Dietetics</i> , 2021 ,	3.1	1
192	Assessment of muscle mass using ultrasound with minimal versus maximal pressure compared with computed tomography in critically ill adult patients. <i>Australian Critical Care</i> , 2021 , 34, 303-310	2.9	3
191	A Stabilizing Agent, PCA/DTPA, Improves Plasma Storage Life for the Chromsystems Vitamin C Assay up to Six Months. <i>Annals of Laboratory Medicine</i> , 2021 , 41, 414-418	3.1	0
190	Quantifying Response to Nutrition Therapy During Critical Illness: Implications for Clinical Practice and Research? A Narrative Review. <i>Journal of Parenteral and Enteral Nutrition</i> , 2021 , 45, 251-266	4.2	2
189	Global Impact of Coronavirus Disease 2019 Infection Requiring Admission to the ICU: A Systematic Review and Meta-analysis. <i>Chest</i> , 2021 , 159, 524-536	5.3	47
188	Enteral Feeding Intolerance: Updates in Definitions and Pathophysiology. <i>Nutrition in Clinical Practice</i> , 2021 , 36, 40-49	3.6	11
187	Use of a High-Protein Enteral Nutrition Formula to Increase Protein Delivery to Critically Ill Patients: A Randomized, Blinded, Parallel-Group, Feasibility Trial. <i>Journal of Parenteral and Enteral Nutrition</i> , 2021 , 45, 699-709	4.2	4
186	Are Classic Bedside Exam Findings Required to Initiate Enteral Nutrition in Critically Ill Patients: Emphasis on Bowel Sounds and Abdominal Distension. <i>Nutrition in Clinical Practice</i> , 2021 , 36, 67-75	3.6	1
185	Protein absorption and kinetics in critical illness. <i>Current Opinion in Clinical Nutrition and Metabolic Care</i> , 2021 , 24, 71-78	3.8	3
184	Survivors of Intensive Care With Type 2 Diabetes and the Effect of Shared-Care Follow-Up Clinics: The SWEET-AS Randomized Controlled Pilot Study. <i>Chest</i> , 2021 , 159, 174-185	5.3	1
183	Nocturnal Hypoglycemia in Patients With Diabetes Discharged From ICUs: A Prospective Two-Center Cohort Study. <i>Critical Care Medicine</i> , 2021 , 49, 636-649	1.4	6
182	Effects of Standard vs Energy-Dense Formulae on Gastric Retention, Energy Delivery, and Glycemia in Critically Ill Patients. <i>Journal of Parenteral and Enteral Nutrition</i> , 2021 , 45, 710-719	4.2	0
181	Emerging benefits and drawbacks of β-adrenoceptor agonists in the management of sepsis and critical illness. <i>British Journal of Pharmacology</i> , 2021 , 178, 1407-1425	8.6	5

180	Incidence and management of metabolic acidosis with sodium bicarbonate in the ICU: An international observational study. <i>Critical Care</i> , 2021 , 25, 45	10.8	4
179	Expert consensus statements for the management of COVID-19-related acute respiratory failure using a Delphi method. <i>Critical Care</i> , 2021 , 25, 106	10.8	45
178	Neuroprotective Properties of Vitamin C: A Scoping Review of Pre-Clinical and Clinical Studies. <i>Journal of Neurotrauma</i> , 2021 , 38, 2194-2205	5.4	3
177	A multicenter randomized clinical trial of pharmacological vitamin B1 administration to critically ill patients who develop hypophosphatemia during enteral nutrition (The THIAMINE 4 HYPOPHOSPHATEMIA trial). <i>Clinical Nutrition</i> , 2021 , 40, 5047-5052	5.9	0
176	Urinary and renal oxygenation during dexmedetomidine infusion in critically ill adults with mechanistic insights from an ovine model. <i>Journal of Critical Care</i> , 2021 , 64, 74-81	4	0
175	Pharmacological Management of Paroxysmal Sympathetic Hyperactivity: A Scoping Review. <i>Journal of Neurotrauma</i> , 2021 , 38, 2221-2237	5.4	1
174	Neutrophil kinetics and function after major trauma: A systematic review. <i>World Journal of Critical Care Medicine</i> , 2021 , 10, 260-277	3	0
173	Blinded, Double-Dummy, Parallel-Group, Phase 2a Randomized Clinical Trial to Evaluate the Efficacy and Safety of a Highly Selective 5-Hydroxytryptamine Type 4 Receptor Agonist in Critically Ill Patients With Enteral Feeding Intolerance. <i>Journal of Parenteral and Enteral Nutrition</i> , 2021 , 45, 115-124	4.2	11
172	Invasive pulmonary aspergillosis in critically ill patients with COVID-19 in Australia: implications for screening and treatment.. <i>Internal Medicine Journal</i> , 2021 , 51, 2129-2132	1.6	0
171	Effects of Routine Position Changes and Tracheal Suctioning on Intracranial Pressure in Traumatic Brain Injury Patients. <i>Journal of Neurotrauma</i> , 2020 , 37, 2227-2233	5.4	1
170	Gastrointestinal dysfunction in the critically ill: a systematic scoping review and research agenda proposed by the Section of Metabolism, Endocrinology and Nutrition of the European Society of Intensive Care Medicine. <i>Critical Care</i> , 2020 , 24, 224	10.8	29
169	Reply to Peñha Antonio : Too Many Calories for All?. <i>American Journal of Respiratory and Critical Care Medicine</i> , 2020 , 202, 1060	10.2	
168	Long term outcomes for Aboriginal and Torres Strait Islander Australians after hospital intensive care. <i>Medical Journal of Australia</i> , 2020 , 213, 16-21	4	1
167	Update on nutritional assessment and therapy in critical care. <i>Current Opinion in Critical Care</i> , 2020 , 26, 197-204	3.5	2
166	Characteristics and Outcomes of Critically Ill Patients with Acute Exacerbation of Chronic Obstructive Pulmonary Disease in Australia and New Zealand. <i>Annals of the American Thoracic Society</i> , 2020 , 17, 736-745	4.7	4
165	Outcome Measures in Critical Care Nutrition Interventional Trials: A Systematic Review. <i>Nutrition in Clinical Practice</i> , 2020 , 35, 506-513	3.6	8
164	Metabolic support in sepsis: corticosteroids and vitamins: the why, the when, the how. <i>Current Opinion in Critical Care</i> , 2020 , 26, 363-368	3.5	4
163	The effects of ulimorelin, a ghrelin agonist, on liquid gastric emptying and colonic transit in humans. <i>Neurogastroenterology and Motility</i> , 2020 , 32, e13784	4	5

162	Angiotensin I and angiotensin II concentrations and their ratio in catecholamine-resistant vasodilatory shock. <i>Critical Care</i> , 2020 , 24, 43	10.8	34
161	Effect of Vitamin C, Hydrocortisone, and Thiamine vs Hydrocortisone Alone on Time Alive and Free of Vasopressor Support Among Patients With Septic Shock: The VITAMINS Randomized Clinical Trial. <i>JAMA - Journal of the American Medical Association</i> , 2020 , 323, 423-431	27.4	193
160	Is Energy Delivery Guided by Indirect Calorimetry Associated With Improved Clinical Outcomes in Critically Ill Patients? A Systematic Review and Meta-analysis. <i>Nutrition and Metabolic Insights</i> , 2020 , 13, 1178638820903295	1.9	9
159	Post-ICU Diabetes. <i>Lessons From the ICU</i> , 2020 , 145-161	0.1	
158	Outcomes Six Months after Delivering 100% or 70% of Enteral Calorie Requirements during Critical Illness (TARGET). A Randomized Controlled Trial. <i>American Journal of Respiratory and Critical Care Medicine</i> , 2020 , 201, 814-822	10.2	16
157	Conservative oxygen therapy for mechanically ventilated adults with sepsis: a post hoc analysis of data from the intensive care unit randomized trial comparing two approaches to oxygen therapy (ICU-ROX). <i>Intensive Care Medicine</i> , 2020 , 46, 17-26	14.5	35
156	Measuring nutrition-related outcomes in a cohort of multi-trauma patients following intensive care unit discharge. <i>Journal of Human Nutrition and Dietetics</i> , 2020 , 33, 414-422	3.1	7
155	Conservative oxygen therapy for mechanically ventilated adults with suspected hypoxic ischaemic encephalopathy. <i>Intensive Care Medicine</i> , 2020 , 46, 2411-2422	14.5	14
154	An observational study investigating the use of patient-owned technology to quantify physical activity in survivors of critical illness. <i>Australian Critical Care</i> , 2020 , 33, 137-143	2.9	1
153	Systematic Review With Meta-Analysis of Patient-Centered Outcomes, Comparing International Guideline-Recommended Enteral Protein Delivery With Usual Care. <i>Journal of Parenteral and Enteral Nutrition</i> , 2020 , 44, 610-620	4.2	9
152	Conservative Oxygen Therapy during Mechanical Ventilation in the ICU. <i>New England Journal of Medicine</i> , 2020 , 382, 989-998	59.2	135
151	Autonomic function, postprandial hypotension and falls in older adults at one year after critical illness. <i>Critical Care and Resuscitation: Journal of the Australasian Academy of Critical Care Medicine</i> , 2020 , 22, 53-62	2.8	1
150	Study protocol and statistical analysis plan for the Liberal Glucose Control in Critically Ill Patients with Pre-existing Type 2 Diabetes (LUCID) trial. <i>Critical Care and Resuscitation: Journal of the Australasian Academy of Critical Care Medicine</i> , 2020 , 22, 133-141	2.8	4
149	Faecal diversion system usage in an adult intensive care unit. <i>Critical Care and Resuscitation: Journal of the Australasian Academy of Critical Care Medicine</i> , 2020 , 22, 152-157	2.8	
148	Energy-dense vs routine enteral nutrition in New Zealand Europeans, Māori, and Pacific Peoples who are critically ill. <i>New Zealand Medical Journal</i> , 2020 , 133, 72-82	0.8	
147	A pilot study of high frequency accelerometry-based sedation and agitation monitoring in critically ill patients. <i>Critical Care and Resuscitation: Journal of the Australasian Academy of Critical Care Medicine</i> , 2020 , 22, 245-252	2.8	
146	Constipation, diarrhea, and prophylactic laxative bowel regimens in the critically ill: A systematic review and meta-analysis. <i>Journal of Critical Care</i> , 2019 , 52, 242-250	4	17
145	Metabolic support in the critically ill: a consensus of 19. <i>Critical Care</i> , 2019 , 23, 318	10.8	37

144	Incretin Physiology and Pharmacology in the Intensive Care Unit. <i>Critical Care Clinics</i> , 2019 , 35, 341-355	4.5	4
143	Are point-of-care measurements of glycated haemoglobin accurate in the critically ill?. <i>Australian Critical Care</i> , 2019 , 32, 465-470	2.9	1
142	Associations between nutritional energy delivery, bioimpedance spectroscopy and functional outcomes in survivors of critical illness. <i>Journal of Human Nutrition and Dietetics</i> , 2019 , 32, 702-712	3.1	8
141	The hospital-based evaluation of laxative prophylaxis in ICU (HELP-ICU): A pilot cluster-crossover randomized clinical trial. <i>Journal of Critical Care</i> , 2019 , 52, 86-91	4	4
140	Hospital-acquired complications in intensive care unit patients with diabetes: A before-and-after study of a conventional versus liberal glucose control protocol. <i>Acta Anaesthesiologica Scandinavica</i> , 2019 , 63, 761-768	1.9	2
139	Obesity in the critically ill: a narrative review. <i>Intensive Care Medicine</i> , 2019 , 45, 757-769	14.5	126
138	The effect of a low carbohydrate formula on glycaemia in critically ill enterally-fed adult patients with hyperglycaemia: A blinded randomised feasibility trial. <i>Clinical Nutrition ESPEN</i> , 2019 , 31, 80-87	1.3	12
137	20% Human Albumin Solution Fluid Bolus Administration Therapy in Patients After Cardiac Surgery (the HAS FLAIR Study). <i>Journal of Cardiothoracic and Vascular Anesthesia</i> , 2019 , 33, 2920-2927	2.1	17
136	Gallbladder Dyskinesia Is Associated With an Impaired Postprandial Fibroblast Growth Factor 19 Response in Critically Ill Patients. <i>Hepatology</i> , 2019 , 70, 308-318	11.2	3
135	A retrospective evaluation of nutrition support in relation to clinical outcomes in critically ill patients with an open abdomen. <i>Australian Critical Care</i> , 2019 , 32, 237-242	2.9	5
134	Observed appetite and nutrient intake three months after ICU discharge. <i>Clinical Nutrition</i> , 2019 , 38, 1215-1220	5.9	8
133	HAS FLAIR Investigators Reply to Fluid Resuscitation After Cardiac Surgery: The Quest for the Ideal Fluid. <i>Journal of Cardiothoracic and Vascular Anesthesia</i> , 2019 , 33, 3218-3219	2.1	
132	Incident Diabetes in Survivors of Critical Illness and Mechanisms Underlying Persistent Glucose Intolerance: A Prospective Cohort Study. <i>Critical Care Medicine</i> , 2019 , 47, e103-e111	1.4	4
131	Gut dysmotility in the ICU: diagnosis and therapeutic options. <i>Current Opinion in Critical Care</i> , 2019 , 25, 138-144	3.5	7
130	Translating the European Society for Clinical Nutrition and Metabolism 2019 guidelines into practice. <i>Current Opinion in Critical Care</i> , 2019 , 25, 314-321	3.5	2
129	Any news from the prokinetic front?. <i>Current Opinion in Critical Care</i> , 2019 , 25, 349-355	3.5	1
128	Opinions and practices of blood glucose control in critically ill patients with pre-existing type 2 diabetes in Australian and New Zealand intensive care units. <i>Australian Critical Care</i> , 2019 , 32, 361-365	2.9	5
127	Pathophysiology and Treatment of Gastrointestinal Motility Disorders in the Acutely Ill. <i>Nutrition in Clinical Practice</i> , 2019 , 34, 23-36	3.6	25

126	What Happens to Nutrition Intake in the Post-Intensive Care Unit Hospitalization Period? An Observational Cohort Study in Critically Ill Adults. <i>Journal of Parenteral and Enteral Nutrition</i> , 2019 , 43, 88-95	4.2	37
125	Vitamin C, Hydrocortisone and Thiamine in Patients with Septic Shock (VITAMINS) trial: study protocol and statistical analysis plan. <i>Critical Care and Resuscitation: Journal of the Australasian Academy of Critical Care Medicine</i> , 2019 , 21, 119-125	2.8	9
124	Pharmacokinetic data support 6-hourly dosing of intravenous vitamin C to critically ill patients with septic shock. <i>Critical Care and Resuscitation: Journal of the Australasian Academy of Critical Care Medicine</i> , 2019 , 21, 236-42	2.8	9
123	Barriers to Nutrition Intervention for Patients With a Traumatic Brain Injury: Views and Attitudes of Medical and Nursing Practitioners in the Acute Care Setting. <i>Journal of Parenteral and Enteral Nutrition</i> , 2018 , 42, 318-326	4.2	5
122	Liberal Glucose Control in ICU Patients With Diabetes: A Before-and-After Study. <i>Critical Care Medicine</i> , 2018 , 46, 935-942	1.4	29
121	Outcomes in Patients with Vasodilatory Shock and Renal Replacement Therapy Treated with Intravenous Angiotensin II. <i>Critical Care Medicine</i> , 2018 , 46, 949-957	1.4	115
120	Fluids in Sepsis 2018 , 113-126		
119	Postprandial hypotension in older survivors of critical illness. <i>Journal of Critical Care</i> , 2018 , 45, 20-26	4	5
118	Nutrition Therapy in Australia and New Zealand Intensive Care Units: An International Comparison Study. <i>Journal of Parenteral and Enteral Nutrition</i> , 2018 , 42, 1349-1357	4.2	27
117	Targeted Full Energy and Protein Delivery in Critically Ill Patients: A Pilot Randomized Controlled Trial (FEED Trial). <i>Journal of Parenteral and Enteral Nutrition</i> , 2018 , 42, 1252-1262	4.2	56
116	Post-pyloric feeding tube placement in critically ill patients: Extending the scope of practice for Australian dietitians. <i>Nutrition and Dietetics</i> , 2018 , 75, 30-34	2.5	4
115	Delivery of full predicted energy from nutrition and the effect on mortality in critically ill adults: A systematic review and meta-analysis of randomised controlled trials. <i>Clinical Nutrition</i> , 2018 , 37, 1913-1923	5.0	16
114	Nutrition Adequacy Therapeutic Enhancement in the Critically Ill: A Randomized Double-Blind, Placebo-Controlled Trial of the Motilin Receptor Agonist Camicalin (GSK962040): The NUTRIATE Study. <i>Journal of Parenteral and Enteral Nutrition</i> , 2018 , 42, 949-959	4.2	15
113	Targeted full energy and protein delivery in critically ill patients: a study protocol for a pilot randomised control trial (FEED Trial). <i>Pilot and Feasibility Studies</i> , 2018 , 4, 52	1.9	4
112	Glycaemic control targets after traumatic brain injury: a systematic review and meta-analysis. <i>Critical Care</i> , 2018 , 22, 11	10.8	29
111	Efficacy and safety of stress ulcer prophylaxis in critically ill patients: a network meta-analysis of randomized trials. <i>Intensive Care Medicine</i> , 2018 , 44, 1-11	14.5	83
110	From dysmotility to virulent pathogens: implications of opioid use in the ICU. <i>Current Opinion in Critical Care</i> , 2018 , 24, 118-123	3.5	5
109	Diabetes-Specific Formulae Versus Standard Formulae as Enteral Nutrition to Treat Hyperglycemia in Critically Ill Patients: Protocol for a Randomized Controlled Feasibility Trial. <i>JMIR Research Protocols</i> , 2018 , 7, e90	2	4

108	Glycated haemoglobin is increased in critically ill patients with stress hyperglycaemia: Implications for risk of diabetes in survivors of critical illness. <i>Diabetes Research and Clinical Practice</i> , 2018 , 135, 73-77	7.4	4
107	Systematic review of incretin therapy during peri-operative and intensive care. <i>Critical Care</i> , 2018 , 22, 299	10.8	14
106	Identifying associations between diabetes and acute respiratory distress syndrome in patients with acute hypoxemic respiratory failure: an analysis of the LUNG SAFE database. <i>Critical Care</i> , 2018 , 22, 268	10.8	14
105	Energy-Dense versus Routine Enteral Nutrition in the Critically Ill. <i>New England Journal of Medicine</i> , 2018 , 379, 1823-1834	59.2	133
104	752 - Efficacy and Safety of TAK-954 in Critically Ill Patients with Enteral Feeding Intolerance: A Randomized Phase 2A Clinical Trial. <i>Gastroenterology</i> , 2018 , 154, S-158	13.3	2
103	The disconnect between nutrition guidelines and evidence: how much protein should I prescribe to this critically ill patient?. <i>Critical Care and Resuscitation: Journal of the Australasian Academy of Critical Care Medicine</i> , 2018 , 20, 3-5	2.8	3
102	Protocol summary and statistical analysis plan for the intensive care unit randomised trial comparing two approaches to oxygen therapy (ICU-ROX). <i>Critical Care and Resuscitation: Journal of the Australasian Academy of Critical Care Medicine</i> , 2018 , 20, 22-32	2.8	3
101	Understanding the rationale for parenteral ascorbate (vitamin C) during an acute inflammatory reaction: a biochemical perspective. <i>Critical Care and Resuscitation: Journal of the Australasian Academy of Critical Care Medicine</i> , 2018 , 20, 174-179	2.8	2
100	Early enteral nutrition in critically ill patients: ESICM clinical practice guidelines. <i>Intensive Care Medicine</i> , 2017 , 43, 380-398	14.5	319
99	Withholding Pantoprazole for Stress Ulcer Prophylaxis in Critically Ill Patients: A Pilot Randomized Clinical Trial and Meta-Analysis. <i>Critical Care Medicine</i> , 2017 , 45, 1121-1129	1.4	54
98	Angiotensin II for the Treatment of Vasodilatory Shock. <i>New England Journal of Medicine</i> , 2017 , 377, 419-430	59.2	377
97	Mechanisms Controlling Glucose-Induced GLP-1 Secretion in Human Small Intestine. <i>Diabetes</i> , 2017 , 66, 2144-2149	0.9	69
96	Occult upper gastrointestinal mucosal abnormalities in critically ill patients. <i>Acta Anaesthesiologica Scandinavica</i> , 2017 , 61, 216-223	1.9	4
95	Wide Disagreement Between Alternative Assessments of Premorbid Physical Activity: Subjective Patient and Surrogate Reports and Objective Smartphone Data. <i>Critical Care Medicine</i> , 2017 , 45, e1036-e1042	1.4	3
94	Weekend days are not required to accurately measure oral intake in hospitalised patients. <i>Journal of Human Nutrition and Dietetics</i> , 2017 , 30, 378-384	3.1	2
93	Antecedent Hypoglycemia Does Not Attenuate the Acceleration of Gastric Emptying by Hypoglycemia. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2017 , 102, 3953-3960	5.6	8
92	The rapid and accurate categorisation of critically ill patients (RACE) to identify outcomes of interest for longitudinal studies: a feasibility study. <i>Anaesthesia and Intensive Care</i> , 2017 , 45, 476-484	1.1	1
91	Nutrient stimulation of mesenteric blood flow - implications for older critically ill patients. <i>World Journal of Critical Care Medicine</i> , 2017 , 6, 28-36	3	8

90	Longitudinal changes in anthropometrics and impact on self-reported physical function after traumatic brain injury. <i>Critical Care and Resuscitation: Journal of the Australasian Academy of Critical Care Medicine</i> , 2017 , 19, 29-36	2.8	3
89	Exogenous glucagon-like peptide-1 attenuates glucose absorption and reduces blood glucose concentration after small intestinal glucose delivery in critical illness. <i>Critical Care and Resuscitation: Journal of the Australasian Academy of Critical Care Medicine</i> , 2017 , 19, 37-42	2.8	7
88	A scoping review of use of wearable devices to evaluate outcomes in survivors of critical illness. <i>Critical Care and Resuscitation: Journal of the Australasian Academy of Critical Care Medicine</i> , 2017 , 19, 197-204	2.8	1
87	Intensity of early correction of hyperglycaemia and outcome of critically ill patients with diabetic ketoacidosis. <i>Critical Care and Resuscitation: Journal of the Australasian Academy of Critical Care Medicine</i> , 2017 , 19, 266-273	2.8	2
86	Long-term mortality of critically ill patients with diabetes who survive admission to the intensive care unit. <i>Critical Care and Resuscitation: Journal of the Australasian Academy of Critical Care Medicine</i> , 2017 , 19, 303-309	2.8	2
85	Intensive care unit randomised trial comparing two approaches to oxygen therapy (ICU-ROX): results of the pilot phase. <i>Critical Care and Resuscitation: Journal of the Australasian Academy of Critical Care Medicine</i> , 2017 , 19, 344-354	2.8	3
84	Survivors of intensive care with type 2 diabetes and the effect of shared care follow-up clinics: study protocol for the SWEET-AS randomised controlled feasibility study. <i>Pilot and Feasibility Studies</i> , 2016 , 2, 62	1.9	2
83	Critical Illness Is Associated With Impaired Gallbladder Emptying as Assessed by 3D Ultrasound. <i>Critical Care Medicine</i> , 2016 , 44, e790-6	1.4	14
82	Energy-Dense Formulae May Slow Gastric Emptying in the Critically Ill. <i>Journal of Parenteral and Enteral Nutrition</i> , 2016 , 40, 1050-6	4.2	13
81	Energy and protein deficits throughout hospitalization in patients admitted with a traumatic brain injury. <i>Clinical Nutrition</i> , 2016 , 35, 1315-1322	5.9	63
80	Peri-operative nutrition. <i>Anaesthesia</i> , 2016 , 71 Suppl 1, 9-18	6.6	23
79	The insulinotropic effect of pulsatile compared with continuous intravenous delivery of GLP-1. <i>Diabetologia</i> , 2016 , 59, 966-9	10.3	1
78	Stress ulcer prophylaxis in critical illness: a Canadian survey. <i>Canadian Journal of Anaesthesia</i> , 2016 , 63, 718-24	3	12
77	Dysglycemia and Glucose Control During Sepsis. <i>Clinics in Chest Medicine</i> , 2016 , 37, 309-19	5.3	28
76	Event-rate and delta inflation when evaluating mortality as a primary outcome from randomized controlled trials of nutritional interventions during critical illness: a systematic review. <i>American Journal of Clinical Nutrition</i> , 2016 , 103, 1083-90	7	15
75	Nutrition support practices in critically ill head-injured patients: a global perspective. <i>Critical Care</i> , 2016 , 20, 6	10.8	28
74	Stress Induced Hyperglycemia and the Subsequent Risk of Type 2 Diabetes in Survivors of Critical Illness. <i>PLoS ONE</i> , 2016 , 11, e0165923	3.7	31
73	Re-evaluating the Inhibition of Stress Erosions (REVISE): a protocol for pilot randomized controlled trial. <i>Annals of Saudi Medicine</i> , 2016 , 36, 427-433	1.6	7

72	Enhanced Protein-Energy Provision via the Enteral Route Feeding (PEPuP) protocol in critically ill surgical patients: a multicentre prospective evaluation. <i>Anaesthesia and Intensive Care</i> , 2016 , 44, 93-8	1.1	11
71	The effect of augmenting early nutritional energy delivery on quality of life and employment status one year after ICU admission. <i>Anaesthesia and Intensive Care</i> , 2016 , 44, 406-12	1.1	9
70	Individualizing endpoints in randomized clinical trials to better inform individual patient care: the TARGET proposal. <i>Critical Care</i> , 2016 , 20, 218	10.8	17
69	Glycated Hemoglobin A1c Levels Are Not Affected by Critical Illness. <i>Critical Care Medicine</i> , 2016 , 44, 1692-4	1.4	18
