

Elizabeth Haddad

List of Publications by Citations

Source: <https://exaly.com/author-pdf/6043367/elizabeth-haddad-publications-by-citations.pdf>

Version: 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
17	Anhedonia Following Early-Life Adversity Involves Aberrant Interaction of Reward and Anxiety Circuits and Is Reversed by Partial Silencing of Amygdala Corticotropin-Releasing Hormone Gene. <i>Biological Psychiatry</i> , 2018 , 83, 137-147	7.9	85
16	Male and Female Mice Exhibit Divergent Responses of the Cortical Vasculature to Traumatic Brain Injury. <i>Journal of Neurotrauma</i> , 2018 , 35, 1646-1658	5.4	32
15	Western High-Fat Diet Consumption during Adolescence Increases Susceptibility to Traumatic Stress while Selectively Disrupting Hippocampal and Ventricular Volumes. <i>ENeuro</i> , 2016 , 3,	3.9	31
14	CX3CR1-CCR2-dependent monocyte-microglial signaling modulates neurovascular leakage and acute injury in a mouse model of childhood stroke. <i>Journal of Cerebral Blood Flow and Metabolism</i> , 2019 , 39, 1919-1935	7.3	27
13	Exposure to an obesogenic diet during adolescence leads to abnormal maturation of neural and behavioral substrates underpinning fear and anxiety. <i>Brain, Behavior, and Immunity</i> , 2018 , 70, 96-117	16.6	15
12	Juvenile mild traumatic brain injury elicits distinct spatiotemporal astrocyte responses. <i>Glia</i> , 2020 , 68, 528-542	9	10
11	Epilepsy-predictive magnetic resonance imaging changes following experimental febrile status epilepticus: Are they translatable to the clinic?. <i>Epilepsia</i> , 2018 , 59, 2005-2018	6.4	9
10	Acute intranasal osteopontin treatment in male rats following TBI increases the number of activated microglia but does not alter lesion characteristics. <i>Journal of Neuroscience Research</i> , 2020 , 98, 141-154	4.4	8
9	Testing a convolutional neural network-based hippocampal segmentation method in a stroke population. <i>Human Brain Mapping</i> , 2020 ,	5.9	6
8	Age and sex effects on advanced white matter microstructure measures in 15,628 older adults: A UK biobank study. <i>Brain Imaging and Behavior</i> , 2021 , 1	4.1	5
7	Early life adversity in male mice sculpts reward circuits. <i>Neurobiology of Stress</i> , 2021 , 15, 100409	7.6	3
6	Testing a convolutional neural network-based hippocampal segmentation method in a stroke population		2
5	Acute Treatment With Gleevec Does Not Promote Early Vascular Recovery Following Intracerebral Hemorrhage in Adult Male Rats. <i>Frontiers in Neuroscience</i> , 2020 , 14, 46	5.1	1
4	Age and Sex Effects on Advanced White Matter Microstructure Measures in 15,628 Older Adults: A UK Biobank Study		1
3	Prenatal metyrapone treatment modulates neonatal cerebrovascular structure, function, and vulnerability to mild hypoxic-ischemic injury. <i>American Journal of Physiology - Regulatory Integrative and Comparative Physiology</i> , 2020 , 318, R1-R16	3.2	1
2	Automated hippocampal segmentation improved by convolutional neural network approach in participants with a history of cerebrovascular accident. <i>Alzheimer's and Dementia</i> , 2020 , 16, e041634	1.2	
1	Neuroimaging Advances in Diagnosis and Differentiation of HIV, Comorbidities, and Aging in the cART Era. <i>Current Topics in Behavioral Neurosciences</i> , 2021 , 50, 105-143	3.4
