#	Article	IF	CITATIONS
1	Ayahuasca and Public Health II: Health Status in a Large Sample of Ayahuasca-Ceremony Participants in the Netherlands. Journal of Psychoactive Drugs, 2023, 55, 247-258.	1.0	7
2	Many-analysts religion project: reflection and conclusion. Religion, Brain and Behavior, 2023, 13, 356-363.	0.4	1
3	Effects of psilocybin microdosing on awe and aesthetic experiences: a preregistered field and lab-based study. Psychopharmacology, 2022, 239, 1705-1720.	1.5	22
4	The Einstein effect provides global evidence for scientific source credibility effects and the influence of religiosity. Nature Human Behaviour, 2022, 6, 523-535.	6.2	19
5	Psilocybin microdosing does not affect emotion-related symptoms and processing: A preregistered field and lab-based study. Journal of Psychopharmacology, 2022, 36, 97-113.	2.0	30
6	What's hidden in my filedrawer and what's in yours? Disclosing non-published findings in the cognitive science of religion. Religion, Brain and Behavior, 2021, 11, 5-16.	0.4	1
7	Religious Unbelief in Israel: A Replication Study Identifying and Characterizing Unbelievers Using Latent Class Analysis. International Journal for the Psychology of Religion, The, 2021, 31, 51-56.	1.3	1
8	Assessing the Religion-Health Relationship: Introduction to the Meta-analysis by Garssen et al., and Two Commentaries. International Journal for the Psychology of Religion, The, 2021, 31, 1-3.	1.3	4
9	Religious delight: a non-functional approach to playful religious experiences. Religion, Brain and Behavior, $2021, 11, 224-227$.	0.4	O
10	A predictive processing framework of tool use. Cortex, 2021, 139, 211-221.	1.1	5
11	Working with Weirdness: A Response to "Moving Past Mysticism in Psychedelic Science― ACS Pharmacology and Translational Science, 2021, 4, 1471-1474.	2.5	33
12	The role of meta-analysis and preregistration in assessing the evidence for cleansing effects. Behavioral and Brain Sciences, 2021, 44, e19.	0.4	0
13	Social Adaptation in Context: The Differential Role of Religiosity and Self-Esteem in Vulnerable vs. Non-vulnerable Populations – A Registered Report Study. Frontiers in Psychology, 2021, 12, 519623.	1.1	3
14	The relationship between individual differences in gray matter volume and religiosity and mystical experiences: A preregistered voxelâ€based morphometry study. European Journal of Neuroscience, 2020, 51, 850-865.	1.2	14
15	Experimentally induced awe does not affect implicit and explicit time perception. Attention, Perception, and Psychophysics, 2020, 82, 926-937.	0.7	11
16	Development and Validation of a Porous Theory of Mind Scale. Journal of Cognition and Culture, 2020, 20, 41-65.	0.1	2
17	Broadening Your Mind to Include Others: The relationship between serotonergic psychedelic experiences and maladaptive narcissism. Psychopharmacology, 2020, 237, 2725-2737.	1.5	32
18	Nonreligious Identity in Three Western European Countries: A Closer Look at Nonbelievers' Self-identifications and Attitudes Towards Religion. International Journal for the Psychology of Religion, The, 2020, 30, 288-303.	1.3	7

#	Article	IF	Citations
19	Religious belief and cognitive conflict sensitivity: A preregistered fMRI study. Cortex, 2020, 129, 247-265.	1.1	10
20	Placebo Brain Stimulation Affects Subjective but Not Neurocognitive Measures of Error Processing. Journal of Cognitive Enhancement: Towards the Integration of Theory and Practice, 2020, 4, 389-400.	0.8	5
21	Seeking the supernatural: the Interactive Religious Experience Model. Religion, Brain and Behavior, 2019, 9, 221-251.	0.4	44
22	Evolved priors for agent detection. Religion, Brain and Behavior, 2019, 9, 92-94.	0.4	5
23	Absorption and spiritual experience: A review of evidence and potential mechanisms. Consciousness and Cognition, 2019, 73, 102760.	0.8	70
24	Seeking the supernatural: responses to commentary. Religion, Brain and Behavior, 2019, 9, 267-275.	0.4	0
25	Religious Unbelief in Three Western European Countries: Identifying and Characterizing Unbeliever Types Using Latent Class Analysis. International Journal for the Psychology of Religion, The, 2019, 29, 184-203.	1.3	21
26	The neural correlates of the awe experience: Reduced default mode network activity during feelings of awe. Human Brain Mapping, 2019, 40, 3561-3574.	1.9	58
27	Socio-cognitive biases are associated to belief in neuromyths and cognitive enhancement: A pre-registered study. Personality and Individual Differences, 2019, 147, 28-32.	1.6	13
28	Replication and Open Science in the Psychology of Religion: Editorial to the Special Issue. International Journal for the Psychology of Religion, The, 2019, 29, 227-229.	1.3	5
29	The boundary conditions of the hypersensitive agency detection device: an empirical investigation of agency detection in threatening situations. Religion, Brain and Behavior, 2019, 9, 23-51.	0.4	21
30	The role of alcohol in expectancy-driven mystical experiences: a pre-registered field study using placebo brain stimulation. Religion, Brain and Behavior, 2019, 9, 108-125.	0.4	9
31	Getting absorbed in experimentally induced extraordinary experiences: Effects of placebo brain stimulation on agency detection. Consciousness and Cognition, 2018, 66, 1-16.	0.8	18
32	Compensatory control and religious beliefs: a registered replication report across two countries. Comprehensive Results in Social Psychology, 2018, 3, 240-265.	1.1	17
33	Predictive processing and situation models: constructing and reconstructing religious experience. Religion, Brain and Behavior, 2017, 7, 85-87.	0.4	3
34	The self-attribution bias and paranormal beliefs. Consciousness and Cognition, 2017, 49, 313-321.	0.8	13
35	Can the experimental study of religion be advanced using a Bayesian predictive framework?. Religion, Brain and Behavior, 2017, 7, 331-334.	0.4	7
36	Brain mechanisms in religion and spirituality: An integrative predictive processing framework. Neuroscience and Biobehavioral Reviews, 2017, 73, 359-378.	2.9	102

#	Article	IF	CITATIONS
37	Global evidence of extreme intuitive moral prejudice against atheists. Nature Human Behaviour, 2017, 1, \cdot	6.2	146
38	Transcranial direct current stimulation of the right temporoparietal junction impairs third-person perspective taking. Cognitive, Affective and Behavioral Neuroscience, 2017, 17, 9-23.	1.0	30
39	Why Are Protestants More Prosocial Than Catholics? A Comparative Study Among Orthodox Dutch Believers. International Journal for the Psychology of Religion, The, 2017, 27, 65-81.	1.3	17
40	Mentalizing skills do not differentiate believers from non-believers, but credibility enhancing displays do. PLoS ONE, 2017, 12, e0182764.	1.1	70
41	Distinct vestibular effects on early and late somatosensory cortical processing in humans. Neurolmage, 2016, 125, 208-219.	2.1	5
42	Priming of supernatural agent concepts and agency detection. Religion, Brain and Behavior, 2016, 6, 4-33.	0.4	41
43	Complementary Hand Responses Occur in Both Peri- and Extrapersonal Space. PLoS ONE, 2016, 11, e0154457.	1.1	3
44	â€~Standing in Awe': The Effects of Awe on Body Perception and the Relation with Absorption. Collabra, 2016, 2, .	1.3	53
45	Perceptual Biases in Relation to Paranormal and Conspiracy Beliefs. PLoS ONE, 2015, 10, e0130422.	1.1	45
46	Meta-analyses are no substitute for registered replications: a skeptical perspective on religious priming. Frontiers in Psychology, 2015, 6, 1365.	1.1	136
47	The development of the illusion of control and sense of agency in 7-to-12-year old children and adults. Cognition, 2015, 145, 1-12.	1.1	29
48	An EEG Study on the Effects of Induced Spiritual Experiences on Somatosensory Processing and Sensory Suppression. Journal for the Cognitive Science of Religion, 2015, 2, 121-157.	0.6	16
49	The left inferior parietal lobe represents stored hand-postures for object use and action prediction. Frontiers in Psychology, 2014, 5, 333.	1.1	24
50	Enactivism and neonatal imitation: conceptual and empirical considerations and clarifications. Frontiers in Psychology, 2014, 5, 967.	1.1	6
51	The scope and limits of action semantics. Physics of Life Reviews, 2014, 11, 273-279.	1.5	7
52	Suppression of the auditory N1-component for heartbeat-related sounds reflects interoceptive predictive coding. Biological Psychology, 2014, 99, 172-182.	1.1	53
53	The effect of manipulability and religion on the multisensory integration of objects in peripersonal space. Cognitive Neuroscience, 2014, 5, 36-44.	0.6	5
54	Imagined own-body transformations during passive self-motion. Psychological Research, 2014, 78, 18-27.	1.0	50

#	Article	IF	CITATIONS
55	Action semantics: A unifying conceptual framework for the selective use of multimodal and modality-specific object knowledge. Physics of Life Reviews, 2014, 11, 220-250.	1.5	137
56	Suppression of the N1 auditory evoked potential for sounds generated by the upper and lower limbs. Biological Psychology, 2014, 102, 108-117.	1.1	49
57	The effect of limb crossing and limb congruency on multisensory integration in peripersonal space for the upper and lower extremities. Consciousness and Cognition, 2013, 22, 545-555.	0.8	22
58	Paranormal believers are more prone to illusory agency detection than skeptics. Consciousness and Cognition, 2013, 22, 1041-1046.	0.8	81
59	The effect of source credibility on the evaluation of statements in a spiritual and scientific context: A registered report study. Comprehensive Results in Social Psychology, 0, , 1-26.	1.1	1
60	Explaining religion from the inside-out. Religion, Brain and Behavior, 0, , 1-5.	0.4	0
