#	ARTICLE	IF	CITATIONS
1	The importance of collaboration and supervisor behaviour for gender differences in doctoral student performance and early career development. <i>Studies in Higher Education</i> , 2021, 46, 2808-2831.	2.9	10
2	Early career performance and its correlation with gender and publication output during doctoral education. <i>Scientometrics</i> , 2020, 122, 309-330.	1.6	38
3	Comparison of publication-level approaches to ex-post citation normalization. <i>Scientometrics</i> , 2019, 120, 283-300.	1.6	4
4	Exploring the relation between referencing practices and citation impact: A large-scale study based on Web of Science data. <i>Journal of the Association for Information Science and Technology</i> , 2018, 69, 728-743.	1.5	27
5	A novel approach to citation normalization: A similarity-based method for creating reference sets. <i>Journal of the Association for Information Science and Technology</i> , 2015, 66, 489-500.	1.5	14
6	Trends and knowledge base in sport and exercise psychology research: a bibliometric review study. <i>International Review of Sport and Exercise Psychology</i> , 2015, 8, 71-94.	3.1	54
7	Field normalized citation rates, field normalized journal impact and Norwegian weights for allocation of university research funds. <i>Scientometrics</i> , 2012, 92, 767-780.	1.6	29
8	Experimental comparison of first and second-order similarities in a scientometric context. <i>Scientometrics</i> , 2012, 90, 675-685.	1.6	18
9	The effects and their stability of field normalization baseline on relative performance with respect to citation impact: A case study of 20 natural science departments. <i>Journal of Informetrics</i> , 2011, 5, 101-113.	1.4	29
10	Document-document similarity approaches and science mapping: Experimental comparison of five approaches. <i>Journal of Informetrics</i> , 2009, 3, 49-63.	1.4	70
11	Enhancing direct citations: A comparison of relatedness measures for community detection in a large set of PubMed publications. <i>Quantitative Science Studies</i> , 0, , 1-16.	1.6	11
