#	Paper	IF	Citations
200	A refined taxonomy of behaviour change techniques to help people change their physical activity and healthy eating behaviours: the CALO-RE taxonomy. <i>Psychology and Health</i> , <b>2011</b> , 26, 1479-98	2.9	1053
199	Physical activity in older age: perspectives for healthy ageing and frailty. <i>Biogerontology</i> , <b>2016</b> , 17, 567-80	4.5	458
198	What are the most effective intervention techniques for changing physical activity self-efficacy and physical activity behaviour--and are they the same?. <i>Health Education Research</i> , <b>2011</b> , 26, 308-22	1.8	434
197	What is the best way to change self-efficacy to promote lifestyle and recreational physical activity? A systematic review with meta-analysis. <i>British Journal of Health Psychology</i> , <b>2010</b> , 15, 265-88	8.3	379
196	What are the most effective techniques in changing obese individuals' physical activity self-efficacy and behaviour: a systematic review and meta-analysis. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , <b>2013</b> , 10, 29	8.4	344
195	Which behaviour change techniques are most effective at increasing older adults' self-efficacy and physical activity behaviour? A systematic review. <i>Annals of Behavioral Medicine</i> , <b>2014</b> , 48, 225-34	4.5	302
194	Impact of self monitoring of blood glucose in the management of patients with non-insulin treated diabetes: open parallel group randomised trial. <i>BMJ, The</i> , <b>2007</b> , 335, 132	5.9	291
193	The impact of communicating genetic risks of disease on risk-reducing health behaviour: systematic review with meta-analysis. <i>BMJ, The</i> , <b>2016</b> , 352, i1102	5.9	270
192	How well does the theory of planned behaviour predict alcohol consumption? A systematic review and meta-analysis. <i>Health Psychology Review</i> , <b>2016</b> , 10, 148-67	7.1	239
191	How well do the theory of reasoned action and theory of planned behaviour predict intentions and attendance at screening programmes? A meta-analysis. <i>Psychology and Health</i> , <b>2008</b> , 23, 745-65	2.9	196
190	Illness perceptions predict attendance at cardiac rehabilitation following acute myocardial infarction: a systematic review with meta-analysis. <i>Journal of Psychosomatic Research</i> , <b>2006</b> , 61, 757-67	4.1	189
189	Effects of communicating DNA-based disease risk estimates on risk-reducing behaviours. <i>The Cochrane Library</i> , <b>2010</b> , CD007275	5.2	174
188	A new framework for developing and evaluating complex interventions: update of Medical Research Council guidance. <i>BMJ, The</i> , <b>2021</b> , 374, n2061	5.9	147
187	The acceptability of physical activity interventions to older adults: A systematic review and meta-synthesis. <i>Social Science and Medicine</i> , <b>2016</b> , 158, 14-23	5.1	144
186	Implementation intention and planning interventions in Health Psychology: Recommendations from the Synergy Expert Group for research and practice. <i>Psychology and Health</i> , <b>2016</b> , 31, 814-39	2.9	131
185	The Importance of Affective Beliefs and Attitudes in the Theory of Planned Behavior: Predicting Intention to Increase Physical Activity <sup>1</sup> . <i>Journal of Applied Social Psychology</i> , <b>2005</b> , 35, 1824-1848	2.1	131
184	Reactivity of measurement in health psychology: how much of a problem is it? What can be done about it?. <i>British Journal of Health Psychology</i> , <b>2010</b> , 15, 453-68	8.3	122

183	An intervention to promote walking amongst the general population based on an 'extended' theory of planned behaviour: a waiting list randomised controlled trial. <i>Psychology and Health</i> , <b>2010</b> , 25, 71-88	2.9	114
182	Reliability and validity of a new measure of patient satisfaction with out of hours primary medical care in the United Kingdom: development of a patient questionnaire. <i>BMJ: British Medical Journal</i> , <b>1997</b> , 314, 193-8		114
181	Expectations for consultations and antibiotics for respiratory tract infection in primary care: the RTI clinical iceberg. <i>British Journal of General Practice</i> , <b>2013</b> , 63, e429-36	1.6	111
180	Using the theory of planned behaviour to understand binge drinking: the importance of beliefs for developing interventions. <i>British Journal of Health Psychology</i> , <b>2012</b> , 17, 1-17	8.3	107
179	The views of pre- and post-natal women and health professionals regarding gestational weight gain: An exploratory study. <i>Sexual and Reproductive Healthcare</i> , <b>2011</b> , 2, 43-8	2.4	100
178	Psychological impact of screening for type 2 diabetes: controlled trial and comparative study embedded in the ADDITION (Cambridge) randomised controlled trial. <i>BMJ, The</i> , <b>2007</b> , 335, 486	5.9	100
177	The Impact of Automated Brief Messages Promoting Lifestyle Changes Delivered Via Mobile Devices to People with Type 2 Diabetes: A Systematic Literature Review and Meta-Analysis of Controlled Trials. <i>Journal of Medical Internet Research</i> , <b>2016</b> , 18, e86	7.6	99
176	Do interventions to promote walking in groups increase physical activity? A meta-analysis. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , <b>2013</b> , 10, 18	8.4	96
175	Effectiveness of physical activity interventions in achieving behaviour change maintenance in young and middle aged adults: A systematic review and meta-analysis. <i>Social Science and Medicine</i> , <b>2017</b> , 192, 125-133	5.1	87
174	Blood glucose self-monitoring in type 2 diabetes: a randomised controlled trial. <i>Health Technology Assessment</i> , <b>2009</b> , 13, iii-iv, ix-xi, 1-50	4.4	84
173	Can Communicating Personalised Disease Risk Promote Healthy Behaviour Change? A Systematic Review of Systematic Reviews. <i>Annals of Behavioral Medicine</i> , <b>2017</b> , 51, 718-729	4.5	83
172	Eliciting salient beliefs in research on the theory of planned behaviour: The effect of question wording. <i>Current Psychology</i> , <b>2003</b> , 22, 234-251		81
171	Statistical guidelines for studies of the theory of reasoned action and the theory of planned behaviour. <i>Psychology and Health</i> , <b>2000</b> , 15, 151-161	2.9	81
170	Causal attributions for heart disease: A systematic review. <i>Psychology and Health</i> , <b>2001</b> , 16, 77-98	2.9	78
169	What do people think about when they answer theory of planned behaviour questionnaires? A 'think aloud' study. <i>Journal of Health Psychology</i> , <b>2007</b> , 12, 672-87	3.1	73
168	Behavior Change Techniques Associated With Changes in Postintervention and Maintained Changes in Self-Efficacy For Physical Activity: A Systematic Review With Meta-analysis. <i>Annals of Behavioral Medicine</i> , <b>2019</b> , 53, 801-815	4.5	66
167	Personalized early detection and prevention of breast cancer: ENVISION consensus statement. <i>Nature Reviews Clinical Oncology</i> , <b>2020</b> , 17, 687-705	19.4	64
166	Do illness perceptions predict attendance at cardiac rehabilitation and quality of life following myocardial infarction?. <i>Journal of Psychosomatic Research</i> , <b>2005</b> , 59, 315-22	4.1	61

165	Optimising the value of the critical appraisal skills programme (CASP) tool for quality appraisal in qualitative evidence synthesis. <i>Research Methods in Medicine &amp; Health Sciences</i> , <b>2020</b> , 1, 31-42	5	61
164	The purpose of attributing cause: beliefs about the causes of myocardial infarction. <i>Social Science and Medicine</i> , <b>2005</b> , 60, 1411-21	5.1	59
163	What sense do people make of a theory of planned behaviour questionnaire?: a think-aloud study. <i>Journal of Health Psychology</i> , <b>2009</b> , 14, 861-71	3.1	58
162	The expectancy-value muddle in the theory of planned behaviour - and some proposed solutions. <i>British Journal of Health Psychology</i> , <b>2003</b> , 8, 37-55	8.3	57
161	What do people think about when they answer the Brief Illness Perception Questionnaire? A 'think-aloud' study. <i>British Journal of Health Psychology</i> , <b>2011</b> , 16, 231-45	8.3	56
160	Effects of interventions promoting monitoring of medication use and brief messaging on medication adherence for people with Type 2 diabetes: a systematic review of randomized trials. <i>Diabetic Medicine</i> , <b>2016</b> , 33, 565-79	3.5	56
159	The effect of changing the built environment on physical activity: a quantitative review of the risk of bias in natural experiments. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , <b>2016</b> , 13, 107	8.4	54
158	An exploration of walking behaviour--an interpretative phenomenological approach. <i>Social Science and Medicine</i> , <b>2007</b> , 65, 2172-83	5.1	54
157	The question-behavior effect: genuine effect or spurious phenomenon? A systematic review of randomized controlled trials with meta-analyses. <i>Health Psychology</i> , <b>2015</b> , 34, 61-78	5	52
156	Psychological costs of inadequate cervical smear test results. <i>British Journal of Cancer</i> , <b>2004</b> , 91, 1887-928.7		50
155	Breast cancer risk feedback to women in the UK NHS breast screening population. <i>British Journal of Cancer</i> , <b>2016</b> , 114, 1045-52	8.7	48
154	Causal Attributions Following Serious Unexpected Negative Events: A Systematic Review. <i>Journal of Social and Clinical Psychology</i> , <b>2003</b> , 22, 515-536	1.6	47
153	The theory of planned behaviour predicts self-reports of walking, but does not predict step count. <i>British Journal of Health Psychology</i> , <b>2007</b> , 12, 601-20	8.3	43
152	The impact of a panel of 18 SNPs on breast cancer risk in women attending a UK familial screening clinic: a case-control study. <i>Journal of Medical Genetics</i> , <b>2017</b> , 54, 111-113	5.8	42
151	Can genetic risk information enhance motivation for smoking cessation? An analogue study. <i>Health Psychology</i> , <b>2006</b> , 25, 740-52	5	42
150	Information recall in genetic counselling: a pilot study of its assessment. <i>Patient Education and Counseling</i> , <b>1997</b> , 32, 93-100	3.1	39
149	Enhancing delivery of health behaviour change interventions in primary care: a meta-synthesis of views and experiences of primary care nurses. <i>Patient Education and Counseling</i> , <b>2011</b> , 85, 315-22	3.1	38
148	Predicting self-care behaviours of patients with type 2 diabetes: the importance of beliefs about behaviour, not just beliefs about illness. <i>Journal of Psychosomatic Research</i> , <b>2013</b> , 74, 327-33	4.1	36

147	Is pregnancy a teachable moment for diet and physical activity behaviour change? An interpretative phenomenological analysis of the experiences of women during their first pregnancy. <i>British Journal of Health Psychology</i> , <b>2016</b> , 21, 842-858	8.3	36
146	Perceptions and experiences of taking oral medications for the treatment of Type 2 diabetes mellitus: a systematic review and meta-synthesis of qualitative studies. <i>Diabetic Medicine</i> , <b>2016</b> , 33, 1330-8	3.5	36
145	Framework for the development and evaluation of complex interventions: gap analysis, workshop and consultation-informed update. <i>Health Technology Assessment</i> , <b>2021</b> , 25, 1-132	4.4	36
144	Comparison of out of hours care provided by patients' own general practitioners and commercial deputising services: a randomised controlled trial. II: The outcome of care. <i>BMJ: British Medical Journal</i> , <b>1997</b> , 314, 190-3		34
143	Predicting maintenance of attendance at walking groups: testing constructs from three leading maintenance theories. <i>Health Psychology</i> , <b>2014</b> , 33, 752-6	5	33
142	Self-monitoring of blood glucose changed non-insulin-treated Type 2 diabetes patients' beliefs about diabetes and self-monitoring in a randomized trial. <i>Diabetic Medicine</i> , <b>2008</b> , 25, 1218-28	3.5	33
141	What do people think about when answering questionnaires to assess unrealistic optimism about skin cancer? A think aloud study. <i>Psychology, Health and Medicine</i> , <b>2008</b> , 13, 63-74	2.1	30
140	Comparison of out of hours care provided by patients' own general practitioners and commercial deputising services: a randomised controlled trial. I: The process of care. <i>BMJ: British Medical Journal</i> , <b>1997</b> , 314, 187-9		30
139	How can use of the Theoretical Domains Framework be optimized in qualitative research? A rapid systematic review. <i>British Journal of Health Psychology</i> , <b>2020</b> , 25, 677-694	8.3	29
138	Are people with negative diabetes screening tests falsely reassured? Parallel group cohort study embedded in the ADDITION (Cambridge) randomised controlled trial. <i>BMJ, The</i> , <b>2009</b> , 339, b4535	5.9	29
137	Using the affective priming paradigm to explore the attitudes underlying walking behaviour. <i>British Journal of Health Psychology</i> , <b>2007</b> , 12, 571-85	8.3	29
136	The impact of personal and social comparison information about health risk. <i>British Journal of Health Psychology</i> , <b>2004</b> , 9, 187-200	8.3	29
135	The structure of beliefs about the causes of heart attacks: A network analysis. <i>British Journal of Health Psychology</i> , <b>2002</b> , 7, 463-479	8.3	29
134	The DiGEM trial protocol--a randomised controlled trial to determine the effect on glycaemic control of different strategies of blood glucose self-monitoring in people with type 2 diabetes [ISRCTN47464659]. <i>BMC Family Practice</i> , <b>2005</b> , 6, 25	2.6	28
133	Reasons for the use of mild analgesics among English students. <i>International Journal of Clinical Pharmacy</i> , <b>2008</b> , 30, 79-85		27
132	Psychological impact of providing women with personalised 10-year breast cancer risk estimates. <i>British Journal of Cancer</i> , <b>2018</b> , 118, 1648-1657	8.7	26
131	How acceptable do older adults find the concept of being physically active? A systematic review and meta-synthesis. <i>International Review of Sport and Exercise Psychology</i> , <b>2018</b> , 11, 1-24	4.8	23
130	Predictors of anxiety and depression among people attending diabetes screening: a prospective cohort study embedded in the ADDITION (Cambridge) randomized control trial. <i>British Journal of Health Psychology</i> , <b>2011</b> , 16, 213-26	8.3	23

129	An intervention to increase walking requires both motivational and volitional components: a replication and extension. <i>Psychology, Health and Medicine</i> , <b>2012</b> , 17, 127-35	2.1	23
128	Are beliefs elicited biased by question order? A theory of planned behaviour belief elicitation study about walking in the UK general population. <i>British Journal of Health Psychology</i> , <b>2007</b> , 12, 93-110	8.3	23
127	Why don't many obese pregnant and post-natal women engage with a weight management service?. <i>Journal of Reproductive and Infant Psychology</i> , <b>2013</b> , 31, 245-256	2.9	22
126	Promoting healthy eating in pregnancy: what kind of support services do women say they want?. <i>Primary Health Care Research and Development</i> , <b>2012</b> , 13, 237-43	1.6	22
125	The psychological costs of inadequate cervical smear test results: three-month follow-up. <i>Psycho-Oncology</i> , <b>2006</b> , 15, 498-508	3.9	22
124	Perceptions of multiple risk factors for heart attacks. <i>Psychological Reports</i> , <b>2000</b> , 87, 681-7	1.6	22
123	Which outcome expectancies are important in determining young adults' intentions to use condoms with casual sexual partners?: a cross-sectional study. <i>BMC Public Health</i> , <b>2013</b> , 13, 133	4.1	21
122	Predictive genetic testing: mediators and moderators of anxiety. <i>International Journal of Behavioral Medicine</i> , <b>2002</b> , 9, 309-21	2.6	21
121	The role of context and timeframe in moderating relationships within the theory of planned behaviour. <i>Psychology and Health</i> , <b>2011</b> , 26, 1225-40	2.9	20
120	Using the theory of planned behaviour to predict screening uptake in two contexts. <i>Psychology and Health</i> , <b>2004</b> , 19, 705-718	2.9	20
119	Protocol for the PreventIT feasibility randomised controlled trial of a lifestyle-integrated exercise intervention in young older adults. <i>BMJ Open</i> , <b>2019</b> , 9, e023526	3	19
118	Implementing behaviour change theory and techniques to increase physical activity and prevent functional decline among adults aged 61-70: The PreventIT project. <i>Progress in Cardiovascular Diseases</i> , <b>2019</b> , 62, 147-156	8.5	18
117	Mediators of Behavior Change Maintenance in Physical Activity Interventions for Young and Middle-Aged Adults: A Systematic Review. <i>Annals of Behavioral Medicine</i> , <b>2018</b> , 52, 513-529	4.5	18
116	How do young adults perceive the risk of chlamydia infection? A qualitative study. <i>British Journal of Health Psychology</i> , <b>2012</b> , 17, 144-54	8.3	18
115	Causal beliefs and behaviour change post-myocardial infarction: how are they related?. <i>British Journal of Health Psychology</i> , <b>2005</b> , 10, 167-82	8.3	18
114	Are community-based health worker interventions an effective approach for early diagnosis of cancer? A systematic review and meta-analysis. <i>Psycho-Oncology</i> , <b>2018</b> , 27, 1089-1099	3.9	17
113	Acceptability of a Weight Management Intervention for Pregnant and Postpartum Women with BMI $\geq 30$ kg/m <sup>2</sup> : A Qualitative Evaluation of an Individualized, Home-Based Service. <i>Maternal and Child Health Journal</i> , <b>2016</b> , 20, 88-96	2.4	17
112	Do perceptions of vulnerability and worry mediate the effects of a smoking cessation intervention for women attending for a routine cervical smear test? An experimental study. <i>Health Psychology</i> , <b>2009</b> , 28, 258-63	5	17

111	Identifying Brief Message Content for Interventions Delivered via Mobile Devices to Improve Medication Adherence in People With Type 2 Diabetes Mellitus: A Rapid Systematic Review. <i>Journal of Medical Internet Research</i> , <b>2019</b> , 21, e10421	7.6	17
110	What are the benefits and harms of risk stratified screening as part of the NHS breast screening Programme? Study protocol for a multi-site non-randomised comparison of BC-predict versus usual screening (NCT04359420). <i>BMC Cancer</i> , <b>2020</b> , 20, 570	4.8	16
109	Do single and multiple behavior change interventions contain different behavior change techniques? A comparison of interventions targeting physical activity in obese populations. <i>Health Psychology</i> , <b>2015</b> , 34, 960-5	5	16
108	The effects of a brief intervention to promote walking on Theory of Planned Behavior constructs: a cluster randomized controlled trial in general practice. <i>Patient Education and Counseling</i> , <b>2015</b> , 98, 651-9 <sup>3.1</sup>	3.1	16
107	Wide variation in understanding about what constitutes Binge-drinking□ <i>Drugs: Education, Prevention and Policy</i> , <b>2010</b> , 17, 762-775	1.2	15
106	GP stress and patient dissatisfaction with nights on call: an exploratory study. GP stress and patient satisfaction. <i>Scandinavian Journal of Primary Health Care</i> , <b>2001</b> , 19, 170-3	2.7	15
105	How do environmental factors influence walking in groups? A walk-along study. <i>Journal of Health Psychology</i> , <b>2015</b> , 20, 1328-39	3.1	14
104	How do women experience a false-positive test result from breast screening? A systematic review and thematic synthesis of qualitative studies. <i>British Journal of Cancer</i> , <b>2019</b> , 121, 351-358	8.7	14
103	Do UK television alcohol advertisements abide by the code of broadcast advertising rules regarding the portrayal of alcohol?. <i>Alcohol and Alcoholism</i> , <b>2014</b> , 49, 472-8	3.5	14
102	The systematic development of a brief intervention to increase walking in the general public using an "extended" theory of planned behavior. <i>Journal of Physical Activity and Health</i> , <b>2013</b> , 10, 940-8	2.5	14
101	Do negative screening test results cause false reassurance? A systematic review. <i>British Journal of Health Psychology</i> , <b>2017</b> , 22, 958-977	8.3	13
100	Why young women gain weight: A narrative review of influencing factors and possible solutions. <i>Obesity Reviews</i> , <b>2020</b> , 21, e13002	10.6	13
99	A study of automated self-assessment in a primary care student health centre setting. <i>Journal of Telemedicine and Telecare</i> , <b>2014</b> , 20, 123-7	6.8	13
98	A cluster randomised controlled trial of the efficacy of a brief walking intervention delivered in primary care: study protocol. <i>BMC Family Practice</i> , <b>2011</b> , 12, 56	2.6	13
97	Have the public's expectations for antibiotics for acute uncomplicated respiratory tract infections changed since the H1N1 influenza pandemic? A qualitative interview and quantitative questionnaire study. <i>BMJ Open</i> , <b>2012</b> , 2, e000674	3	13
96	Effectiveness and cost-effectiveness of a physical activity loyalty scheme for behaviour change maintenance: a cluster randomised controlled trial. <i>BMC Public Health</i> , <b>2016</b> , 16, 618	4.1	12
95	Assessing unrealistic optimism: impact of different approaches to measuring susceptibility to diabetes. <i>Journal of Health Psychology</i> , <b>2009</b> , 14, 372-7	3.1	12
94	Personal and social comparison information about health risk: reaction to information and information search. <i>Journal of Health Psychology</i> , <b>2006</b> , 11, 497-510	3.1	12

93	Assessing Perceptions of Risks due to Multiple Hazards. <i>Journal of Risk Research</i> , <b>2006</b> , 9, 657-682	4.2	12
92	Sociodemographic differences in myocardial infarction risk perceptions among people with coronary heart disease. <i>Journal of Health Psychology</i> , <b>2007</b> , 12, 316-29	3.1	12
91	Translating a walking intervention for health professional delivery within primary care: A mixed-methods treatment fidelity assessment. <i>British Journal of Health Psychology</i> , <b>2020</b> , 25, 17-38	8.3	12
90	The NHS Diabetes Prevention Programme: an observational study of service delivery and patient experience. <i>BMC Health Services Research</i> , <b>2020</b> , 20, 1098	2.9	12
89	Factors influencing multiple sclerosis disease-modifying treatment prescribing decisions in the United Kingdom: A qualitative interview study. <i>Multiple Sclerosis and Related Disorders</i> , <b>2019</b> , 27, 378-382		12
88	Bias due to MEasurement Reactions In Trials to improve health (MERIT): protocol for research to develop MRC guidance. <i>Trials</i> , <b>2018</b> , 19, 653	2.8	12
87	Evaluating the impact of improvements in urban green space on older adults' physical activity and wellbeing: protocol for a natural experimental study. <i>BMC Public Health</i> , <b>2018</b> , 18, 923	4.1	12
86	Asking questions changes health-related behavior: an updated systematic review and meta-analysis. <i>Journal of Clinical Epidemiology</i> , <b>2020</b> , 123, 59-68	5.7	11
85	Psychosocial issues of a population approach to high genetic risk identification: Behavioural, emotional and informed choice issues. <i>Breast</i> , <b>2018</b> , 37, 148-153	3.6	11
84	The role of walkers' needs and expectations in supporting maintenance of attendance at walking groups: a longitudinal multi-perspective study of walkers and walk group leaders. <i>PLoS ONE</i> , <b>2015</b> , 10, e0118754	3.7	11
83	The development of the Self-Medicating Scale (SMS): a scale to measure people's beliefs about self-medication. <i>International Journal of Clinical Pharmacy</i> , <b>2008</b> , 30, 794-800		11
82	Does the design of the NHS Diabetes Prevention Programme intervention have fidelity to the programme specification? A document analysis. <i>Diabetic Medicine</i> , <b>2020</b> , 37, 1357-1366	3.5	11
81	Midwives' experiences of referring obese women to either a community or home-based antenatal weight management service: Implications for service providers and midwifery practice. <i>Midwifery</i> , <b>2017</b> , 49, 102-109	2.8	10
80	Engagement barriers and service inequities in the NHS Breast Screening Programme: Views from British-Pakistani women. <i>Journal of Medical Screening</i> , <b>2020</b> , 27, 130-137	1.4	10
79	Breast cancer risk status influences uptake, retention and efficacy of a weight loss programme amongst breast cancer screening attendees: two randomised controlled feasibility trials. <i>BMC Cancer</i> , <b>2019</b> , 19, 1089	4.8	10
78	Do interventions containing risk messages increase risk appraisal and the subsequent vaccination intentions and uptake? - A systematic review and meta-analysis. <i>British Journal of Health Psychology</i> , <b>2018</b> , 23, 1084-1106	8.3	10
77	"I Would Never Come Here Because I've Got My Own Garden": Older Adults' Perceptions of Small Urban Green Spaces. <i>International Journal of Environmental Research and Public Health</i> , <b>2019</b> , 16,	4.6	9
76	Explaining differences in causal attributions of patient and non-patient samples. <i>Psychology, Health and Medicine</i> , <b>2004</b> , 9, 259-272	2.1	9
