#	Article	IF	Citations
1	Lactobacillus reuteri AN417 cell-free culture supernatant as a novel antibacterial agent targeting oral pathogenic bacteria. Scientific Reports, 2021, 11, 1631.	3.3	35
2	The association between periodontitis and dyslipidemia according to smoking and harmful alcohol use in a representative sample of Korean adults. Clinical Oral Investigations, 2020, 24, 937-944.	3.0	12
3	Association of Periodontitis with the Concentration Levels of Germanium and Tin in Hair. Biological Trace Element Research, 2018, 186, 68-73.	3.5	4
4	Association of Some Vitamins and Minerals with Periodontitis in a Nationally Representative Sample of Korean Young Adults. Biological Trace Element Research, 2017, 178, 171-179.	3.5	21
5	Is yogurt intake associated with periodontitis due to calcium?. PLoS ONE, 2017, 12, e0187258.	2.5	9
6	Synergistic effect of maternal obesity and periodontitis on preterm birth in women with preâ€eclampsia: a prospective study. Journal of Clinical Periodontology, 2016, 43, 646-651.	4.9	11
7	Association between vitamin <scp>D</scp> deficiency and periodontal status in current smokers. Community Dentistry and Oral Epidemiology, 2015, 43, 471-478.	1.9	31
8	Risk factors for dental caries in childhood: a fiveâ€year survival analysis. Community Dentistry and Oral Epidemiology, 2015, 43, 163-171.	1.9	21
9	Association of dental caries with socioeconomic status in relation to different water fluoridation levels. Community Dentistry and Oral Epidemiology, 2014, 42, 536-542.	1.9	32
10	Systemic effect of water fluoridation on dental caries prevalence. Community Dentistry and Oral Epidemiology, 2014, 42, 341-348.	1.9	21
11	Association Between Plasma Levels of Manganese and Periodontal Status: A Study Based on the Fourth Korean National Health and Nutrition Examination Survey. Journal of Periodontology, 2014, 85, 1748-1754.	3.4	5
12	Association between periodontitis and preeclampsia in neverâ€smokers: a prospective study. Journal of Clinical Periodontology, 2014, 41, 869-874.	4.9	27
13	Association between harmful alcohol use and periodontal status according to gender and smoking. BMC Oral Health, 2014, 14, 73.	2.3	13
14	Association Between Obesity and Periodontitis in Pregnant Females. Journal of Periodontology, 2014, 85, e224-31.	3.4	33
15	The association between periodontitis and dyslipidemia based on the fourth Korea National Health and Nutrition Examination Survey. Journal of Clinical Periodontology, 2013, 40, 437-442.	4.9	61
16	Association of internal exposure of cadmium and lead with periodontal disease: a study of the Fourth Korean National Health and Nutrition Examination Survey. Journal of Clinical Periodontology, 2013, 40, 118-124.	4.9	20
17	Periodontitis and Obesity: A Study of the Fourth Korean National Health and Nutrition Examination Survey. Journal of Periodontology, 2011, 82, 533-542.	3.4	75
18	Oral Health Behaviors, Periodontal Disease, and Pathogens in Preeclampsia: A Case-Control Study in Korea. Journal of Periodontology, 2011, 82, 1685-1692.	3.4	21

#	Article	IF	Citations
19	The relationship between periodontitis and metabolic syndrome among a Korean nationally representative sample of adults. Journal of Clinical Periodontology, 2011, 38, 781-786.	4.9	92
20	Health Behaviors, Periodontal Conditions, and Periodontal Pathogens in Spontaneous Preterm Birth: A Caseâ€Control Study in Korea. Journal of Periodontology, 2010, 81, 855-863.	3.4	19
21	Validation of the Korean version of the oral health impact profile among the Korean elderly. Community Dentistry and Oral Epidemiology, 2007, 35, 73-79.	1.9	64
22	Oral health care for elderly in Korea. Geriatrics and Gerontology International, 2004, 4, S160-S161.	1.5	4
