#	ARTICLE	IF	CITATIONS
1	Rituximab therapy for chronic and refractory immune thrombocytopenic purpura: a long-term follow-up analysis. <i>Annals of Hematology</i> , 2007, 86, 871-877.	1.8	58
2	Endothelial colony-forming cells: Biological and functional abnormalities in patients with recurrent, unprovoked venous thromboembolic disease. <i>Thrombosis Research</i> , 2016, 137, 157-168.	1.7	29
3	Lamivudine-induced pure red cell aplasia. <i>American Journal of Hematology</i> , 2000, 65, 189-191.	4.1	28
4	The C677T Polymorphism of the Methylenetetrahydrofolate Reductase Gene Is Associated with Idiopathic Ischemic Stroke in the Young Mexican-Mestizo Population. <i>Cerebrovascular Diseases</i> , 2010, 29, 454-459.	1.7	27
5	C677T Polymorphism of the 5,10 MTHFR Gene in Young Mexican Subjects with ST-Elevation Myocardial Infarction. <i>Archives of Medical Research</i> , 2010, 41, 246-250.	3.3	22
6	Gene polymorphisms of angiotensin-converting enzyme and angiotensinogen and risk of idiopathic ischemic stroke. <i>Gene</i> , 2019, 688, 163-170.	2.2	17
7	Prevalence of Metabolic Syndrome Components in an Urban Mexican Sample: Comparison between Two Classifications. <i>Experimental Diabetes Research</i> , 2012, 2012, 1-8.	3.8	16
8	Proinflammatory and Prothrombotic State in Subjects with Different Glucose Tolerance Status before Cardiovascular Disease. <i>Journal of Diabetes Research</i> , 2014, 2014, 1-9.	2.3	14
9	Reduced proliferation of endothelial colony-forming cells in unprovoked venous thromboembolic disease as a consequence of endothelial dysfunction. <i>PLoS ONE</i> , 2017, 12, e0183827.	2.5	14
10	Effect of combined administration of clopidogrel and lysine acetylsalicylate versus clopidogrel and aspirin on platelet aggregation and activated GPIIb/IIIa expression in healthy volunteers. <i>Platelets</i> , 2006, 17, 105-107.	2.3	12
11	Hypofibrinolytic State in Subjects with Type 2 Diabetes Mellitus Aggravated by the Metabolic Syndrome before Clinical Manifestations of Atherothrombotic Disease. <i>BioMed Research International</i> , 2017, 2017, 1-9.	1.9	12
12	GLU298ASP and 4G/5G Polymorphisms and the Risk of Ischemic Stroke in Young Individuals. <i>Canadian Journal of Neurological Sciences</i> , 2015, 42, 310-316.	0.5	10
13	Association of renin-angiotensin system genes polymorphisms and risk of premature ST elevation myocardial infarction in young Mexican population. <i>Blood Coagulation and Fibrinolysis</i> , 2018, 29, 267-274.	1.0	10
14	Long-term follow up analysis of nadroparin for hereditary angioedema. A preliminary report. <i>International Immunopharmacology</i> , 2011, 11, 1127-1132.	3.8	9
15	Activated Protein C Resistance and Factor V Leiden in Mexico. <i>Clinical and Applied Thrombosis/Hemostasis</i> , 2008, 14, 428-437.	1.7	8
16	Post-treatment improvement of NK cell numbers predicts better survival in myeloma patients treated with thalidomide-based regimens. <i>International Journal of Hematology</i> , 2019, 110, 306-312.	1.6	8
17	COVID-19 and Dysfunctional Endothelium: The Mexican Scenario. <i>Archives of Medical Research</i> , 2020, 51, 587-588.	3.3	8
18	Morphological and functional alterations in endothelial colony-forming cells from recovered COVID-19 patients. <i>Thrombosis Research</i> , 2021, 206, 55-59.	1.7	8

#	ARTICLE	IF	CITATIONS
19	Platelet glycoprotein IIIA PIA2 polymorphism is associated with ST elevation acute myocardial infarction in young Mexican population. <i>Journal of Thrombosis and Thrombolysis</i> , 2012, 33, 389-396.	2.1	6
20	Platelet glycoprotein IIIA PIA1/A2 polymorphism in young patients with ST elevation myocardial infarction and idiopathic ischemic stroke. <i>Molecular and Cellular Biochemistry</i> , 2013, 384, 163-171.	3.1	6
21	Clinical relevance of NKT cells and soluble MIC-A in Hodgkin lymphoma. <i>Leukemia and Lymphoma</i> , 2021, 62, 801-809.	1.3	6
22	Metabolic effects of the contraceptive skin patch and subdermal contraceptive implant in Mexican women: A prospective study. <i>Reproductive Health</i> , 2014, 11, 33.	3.1	5
23	Genetic Polymorphisms Associated with Thrombotic Disease Comparison of Two Territories: Myocardial Infarction and Ischemic Stroke. <i>Disease Markers</i> , 2019, 2019, 1-8.	1.3	5
24	von Willebrand Disease and other hereditary haemostatic factor deficiencies in women with a history of postpartum haemorrhage. <i>Haemophilia</i> , 2020, 26, 97-105.	2.1	4
25	Abo Blood Group, Atherothrombotic Comorbidities, and COVID-19: A Case-Control Study of their Association in the Mexican Population. <i>Archives of Medical Research</i> , 2022, 53, 100-108.	3.3	3
26	Genetic susceptibility variants for chronic lymphocytic leukaemia in Mexican mestizos. <i>British Journal of Haematology</i> , 2015, 169, 909-911.	2.5	2
27	Cystathionine β -synthase and methylenetetrahydrofolate reductase mutations in Mexican individuals with hyperhomocysteinemia. <i>SAGE Open Medicine</i> , 2020, 8, 205031212097419.	1.8	1
28	A proposal for the management of COVID-19-induced coagulopathy in adults. <i>Gaceta Medica De Mexico</i> , 2021, 157, 201-206.	0.3	1
29	The influence of hydrogen ions on coagulation in traumatic brain injury, explored by molecular dynamics. <i>Brain Injury</i> , 2021, 35, 842-849.	1.2	1
30	Lamivudine-induced pure red cell aplasia. , 2000, 65, 189.		1
31	Safety of the oral methionine load test: effects on the clinical performance and laboratory tests. <i>Revista De Investigacion Clinica</i> , 2013, 65, 323-30.	0.4	1
32	Effects of the contraceptive skin patch and subdermal contraceptive implant on markers of endothelial cell activation and inflammation. <i>Journal of Clinical Pharmacology</i> , 2015, 55, 780-786.	2.0	0
33	Is the Angioedema Associated with COVID-19 a Real Entity, a Mimic, or Both?. <i>American Journal of Respiratory and Critical Care Medicine</i> , 2021, 203, 645-646.	5.6	0
