#	ARTICLE	IF	CITATIONS
1	“Just keep taking them, keep hoping they’ll work”: A qualitative study of adhering to medications for multimorbidity. <i>British Journal of Health Psychology</i> , 2022, 27, 691-715.	3.5	11
2	The use of postal audit and feedback among Irish General Practitioners for the self “ management of antimicrobial prescribing: a qualitative study. , 2022, 23, 86.		2
3	Young adult preferences for digital health interventions to support adherence to inhaled corticosteroids in asthma: a qualitative study. <i>Health Psychology and Behavioral Medicine</i> , 2022, 10, 557-578.	1.8	1
4	Prevalence and predictors of adherence to inhaled corticosteroids in young adults (15–30 years) with asthma: a systematic review and meta-analysis. <i>Journal of Asthma</i> , 2021, 58, 683-705.	1.7	21
5	“I just take them because I know the people that give them to me”: A theory-informed interview study of community-dwelling people with dementia and carers’ perspectives of medicines management. <i>International Journal of Geriatric Psychiatry</i> , 2021, 36, 883-891.	2.7	1
6	An external pilot cluster randomised controlled trial of a theory-based intervention to improve appropriate polypharmacy in older people in primary care (PolyPrime): study protocol. <i>Pilot and Feasibility Studies</i> , 2021, 7, 77.	1.2	8
7	Exploring barriers and facilitators of physical distancing in the context of the COVID-19 pandemic: a qualitative interview study. <i>HRB Open Research</i> , 2021, 4, 50.	0.6	5
8	A scoping review of research on the determinants of adherence to social distancing measures during the COVID-19 pandemic. <i>Health Psychology Review</i> , 2021, 15, 350-370.	8.6	20
9	Exploring barriers and facilitators of physical distancing in the context of the COVID-19 pandemic: a qualitative interview study. <i>HRB Open Research</i> , 2021, 4, 50.	0.6	4
10	Protocol for a process evaluation of an external pilot cluster randomised controlled trial of a theory-based intervention to improve appropriate polypharmacy in older people in primary care: the PolyPrime study. <i>Trials</i> , 2021, 22, 449.	1.6	4
11	A Smartphone App to Support Adherence to Inhaled Corticosteroids in Young Adults With Asthma: Multi-Methods Feasibility Study. <i>JMIR Formative Research</i> , 2021, 5, e28784.	1.4	8
12	Prevalence and predictors of medication non-adherence among people living with multimorbidity: a systematic review and meta-analysis. <i>BMJ Open</i> , 2021, 11, e044987.	1.9	61
13	A qualitative comparison of high and low adherers with apparent treatment-resistant hypertension. <i>Psychology, Health and Medicine</i> , 2020, 25, 64-77.	2.4	4
14	Comparative efficacy of exercise and anti-hypertensive pharmacological interventions in reducing blood pressure in people with hypertension: A network meta-analysis. <i>European Journal of Preventive Cardiology</i> , 2020, 27, 247-255.	1.8	37
15	Improving medicines management for people with dementia in primary care: a qualitative study of healthcare professionals to develop a theory-informed intervention. <i>BMC Health Services Research</i> , 2020, 20, 120.	2.2	14
16	Designing an e-learning tool to support health practitioners caring for patients taking multiple medications. <i>HRB Open Research</i> , 2020, 3, 59.	0.6	3
17	The identification of needs and development of best practice guidance for the psychological support of frontline healthcare workers during and after COVID-19: A protocol for the FLoWS project. <i>HRB Open Research</i> , 2020, 3, 54.	0.6	1
18	Identifying and addressing psychosocial determinants of adherence to physical distancing guidance during the COVID-19 pandemic “ project protocol. <i>HRB Open Research</i> , 2020, 3, 58.	0.6	9

#	ARTICLE	IF	CITATIONS
19	Identifying and addressing psychosocial determinants of adherence to physical distancing guidance during the COVID-19 pandemic – project protocol. HRB Open Research, 2020, 3, 58.	0.6	7
20	Investigating and evaluating evidence of the behavioural determinants of adherence to social distancing measures – A protocol for a scoping review of COVID-19 research. HRB Open Research, 2020, 3, 46.	0.6	5
21	Investigating and evaluating evidence of the behavioural determinants of adherence to social distancing measures – A protocol for a scoping review of COVID-19 research. HRB Open Research, 2020, 3, 46.	0.6	6
22	Designing an e-learning tool to support health practitioners caring for patients taking multiple medications. HRB Open Research, 2020, 3, 59.	0.6	2
23	Patients'™ Experiences of Using Smartphone Apps to Support Self-Management and Improve Medication Adherence in Hypertension: Qualitative Study. JMIR MHealth and UHealth, 2020, 8, e17470.	3.7	20
24	The identification of needs and development of best practice guidance for the psychological support of frontline healthcare workers during and after COVID-19: A protocol for the FLoWS project. HRB Open Research, 2020, 3, 54.	0.6	2
25	Measuring adherence to therapy in apparent treatment-resistant hypertension: a feasibility study in Irish primary care. British Journal of General Practice, 2019, 69, e621-e628.	1.4	9
26	The development of a Core Outcome Set for medicines management interventions for people with dementia in primary care. Age and Ageing, 2019, 48, 260-266.	1.6	8
27	Prevalence and predictors of medication non-adherence among patients with multimorbidity: A systematic review protocol. HRB Open Research, 2019, 2, 29.	0.6	4
28	Prevalence and predictors of medication non-adherence among patients with multimorbidity: A systematic review protocol. HRB Open Research, 2019, 2, 29.	0.6	3
29	New self-management technologies for the treatment of hypertension: general practitioners'™ perspectives. Family Practice, 2018, 35, 318-322.	1.9	22
30	Network meta-analysis in health psychology and behavioural medicine: a primer. Health Psychology Review, 2018, 12, 254-270.	8.6	12
31	Conscientiousness and adherence to the oral contraceptive pill: a cross-sectional analysis of the facets of conscientiousness. Psychology, Health and Medicine, 2018, 23, 1006-1015.	2.4	7
32	Smartphone apps for improving medication adherence in hypertension: patients'™ perspectives. Patient Preference and Adherence, 2018, Volume 12, 813-822.	1.8	53
33	Medication adherence for resistant hypertension: Assessing theoretical predictors of adherence using direct and indirect adherence measures. British Journal of Health Psychology, 2018, 23, 949-966.	3.5	33
34	Prognosis of patients with apparent treatment-resistant hypertension – a feasibility study. Pilot and Feasibility Studies, 2018, 4, 43.	1.2	1
35	Prevalence of treatment-resistant hypertension after considering pseudo-resistance and morbidity: a cross-sectional study in Irish primary care. British Journal of General Practice, 2018, 68, e394-e400.	1.4	19
36	Comparative effectiveness of physical activity interventions and anti-hypertensive pharmacological interventions in reducing blood pressure in people with hypertension: protocol for a systematic review and network meta-analysis. Systematic Reviews, 2018, 7, 128.	5.3	13

#	ARTICLE	IF	CITATIONS
37	Habit Strength and Adherence to Oral Contraceptives: the Role of Time- and Place-Based Cues. <i>International Journal of Behavioral Medicine</i> , 2018, 25, 431-437.	1.7	13
38	Effectiveness and content analysis of interventions to enhance medication adherence and blood pressure control in hypertension: A systematic review and meta-analysis. <i>Psychology and Health</i> , 2017, 32, 1195-1232.	2.2	34
39	The INCA TM (<u>In</u>haler <u>C</u>ompliance <u>A</u>ssessment TM): A comparison with established measures of adherence. <i>Psychology and Health</i> , 2017, 32, 1266-1287.	2.2	30
40	Medication adherence across the lifespan: Theory, methods, interventions and six grand challenges. <i>Psychology and Health</i> , 2017, 32, 1169-1175.	2.2	9
41	Medication adherence among patients with apparent treatment-resistant hypertension. <i>Journal of Hypertension</i> , 2017, 35, 2346-2357.	0.5	129
42	Couple-Based Psychosexual Support Following Prostate Cancer Surgery: Results of a Feasibility Pilot Randomized Control Trial. <i>Journal of Sexual Medicine</i> , 2016, 13, 1233-1242.	0.6	26
43	Effectiveness and content analysis of interventions to enhance medication adherence in hypertension: a systematic review and meta-analysis protocol. <i>Systematic Reviews</i> , 2016, 5, 96.	5.3	14
44	Response to Editorial Comment "There's a Long Way to Go, But Now We Have a Map". <i>Journal of Sexual Medicine</i> , 2016, 13, 1245-1245.	0.6	0
45	Potentially Inappropriate Prescribing Among People with Dementia in Primary Care: A Retrospective Cross-Sectional Study Using the Enhanced Prescribing Database. <i>Journal of Alzheimer's Disease</i> , 2016, 52, 1503-1513.	2.6	47
46	Behavior Change Techniques in Apps for Medication Adherence. <i>American Journal of Preventive Medicine</i> , 2016, 50, e143-e146.	3.0	90
47	Optimism and Recovery After Acute Coronary Syndrome. <i>Psychosomatic Medicine</i> , 2015, 77, 311-318.	2.0	47
48	A Qualitative Study of Prescription Contraception Use: The Perspectives of Users, General Practitioners and Pharmacists. <i>PLoS ONE</i> , 2015, 10, e0144074.	2.5	13
49	Psychological coping and recurrent major adverse cardiac events following acute coronary syndrome. <i>British Journal of Psychiatry</i> , 2015, 207, 256-261.	2.8	11
50	Prescription contraception use: a cross-sectional population study of psychosocial determinants. <i>BMJ Open</i> , 2015, 5, e007794.	1.9	12
51	Conscientiousness and adherence to the oral contraceptive pill: A prospective study. <i>Psychology and Health</i> , 2015, 30, 1346-1360.	2.2	6
52	A randomized controlled multimodal behavioral intervention trial for improving antiepileptic drug adherence. <i>Epilepsy and Behavior</i> , 2015, 52, 133-142.	1.7	44
53	The psychosocial predictors of long-term distress in partners of patients with acute coronary syndrome. <i>Psychology and Health</i> , 2014, 29, 737-752.	2.2	4
54	Conscientiousness and Medication Adherence: A Meta-analysis. <i>Annals of Behavioral Medicine</i> , 2014, 47, 92-101.	2.9	78

#	ARTICLE	IF	CITATIONS
55	Medication Adherence, Depression and the Ongoing Interpersonal Context: a Comment on Kronish et al.. <i>Annals of Behavioral Medicine</i> , 2014, 47, 135-136.	2.9	1
56	Exploring the feasibility and acceptability of couple-based psychosexual support following prostate cancer surgery: study protocol for a pilot randomised controlled trial. <i>Trials</i> , 2014, 15, 183.	1.6	12
57	Intention and planning predicting medication adherence following coronary artery bypass graft surgery. <i>Journal of Psychosomatic Research</i> , 2014, 77, 287-295.	2.6	28
58	Intentional and unintentional non-adherence to medications following an acute coronary syndrome: A longitudinal study. <i>Journal of Psychosomatic Research</i> , 2014, 76, 430-432.	2.6	65
59	Inflammation and symptoms of depression and anxiety in patients with acute coronary heart disease. <i>Brain, Behavior, and Immunity</i> , 2013, 31, 183-188.	4.1	42
60	Behavioral Science and Reasons for Nonadherence to Medication. <i>Medical Care</i> , 2013, 51, 468.	2.4	3
61	Cortisol levels and history of depression in acute coronary syndrome patients. <i>Psychological Medicine</i> , 2012, 42, 1815-1823.	4.5	12
62	Interventions to Enhance Adherence to Medications in Patients With Heart Failure. <i>Circulation: Heart Failure</i> , 2012, 5, 126-133.	3.9	53
63	Anaemia and the development of depressive symptoms following acute coronary syndrome: longitudinal clinical observational study. <i>BMJ Open</i> , 2012, 2, e000551.	1.9	24
64	Type D Personality, Self-Efficacy, and Medication Adherence Following an Acute Coronary Syndrome. <i>Psychosomatic Medicine</i> , 2012, 74, 100-106.	2.0	58
65	Adherence to the oral contraceptive pill: a cross-sectional survey of modifiable behavioural determinants. <i>BMC Public Health</i> , 2012, 12, 838.	2.9	43
66	The effects of perceived social support on quality of life in patients awaiting coronary artery bypass grafting and their partners: Testing dyadic dynamics using the Actor-Partner Interdependence Model. <i>Psychology, Health and Medicine</i> , 2012, 17, 35-46.	2.4	23
67	Symptom experience during acute coronary syndrome and the development of posttraumatic stress symptoms. <i>Journal of Behavioral Medicine</i> , 2012, 35, 420-430.	2.1	15
68	Do brief online planning interventions increase physical activity amongst university students? A randomised controlled trial. <i>Psychology and Health</i> , 2011, 26, 399-417.	2.2	56
69	Emotional triggering and low socio-economic status as determinants of depression following acute coronary syndrome. <i>Psychological Medicine</i> , 2011, 41, 1857-1866.	4.5	24
70	Cognitive predictors of posttraumatic stress symptoms six months following acute coronary syndrome. <i>Psychology and Health</i> , 2011, 26, 974-988.	2.2	10
71	Fear of dying and inflammation following acute coronary syndrome. <i>European Heart Journal</i> , 2011, 32, 2405-2411.	2.2	33
72	Social support and regular physical activity: Does planning mediate this link?. <i>British Journal of Health Psychology</i> , 2010, 15, 859-870.	3.5	62

#	ARTICLE	IF	CITATIONS
73	Loneliness and Emergency and Planned Hospitalizations in a Community Sample of Older Adults. <i>Journal of the American Geriatrics Society</i> , 2010, 58, 1538-1541.	2.6	84
74	Increasing influenza vaccination rates: Where is the behaviour change theory?. <i>Vaccine</i> , 2010, 28, 3632.	3.8	4
75	The impact of an acute cardiac event on the partners of patients: a systematic review. <i>Health Psychology Review</i> , 2009, 3, 1-84.	8.6	43
76	Adherence to angiotensinâ€convertingâ€enzyme inhibitors and illness beliefs in older heart failure patients. <i>European Journal of Heart Failure</i> , 2009, 11, 715-720.	7.1	23
77	Leisure time physical activity, risk of depressive symptoms, and inflammatory mediators: The English Longitudinal Study of Ageing. <i>Psychoneuroendocrinology</i> , 2009, 34, 1050-1055.	2.7	124
78	Marital status, gender and cardiovascular mortality: Behavioural, psychological distress and metabolic explanations. <i>Social Science and Medicine</i> , 2009, 69, 223-228.	3.8	160
79	Association of C-reactive protein and muscle strength in the English Longitudinal Study of Ageing. <i>Age</i> , 2009, 31, 171-177.	3.0	62
80	CROSSâ€SECTIONAL AND LONGITUDINAL ASSOCIATIONS BETWEEN ANEMIA AND DEPRESSIVE SYMPTOMS IN THE ENGLISH LONGITUDINAL STUDY OF AGEING. <i>Journal of the American Geriatrics Society</i> , 2009, 57, 948-949.	2.6	27
81	Two alternative models of health behaviour and recovery from activity limitations due to acute injury: A prospective study. <i>Psychology and Health</i> , 2009, 24, 271-285.	2.2	8
82	Persistent depressive symptomatology and inflammation: To what extent do health behaviours and weight control mediate this relationship?. <i>Brain, Behavior, and Immunity</i> , 2009, 23, 413-418.	4.1	73
83	Psychological distress and cancer mortality. <i>Journal of Psychosomatic Research</i> , 2009, 66, 255-258.	2.6	233
84	Using the demand-control model of job strain to predict caregiver burden and caregiver satisfaction in the informal caregivers of heart failure patients. <i>British Journal of Health Psychology</i> , 2008, 13, 401-417.	3.5	17
85	Prediction of Behaviour vs. Prediction of Behaviour Change: The Role of Motivational Moderators in the Theory of Planned Behaviour. <i>Applied Psychology</i> , 2008, 57, 609-627.	7.1	18
86	Older people - recipients but also providers of informal care: an analysis among community samples in the Republic of Ireland and Northern Ireland. <i>Health and Social Care in the Community</i> , 2008, 16, 548-553.	1.6	17
87	The cortisol awakening response in relation to objective and subjective measures of waking in the morning. <i>Psychoneuroendocrinology</i> , 2008, 33, 77-82.	2.7	131
88	Psychological Distress as a Risk Factor for Cardiovascular Events. <i>Journal of the American College of Cardiology</i> , 2008, 52, 2156-2162.	2.8	239
89	Depression is associated with flatter cortisol rhythms in patients with coronary artery disease. <i>Journal of Psychosomatic Research</i> , 2008, 65, 107-113.	2.6	91
90	Practical support predicts medication adherence and attendance at cardiac rehabilitation following acute coronary syndrome. <i>Journal of Psychosomatic Research</i> , 2008, 65, 581-586.	2.6	36

#	ARTICLE	IF	CITATIONS
91	Marital status and cardiac rehabilitation attendance: a meta-analysis. <i>European Journal of Cardiovascular Prevention and Rehabilitation</i> , 2008, 15, 557-561.	2.8	49
92	Social networks and partner stress as predictors of adherence to medication, rehabilitation attendance, and quality of life following acute coronary syndrome.. <i>Health Psychology</i> , 2008, 27, 52-58.	1.6	69
93	Spousal caregiver confidence and recovery from ambulatory activity limitations in stroke survivors.. <i>Health Psychology</i> , 2008, 27, 286-290.	1.6	21
94	Type-D Personality and Cortisol in Survivors of Acute Coronary Syndrome. <i>Psychosomatic Medicine</i> , 2008, 70, 863-868.	2.0	88
95	Role of personality in coronary heart disease: implications for behavioral cardiology. <i>Future Cardiology</i> , 2007, 3, 477-479.	1.2	0
96	Personality and heart disease. <i>Heart</i> , 2007, 93, 783-784.	2.9	48
97	Effects of an exercise intervention for older heart failure patients on caregiver burden and emotional distress. <i>European Journal of Cardiovascular Prevention and Rehabilitation</i> , 2006, 13, 381-387.	2.8	17
98	Effects of an exercise intervention for older heart failure patients on caregiver burden and emotional distress. <i>European Journal of Cardiovascular Prevention and Rehabilitation</i> , 2006, 13, 381-387.	2.8	22
99	The SHEL Model: A Useful Tool for Analyzing and Teaching the Contribution of Human Factors to Medical Error. <i>Academic Medicine</i> , 2005, 80, 152-155.	1.6	43
100	Family caregiving and congestive heart failure. Review and analysis. <i>European Journal of Heart Failure</i> , 2005, 7, 592-603.	7.1	181
101	Extending the demandâ€“control model to informal caregiving. <i>Journal of Psychosomatic Research</i> , 2005, 58, 243-251.	2.6	22
102	Adherence to physical distancing guidance in Ireland: a nationally representative analysis from the International COVID-19 Awareness and Responses Evaluation (iCARE) study. <i>HRB Open Research</i> , 0, 4, 36.	0.6	6
103	Content analysis of behaviour change techniques in government physical distancing communications for the reopening of schools during the COVID-19 pandemic in Ireland. <i>HRB Open Research</i> , 0, 4, 78.	0.6	1
104	Understanding the stress and coping experiences of undergraduate university students in the COVID-19 context: A qualitative study. <i>HRB Open Research</i> , 0, 5, 51.	0.6	1
