#	Paper	IF	Citations
86	Reducing inappropriate polypharmacy: the process of deprescribing. <i>JAMA Internal Medicine</i> , 2015 , 175, 827-34	11.5	722
85	Physician-patient-companion communication and decision-making: a systematic review of triadic medical consultations. <i>Patient Education and Counseling</i> , 2013 , 91, 3-13	3.1	215
84	Use of a decision aid including information on overdetection to support informed choice about breast cancer screening: a randomised controlled trial. <i>Lancet, The</i> , 2015 , 385, 1642-52	4.0	177
83	Too much medicine in older people? Deprescribing through shared decision making. <i>BMJ, The</i> , 2016 , 353, i2893	5.9	130
82	Women's views on overdiagnosis in breast cancer screening: a qualitative study. <i>BMJ, The</i> , 2013 , 346, f158	5.9	102
81	Emotional and informational patient cues: the impact of nurses' responses on recall. <i>Patient Education and Counseling</i> , 2010 , 79, 218-24	3.1	81
80	Readability of Written Materials for CKD Patients: A Systematic Review. <i>American Journal of Kidney Diseases</i> , 2015 , 65, 842-50	7.4	74
79	Decision aids to help older people make health decisions: a systematic review and meta-analysis. <i>BMC Medical Informatics and Decision Making</i> , 2016 , 16, 45	3.6	68
78	A systematic review of interventions to deprescribe benzodiazepines and other hypnotics among older people. <i>European Journal of Clinical Pharmacology</i> , 2017 , 73, 927-935	2.8	65
77	The influence of graphic display format on the interpretations of quantitative risk information among adults with lower education and literacy: a randomized experimental study. <i>Medical Decision Making</i> , 2012 , 32, 532-44	2.5	64
76	Walking the tightrope: communicating overdiagnosis in modern healthcare. <i>BMJ, The</i> , 2016 , 352, i348	5.9	54
75	A systematic review of effectiveness of decision aids to assist older patients at the end of life. <i>Patient Education and Counseling</i> , 2017 , 100, 425-435	3.1	49
74	Decision-Making Preferences and Deprescribing: Perspectives of Older Adults and Companions About Their Medicines. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2018 , 73, e98-e107	4.6	48
73	The importance and challenges of shared decision making in older people with multimorbidity. <i>PLoS Medicine</i> , 2018 , 15, e1002530	11.6	40
72	Contralateral prophylactic mastectomy (CPM): A systematic review of patient reported factors and psychological predictors influencing choice and satisfaction. <i>Breast</i> , 2016 , 28, 107-20	3.6	37
71	I don't believe it, but i'd better do something about it: patient experiences of online heart age risk calculators. <i>Journal of Medical Internet Research</i> , 2014 , 16, e120	7.6	36
70	General practitioners' use of different cardiovascular risk assessment strategies: a qualitative study. <i>Medical Journal of Australia</i> , 2013 , 199, 485-9	4	34

69	General Practitioners' Decision Making about Primary Prevention of Cardiovascular Disease in Older Adults: A Qualitative Study. <i>PLoS ONE</i> , 2017 , 12, e0170228	3.7	31
68	How do we achieve informed choice for women considering breast screening?. <i>Preventive Medicine</i> , 2011 , 53, 144-6	4.3	31
67	'It has saved thousands of lives, so why change it?' Content analysis of objections to cervical screening programme changes in Australia. <i>BMJ Open</i> , 2018 , 8, e019171	3	29
66	Communicating cardiovascular disease risk: an interview study of General Practitioners' use of absolute risk within tailored communication strategies. <i>BMC Family Practice</i> , 2014 , 15, 106	2.6	29
65	The effect of information about overdetection of breast cancer on women's decision-making about mammography screening: study protocol for a randomised controlled trial. <i>BMJ Open</i> , 2014 , 4, e004990 ³		26
64	General practitioners' use of absolute risk versus individual risk factors in cardiovascular disease prevention: an experimental study. <i>BMJ Open</i> , 2014 , 4, e004812	3	26
63	Improving communication about cancer screening: moving towards informed decision making. <i>Public Health Research and Practice</i> , 2017 , 27,	5.1	26
62	Should heart age calculators be used alongside absolute cardiovascular disease risk assessment?. <i>BMC Cardiovascular Disorders</i> , 2018 , 18, 19	2.3	25
61	Are expanding disease definitions unnecessarily labelling women with polycystic ovary syndrome?. <i>BMJ, The</i> , 2017 , 358, j3694	5.9	25
60	Influence of the disease label 'polycystic ovary syndrome' on intention to have an ultrasound and psychosocial outcomes: a randomised online study in young women. <i>Human Reproduction</i> , 2017 , 32, 876-884	5.7	25
59	How do general practitioners and patients make decisions about cardiovascular disease risk?. <i>Health Psychology</i> , 2015 , 34, 253-61	5	25
58	The deprescribing rainbow: a conceptual framework highlighting the importance of patient context when stopping medication in older people. <i>BMC Geriatrics</i> , 2018 , 18, 295	4.1	24
57	Availability and readability of patient education materials for deprescribing: An environmental scan. <i>British Journal of Clinical Pharmacology</i> , 2019 , 85, 1396-1406	3.8	23
56	Systematic review of clinical practice guidelines recommendations about primary cardiovascular disease prevention for older adults. <i>BMC Family Practice</i> , 2015 , 16, 104	2.6	23
55	Overdetection in breast cancer screening: development and preliminary evaluation of a decision aid. <i>BMJ Open</i> , 2014 , 4, e006016	3	22
54	Health Literacy Demand of Printed Lifestyle Patient Information Materials Aimed at People With Chronic Kidney Disease: Are Materials Easy to Understand and Act On and Do They Use Meaningful Visual Aids?. <i>Journal of Health Communication</i> , 2017 , 22, 163-170	2.5	21
53	Is the "Heart Age" Concept Helpful or Harmful Compared to Absolute Cardiovascular Disease Risk? An Experimental Study. <i>Medical Decision Making</i> , 2015 , 35, 967-78	2.5	20
52	Shared decision making in Australia in 2017. <i>Zeitschrift Fur Evidenz, Fortbildung Und Qualitat Im Gesundheitswesen</i> , 2017 , 123-124, 17-20	1.4	17

51	The benefits and harms of receiving a polycystic ovary syndrome diagnosis: a qualitative study of women's experiences. <i>Human Reproduction Open</i> , 2019 , 2019, hoz026	6.1	16
50	A multifaceted quality improvement intervention for CVD risk management in Australian primary healthcare: a protocol for a process evaluation. <i>Implementation Science</i> , 2014 , 9, 187	8.4	13
49	Heuristics and biases in cardiovascular disease prevention: How can we improve communication about risk, benefits and harms?. <i>Patient Education and Counseling</i> , 2018 , 101, 843-853	3.1	12
48	Pharmacists and patients sharing decisions about medicines: Development and feasibility of a conversation guide. <i>Research in Social and Administrative Pharmacy</i> , 2019 , 15, 682-690	2.9	11
47	Deprescribing Opioids in Chronic Non-cancer Pain: Systematic Review of Randomised Trials. <i>Drugs</i> , 2020 , 80, 1563-1576	12.1	11
46	Clinicians' perspectives on diagnosing polycystic ovary syndrome in Australia: a qualitative study. <i>Human Reproduction</i> , 2020 , 35, 660-668	5.7	10
45	Decision-making about mammographic screening: pursuing informed choice. <i>Climacteric</i> , 2018 , 21, 209-213	3.3	10
44	The impact of in hospital patient-education intervention on older people's attitudes and intention to have their benzodiazepines deprescribed: a feasibility study. <i>Therapeutic Advances in Drug Safety</i> , 2019 , 10, 2042098618816562	3.5	9
43	Shared decision-making about cardiovascular disease medication in older people: a qualitative study of patient experiences in general practice. <i>BMJ Open</i> , 2019 , 9, e026342	3	8
42	The differential effects of presenting uncertainty around benefits and harms on treatment decision making. <i>Patient Education and Counseling</i> , 2016 , 99, 974-80	3.1	8
41	Development of consumer information leaflets for deprescribing in older hospital inpatients: a mixed-methods study. <i>BMJ Open</i> , 2019 , 9, e033303	3	8
40	Preference for and understanding of graphs presenting health risk information. The role of age, health literacy, numeracy and graph literacy. <i>Patient Education and Counseling</i> , 2021 , 104, 109-117	3.1	8
39	Development and pilot testing of a Decision Aid (DA) for women with early-stage breast cancer considering contralateral prophylactic mastectomy. <i>Breast</i> , 2018 , 40, 156-164	3.6	8
38	Impact of a diagnosis of polycystic ovary syndrome on diet, physical activity and contraceptive use in young women: findings from the Australian Longitudinal Study of Women's Health. <i>Human Reproduction</i> , 2020 , 35, 394-403	5.7	7
37	How information about overdetection changes breast cancer screening decisions: a mediation analysis within a randomised controlled trial. <i>BMJ Open</i> , 2017 , 7, e016246	3	7
36	Discussions about evidence and preferences in real-life general practice consultations with older patients. <i>Patient Education and Counseling</i> , 2019 , 102, 879-887	3.1	6
35	Women's Acceptance of Overdetection in Breast Cancer Screening: Can We Assess Harm-Benefit Tradeoffs?. <i>Medical Decision Making</i> , 2020 , 40, 42-51	2.5	6
34	Interventions for improving health literacy in people with chronic kidney disease. <i>The Cochrane Library</i> , 2016 ,	5.2	6

33	Benefits and Harms of Hypertension and High-Normal Labels: A Randomized Experiment. <i>Circulation: Cardiovascular Quality and Outcomes</i> , 2021 , 14, e007160	5.8	5
32	The influence of the 'cancer effect' on young women's responses to overdiagnosis in cervical screening. <i>Patient Education and Counseling</i> , 2016 , 99, 1568-75	3.1	5
31	Could disease labelling have positive effects? An experimental study exploring the effect of the chronic fatigue syndrome label on intended social support. <i>Patient Education and Counseling</i> , 2019 , 102, 486-493	3.1	5
30	Effect of different communication strategies about stopping cancer screening on screening intention and cancer anxiety: a randomised online trial of older adults in Australia. <i>BMJ Open</i> , 2020 , 10, e034061	3	4
29	Impact of graphic format on perception of change in biological data: implications for health monitoring in conditions such as asthma. <i>Primary Care Respiratory Journal: Journal of the General Practice Airways Group</i> , 2012 , 21, 94-100		4
28	Clarifying Values: An Updated and Expanded Systematic Review and Meta-Analysis. <i>Medical Decision Making</i> , 2021 , 41, 801-820	2.5	4
27	A qualitative exploration of clinicians' strategies to communicate risks to patients in the complex reality of clinical practice. <i>PLoS ONE</i> , 2020 , 15, e0236751	3.7	3
26	Psychosocial and clinical predictors of continued cancer screening in older adults. <i>Patient Education and Counseling</i> , 2021 , 104, 3093-3096	3.1	3
25	Is the NHS 'Heart Age Test' too much medicine?. <i>British Journal of General Practice</i> , 2019 , 69, 560-561	1.6	3
24	Geriatrician perspectives on perioperative care: a qualitative study. <i>BMC Geriatrics</i> , 2021 , 21, 68	4.1	3
23	The Effect of a Comprehensive, Interdisciplinary Medication Review on Quality of Life and Medication Use in Community Dwelling Older People with Polypharmacy. <i>Journal of Clinical Medicine</i> , 2021 , 10,	5.1	3
22	The importance of enabling informed decision making for women considering breast cancer screening. <i>Journal of Medical Screening</i> , 2016 , 23, 55	1.4	2
21	Views of healthcare consumer representatives on defensive practice: 'We are your biggest advocate and supporter not the enemy'. <i>Health Expectations</i> , 2021 ,	3.7	2
20	Pharmacists' and older adults' perspectives on the benefits and barriers of Home Medicines Reviews - a qualitative study. <i>Journal of Health Services Research and Policy</i> , 2020 , 25, 77-85	2.4	2
19	Physicians' views and experiences of defensive medicine: An international review of empirical research. <i>Health Policy</i> , 2021 , 125, 634-642	3.2	2
18	The challenges with managing polycystic ovary syndrome: A qualitative study of women's and clinicians' experiences. <i>Patient Education and Counseling</i> , 2021 ,	3.1	2
17	Factors influencing general practitioners' decisions about cardiovascular disease risk reassessment: findings from experimental and interview studies. <i>BMC Family Practice</i> , 2016 , 17, 107	2.6	2
16	The role of older patients' goals in GP decision-making about medicines: a qualitative study. <i>BMC Family Practice</i> , 2021 , 22, 13	2.6	2

15	Patient-Reported Factors Associated With Older Adults' Cancer Screening Decision-making: A Systematic Review. <i>JAMA Network Open</i> , 2021 , 4, e2133406	10.4	1
14	Promise and perils of patient decision aids for reducing low-value care. <i>BMJ Quality and Safety</i> , 2020 ,	5.4	1
13	Views of healthcare professionals about the role of active monitoring in the management of ductal carcinoma in situ (DCIS): Qualitative interview study. <i>Breast</i> , 2020 , 54, 99-105	3.6	1
12	To what extent do decision aids for prenatal screening and diagnosis address involvement of partners in decision-making? - An environmental scan. <i>Patient Education and Counseling</i> , 2021 , 104, 2952-2962	3.1	1
11	Clarifying Values: An Updated and Expanded Systematic Review and Meta-Analysis		1
10	The impact of health literacy on psychosocial and behavioural outcomes among people at low risk of cardiovascular disease.. <i>Preventive Medicine</i> , 2022 , 156, 106980	4.3	0
9	The implementation of a decision aid for women with early-stage breast cancer considering contralateral prophylactic mastectomy: A pilot study. <i>Patient Education and Counseling</i> , 2022 , 105, 74-80	3.1	0
8	A qualitative interview study of Australian physicians on defensive practice and low value care: "it's easier to talk about our fear of lawyers than to talk about our fear of looking bad in front of each other" .. <i>BMC Medical Ethics</i> , 2022 , 23, 16	2.9	0
7	Reply to Braillon and Nicot. <i>Preventive Medicine</i> , 2011 , 53, 438	4.3	
6	Impact of diagnostic labels and causal explanations for weight gain on diet intentions, cognitions and emotions: An experimental online study. <i>Appetite</i> , 2021 , 167, 105612	4.5	
5	A qualitative exploration of clinicians' strategies to communicate risks to patients in the complex reality of clinical practice 2020 , 15, e0236751		
4	A qualitative exploration of clinicians' strategies to communicate risks to patients in the complex reality of clinical practice 2020 , 15, e0236751		
3	A qualitative exploration of clinicians' strategies to communicate risks to patients in the complex reality of clinical practice 2020 , 15, e0236751		
2	A qualitative exploration of clinicians' strategies to communicate risks to patients in the complex reality of clinical practice 2020 , 15, e0236751		
1	Fostering Shared Decision Making with Health Informatics Interventions Based on the Boosting Framework. <i>Studies in Health Technology and Informatics</i> , 2019 , 263, 109-121	0.5
