#	ARTICLE	IF	CITATIONS
1	Relative bioavailability of the antioxidant flavonoid quercetin from various foods in man. FEBS Letters, 1997, 418, 152-156.	1.3	648
2	Absorption and disposition kinetics of the dietary antioxidant quercetin in man. Free Radical Biology and Medicine, 1996, 21, 703-707.	1.3	339
3	Bioavailability of the dietary antioxidant flavonol quercetin in man. Cancer Letters, 1997, 114, 139-140.	3.2	187
4	Fluorescence Detection of Flavonols in HPLC by Postcolumn Chelation with Aluminum. Analytical Chemistry, 1996, 68, 3511-3515.	3.2	150
5	Sample clean-up and post-column derivatization for the determination of aflatoxin B1 in feedstuffs by liquid chromatography. Journal of Chromatography A, 1987, 396, 389-394.	1.8	28
6	Resilience from the real world towards specific organisational resilience in emergency response organisations. International Journal of Emergency Management, 2018, 14, 303.	0.2	9
7	Quantitative modeling of organizational resilience for Dutch emergency response safety regions. Proceedings of the Institution of Mechanical Engineers, Part O: Journal of Risk and Reliability, 2012, 226, 666-676.	0.6	8
8	Quantitative approach of organizational resilience for a Dutch emergency response safety region. , 2011, , 173-180.		5
9	Organizational Resilience and the Relationship With Six Major Crisis Types for Dutch Safety Regions. Risk, Hazards and Crisis in Public Policy, 2019, 10, 360-381.	1.4	2
10	First overview of the relationship between quantitative dynamic operational resilience and the Dutch Fire Services occupational safety and quality management program Cicero. , 2013, , 1671-1676.		1
11	Resilience from the real world towards specific organisational resilience in emergency response organisations. International Journal of Emergency Management, 2018, 14, 303.	0.2	0
