

Carles Pelejero

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/6110804/carles-pelejero-publications-by-year.pdf>

Version: 2024-04-25

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

65

#	Paper	IF	Citations
65	COVID-19 lockdown moderately increased oligotrophy at a marine coastal site. <i>Science of the Total Environment</i> , 2021 , 151443	10.2	1
64	A 1-Million-Year Record of Environmental Change in the Central Mediterranean Sea From Organic Molecular Proxies. <i>Paleoceanography and Paleoclimatology</i> , 2021 , 36, e2021PA004289	3.3	1
63	Viral-Mediated Microbe Mortality Modulated by Ocean Acidification and Eutrophication: Consequences for the Carbon Fluxes Through the Microbial Food Web. <i>Frontiers in Microbiology</i> , 2021 , 12, 635821	5.7	4
62	Early deglacial CO ₂ release from the Sub-Antarctic Atlantic and Pacific oceans. <i>Earth and Planetary Science Letters</i> , 2021 , 554, 116649	5.3	5
61	Controls on Primary Productivity in the Eastern Equatorial Pacific, East of the Galapagos Islands, During the Penultimate Deglaciation. <i>Paleoceanography and Paleoclimatology</i> , 2020 , 35, e2019PA003777	3.3	1
60	Effects of low pH and feeding on calcification rates of the cold-water coral. <i>PeerJ</i> , 2020 , 8, e8236	3.1	2
59	An Enhanced Ocean Acidification Observing Network: From People to Technology to Data Synthesis and Information Exchange. <i>Frontiers in Marine Science</i> , 2019 , 6,	4.5	24
58	Varied contribution of the Southern Ocean to deglacial atmospheric CO ₂ rise. <i>Nature Geoscience</i> , 2019 , 12, 1006-1011	18.3	7
57	Wind-induced changes in the dynamics of fluorescent organic matter in the coastal NW Mediterranean. <i>Science of the Total Environment</i> , 2017 , 609, 1001-1012	10.2	5
56	The Evolution of Deep Ocean Chemistry and Respired Carbon in the Eastern Equatorial Pacific Over the Last Deglaciation. <i>Paleoceanography</i> , 2017 , 32, 1371-1385		12
55	Contrasting effects of ocean acidification on the microbial food web under different trophic conditions. <i>ICES Journal of Marine Science</i> , 2016 , 73, 670-679	2.7	57
54	Lack of evidence for elevated CO ₂ -induced bottom-up effects on marine copepods: a dinoflagellate-balanoid prey-predator pair. <i>ICES Journal of Marine Science</i> , 2016 , 73, 650-658	2.7	15
53	Response of marine bacterioplankton pH homeostasis gene expression to elevated CO ₂ . <i>Nature Climate Change</i> , 2016 , 6, 483-487	21.4	52
52	Restructuring of the sponge microbiome favors tolerance to ocean acidification. <i>Environmental Microbiology Reports</i> , 2016 , 8, 536-44	3.7	33
51	Coccolithophore calcification is independent of carbonate chemistry in the tropical ocean. <i>Limnology and Oceanography</i> , 2016 , 61, 1345-1357	4.8	16
50	Eutrophication and acidification: Do they induce changes in the dissolved organic matter dynamics in the coastal Mediterranean Sea?. <i>Science of the Total Environment</i> , 2016 , 563-564, 179-89	10.2	11
49	Annual response of two Mediterranean azooxanthellate temperate corals to low-pH and high-temperature conditions. <i>Marine Biology</i> , 2016 , 163, 1	2.5	13

48	Anthropogenic CO2 changes in the Equatorial Atlantic Ocean. <i>Progress in Oceanography</i> , 2015 , 134, 256-370	3.70	4
47	Copepod vital rates under CO2-induced acidification: a calanoid species and a cyclopid species under short-term exposures. <i>Journal of Plankton Research</i> , 2015 , 37, 912-922	2.2	20
46	Increased reservoir ages and poorly ventilated deep waters inferred in the glacial Eastern Equatorial Pacific. <i>Nature Communications</i> , 2015 , 6, 7420	17.4	29
45	Trends in anthropogenic CO2 in water masses of the Subtropical North Atlantic Ocean. <i>Progress in Oceanography</i> , 2015 , 131, 21-32	3.8	12
44	Water mass age and aging driving chromophoric dissolved organic matter in the dark global ocean. <i>Global Biogeochemical Cycles</i> , 2015 , 29, 917-934	5.9	35
43	Response of rare, common and abundant bacterioplankton to anthropogenic perturbations in a Mediterranean coastal site. <i>FEMS Microbiology Ecology</i> , 2015 , 91,	4.3	37
42	Ocean acidification along the 24.5°N section in the subtropical North Atlantic. <i>Geophysical Research Letters</i> , 2015 , 42, 450-458	4.9	6
41	Differential response of two Mediterranean cold-water coral species to ocean acidification. <i>Coral Reefs</i> , 2014 , 33, 675-686	4.2	38
40	Polyp flats, a new system for experimenting with jellyfish polyps, with insights into the effects of ocean acidification. <i>Limnology and Oceanography: Methods</i> , 2014 , 12, 212-222	2.6	4
39	Resistance of Two Mediterranean Cold-Water Coral Species to Low-pH Conditions. <i>Water (Switzerland)</i> , 2014 , 6, 59-67	3	23
38	Rapid changes in meridional advection of Southern Ocean intermediate waters to the tropical Pacific during the last 30kyr. <i>Earth and Planetary Science Letters</i> , 2013 , 368, 20-32	5.3	56
37	Detrimental effects of ocean acidification on the economically important Mediterranean red coral (<i>Corallium rubrum</i>). <i>Global Change Biology</i> , 2013 , 19, 1897-908	11.4	77
36	Calcification reduction and recovery in native and non-native Mediterranean corals in response to ocean acidification. <i>Journal of Experimental Marine Biology and Ecology</i> , 2012 , 438, 144-153	2.1	31
35	The geological record of ocean acidification. <i>Science</i> , 2012 , 335, 1058-63	33.3	649
34	Eastern equatorial pacific productivity and related-CO2 changes since the last glacial period. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2011 , 108, 5537-41	11.5	41
33	Effects of climate change on Mediterranean marine ecosystems: the case of the Catalan Sea. <i>Climate Research</i> , 2011 , 50, 1-29	1.6	108
32	Paleo-perspectives on ocean acidification. <i>Trends in Ecology and Evolution</i> , 2010 , 25, 332-44	10.9	112
31	Characterization of contaminant phases in foraminifera carbonates by electron microprobe mapping. <i>Geochemistry, Geophysics, Geosystems</i> , 2008 , 9, n/a-n/a	3.6	63

30	Long-term sea surface temperature and climate change in the Australian-New Zealand region. <i>Paleoceanography</i> , 2007 , 22,		127
29	Antarctic deglacial pattern in a 30 kyr record of sea surface temperature offshore South Australia. <i>Geophysical Research Letters</i> , 2007 , 34, n/a-n/a	4.9	82
28	Interdecadal climate variability in the Coral Sea since 1708 A.D.. <i>Palaeogeography, Palaeoclimatology, Palaeoecology</i> , 2007 , 248, 190-201	2.9	39
27	South Tasman Sea alkenone palaeothermometry over the last four glacial/interglacial cycles. <i>Marine Geology</i> , 2006 , 230, 73-86	3.3	47
26	Millennial surface water dynamics in the R� de Vigo during the last 3000 years as revealed by coccoliths and molecular biomarkers. <i>Palaeogeography, Palaeoclimatology, Palaeoecology</i> , 2005 , 218, 1-13	2.9	41
25	Identification and removal of Mn-Mg-rich contaminant phases on foraminiferal tests: Implications for Mg/Ca past temperature reconstructions. <i>Geochemistry, Geophysics, Geosystems</i> , 2005 , 6, n/a-n/a	3.6	125
24	Preindustrial to modern interdecadal variability in coral reef pH. <i>Science</i> , 2005 , 309, 2204-7	33.3	160
23	Dust-induced changes in phytoplankton composition in the Tasman Sea during the last four glacial cycles. <i>Paleoceanography</i> , 2004 , 19, n/a-n/a		89
22	Synchronicity of meltwater pulse 1a and the B�lling warming: New evidence from the South China Sea. <i>Geology</i> , 2003 , 31, 67	5	61
21	Pressurized liquid extraction of selected molecular biomarkers in deep sea sediments used as proxies in paleoceanography. <i>Journal of Chromatography A</i> , 2003 , 989, 197-205	4.5	19
20	The upper end of the UK?37 temperature calibration revisited. <i>Geochemistry, Geophysics, Geosystems</i> , 2003 , 4,	3.6	40
19	Marine Isotopic Stage 5e in the Southwest Pacific: Similarities with Antarctica and ENSO inferences. <i>Geophysical Research Letters</i> , 2003 , 30, n/a-n/a	4.9	9
18	Terrigenous n-alkane input in the South China Sea: high-resolution records and surface sediments. <i>Chemical Geology</i> , 2003 , 200, 89-103	4.2	47
17	The last 3000 years in the R� de Vigo (NW Iberian Margin): climatic and hydrographic signals. <i>Holocene</i> , 2002 , 12, 459-468	2.6	48
16	Sea surface paleotemperature errors in UK? 37 estimation due to alkenone measurements near the limit of detection. <i>Paleoceanography</i> , 2001 , 16, 226-232		40
15	A critical review of marine sedimentary �3Corg-pCO2 estimates: New palaeorecords from the South China Sea and a revisit of other low-latitude �3Corg-pCO2 records. <i>Global Biogeochemical Cycles</i> , 2001 , 15, 113-127	5.9	49
14	Precision of the current methods to measure the alkenone proxy U37K? and absolute alkenone abundance in sediments: Results of an interlaboratory comparison study. <i>Geochemistry, Geophysics, Geosystems</i> , 2001 , 2, n/a-n/a	3.6	60
13	Insolation dependence of the southeastern subtropical Pacific sea surface temperature over the last 400 kyrs. <i>Geophysical Research Letters</i> , 2001 , 28, 2481-2484	4.9	19

12	A latitudinal productivity band in the central North Atlantic over the last 270 kyr: An alkenone perspective. <i>Paleoceanography</i> , 2001 , 16, 617-626		25
11	Sensitivity effects in Uk37 paleotemperature estimation by chemical ionization mass spectrometry. <i>Analytical Chemistry</i> , 2000 , 72, 5892-7	7.8	9
10	Molecular biomarker record of sea surface temperature and climatic change in the South China Sea during the last 140,000 years. <i>Marine Geology</i> , 1999 , 156, 109-121	3.3	65
9	East Asian monsoon climate during the Late Pleistocene: high-resolution sediment records from the South China Sea. <i>Marine Geology</i> , 1999 , 156, 245-284	3.3	574
8	C37 alkenone measurements of sea surface temperature in the Gulf of Lions (NW Mediterranean). <i>Organic Geochemistry</i> , 1999 , 30, 557-566	3.1	44
7	The flooding of Sundaland during the last deglaciation: imprints in hemipelagic sediments from the southern South China Sea. <i>Earth and Planetary Science Letters</i> , 1999 , 171, 661-671	5.3	74
6	High-resolution UK 37 temperature reconstructions in the South China Sea over the past 220 kyr. <i>Paleoceanography</i> , 1999 , 14, 224-231		157
5	Holocene variations in Asian monsoon moisture: A bidecadal sediment record from the South China Sea. <i>Geophysical Research Letters</i> , 1999 , 26, 2889-2892	4.9	84
4	Dansgaard-Oeschger and Heinrich event imprints in Alboran Sea paleotemperatures. <i>Paleoceanography</i> , 1999 , 14, 698-705		453
3	The correlation between the 37k index and sea surface temperatures in the warm boundary: The South China Sea. <i>Geochimica Et Cosmochimica Acta</i> , 1997 , 61, 4789-4797	5.5	103
2	Clean-up procedures for the unbiased estimation of C37 alkenone sea surface temperatures and terrigenous n-alkane inputs in paleoceanography. <i>Journal of Chromatography A</i> , 1997 , 757, 145-151	4.5	96
1	Using data mining and visualization techniques for the reconstruction of ocean paleodynamics		5
