Lianne J Woodward

List of Publications by Year in descending order

Source: https://exaly.com/author-pdf/6123358/publications.pdf Version: 2024-02-01

#	Article	IF	CITATIONS
1	Visuospatial working memory of children and adults born very preterm and/or very low birth weight. Pediatric Research, 2022, 91, 1436-1444.	1.1	5
2	Maternal Milk Provision in the Neonatal Intensive Care Unit and Mother–Infant Emotional Connection for Preterm Infants. Children, 2022, 9, 296.	0.6	0
3	Increased Risk of Parental Instability for Children Born Very Preterm and Impacts on Neurodevelopmental Outcomes at Age 12. Children, 2022, 9, 304.	0.6	2
4	Preschool Language Development of Children Born to Women with an Opioid Use Disorder. Children, 2021, 8, 268.	0.6	12
5	Mental health, neurodevelopmental, and family psychosocial profiles of children born very preterm at risk of an earlyâ€onset anxiety disorder. Developmental Medicine and Child Neurology, 2021, 63, 954-962.	1.1	6
6	Targeting human milk fortification to improve very preterm infant growth and brain development: study protocol for Nourish, a single-center randomized, controlled clinical trial. BMC Pediatrics, 2021, 21, 167.	0.7	11
7	Association of Very Preterm Birth or Very Low Birth Weight With Intelligence in Adulthood. JAMA Pediatrics, 2021, 175, e211058.	3.3	58
8	Emotional and Behavioral Trajectories of 2 to 9 Years Old Children Born to Opioid-Dependent Mothers. Research on Child and Adolescent Psychopathology, 2021, 49, 443-457.	1.4	14
9	Prenatal methadone exposure and child developmental outcomes in 2â€yearâ€old children. Developmental Medicine and Child Neurology, 2021, 63, 1114-1122.	1.1	14
10	Psychiatric disorders in individuals born very preterm / very low-birth weight: An individual participant data (IPD) meta-analysis. EClinicalMedicine, 2021, 42, 101216.	3.2	37
11	Parental use of physical punishment in a birth cohort. New Zealand Medical Journal, 2021, 134, 17-30.	0.5	Ο
12	Health and Neurodevelopment of Children Born to Opioid-Dependent Mothers at School Entry. Journal of Developmental and Behavioral Pediatrics, 2020, 41, 48-57.	0.6	22
13	Perinatal and childhood predictors of general cognitive outcome at 28 years in a veryâ€lowâ€birthweight national cohort. Developmental Medicine and Child Neurology, 2020, 62, 1423-1428.	1.1	10
14	Predicting School-Aged Cognitive Impairment in Children Born Very Preterm. Pediatrics, 2020, 145, .	1.0	17
15	Neurobehavior of newborn infants exposed prenatally to methadone and identification of a neurobehavioral profile linked to poorer neurodevelopmental outcomes at age 24 months. PLoS ONE, 2020, 15, e0240905.	1.1	28
16	Educational achievement at age 9.5 years of children born to mothers maintained on methadone during pregnancy. PLoS ONE, 2019, 14, e0223685.	1.1	21
17	The Growth and Development Unit. A proposed approach for enhancing infant neurodevelopment and family-centered care in the Neonatal Intensive Care Unit. Journal of Perinatology, 2019, 39, 1684-1687.	0.9	18
18	Altered grey matter volume, perfusion and white matter integrity in very low birthweight adults. NeuroImage: Clinical, 2019, 22, 101780.	1.4	39

#	Article	IF	CITATIONS
19	Neurodevelopmental Follow-Up. , 2018, , 255-272.		о
20	Early inhibitory control and working memory abilities of children prenatally exposed to methadone. Early Human Development, 2018, 116, 68-75.	0.8	40
21	Peer Relationship Outcomes of School-Age Children Born Very Preterm. Journal of Pediatrics, 2018, 201, 238-244.	0.9	23
22	Passive Addiction and Teratogenic Effects. , 2018, , 1149-1189.e20.		3
23	Exposure to parental separation in childhood and later parenting quality as an adult: evidence from a 30â€year longitudinal study. Journal of Child Psychology and Psychiatry and Allied Disciplines, 2017, 58, 30-37.	3.1	11
24	Cognitive Development Trajectories of Very Preterm and Typically Developing Children. Child Development, 2017, 88, 282-298.	1.7	66
25	Attention and Regional Gray Matter Development in Very Preterm Children at Age 12 Years. Journal of the International Neuropsychological Society, 2017, 23, 539-550.	1.2	24
26	Neonatal Infection and Later Neurodevelopmental Risk in the Very PretermÂInfant. Journal of Pediatrics, 2016, 170, 97-104.	0.9	76
27	In-hospital morbidity and brain metrics of preterm neonates born 1998-2009. New Zealand Medical Journal, 2016, 129, 94-107.	0.5	1
28	Social development of children born very preterm: a systematic review. Developmental Medicine and Child Neurology, 2015, 57, 899-918.	1.1	98
29	Relation of perinatal risk and early parenting to executive control at the transition to school. Developmental Science, 2015, 18, 525-542.	1.3	33
30	Neurodevelopmental Profile, Growth, and Psychosocial Environment of Preterm Infants with Difficult Feeding Behavior at Age 2 Years. Journal of Pediatrics, 2015, 167, 1347-1353.	0.9	23
31	The New Zealand 1986 very low birth weight cohort as young adults: mapping the road ahead. BMC Pediatrics, 2015, 15, 90.	0.7	22
32	Neonatal cerebral morphometry and later risk of persistent inattention/hyperactivity in children born very preterm. Journal of Child Psychology and Psychiatry and Allied Disciplines, 2014, 55, 828-838.	3.1	56
33	Brain Injury and Altered Brain Growth in Preterm Infants: Predictors and Prognosis. Pediatrics, 2014, 134, e444-e453.	1.0	308
34	Identifying Very Preterm Children at Educational Risk Using a School Readiness Framework. Pediatrics, 2014, 134, e825-e832.	1.0	75
35	Social competence of preschool children born very preterm. Early Human Development, 2013, 89, 795-802.	0.8	89
36	Psychosocial characteristics and poly-drug use of pregnant women enrolled in methadone maintenance treatment. Neurotoxicology and Teratology, 2013, 38, 46-52.	1.2	37

#	Article	IF	CITATIONS
37	Child protection and out-of-home placement experiences of preschool children born to mothers enrolled in methadone maintenance treatment during pregnancy. Children and Youth Services Review, 2013, 35, 1878-1885.	1.0	18
38	Intergenerational changes in the context of early motherhood. Journal of Family Studies, 2013, 19, 306-314.	0.9	2
39	Neonatal White Matter Abnormalities an Important Predictor of Neurocognitive Outcome for Very Preterm Children. PLoS ONE, 2012, 7, e51879.	1.1	218
40	Neonatal White Matter Abnormalities Predict Global Executive Function Impairment in Children Born Very Preterm. Developmental Neuropsychology, 2011, 36, 22-41.	1.0	110
41	Preschool executive control on the Shape School task: Measurement considerations and utility Psychological Assessment, 2011, 23, 31-43.	1.2	22
42	Emotional and behavioural adjustment of children born very preterm at early school age. Journal of Paediatrics and Child Health, 2011, 47, 863-869.	0.4	34
43	High Prevalence/Low Severity Language Delay in Preschool Children Born Very Preterm. Journal of Developmental and Behavioral Pediatrics, 2010, 31, 658-667.	0.6	107
44	Maternal methadone dose during pregnancy and infant clinical outcome. Neurotoxicology and Teratology, 2010, 32, 406-413.	1.2	59
45	Neonatal Cerebral Abnormalities and Later Verbal and Visuospatial Working Memory Abilities of Children Born Very Preterm. Developmental Neuropsychology, 2010, 35, 622-642.	1.0	56
46	Parental Mental Health and Early Social-emotional Development of Children Born Very Preterm. Journal of Pediatric Psychology, 2010, 35, 768-777.	1.1	88
47	Preschool executive functioning abilities predict early mathematics achievement Developmental Psychology, 2010, 46, 1176-1191.	1.2	536
48	Parenting Behavior Is Associated With the Early Neurobehavioral Development of Very Preterm Children. Pediatrics, 2009, 123, 555-561.	1.0	204
49	Early school-based learning difficulties in children born very preterm. Early Human Development, 2009, 85, 215-224.	0.8	125
50	Educational Needs of School-Aged Children Born Very and Extremely Preterm: A Review. Educational Psychology Review, 2009, 21, 247-266.	5.1	19
51	Development of Emotional and Behavioral Regulation in Children Born Extremely Preterm and Very Preterm: Biological and Social Influences. Child Development, 2008, 79, 1444-1462.	1.7	208
52	Executive functioning in preschool children born very preterm: Relationship with early white matter pathology. Journal of the International Neuropsychological Society, 2008, 14, 90-101.	1.2	116
53	Early delayed language development in very preterm infants: Evidence from the MacArthur-Bates CDI. Journal of Child Language, 2007, 34, 655-675.	0.8	167
54	Punitive parenting practices of contemporary young parents. New Zealand Medical Journal, 2007, 120, U2866.	0.5	2

#	Article	IF	CITATIONS
55	Gender differences in the transition to early parenthood. Development and Psychopathology, 2006, 18, 275-94.	1.4	39
56	Health service utilisation of a regional cohort of very preterm infants over the first 2 years of life. Journal of Paediatrics and Child Health, 2006, 42, 377-383.	0.4	30
57	Neonatal MRI to Predict Neurodevelopmental Outcomes in Preterm Infants. New England Journal of Medicine, 2006, 355, 685-694.	13.9	1,128
58	Intergenerational Transmission of Warm-Sensitive-Stimulating Parenting: A Prospective Study of Mothers and Fathers of 3-Year-Olds. Child Development, 2005, 76, 384-396.	1.7	206
59	Object working memory deficits predicted by early brain injury and development in the preterm infant. Brain, 2005, 128, 2578-2587.	3.7	221
60	Can Neurobehavioral Examination Predict the Presence of Cerebral Injury in the Very Low Birth Weight Infant?. Journal of Developmental and Behavioral Pediatrics, 2004, 25, 326-334.	0.6	46
61	Does Father Absence Place Daughters at Special Risk for Early Sexual Activity and Teenage Pregnancy?. Child Development, 2003, 74, 801-821.	1.7	461
62	Parent, child, and contextual predictors of childhood physical punishment. Infant and Child Development, 2002, 11, 213-235.	0.9	34
63	Deviant partner involvement and offending risk in early adulthood. Journal of Child Psychology and Psychiatry and Allied Disciplines, 2002, 43, 177-190.	3.1	35
64	Romantic relationships of young people with childhood and adolescent onset antisocial behavior problems. Journal of Abnormal Child Psychology, 2002, 30, 231-243.	3.5	80
65	Early parent-child relations and family functioning of preschool boys with pervasive hyperactivity. Journal of Abnormal Child Psychology, 2002, 30, 541-553.	3.5	102
66	Life Course Outcomes of Young People With Anxiety Disorders in Adolescence. Journal of the American Academy of Child and Adolescent Psychiatry, 2001, 40, 1086-1093.	0.3	839
67	Language development of pre-school children born to teenage mothers. Infant and Child Development, 2001, 10, 129-145.	0.9	79
68	Risk Factors and Life Processes Associated with Teenage Pregnancy: Results of a Prospective Study From Birth to 20 Years. Journal of Marriage and Family, 2001, 63, 1170-1184.	1.6	154
69	Childhood Peer Relationship Problems and Later Risks of Educational Under-achievement and Unemployment. Journal of Child Psychology and Psychiatry and Allied Disciplines, 2000, 41, 191-201.	3.1	85
70	Educational, Psychosocial, and Sexual Outcomes of Girls with Conduct Problems in Early Adolescence. Journal of Child Psychology and Psychiatry and Allied Disciplines, 2000, 41, 779-792.	3.1	97
71	Teenage Pregnancy and Female Educational Underachievement: A Prospective Study of a New Zealand Birth Cohort. Journal of Marriage and Family, 2000, 62, 147-161.	1.6	89
72	Timing of Parental Separation and Attachment to Parents in Adolescence: Results of a Prospective Study from Birth to Age 16. Journal of Marriage and Family, 2000, 62, 162-174.	1.6	77

#	Article	IF	CITATIONS
73	CHILDHOOD AND ADOLESCENT PREDICTORS OF PHYSICAL ASSAULT: A PROSPECTIVE LONGITUDINAL STUDY*. Criminology, 2000, 38, 233-262.	2.0	36
74	Educational, Psychosocial, and Sexual Outcomes of Girls with Conduct Problems in Early Adolescence. , 2000, 41, 779.		5
75	Maternal Age and Educational and Psychosocial Outcomes in Early Adulthood. Journal of Child Psychology and Psychiatry and Allied Disciplines, 1999, 40, 479-489.	3.1	189
76	Childhood peer relationship problems and young people's involvement with deviant peers in adolescence. Journal of Abnormal Child Psychology, 1999, 27, 357-369.	3.5	108
77	Childhood peer relationship problems and psychosocial adjustment in late adolescence. Journal of Abnormal Child Psychology, 1999, 27, 87-104.	3.5	78
78	Gender differences in the relationship between early conduct problems and later criminality and substance abuse. International Journal of Methods in Psychiatric Research, 1999, 8, 179-191.	1.1	10
79	Early conduct problems and later risk of teenage pregnancy in girls. Development and Psychopathology, 1999, 11, 127-141.	1.4	117
80	Maternal Age and Educational and Psychosocial Outcomes in Early Adulthood. , 1999, 40, 479.		14
