

Matt Field

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/6123550/matt-field-publications-by-year.pdf>

Version: 2024-04-25

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

169
papers

8,680

#	Paper	IF	Citations
169	An integrated dual process simulation model of alcohol use behaviours in individuals, with application to US population-level consumption, 1984-2012. <i>Addictive Behaviors</i> , 2022 , 124, 107094	4.2	1
168	"Drinkers Like Me": A Thematic Analysis of Comments Responding to an Online Article About Moderating Alcohol Consumption.. <i>Frontiers in Psychology</i> , 2022 , 13, 780677	3.4	0
167	Attentional bias in alcohol drinkers:A systematic review of its link with consumption variables. <i>Neuroscience and Biobehavioral Reviews</i> , 2022 , 104703	9	0
166	Testing the association between tobacco and cannabis use and cognitive functioning: Findings from an observational and Mendelian randomization study. <i>Drug and Alcohol Dependence</i> , 2021 , 221, 108591	4.9	1
165	Refining the content and design of an alcohol reduction app, , to improve its usability and effectiveness: a mixed methods approach. <i>F1000Research</i> , 2021 , 10, 511	3.6	1
164	Alcohol use and cognitive functioning in young adults: improving causal inference. <i>Addiction</i> , 2021 , 116, 292-302	4.6	4
163	Evaluating the effectiveness of the smartphone app, Drink Less, compared with the NHS alcohol advice webpage, for the reduction of alcohol consumption among hazardous and harmful adult drinkers in the UK at 6-month follow-up: protocol for a randomised controlled trial. <i>Addiction</i> , 2021 , 116, 412-425	4.6	4
162	Food-related attentional bias and its associations with appetitive motivation and body weight: A systematic review and meta-analysis. <i>Appetite</i> , 2021 , 157, 104986	4.5	15
161	Recovery from addiction: A synthesis of perspectives from behavioral economics, psychology, and decision modeling 2021 , 563-579		0
160	Does Cognitive Bias Modification Reduce Alcohol Consumption? 2021 , 527-550		0
159	Associations of alcohol use, mental health and socioeconomic status in England: Findings from a representative population survey. <i>Drug and Alcohol Dependence</i> , 2021 , 219, 108463	4.9	6
158	Moderators of changes in smoking, drinking and quitting behaviour associated with the first COVID-19 lockdown in England. <i>Addiction</i> , 2021 ,	4.6	7
157	Event-related and readiness potentials when preparing to approach and avoid alcohol cues following cue avoidance training in heavy drinkers. <i>Psychopharmacology</i> , 2020 , 237, 1343-1358	4.7	0
156	Benefits of temporary alcohol restriction: a feasibility randomized trial. <i>Pilot and Feasibility Studies</i> , 2020 , 6, 9	1.9	4
155	Attentional and approach biases to alcohol cues among young adult drinkers: An ecological momentary assessment study. <i>Experimental and Clinical Psychopharmacology</i> , 2020 , 28, 649-658	3.2	2
154	The association between meaning in life and harmful drinking is mediated by individual differences in self-control and alcohol value. <i>Addictive Behaviors Reports</i> , 2020 , 11, 100258	3.7	4
153	Recovery from addiction: Behavioral economics and value-based decision making. <i>Psychology of Addictive Behaviors</i> , 2020 , 34, 182-193	3.4	17

152	Does alcohol cue inhibitory control training survive a context shift?. <i>Psychology of Addictive Behaviors</i> , 2020 , 34, 783-792	3.4	2
151	Translation of findings from laboratory studies of food and alcohol intake into behavior change interventions: The experimental medicine approach. <i>Health Psychology</i> , 2020 ,	5	4
150	Inhibitory control training 2020 , 271-276		3
149	Response to commentaries. <i>Addiction</i> , 2020 , 115, 17-18	4.6	
148	Relative expected value of drugs versus competing rewards underpins vulnerability to and recovery from addiction. <i>Behavioural Brain Research</i> , 2020 , 394, 112815	3.4	20
147	Are animal models of addiction useful?. <i>Addiction</i> , 2020 , 115, 6-12	4.6	21
146	Isolating Proactive Slowing from Reactive Inhibitory Control in Heavy Drinkers. <i>Substance Use and Misuse</i> , 2020 , 55, 167-173	2.2	1
145	The world can support far more trees. Planting them can reduce carbon pollution a lot: An interview with professor Tom Crowther. <i>Bulletin of the Atomic Scientists</i> , 2019 , 75, 236-238	1.6	1
144	Social modelling of health behaviours: Testing self-affirmation as a conformity-reduction strategy. <i>British Journal of Health Psychology</i> , 2019 , 24, 651-667	8.3	2
143	The effect of alcohol cue exposure and acute intoxication on inhibitory control processes and ad libitum alcohol consumption. <i>Psychopharmacology</i> , 2019 , 236, 2187-2199	4.7	6
142	A transdiagnostic dimensional approach towards a neuropsychological assessment for addiction: an international Delphi consensus study. <i>Addiction</i> , 2019 , 114, 1095-1109	4.6	96
141	A Qualitative Evaluation of the Acceptability of a Tailored Smartphone Alcohol Intervention for a Military Population: Information About Drinking for Ex-Serving Personnel (InDEX) App. <i>JMIR MHealth and UHealth</i> , 2019 , 7, e12267	5.5	10
140	Indeed, not really a brain disorder: Implications for reductionist accounts of addiction. <i>Behavioral and Brain Sciences</i> , 2019 , 42, e9	0.9	5
139	Compliance with ecological momentary assessment protocols in substance users: a meta-analysis. <i>Addiction</i> , 2019 , 114, 609-619	4.6	71
138	A Stroop in the Hand is Worth Two on the Laptop: Superior Reliability of a Smartphone Based Alcohol Stroop in the Real World. <i>Substance Use and Misuse</i> , 2019 , 54, 692-698	2.2	15
137	The effects of reward and loss anticipation on attentional bias for reward-related stimuli. <i>Appetite</i> , 2019 , 133, 93-100	4.5	3
136	Simultaneous odour-face presentation strengthens hedonic evaluations and event-related potential responses influenced by unpleasant odour. <i>Neuroscience Letters</i> , 2018 , 672, 22-27	3.3	12
135	Experimental Research Requires Valid and Sensitive Measures of Alcohol Intake, and This is a Step in the Right Direction: Commentary on Leeman and Colleagues (2018). <i>Alcoholism: Clinical and Experimental Research</i> , 2018 , 42, 1019-1021	3.7	3

134	Methodological and reporting quality in laboratory studies of human eating behavior. <i>Appetite</i> , 2018 , 125, 486-491	4.5	32
133	Alcohol Use in Adolescence and Later Working Memory: Findings From a Large Population-Based Birth Cohort. <i>Alcohol and Alcoholism</i> , 2018 , 53, 251-258	3.5	13
132	Does self-control modify the impact of interventions to change alcohol, tobacco, and food consumption? A systematic review. <i>Health Psychology Review</i> , 2018 , 12, 157-178	7.1	56
131	Do daily fluctuations in inhibitory control predict alcohol consumption? An ecological momentary assessment study. <i>Psychopharmacology</i> , 2018 , 235, 1487-1496	4.7	47
130	Cognitive training as a potential treatment for overweight and obesity: A critical review of the evidence. <i>Appetite</i> , 2018 , 124, 50-67	4.5	103
129	Dutch courage? Effects of acute alcohol consumption on self-ratings and observer ratings of foreign language skills. <i>Journal of Psychopharmacology</i> , 2018 , 32, 116-122	4.6	5
128	Reprint of "Methodological and reporting quality in laboratory studies of human eating behavior". <i>Appetite</i> , 2018 , 130, 321-326	4.5	10
127	Alcohol devaluation has dissociable effects on distinct components of alcohol behaviour. <i>Psychopharmacology</i> , 2018 , 235, 1233-1244	4.7	18
126	Comments on methodological and reporting quality in laboratory studies of human eating behaviour. <i>Appetite</i> , 2018 , 130, 344-345	4.5	1
125	What's in a Trial? On the Importance of Distinguishing Between Experimental Lab Studies and Randomized Controlled Trials: The Case of Cognitive Bias Modification and Alcohol Use Disorders. <i>Journal of Studies on Alcohol and Drugs</i> , 2018 , 79, 333-343	1.9	64
124	What's in a Trial? The Authors Respond: Persistent Mixing of Apples and Oranges, or Carefully Synthesizing and Designing the Next Steps in Research on Cognitive Bias Modification in Addiction. <i>Journal of Studies on Alcohol and Drugs</i> , 2018 , 79, 348-349	1.9	5
123	A Smartphone App and Personalized Text Messaging Framework (InDEx) to Monitor and Reduce Alcohol Use in Ex-Serving Personnel: Development and Feasibility Study. <i>JMIR MHealth and UHealth</i> , 2018 , 6, e10074	5.5	23
122	Failed attempts to improve the reliability of the alcohol visual probe task following empirical recommendations. <i>Psychology of Addictive Behaviors</i> , 2018 , 32, 922-932	3.4	26
121	A randomized controlled trial of inhibitory control training for the reduction of alcohol consumption in problem drinkers. <i>Journal of Consulting and Clinical Psychology</i> , 2018 , 86, 991-1004	6.5	75
120	State and trait influences on attentional bias to food-cues: The role of hunger, expectancy, and self-perceived food addiction. <i>Appetite</i> , 2018 , 131, 139-147	4.5	8
119	Reducing the standard serving size of alcoholic beverages prompts reductions in alcohol consumption. <i>Addiction</i> , 2018 , 113, 1598	4.6	14
118	The effects of exposure to appetitive cues on inhibitory control: A meta-analytic investigation. <i>Appetite</i> , 2018 , 128, 271-282	4.5	15
117	What's in a Trial? On the Importance of Distinguishing Between Experimental Lab Studies and Randomized Controlled Trials: The Case of Cognitive Bias Modification and Alcohol Use Disorders. <i>Journal of Studies on Alcohol and Drugs</i> , 2018 , 79, 333-343	1.9	34

116	Bibi ergo sum: the effects of a placebo and contextual alcohol cues on motivation to drink alcohol. <i>Psychopharmacology</i> , 2017 , 234, 827-835	4.7	20
115	Current forms of inhibitory training produce no greater reduction in drinking than simple assessment: A preliminary study. <i>Drug and Alcohol Dependence</i> , 2017 , 173, 47-58	4.9	11
114	Cue avoidance training and inhibitory control training for the reduction of alcohol consumption: a comparison of effectiveness and investigation of their mechanisms of action. <i>Psychopharmacology</i> , 2017 , 234, 2489-2498	4.7	30
113	Exploring food reward and calorie intake in self-perceived food addicts. <i>Appetite</i> , 2017 , 115, 36-44	4.5	14
112	Pleasant and unpleasant odour-face combinations influence face and odour perception: An event-related potential study. <i>Behavioural Brain Research</i> , 2017 , 333, 304-313	3.4	16
111	Elevated alcohol consumption following alcohol cue exposure is partially mediated by reduced inhibitory control and increased craving. <i>Psychopharmacology</i> , 2017 , 234, 2979-2988	4.7	27
110	Alcohol consumers' attention to warning labels and brand information on alcohol packaging: Findings from cross-sectional and experimental studies. <i>BMC Public Health</i> , 2017 , 17, 123	4.1	31
109	Automatic avoidance tendencies for alcohol cues predict drinking after detoxification treatment in alcohol dependence. <i>Psychology of Addictive Behaviors</i> , 2017 , 31, 171-179	3.4	15
108	Visual attention to alcohol cues and responsible drinking statements within alcohol advertisements and public health campaigns: Relationships with drinking intentions and alcohol consumption in the laboratory. <i>Psychology of Addictive Behaviors</i> , 2017 , 31, 435-446	3.4	5
107	Response to "The potential impact of body mass index, cognitive dissonance, and stigma". <i>Obesity</i> , 2016 , 24, 2024	8	
106	Social imitation of alcohol consumption and ingratiation motives in young adults. <i>Psychology of Addictive Behaviors</i> , 2016 , 30, 442-9	3.4	11
105	Acute stress increases ad-libitum alcohol consumption in heavy drinkers, but not through impaired inhibitory control. <i>Psychopharmacology</i> , 2016 , 233, 1227-34	4.7	29
104	The ad-libitum alcohol 'taste test': secondary analyses of potential confounds and construct validity. <i>Psychopharmacology</i> , 2016 , 233, 917-24	4.7	35
103	Goal Fluency, Pessimism and Disengagement in Depression. <i>PLoS ONE</i> , 2016 , 11, e0166259	3.7	24
102	Inhibitory control training for appetitive behaviour change: A meta-analytic investigation of mechanisms of action and moderators of effectiveness. <i>Appetite</i> , 2016 , 97, 16-28	4.5	227
101	The role of attentional bias in obesity and addiction. <i>Health Psychology</i> , 2016 , 35, 767-80	5	158
100	Believing in food addiction: Helpful or counterproductive for eating behavior?. <i>Obesity</i> , 2016 , 24, 1238-48		15
99	Drinking like everyone else: trait self-control moderates the association between peer and personal heavy episodic drinking. <i>Substance Use and Misuse</i> , 2015 , 50, 590-7	2.2	10

98	Less than meets the eye: reappraising the clinical relevance of attentional bias in addiction. <i>Addictive Behaviors</i> , 2015 , 44, 43-50	4.2	122
97	Eating to live or living to eat? Exploring the causal attributions of self-perceived food addiction. <i>Appetite</i> , 2015 , 95, 262-8	4.5	31
96	Ecological momentary assessment - new insights and opportunities. <i>Addiction</i> , 2015 , 110, 1043-4	4.6	2
95	Awareness of social influence on food intake. An analysis of two experimental studies. <i>Appetite</i> , 2015 , 85, 165-70	4.5	12
94	Alcohol-related and negatively valenced cues increase motor and oculomotor disinhibition in social drinkers. <i>Experimental and Clinical Psychopharmacology</i> , 2015 , 23, 122-9	3.2	17
93	The validity of different measures of automatic alcohol action tendencies. <i>Psychology of Addictive Behaviors</i> , 2015 , 29, 225-30	3.4	46
92	Pleasant and Unpleasant Odors Influence Hedonic Evaluations of Human Faces: An Event-Related Potential Study. <i>Frontiers in Human Neuroscience</i> , 2015 , 9, 661	3.3	22
91	Evaluation of a Brief Personalised Intervention for Alcohol Consumption in College Students. <i>PLoS ONE</i> , 2015 , 10, e0131229	3.7	11
90	Priming of conflicting motivational orientations in heavy drinkers: robust effects on self-report but not implicit measures. <i>Frontiers in Psychology</i> , 2015 , 6, 1465	3.4	5
89	Internal reliability of the alcohol-related visual probe task is increased by utilising personalised stimuli and eye-tracking. <i>Drug and Alcohol Dependence</i> , 2015 , 155, 170-4	4.9	60
88	To eat or not to eat. The effects of expectancy on reactivity to food cues. <i>Appetite</i> , 2014 , 76, 153-60	4.5	20
87	Extinction of cue-evoked drug-seeking relies on degrading hierarchical instrumental expectancies. <i>Behaviour Research and Therapy</i> , 2014 , 59, 61-70	5.2	47
86	I'm watching you. Awareness that food consumption is being monitored is a demand characteristic in eating-behaviour experiments. <i>Appetite</i> , 2014 , 83, 19-25	4.5	45
85	A comparison of three types of web-based inhibition training for the reduction of alcohol consumption in problem drinkers: study protocol. <i>BMC Public Health</i> , 2014 , 14, 796	4.1	12
84	Implicit priming of conflicting motivational orientations in heavy drinkers. <i>BMC Psychology</i> , 2014 , 2,	2.8	4
83	Attention bias for chocolate increases chocolate consumption--an attention bias modification study. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2014 , 45, 136-43	2.6	61
82	Psychological changes and cognitive impairments in adolescent heavy drinkers. <i>Alcohol and Alcoholism</i> , 2014 , 49, 182-6	3.5	35
81	Pharmacological interventions to modulate attentional bias in addiction. <i>CNS Spectrums</i> , 2014 , 19, 239-46.8		13

80	Electrophysiological responses to alcohol cues are not associated with Pavlovian-to-instrumental transfer in social drinkers. <i>PLoS ONE</i> , 2014 , 9, e94605	3.7	47
79	Passion Slave? 2014 ,		2
78	Perceived peer drinking norms and responsible drinking in UK university settings. <i>Substance Use and Misuse</i> , 2014 , 49, 1376-84	2.2	10
77	Influenced but unaware: social influence on alcohol drinking among social acquaintances. <i>Alcoholism: Clinical and Experimental Research</i> , 2014 , 38, 1448-53	3.7	23
76	The clinical relevance of attentional bias in substance use disorders. <i>CNS Spectrums</i> , 2014 , 19, 225-30	1.8	107
75	Alcohol dependent patients have weak negative rather than strong positive implicit alcohol associations. <i>Psychopharmacology</i> , 2013 , 228, 603-10	4.7	17
74	Multiple behavioural impulsivity tasks predict prospective alcohol involvement in adolescents. <i>Addiction</i> , 2013 , 108, 1916-23	4.6	137
73	Phasic transition from goal-directed to habitual control over drug-seeking produced by conflicting reinforcer expectancy. <i>Addiction Biology</i> , 2013 , 18, 88-97	4.6	31
72	Implicit Cognition 2013 , 489-514		
71	Cue Reactivity 2013 , 413-423		3
70	The role of anticipation in drug addiction and reward. <i>Neuroscience and Neuroeconomics</i> , 2013 , 1		
69	Alcohol-related cues reduce cognitive control in social drinkers. <i>Behavioural Pharmacology</i> , 2013 , 24, 29-36	2.4	24
68	P300 during response inhibition is associated with ad-lib alcohol consumption in social drinkers. <i>Journal of Psychopharmacology</i> , 2013 , 27, 507-14	4.6	10
67	The contributions of value-based decision-making and attentional bias to alcohol-seeking following devaluation. <i>Addiction</i> , 2013 , 108, 1241-9	4.6	23
66	A logical fallacy: commentary on Moss et al. <i>European Addiction Research</i> , 2013 , 19, 303-4	4.6	
65	Acute alcohol effects on attentional bias are mediated by subcortical areas associated with arousal and salience attribution. <i>Neuropsychopharmacology</i> , 2013 , 38, 1365-73	8.7	26
64	A comparison of the anticipated and pharmacological effects of alcohol on cognitive bias, executive function, craving and ad-lib drinking. <i>Journal of Psychopharmacology</i> , 2013 , 27, 84-92	4.6	35
63	Attentional biases in abstinent alcoholics and their association with craving. <i>Psychology of Addictive Behaviors</i> , 2013 , 27, 71-80	3.4	80

62	The effects of cue-specific inhibition training on alcohol consumption in heavy social drinkers. <i>Experimental and Clinical Psychopharmacology</i> , 2013 , 21, 8-16	3.2	121
61	Reduced Cognitive Processing of Alcohol Cues in Alcohol-Dependent Patients Seeking Treatment: An ERP Study. <i>Journal of Experimental Psychopathology</i> , 2013 , 4, 291-302	2.3	4
60	Effects of Alcohol Cues on Craving and Ad Libitum Alcohol Consumption in Social Drinkers: The Role of Disinhibition. <i>Journal of Experimental Psychopathology</i> , 2013 , 4, 239-249	2.3	16
59	Fluctuating disinhibition: implications for the understanding and treatment of alcohol and other substance use disorders. <i>Frontiers in Psychiatry</i> , 2013 , 4, 140	5	53
58	Components of behavioural impulsivity and automatic cue approach predict unique variance in hazardous drinking. <i>Psychopharmacology</i> , 2012 , 219, 501-10	4.7	75
57	The effect of restraint beliefs on alcohol-seeking behavior. <i>Psychology of Addictive Behaviors</i> , 2012 , 26, 325-9	3.4	9
56	Ego depletion increases ad-lib alcohol consumption: investigating cognitive mediators and moderators. <i>Experimental and Clinical Psychopharmacology</i> , 2012 , 20, 118-28	3.2	56
55	Commentary on, 'Internal reliability of measures of substance-related cognitive bias'. <i>Drug and Alcohol Dependence</i> , 2012 , 124, 189-90	4.9	62
54	To approach or avoid alcohol? Automatic and self-reported motivational tendencies in alcohol dependence. <i>Alcoholism: Clinical and Experimental Research</i> , 2012 , 36, 361-8	3.7	52
53	Reward expectancy promotes generalized increases in attentional bias for rewarding stimuli. <i>Quarterly Journal of Experimental Psychology</i> , 2012 , 65, 2333-42	1.8	22
52	Effects of 0.4 g/kg alcohol on attentional bias and alcohol-seeking behaviour in heavy and moderate social drinkers. <i>Journal of Psychopharmacology</i> , 2012 , 26, 1017-25	4.6	30
51	Automatic and Controlled Processes in the Pathway from Drug Abuse to Addiction 2012 , 35-45		4
50	The effect of the OPRM1 and DRD4 polymorphisms on the relation between attentional bias and alcohol use in adolescence and young adulthood. <i>Developmental Cognitive Neuroscience</i> , 2011 , 1, 591-9	5.5	20
49	Neurobiological substrate of smoking-related attentional bias. <i>NeuroImage</i> , 2011 , 54, 2374-81	7.9	88
48	The effects of priming restrained versus disinhibited behaviour on alcohol-seeking in social drinkers. <i>Drug and Alcohol Dependence</i> , 2011 , 113, 55-61	4.9	60
47	Testing the validity of implicit measures of wanting and liking. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2011 , 42, 284-92	2.6	41
46	Alcohol approach tendencies in heavy drinkers: comparison of effects in a Relevant Stimulus-Response Compatibility task and an approach/avoidance Simon task. <i>Psychology of Addictive Behaviors</i> , 2011 , 25, 697-701	3.4	57
45	Alcohol expectancy moderates attentional bias for alcohol cues in light drinkers. <i>Addiction</i> , 2011 , 106, 1097-103	4.6	34

44	Priming a restrained mental set reduces alcohol-seeking independently of mood. <i>Psychopharmacology</i> , 2011 , 218, 557-65	4.7	25
43	Nonaddictive instrumental drug use: Theoretical strengths and weaknesses. <i>Behavioral and Brain Sciences</i> , 2011 , 34, 314-5	0.9	3
42	What differentiates adolescent problematic drinkers from their peers? Results from a cross-sectional study in Northern Irish school children. <i>Drugs: Education, Prevention and Policy</i> , 2011 , 18, 187-199	1.2	15
41	Reduced attentional blink for alcohol-related stimuli in heavy social drinkers. <i>Journal of Psychopharmacology</i> , 2010 , 24, 1349-56	4.6	30
40	Risk-taking but not response inhibition or delay discounting predict alcohol consumption in social drinkers. <i>Drug and Alcohol Dependence</i> , 2010 , 112, 54-61	4.9	145
39	Relation of dietary restraint scores to cognitive biases and reward sensitivity. <i>Appetite</i> , 2010 , 55, 61-8	4.5	51
38	Investigating the effects of a craving induction procedure on cognitive bias in cannabis users. <i>Addiction Research and Theory</i> , 2010 , 18, 97-109	2.6	6
37	Effects of alcohol preload on attentional bias towards cocaine-related cues. <i>Psychopharmacology</i> , 2010 , 210, 365-75	4.7	24
36	Acute alcohol effects on inhibitory control and implicit cognition: implications for loss of control over drinking. <i>Alcoholism: Clinical and Experimental Research</i> , 2010 , 34, 1346-52	3.7	133
35	Attentional bias modification in tobacco smokers. <i>Nicotine and Tobacco Research</i> , 2009 , 11, 812-22	4.9	86
34	Mild stress increases attentional bias in social drinkers who drink to cope: a replication and extension. <i>Experimental and Clinical Psychopharmacology</i> , 2009 , 17, 312-9	3.2	48
33	A meta-analytic investigation of the relationship between attentional bias and subjective craving in substance abuse. <i>Psychological Bulletin</i> , 2009 , 135, 589-607	19.1	425
32	Rapid approach responses to alcohol cues in heavy drinkers. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2008 , 39, 209-18	2.6	148
31	The effects of perceived quality on the behavioural economics of alcohol, amphetamine, cannabis, cocaine, and ecstasy purchases. <i>Drug and Alcohol Dependence</i> , 2008 , 94, 183-90	4.9	19
30	Attentional bias in addictive behaviors: a review of its development, causes, and consequences. <i>Drug and Alcohol Dependence</i> , 2008 , 97, 1-20	4.9	891
29	Different vulnerabilities for addiction may contribute to the same phenomena and some additional interactions. <i>Behavioral and Brain Sciences</i> , 2008 , 31, 445-446	0.9	3
28	Cognitive processes in alcohol binges: a review and research agenda. <i>Current Drug Abuse Reviews</i> , 2008 , 1, 263-79		92
27	Effects of a low dose of alcohol on cognitive biases and craving in heavy drinkers. <i>Psychopharmacology</i> , 2008 , 197, 169-78	4.7	139

26	Delay discounting and the alcohol Stroop in heavy drinking adolescents. <i>Addiction</i> , 2007 , 102, 579-86	4.6	190
