#	ARTICLE	IF	CITATIONS
1	Categories of Intimate Partner Violence and Abuse Among Young Women and Men: Latent Class Analysis of Psychological, Physical, and Sexual Victimization and Perpetration in a UK Birth Cohort. <i>Journal of Interpersonal Violence</i> , 2023, 38, 931-954.	1.3	1
2	Domestic violence and self-poisoning in Sri Lanka. <i>Psychological Medicine</i> , 2022, 52, 1183-1191.	2.7	12
3	“It felt like there was always someone there for us”: Supporting children affected by domestic violence and abuse who are identified by general practice. <i>Health and Social Care in the Community</i> , 2022, 30, 165-174.	0.7	8
4	Exploring the causal role of intimate partner violence and abuse on depressive symptoms in young adults: a population-based cohort study. <i>BMC Medicine</i> , 2022, 20, 1.	2.3	65
5	Challenges of safeguarding via remote consulting during the COVID-19 pandemic: a qualitative interview study. <i>British Journal of General Practice</i> , 2022, 72, e199-e208.	0.7	20
6	Access to healthcare for street sex workers in the UK: perspectives and best practice guidance from a national cross-sectional survey of frontline workers. <i>BMC Health Services Research</i> , 2022, 22, 178.	0.9	12
7	Interventions in sexual and reproductive health services addressing violence against women in low-income and middle-income countries: a mixed-methods systematic review. <i>BMJ Open</i> , 2022, 12, e051924.	0.8	6
8	Impact of the first national COVID-19 lockdown on referral of women experiencing domestic violence and abuse in England and Wales. <i>BMC Public Health</i> , 2022, 22, 504.	1.2	12
9	Identifying adverse childhood experiences with electronic health records of linked mothers and children in England: a multistage development and validation study. <i>The Lancet Digital Health</i> , 2022, 4, e482-e496.	5.9	8
10	Multi-disciplinary Evaluation of Sexual Assault Referral Centres (SARCs) for better Health (MESARCH): protocol for a 1-year cohort study examining health, well-being and cost outcomes in adult survivors of sexual assault attending SARCs in England. <i>BMJ Open</i> , 2022, 12, e057449.	0.8	0
11	Sharing information about domestic violence and abuse in healthcare: an analysis of English guidance and recommendations for good practice. <i>BMJ Open</i> , 2022, 12, e057022.	0.8	1
12	Interventions to Reduce Intimate Partner Violence Perpetration by Men Who Use Substances: A Systematic Review and Meta-Analysis of Efficacy. <i>Trauma, Violence, and Abuse</i> , 2021, 22, 1262-1278.	3.9	43
13	Categories and health impacts of intimate partner violence in the World Health Organization multi-country study on women’s health and domestic violence. <i>International Journal of Epidemiology</i> , 2021, 50, 652-662.	0.9	68
14	Hope, Agency, and the Lived Experience of Violence: A Qualitative Systematic Review of Children’s Perspectives on Domestic Violence and Abuse. <i>Trauma, Violence, and Abuse</i> , 2021, 22, 427-438.	3.9	42
15	Adaptive work in the primary health care response to domestic violence in occupied Palestinian territory: a qualitative evaluation using Extended Normalisation Process Theory. <i>BMC Family Practice</i> , 2021, 22, 3.	2.9	9
16	Reaching everyone in general practice? Feasibility of an integrated domestic violence training and support intervention in primary care. <i>BMC Family Practice</i> , 2021, 22, 19.	2.9	10
17	Trauma-informed approaches to primary and community mental health care: protocol for a mixed-methods systematic review. <i>BMJ Open</i> , 2021, 11, e042112.	0.8	8
18	Boundary-Work and the Distribution of Care for Survivors of Domestic Violence and Abuse in Primary Care Settings: Perspectives From U.K. Clinicians. <i>Qualitative Health Research</i> , 2021, 31, 1697-1709.	1.0	6

#	ARTICLE	IF	CITATIONS
19	Domestic violence during the pandemic. <i>BMJ</i> , The, 2021, 372, n722.	3.0	17
20	Shared decision making in consultations for hypertension: Qualitative study in general practice. <i>Health Expectations</i> , 2021, 24, 917-929.	1.1	6
21	ADVANCE integrated group intervention to address both substance use and intimate partner abuse perpetration by men in substance use treatment: a feasibility randomised controlled trial. <i>BMC Public Health</i> , 2021, 21, 980.	1.2	11
22	PRimary care rEsponse to domestic violence and abuse in the COvid-19 panDEmic (PRECODE): protocol of a rapid mixed-methods study in the UK. <i>BMC Family Practice</i> , 2021, 22, 91.	2.9	11
23	HARMONY: a pragmatic cluster randomised controlled trial of a culturally competent systems intervention to prevent and reduce domestic violence among migrant and refugee families in general practice: study protocol. <i>BMJ Open</i> , 2021, 11, e046431.	0.8	3
24	Protocol for developing core outcome sets for evaluation of psychosocial interventions for children and families with experience or at risk of child maltreatment or domestic abuse. <i>BMJ Open</i> , 2021, 11, e044431.	0.8	6
25	713Domestic violence and self-poisoning in Sri Lanka. <i>International Journal of Epidemiology</i> , 2021, 50, .	0.9	1
26	Interventions in Health Settings for Male Perpetrators or Victims of Intimate Partner Violence. <i>Trauma, Violence, and Abuse</i> , 2020, 21, 123-137.	3.9	55
