#	ARTICLE	IF	CITATIONS
1	One-year incidence of sexual harassment and the contribution to poor mental health in the adult general population. <i>European Journal of Public Health</i> , 2022, , .	0.3	3
2	What makes children learn how to swim? â€“ health, lifestyle and environmental factors associated with swimming ability among children in the city of Malm�, Sweden. <i>BMC Pediatrics</i> , 2022, 22, 32.	1.7	3
3	Trajectories of precarious employment and the risk of myocardial infarction and stroke among middle-aged workers in Sweden: A register-based cohort study. <i>Lancet Regional Health - Europe</i> , The, 2022, 15, 100314.	5.6	8
4	Non-Standard Employment and Unemployment during the COVID-19 Crisis: Economic and Health Findings from a Six-Country Survey Study. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 5865.	2.6	7
5	No association between moist oral snuff (snus) use and oral cancer: pooled analysis of nine prospective observational studies. <i>Scandinavian Journal of Public Health</i> , 2021, 49, 833-840.	2.3	7
6	Assessment of selection bias due to dropouts in the follow-up of the Scania Public Health Cohort. <i>Scandinavian Journal of Public Health</i> , 2021, 49, 457-464.	2.3	15
7	Precarious employment and general, mental and physical health in Stockholm, Sweden: a cross-sectional study. <i>Scandinavian Journal of Public Health</i> , 2021, 49, 228-236.	2.3	24
8	Swedish snus use is associated with mortality: a pooled analysis of eight prospective studies. <i>International Journal of Epidemiology</i> , 2021, 49, 2041-2050.	1.9	15
9	Global Health Action at 15 â€“ revisiting its rationale. <i>Global Health Action</i> , 2021, 14, 1965863.	1.9	2
10	Reweighting a Swedish health questionnaire survey using extensive population register and self-reported data for assessing and improving the validity of longitudinal associations. <i>PLoS ONE</i> , 2021, 16, e0253969.	2.5	10
11	Psychosocial Working Conditions and Social Participation. A 10-Year Follow-Up of Senior Workers. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 9154.	2.6	1
12	COVID-19 and Precarious Employment: Consequences of the Evolving Crisis. <i>International Journal of Health Services</i> , 2021, 51, 226-228.	2.5	53
13	Exploring multidimensional operationalizations of precarious employment in Swedish register data â€“ a typological approach and a summative score approach. <i>Scandinavian Journal of Work, Environment and Health</i> , 2021, 47, 117-126.	3.4	24
14	Precarious Employment and Psychosocial Hazards: A Cross-Sectional Study in Stockholm County. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 11218.	2.6	3
15	Predictors of health care practitionersâ€™ normative attitudes and practices towards sexual and reproductive health and rights: a cross-sectional study of participants from low-income countries enrolled in a capacity-building program. <i>Global Health Action</i> , 2020, 13, 1829827.	1.9	4
16	Investigating the effect of social networking site use on mental health in an 18â€“34-year-old general population; a cross-sectional study using the 2016 Scania Public Health Survey. <i>BMC Public Health</i> , 2020, 20, 1753.	2.9	5
17	Spousal violence against women and its association with sociodemographic factors and husbandsâ€™ controlling behaviour: the findings of Myanmar Demographic and Health Survey (2015â€“2016). <i>Global Health Action</i> , 2020, 13, 1844975.	1.9	7
18	â€“One-size doesnâ€™t fit allâ€™: Understanding healthcare practitionersâ€™ perceptions, attitudes and behaviours towards sexual and reproductive health and rights in low resource settings: An exploratory qualitative study. <i>PLoS ONE</i> , 2020, 15, e0234658.	2.5	8

#	ARTICLE	IF	CITATIONS
19	Diverting blame to stay sane - young people's strategies for dealing with the mental health effects of precarious employment: a grounded theory study. BMC Public Health, 2020, 20, 571.	2.9	7
20	Lobbying against sugar taxation in the European Union: Analysing the lobbying arguments and tactics of stakeholders in the food and drink industries. Scandinavian Journal of Public Health, 2019, 47, 565-575.	2.3	41
21	Does Labor Market Position Explain the Differences in Self-Rated Health between Employed Immigrants and Native Swedes: a Population-Based Study from Southern Sweden. Journal of International Migration and Integration, 2019, 20, 703-715.	1.4	1
22	Causes and contributing factors of maternal mortality in Bosaso District of Somalia. A retrospective study of 30 cases using a Verbal Autopsy approach. Global Health Action, 2019, 12, 1672314.	1.9	24
23	O3D.5â€¦National policies and social inequalities in exit paths from working life in Sweden. Occupational and Environmental Medicine, 2019, 76, A28.3-A29.	2.8	0
24	Social inequality in working life expectancy in Sweden. Zeitschrift Fur Gerontologie Und Geriatrie, 2019, 52, 52-61.	1.8	25
25	Surveillance of work environment and heat stress assessment using meteorological data. International Journal of Biometeorology, 2019, 63, 195-196.	3.0	2
26	Is centre-based provision of hearing aids better than community-based provision? A cluster-randomized trial among adolescents in Bangladesh. Disability and Rehabilitation: Assistive Technology, 2018, 13, 497-503.	2.2	13
27	Occupational heat stress assessment and protective strategies in the context of climate change. International Journal of Biometeorology, 2018, 62, 359-371.	3.0	112
28	Occupation, gender and work-life exits: a Swedish population study. Ageing and Society, 2018, 38, 1332-1349.	1.7	18
29	Is ambient heat exposure levels associated with miscarriage or stillbirths in hot regions? A cross-sectional study using survey data from the Ghana Maternal Health Survey 2007. International Journal of Biometeorology, 2018, 62, 319-330.	3.0	50
30	Modelling the association between health indicators and commute mode choice: a cross-sectional study in southern Sweden. Journal of Transport and Health, 2018, 11, 110-121.	2.2	18
31	Reducing health inequalities with interventions targeting behavioral factors among individuals with low levels of education - A rapid review. PLoS ONE, 2018, 13, e0195774.	2.5	23
32	A meta-analysis and systematic literature review of factors associated with sexual risk-taking during international travel. Travel Medicine and Infectious Disease, 2018, 24, 65-88.	3.0	47
33	Use of moist oral snuff (snus) and pancreatic cancer: Pooled analysis of nine prospective observational studies. International Journal of Cancer, 2017, 141, 687-693.	5.1	22
34	Smokeless tobacco (snus) use and colorectal cancer incidence and survival: Results from nine pooled cohorts. Scandinavian Journal of Public Health, 2017, 45, 741-748.	2.3	7
35	The negative effects on mental health of being in a non-desired occupation in an increasingly precarious labour market. SSM - Population Health, 2017, 3, 516-524.	2.7	31
36	Travel abroad increases sexual health risk-taking among Swedish youth: a population-based study using a case-crossover strategy. Global Health Action, 2017, 10, 1330511.	1.9	15

#	ARTICLE	IF	CITATIONS
37	Occupational heat stress and heat strain assessment using climate service information. , 2017, , .		0
38	Precarious employment is a risk factor for poor mental health in young individuals in Sweden: a cohort study with multiple follow-ups. BMC Public Health, 2016, 16, 687.	2.9	70
39	Road traffic noise, air pollution and myocardial infarction: a prospective cohort study. International Archives of Occupational and Environmental Health, 2016, 89, 793-802.	2.3	30
40	The correlation between regulatory conditions and antibiotic consumption within the WHO European Region. Health Policy, 2016, 120, 882-889.	3.0	20
