#	ARTICLE	IF	CITATIONS
1	Hypocholesterolemia is an independent risk factor for depression disorder and suicide attempt in Northern Mexican population. BMC Psychiatry, 2018, 18, 7.	2.6	52
2	Association between Blood Lead Levels and Delta-Aminolevulinic Acid Dehydratase in Pregnant Women. International Journal of Environmental Research and Public Health, 2017, 14, 432.	2.6	28
3	SLC41A1 is the only magnesium responsive gene significantly overexpressed in placentas of preeclamptic women. Hypertension in Pregnancy, 2013, 32, 378-389.	1.1	24
4	Excess Maternal Deaths Associated With Coronavirus Disease 2019 (COVID-19) in Mexico. Obstetrics and Gynecology, 2020, 136, 1114-1116.	2.4	20
5	Polymorphisms in the GSTT1 and GSTM1 genes are associated with increased risk of preeclampsia in the Mexican mestizo population. Genetics and Molecular Research, 2014, 13, 2160-2165.	0.2	19
6	Comparative expression profiles for KiSS-1 and REN genes in preeclamptic and healthy placental tissues. European Journal of Obstetrics, Gynecology and Reproductive Biology, 2011, 159, 67-71.	1.1	17
7	Arsenic exposure and risk of preeclampsia in a Mexican mestizo population. BMC Pregnancy and Childbirth, 2016, 16, 153.	2.4	16
8	Lack of association between Toxoplasma gondii infection and hypertensive disorders in pregnancy: a case-control study in a Northern Mexican population. Parasites and Vectors, 2014, 7, 167.	2.5	15
9	Polymorphisms in DNA Repair Genes (APEX1, XPD, XRCC1 and XRCC3) and Risk of Preeclampsia in a Mexican Mestizo Population. International Journal of Molecular Sciences, 2014, 15, 4273-4283.	4.1	13
10	Association of COMT G675A and MTHFR C677T polymorphisms with hypertensive disorders of pregnancy in Mexican mestizo population. Pregnancy Hypertension, 2014, 4, 59-64.	1.4	12
11	The relationship between blood lead levels and occupational exposure in a pregnant population. BMC Public Health, 2016, 16, 1231.	2.9	12
12	Haplotype analysis of TGF- β 1 gene in a preeclamptic population of northern Mexico. Pregnancy Hypertension, 2014, 4, 14-18.	1.4	11
13	Full Atrioventricular Block Secondary to Acute Poisoning Mercury: A Case Report. International Journal of Environmental Research and Public Health, 2018, 15, 657.	2.6	8
14	Apoptosis in pancreatic β -cells is induced by arsenic and atorvastatin in Wistar rats with diabetes mellitus type 2. Journal of Trace Elements in Medicine and Biology, 2018, 46, 144-149.	3.0	7
15	Relationship Between Blood Lead Levels and Hematological Indices in Pregnant Women. Women and Health, 2015, 55, 90-102.	1.0	6
16	Lack of association between cytomegalovirus infection and hypertensive disorders in pregnancy: a case-control study in Durango, Mexico. European Journal of Microbiology and Immunology, 2017, 7, 229-233.	2.8	6
17	Maternal and umbilical cord procalcitonin, high-sensitivity C-reactive protein, and interleukin-6 levels in preeclamptic and normotensive patients: A cross-sectional study. Pregnancy Hypertension, 2020, 21, 218-223.	1.4	5
18	Oxidative stress equilibrium during obstetric event in normal pregnancy. Journal of Maternal-Fetal and Neonatal Medicine, 2017, 30, 1836-1840.	1.5	4

#	ARTICLE	IF	CITATIONS
19	Takayasu arteritis a cause of hypertensive disorder of pregnancy: a case report. Journal of Medical Case Reports, 2018, 12, 12.	0.8	4
20	Genetic variation in oxidative stress and DNA repair genes in a Mexican population. Annals of Human Biology, 2013, 40, 355-359.	1.0	3
21	Lactate Dehydrogenase in Hypertensive Disorders in Pregnancy: Severity or Diagnosis Marker?. Journal of Hypertension and Management, 2019, 5, .	0.2	1
22	Psychosocial Well-Being Indicators of Pregnant Women of the Ethnic Mexican Teenek. International Journal of Women's Health and Wellness, 2017, 3, .	0.1	1
