#	ARTICLE	IF	CITATIONS
1	Family relationships in childhood and common psychiatric disorders in later life: systematic review of prospective studies. <i>British Journal of Psychiatry</i> , 2009, 194, 392-398.	1.7	190
2	Impact of ethnic density on adult mental disorders: narrative review. <i>British Journal of Psychiatry</i> , 2012, 201, 11-19.	1.7	136
3	Systematic comparative validation of self-report measures of sedentary time against an objective measure of postural sitting (activPAL). <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2018, 15, 21.	2.0	103
4	Identification of novel genome-wide associations for suicidality in UK Biobank, genetic correlation with psychiatric disorders and polygenic association with completed suicide. <i>EBioMedicine</i> , 2019, 41, 517-525.	2.7	87
5	The determinants of receiving social care in later life in England. <i>Ageing and Society</i> , 2015, 35, 321-345.	1.2	64
6	Ethnic Density Effects on Birth Outcomes and Maternal Smoking During Pregnancy in the US Linked Birth and Infant Death Data Set. <i>American Journal of Public Health</i> , 2010, 100, 707-713.	1.5	61
7	Living alone, loneliness and lack of emotional support as predictors of suicide and self-harm: A nine-year follow up of the UK Biobank cohort. <i>Journal of Affective Disorders</i> , 2021, 279, 316-323.	2.0	58
8	The Health Benefits of Hispanic Communities for Non-Hispanic Mothers and Infants: Another Hispanic Paradox. <i>American Journal of Public Health</i> , 2013, 103, 1052-1057.	1.5	51
9	Ethnic density effects on maternal and infant health in the Millennium Cohort Study. <i>Social Science and Medicine</i> , 2009, 69, 1476-1483.	1.8	45
10	Characteristics of a Protocol to Collect Objective Physical Activity/Sedentary Behavior Data in a Large Study: Seniors USP (Understanding Sedentary Patterns). <i>Journal for the Measurement of Physical Behaviour</i> , 2018, 1, 26-31.	0.5	34
11	The association between ethnic density and poor self-rated health among US Black and Hispanic people. <i>Ethnicity and Health</i> , 2011, 16, 225-244.	1.5	25
12	Carotid Intima-Media Thickness. <i>Arteriosclerosis, Thrombosis, and Vascular Biology</i> , 2020, 40, 446-461.	1.1	25
13	The Influence of Neighbourhoods and the Social Environment on Sedentary Behaviour in Older Adults in Three Prospective Cohorts. <i>International Journal of Environmental Research and Public Health</i> , 2017, 14, 557.	1.2	23
14	Social contact and inequalities in depressive symptoms and loneliness among older adults: A mediation analysis of the English Longitudinal Study of Ageing. <i>SSM - Population Health</i> , 2021, 13, 100726.	1.3	18
15	The characteristics of mobile families with young children in England and the impact of their moves on neighbourhood inequalities in maternal and child health. <i>Health and Place</i> , 2012, 18, 657-670.	1.5	16
16	Positive and negative well-being and objectively measured sedentary behaviour in older adults: evidence from three cohorts. <i>BMC Geriatrics</i> , 2019, 19, 28.	1.1	16
17	The relationship between antihypertensive medications and mood disorders: analysis of linked healthcare data for 1.8 million patients. <i>Psychological Medicine</i> , 2021, 51, 1183-1191.	2.7	16
18	Visualising and quantifying "excess deaths"™ in Scotland compared with the rest of the UK and the rest of Western Europe. <i>Journal of Epidemiology and Community Health</i> , 2017, 71, 461-467.	2.0	15

#	ARTICLE	IF	CITATIONS
19	Relationships between socioeconomic position and objectively measured sedentary behaviour in older adults in three prospective cohorts. <i>BMJ Open</i> , 2017, 7, e016436.	0.8	15
20	Racism as the fundamental cause of ethnic inequities in COVID-19 vaccine hesitancy: A theoretical framework and empirical exploration using the UK Household Longitudinal Study. <i>SSM - Population Health</i> , 2022, 19, 101150.	1.3	14
21	To What Extent Do Financial Strain and Labour Force Status Explain Social Class Inequalities in Self-Rated Health? Analysis of 20 Countries in the European Social Survey. <i>PLoS ONE</i> , 2014, 9, e110362.	1.1	13
22	Differences in adiposity trajectories by birth cohort and childhood social class: evidence from cohorts born in the 1930s, 1950s and 1970s in the west of Scotland. <i>Journal of Epidemiology and Community Health</i> , 2014, 68, 550-556.	2.0	12
23	Do social support and eating family meals together play a role in promoting resilience to bullying and cyberbullying in Scottish school children?. <i>SSM - Population Health</i> , 2019, 9, 100485.	1.3	12
24	Cognitive ability does not predict objectively measured sedentary behavior: Evidence from three older cohorts.. <i>Psychology and Aging</i> , 2018, 33, 288-296.	1.4	12
25	Two cheers for a small giant? Why we need better ways of seeing data: A commentary on: "Rising morbidity and mortality in midlife among White non-Hispanic Americans in the 21st century". <i>International Journal of Epidemiology</i> , 2016, 46, dyw095.	0.9	11
26	Complex systems modeling for supply and demand in health and social care. , 2011, , .		5
27	Health screening, cardiometabolic disease and adverse health outcomes in individuals with severe mental illness. <i>BJPsych Open</i> , 2019, 5, e97.	0.3	5
28	Using system dynamics to model the social care system: Simulation modeling as the catalyst in linking demography to care delivery. , 2012, , .		3
29	OP63"Loneliness, living arrangements and emotional support as predictors of suicidality: a 7 year follow-up of the UK biobank cohort. , 2018, , .		1
30	OP58" The role of family and peer support in promoting resilience in the face of bullying and cyberbullying: evidence from school children in scotland. , 2019, , .		1
31	OP16" Do financial strain and labour force status explain why Nordic countries have wide health inequalities relative to other European countries? Evidence from a cross-national study. <i>Journal of Epidemiology and Community Health</i> , 2014, 68, A11.1-A11.	2.0	0
32	Objective and self-reported neighbourhood risk factors for sedentary behaviour in older adults. <i>European Journal of Public Health</i> , 2016, 26, .	0.1	0
33	What Case & Deaton saw, and what they missed. A data visualisation commentary on Case & Deaton (2015). <i>European Journal of Public Health</i> , 2016, 26, .	0.1	0
34	M65 CNTN5 GENETIC VARIATION IN METABOLIC AND MENTAL HEALTH. <i>European Neuropsychopharmacology</i> , 2019, 29, S201-S202.	0.3	0
35	Abstract P190: Antihypertensive Monotherapy And Risk Of Depression Incidence. <i>Hypertension</i> , 2020, 76, .	1.3	0
