

Feng-Cheng Tang

List of Publications by Citations

Source: <https://exaly.com/author-pdf/6182190/feng-cheng-tang-publications-by-citations.pdf>

Version: 2024-04-23

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
14	Arsenic induces reactive oxygen species-caused neuronal cell apoptosis through JNK/ERK-mediated mitochondria-dependent and GRP 78/CHOP-regulated pathways. <i>Toxicology Letters</i> , 2014 , 224, 130-40	4.4	128
13	Chloroacetic acid induced neuronal cells death through oxidative stress-mediated p38-MAPK activation pathway regulated mitochondria-dependent apoptotic signals. <i>Toxicology</i> , 2013 , 303, 72-82	4.4	40
12	The Potential for Mindfulness-Based Intervention in Workplace Mental Health Promotion: Results of a Randomized Controlled Trial. <i>PLoS ONE</i> , 2015 , 10, e0138089	3.7	38
11	Methylmercury exposure induces ROS/Akt inactivation-triggered endoplasmic reticulum stress-regulated neuronal cell apoptosis. <i>Toxicology</i> , 2019 , 425, 152245	4.4	27
10	Chloroacetic acid triggers apoptosis in neuronal cells via a reactive oxygen species-induced endoplasmic reticulum stress signaling pathway. <i>Chemico-Biological Interactions</i> , 2015 , 225, 1-12	5	22
9	Cr(VI) induces ROS-mediated mitochondrial-dependent apoptosis in neuronal cells via the activation of Akt/ERK/AMPK signaling pathway. <i>Toxicology in Vitro</i> , 2020 , 65, 104795	3.6	17
8	Lifestyle Factors and Metabolic Syndrome among Workers: The Role of Interactions between Smoking and Alcohol to Nutrition and Exercise. <i>International Journal of Environmental Research and Public Health</i> , 2015 , 12, 15967-78	4.6	17
7	Relationships between different types of physical activity and metabolic syndrome among Taiwanese workers. <i>Scientific Reports</i> , 2017 , 7, 13735	4.9	15
6	Work Hours and Difficulty in Leaving Work on Time in Relation to Work-to-Family Conflict and Burnout Among Female Workers in Taiwan. <i>International Journal of Environmental Research and Public Health</i> , 2020 , 17,	4.6	6
5	Well-Being: Its Relationship with Work-to-Family Conflict and Burnout among Males and Females. <i>International Journal of Environmental Research and Public Health</i> , 2019 , 16,	4.6	6
4	Effects of nutrition and exercise health behaviors on predicted risk of cardiovascular disease among workers with different body mass index levels. <i>International Journal of Environmental Research and Public Health</i> , 2014 , 11, 4664-75	4.6	6
3	Work Ability and Quality of Life in Patients with Work-Related Musculoskeletal Disorders. <i>International Journal of Environmental Research and Public Health</i> , 2020 , 17,	4.6	4
2	Differences in health complaints among Taiwanese workers in different occupational categories. <i>Journal of Occupational Health</i> , 2012 , 54, 241-9	2.3	4
1	Health-Associated Nutrition and Exercise Behaviors in Relation to Metabolic Risk Factors Stratified by Body Mass Index. <i>International Journal of Environmental Research and Public Health</i> , 2019 , 16,	4.6	2
