#	ARTICLE	IF	CITATIONS
1	Cesarean section rate is a matter of maternal age or parity?. Journal of Maternal-Fetal and Neonatal Medicine, 2022, 35, 2972-2975.	0.7	2
2	Stem Cells in Clinical Trials for Pelvic Floor Disorders: a Systematic Literature Review. Reproductive Sciences, 2022, 29, 1710-1720.	1.1	7
3	Hyperandrogenism and menstrual imbalance are the best predictors of metformin response in PCOS patients. Reproductive Biology and Endocrinology, 2022, 20, 6.	1.4	11
4	Assessment of postpartum haemorrhage risk among women with moderate thrombocytopenia. British Journal of Haematology, 2022, 197, 482-488.	1.2	4
5	Successful Transvaginal Microwave Ablation of a Heterotopic Cervical Pregnancy. A Case Report. Reproductive Sciences, 2021, 28, 27-30.	1.1	2
6	Percutaneous microwave ablation of uterine fibroids: correlation between shrinkage and trend symptoms. Minimally Invasive Therapy and Allied Technologies, 2021, 30, 33-39.	0.6	10
7	“Add-Ons” for Assisted Reproductive Technology: Do Patients Get Honest Information from Fertility Clinics’ Websites?. Reproductive Sciences, 2021, 28, 3466-3472.	1.1	5
8	Finding of Severe Acute Respiratory Syndrome Coronavirus 2 (SARS-CoV-2) Within Placental Tissue 11 Weeks After Maternal Infection. Archives of Pathology and Laboratory Medicine, 2021, 145, 920-921.	1.2	5
9	Predictors of low ovarian reserve in cART-treated women living with HIV. Medicine (United States), 2021, 100, e27157.	0.4	7
10	Mode of birth in women with low-lying placenta: protocol for a prospective multicentre 1:3 matched case-control study in Italy (the MODEL-PLACENTA study). BMJ Open, 2021, 11, e052510.	0.8	4
11	SARS-CoV-2 infection testing at delivery: a clinical and epidemiological priority. Journal of Maternal-Fetal and Neonatal Medicine, 2020, , 1-3.	0.7	7
12	“ADD-ONS” IN ART: DO PATIENTS RECEIVE HONEST INFORMATION THROUGH FERTILITY CLINICS’ WEBSITES?. Fertility and Sterility, 2020, 114, e467-e468.	0.5	0
13	The Many Faces of Covid-19 at a Glance: A University Hospital Multidisciplinary Account From Milan, Italy. Frontiers in Public Health, 2020, 8, 575029.	1.3	19
14	COVID-19 does not stop obstetrics: what we need to change to go on safely birthing. The experience of a University Obstetrics and Gynecology Department in Milan. Journal of Perinatal Medicine, 2020, 48, 997-1000.	0.6	14
15	Recent advances in the induction of labor. F1000Research, 2019, 8, 1829.	0.8	45
16	Re: Clinical interventions to reduce stillbirths in sub-Saharan Africa: a mathematical model to estimate the potential reduction of stillbirths associated with specific obstetric conditions. BJOG: an International Journal of Obstetrics and Gynaecology, 2018, 125, 765-766.	1.1	1
17	Percutaneous High Frequency Microwave Ablation of Uterine Fibroids: Systematic Review. BioMed Research International, 2018, 2018, 1-9.	0.9	20
18	Inflammation modulates LC3 expression in human preterm delivery. Journal of Maternal-Fetal and Neonatal Medicine, 2017, 30, 698-704.	0.7	10

#	ARTICLE	IF	CITATIONS
19	Amniocentesis and chorionic villus sampling in HIV-infected pregnant women: a multicentre case series. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2017, 124, 1218-1223.	1.1	14
20	Gestational diabetes affects fetal autophagy. <i>Placenta</i> , 2017, 55, 90-93.	0.7	21
21	Rate, correlates and outcomes of repeat pregnancy in HIV-infected women. <i>HIV Medicine</i> , 2017, 18, 440-443.	1.0	8
22	Use of high-frequency ultrasound to study the prenatal development of cranial neural tube defects and hydrocephalus in <i>Gldc</i> -deficient mice. <i>Prenatal Diagnosis</i> , 2017, 37, 273-281.	1.1	9
23	Pregnant with HIV before age 25: data from a large national study in Italy, 2001-2016. <i>Epidemiology and Infection</i> , 2017, 145, 2360-2365.	1.0	2
24	Evolving treatment implementation among HIV-infected pregnant women and their partners: results from a national surveillance study in Italy, 2001-2015. <i>Journal of Global Health</i> , 2017, 7, 010407.	1.2	2
25	Cell death and cell proliferation in human spina bifida. <i>Birth Defects Research Part A: Clinical and Molecular Teratology</i> , 2016, 106, 104-113.	1.6	6
26	Pregnancy outcomes and cytomegalovirus DNAemia in HIV-infected pregnant women with CMV. <i>Clinical Microbiology and Infection</i> , 2016, 22, 818-820.	2.8	2
27	Chronobiology, sleep-related risk factors and light therapy in perinatal depression: the "Life-ON" project. <i>BMC Psychiatry</i> , 2016, 16, 374.	1.1	15
28	Guidelines for the use and interpretation of assays for monitoring autophagy (3rd edition). <i>Autophagy</i> , 2016, 12, 1-222.	4.3	4,701
29	De novo ceramide synthesis is involved in acute inflammation during labor. <i>Biological Chemistry</i> , 2016, 397, 147-155.	1.2	9
30	Good prenatal detection rate of major birth defects in HIV-infected pregnant women in Italy. <i>Prenatal Diagnosis</i> , 2015, 35, 1374-1378.	1.1	3
31	Activation of Protein C in Human Trophoblasts in Culture and Downregulation of Trophoblast Endothelial Protein C Receptor by TNF- α . <i>Reproductive Sciences</i> , 2015, 22, 1042-1048.	1.1	10
32	Autophagy in Normal and Abnormal Early Human Pregnancies. <i>Reproductive Sciences</i> , 2015, 22, 838-844.	1.1	47
33	Atazanavir and lopinavir profile in pregnant women with HIV: tolerability, activity and pregnancy outcomes in an observational national study. <i>Journal of Antimicrobial Chemotherapy</i> , 2014, 69, 1377-1384.	1.3	13
34	Sexual dysfunction in pre-menopausal diabetic women: clinical, metabolic, psychological, cardiovascular, and neurophysiologic correlates. <i>Acta Diabetologica</i> , 2013, 50, 911-917.	1.2	22
35	Prolactin and proinflammatory cytokine expression at the fetomaternal interface in first trimester miscarriage. <i>Fertility and Sterility</i> , 2013, 100, 108-115.e2.	0.5	29
36	37% of child survivors of intrauterine or neonatal insults experience at least one long-term sequela, the most common being neurodevelopmental delay. <i>Evidence-based Nursing</i> , 2013, 16, 75-76.	0.1	1

#	ARTICLE	IF	CITATIONS
37	Autophagy and Human Parturition: Evaluation of LC3 Expression in Placenta from Spontaneous or Medically Induced Onset of Labor. <i>BioMed Research International</i> , 2013, 2013, 1-9.	0.9	15
38	Birth defects in a national cohort of pregnant women with HIV infection in Italy, 2001-2011. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2013, 120, 1466-1476.	1.1	34
39	Placental Amino Acids Transport in Intrauterine Growth Restriction. <i>Journal of Pregnancy</i> , 2012, 2012, 1-6.	1.1	60
40	Transplacental Supply of Mannose and Inositol in Uncomplicated Pregnancies Using Stable Isotopes. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2012, 97, 2497-2502.	1.8	29
41	Abnormal spiral arteries modification in stillbirths: the role of maternal prepregnancy body mass index. <i>Journal of Maternal-Fetal and Neonatal Medicine</i> , 2012, 25, 2789-2792.	0.7	20
42	Third trimester amniotic fluid cells with the capacity to develop neural phenotypes and with heterogeneity among sub-populations. <i>Restorative Neurology and Neuroscience</i> , 2012, 30, 55-68.	0.4	43
43	Autophagy in term normal human placentas. <i>Placenta</i> , 2011, 32, 482-485.	0.7	70
44	Antibiotic prophylaxis before amniocentesis. <i>Prenatal Diagnosis</i> , 2011, 31, 1213-1214.	1.1	2
45	Abnormal spiral artery remodelling in the decidual segment during pregnancy: from histology to clinical correlation. <i>Journal of Clinical Pathology</i> , 2011, 64, 1064-1068.	1.0	49
46	An imbalance of COX level is not related to placental abruption. <i>Journal of Clinical Pathology</i> , 2011, 64, 605-609.	1.0	4
47	Effect of antenatal betamethasone on maternal and fetal amino acid concentration. <i>American Journal of Obstetrics and Gynecology</i> , 2010, 202, 166.e1-166.e6.	0.7	9
48	Thrombosis of the umbilical vessels revisited. An observational study of 317 consecutive autopsies at a single institution. <i>Human Pathology</i> , 2010, 41, 971-979.	1.1	39
49	Neonatal Morbidity and Mortality in Intrauterine Growth Restricted (IUGR) Pregnancies Is Predicated Upon Prenatal Diagnosis of Clinical Severity. <i>Reproductive Sciences</i> , 2009, 16, 373-379.	1.1	18
50	Adjustment of L-thyroxine substitutive therapy in pregnant women with subclinical, overt or postablative hypothyroidism. <i>Clinical Endocrinology</i> , 2009, 70, 798-802.	1.2	51
51	Epilepsy and postpartum depression. <i>Epilepsia</i> , 2009, 50, 24-27.	2.6	20
52	The transplacental transport of essential amino acids in uncomplicated human pregnancies. <i>American Journal of Obstetrics and Gynecology</i> , 2009, 200, 91.e1-91.e7.	0.7	21
53	Laparoscopic vs vaginal hysterectomy for benign pathology. <i>American Journal of Obstetrics and Gynecology</i> , 2009, 200, 368.e1-368.e7.	0.7	76
54	Liver Transplantation for Spontaneous Intrapartum Rupture of a Hepatic Adenoma. <i>Obstetrics and Gynecology</i> , 2009, 113, 508-510.	1.2	19

#	ARTICLE	IF	CITATIONS
55	Do Women with Epilepsy Have More Fear of Childbirth During Pregnancy Compared with Women without Epilepsy? A Case-Control Study. <i>Birth</i> , 2008, 35, 147-152.	1.1	18
56	Nutrient Transport Across the Intrauterine Growth-Restricted Placenta. <i>Seminars in Perinatology</i> , 2008, 32, 178-181.	1.1	30
57	Comparing two dinoprostone agents for cervical ripening and induction of labor: A randomized trial. <i>European Journal of Obstetrics, Gynecology and Reproductive Biology</i> , 2008, 138, 135-140.	0.5	20
58	Comparison of Fetal and Neonatal Growth Curves in Detecting Growth Restriction. <i>Obstetrics and Gynecology</i> , 2008, 112, 1227-1234.	1.2	45
59	Maternal and foetal resistin and adiponectin concentrations in normal and complicated pregnancies. <i>Clinical Endocrinology</i> , 2007, 66, 447-453.	1.2	174
60	Postgraduate school of obstetrics and gynecology and nongovernmental organizations: is collaboration possible?. <i>European Clinics in Obstetrics and Gynaecology</i> , 2007, 3, 53-57.	0.4	0
61	Postpartum depression in women with epilepsy versus women without epilepsy. <i>Epilepsy and Behavior</i> , 2006, 9, 293-297.	0.9	27
62	Lactacidemia in Intrauterine Growth Restricted (IUGR) Pregnancies: Relationship to Clinical Severity, Oxygenation and Placental Weight. <i>Pediatric Research</i> , 2006, 59, 570-574.	1.1	25
63	Fetal and Maternal Non-glucose Carbohydrates and Polyols Concentrations in Normal Human Pregnancies at Term. <i>Pediatric Research</i> , 2005, 58, 700-704.	1.1	52
64	Undesired effects of steroids during pregnancy. <i>Journal of Maternal-Fetal and Neonatal Medicine</i> , 2004, 16, 5-7.	0.7	20
65	Placental-fetal Interrelationship in IUGR Fetuses—A Review. <i>Placenta</i> , 2002, 23, S136-S141.	0.7	243
66	The effect of a maternal infusion of amino acids on umbilical uptake in pregnancies complicated by intrauterine growth restriction. <i>American Journal of Obstetrics and Gynecology</i> , 2002, 187, 741-746.	0.7	33
67	A Multiple Infusion Start Time (MIST) Protocol for Stable Isotope Studies of Fetal Blood. <i>Placenta</i> , 2001, 22, 171-176.	0.7	13
68	Placental Transport of Leucine, Phenylalanine, Glycine, and Proline in Intrauterine Growth-Restricted Pregnancies. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2001, 86, 5427-5432.	1.8	180
69	Umbilical amino acid uptake at increasing maternal amino acid concentrations: Effect of a maternal amino acid infusate. <i>American Journal of Obstetrics and Gynecology</i> , 1999, 181, 477-483.	0.7	45
70	Steady State Maternal-Fetal Leucine Enrichments in Normal and Intrauterine Growth-Restricted Pregnancies. <i>Pediatric Research</i> , 1999, 46, 114-119.	1.1	106
71	Association between the Activity of the System A Amino Acid Transporter in the Microvillous Plasma Membrane of the Human Placenta and Severity of Fetal Compromise in Intrauterine Growth Restriction. <i>Pediatric Research</i> , 1997, 42, 514-519.	1.1	257
72	The Impact of Gestational Age and Fetal Growth on the Maternal-Fetal Glucose Concentration Difference. <i>Obstetrics and Gynecology</i> , 1996, 87, 937-942.	1.2	154

#	ARTICLE	IF	CITATIONS
73	Percutaneous Umbilical Blood Sampling: Indication Changes and Procedure Loss Rate in a Nine Yearsâ€™ Experience. <i>Fetal Diagnosis and Therapy</i> , 1996, 11, 106-113.	0.6	48
74	Maternal concentrations and fetal-maternal concentration differences of plasma amino acids in normal and intrauterine growth-restricted pregnancies. <i>American Journal of Obstetrics and Gynecology</i> , 1996, 174, 1575-1583.	0.7	162
75	Genetic amniocentesis in biamniotic twin pregnancies by a single transabdominal insertion of the needle. <i>Prenatal Diagnosis</i> , 1995, 15, 17-19.	1.1	45
76	In Vivo Placental Transport of Glycine and Leucine in Human Pregnancies. <i>Pediatric Research</i> , 1995, 37, 571-575.	1.1	64
77	Peak Velocity of the Outflow Tract of the Aorta: Correlations With Acid Base Status and Oxygenation of the Growth-Retarded Fetus. <i>Obstetrics and Gynecology</i> , 1995, 85, 663-668.	1.2	26
78	An evaluation of fetal glucogenesis in intrauterine growth-retarded pregnancies. <i>Metabolism: Clinical and Experimental</i> , 1993, 42, 860-864.	1.5	84
79	Fetal-maternal amino acid relationships in normal and intrauterine growth retarded (IUGR) pregnancies. <i>Placenta</i> , 1993, 14, 11-23.	0.7	2
80	Diagnostic Value of Blood Sampling in Fetuses with Growth Retardation. <i>New England Journal of Medicine</i> , 1993, 328, 692-696.	13.9	326
81	Venous drainage of the human uterus: Respiratory gas studies in normal and fetal growth-retarded pregnancies. <i>American Journal of Obstetrics and Gynecology</i> , 1992, 166, 699-706.	0.7	114
82	Midgestation cord sampling: What have we learned. <i>Placenta</i> , 1992, 13, 115-122.	0.7	21
83	Fetal amino acids in normal pregnancies and in pregnancies complicated by intrauterine growth retardation. <i>Early Human Development</i> , 1992, 29, 183-186.	0.8	59
84	Plasma and Erythrocyte Amino Acids in Mother and Fetus. <i>Neonatology</i> , 1991, 60, 83-91.	0.9	7
85	Maturation of Hypothalamic-Pituitary-Gonadal Function in Normal Human Fetuses: Circulating Levels of Gonadotropins, Their Common α -Subunit and Free Testosterone, and Discrepancy between Immunological and Biological Activities of Circulating Follicle-Stimulating Hormone*. <i>Journal of Clinical Endocrinology and Metabolism</i> , 1991, 73, 525-532.	1.8	133
86	Lactate Metabolism in Normal and Growth-Retarded Human Fetuses. <i>Pediatric Research</i> , 1990, 28, 652-656.	1.1	46
87	Umbilical amino acid concentrations in normal and growth-retarded fetuses sampled in utero by cordocentesis. <i>American Journal of Obstetrics and Gynecology</i> , 1990, 162, 253-261.	0.7	244
88	The relationship of maternal and fetal glucose concentrations in the human from midgestation until term. <i>Metabolism: Clinical and Experimental</i> , 1988, 37, 358-363.	1.5	75
89	The correlation of biochemical monitoring versus umbilical flow velocity measurements of the human fetus. <i>American Journal of Obstetrics and Gynecology</i> , 1988, 159, 1081-1087.	0.7	39
90	Umbilical amino acid concentrations in appropriate and small for gestational age infants: a biochemical difference present in utero. <i>American Journal of Obstetrics and Gynecology</i> , 1988, 158, 120-126.	0.7	179

#	ARTICLE	IF	CITATIONS
91	Respiratory Gases, Acid-Base Balance and Lactate Concentrations of the Midterm Human Fetus. Neonatology, 1987, 52, 188-197.	0.9	16
92	Cord sampling for the evaluation of oxygenation and acid-base balance in growth-retarded human fetuses. American Journal of Obstetrics and Gynecology, 1987, 157, 1221-1228.	0.7	76
93	The intraventricular conduction time of fetal heart in pregnancies with suspected fetal growth retardation. BJOG: an International Journal of Obstetrics and Gynaecology, 1986, 93, 250-254.	1.1	13
94	Variability analysis of fetal heart rate signals as obtained from abdominal electrocardiographic recordings. Journal of Perinatal Medicine, 1986, 14, 445-452.	0.6	89
95	Morphological analysis of the fetal electrocardiogram during pregnancy. Journal of Perinatal Medicine, 1984, 12, 273-274.	0.6	4
96	Hyperandrogenism and Menstrual Imbalance are the Best Predictors of Metformin Response in PCOS Patients: Results of an Analysis Through the Artificial Neural Networks. SSRN Electronic Journal, 0, , .	0.4	0
