#	Paper	IF	Citations
28	The effects of the challenges in the transliteration of Persian names into English on the recall of retrieved results in the web of science. <i>Scientometrics</i> , 2022 , 127, 1099-1128	3	
27	Content analysis and Opinion mining of Tweets about Open Access and its Main Features 2021 , 37, 305-329		
26	Modeling the co-citation dependence on semantic layers of co-cited documents. <i>Online Information Review</i> , 2021 , ahead-of-print,	2	1
25	Determining the informativeness of comments: a natural language study of F1000Research open peer review reports. <i>Online Information Review</i> , 2020 , 44, 1327-1345	2	2
24	How do academia and society react to erroneous or deceitful claims? The case of retracted articles recognition. <i>Journal of Information Science</i> , 2020 , 016555152094585	2	2
23	Does open access citation advantage depend on paper topics?. <i>Journal of Information Science</i> , 2020 , 46, 696-709	2	4
22	How do self-archiving and Author-pays models associate and contribute to OA citation advantage within hybrid journals. <i>Journal of Academic Librarianship</i> , 2019 , 45, 377-385	1.5	4
21	In quest of new document relations: evaluating co-opinion relations between co-citations and its impact on Information retrieval effectiveness. <i>Scientometrics</i> , 2019 , 119, 987-1008	3	5
20	Bibliometric mapping of microbiology research topics (2012-16): a comparison by socioeconomic development and infectious disease vulnerability values. <i>FEMS Microbiology Letters</i> , 2019 , 366,	2.9	6
19	Gender differences in scientific productivity and visibility in core neurosurgery journals: Citations and social media metrics. <i>Research Evaluation</i> , 2018 ,	1.7	5
18	Sustainability of open access citation advantage: the case of Elsevier author-pays hybrid open access journals. <i>Scientometrics</i> , 2018 , 115, 563-576	3	11
17	The comparison of thesaurus and ontology. <i>Library Hi Tech</i> , 2018 , 36, 665-684	1.5	2
16	Comparing discrimination powers of text and citation-based context types. <i>Scientometrics</i> , 2018 , 114, 229-251	3	0
15	The World Approach toward Publishing in Springer and Elsevier APC-Funded Open Access Journals. <i>College and Research Libraries</i> , 2018 , 79, 257-278	1.3	3
14	Constructing an ontology based on a thesaurus. <i>Electronic Library</i> , 2018 , 36, 750-764	1.5	2
13	CiteULike bookmarks are correlated to citations at journal and author levels in library and information science. <i>Scientometrics</i> , 2015 , 105, 2237-2248	3	10
12	The citation advantage of author-pays model: the case of Springer and Elsevier OA journals. <i>Scientometrics</i> , 2015 , 104, 581-608	3	37

11	Gender, web presence and scientific productivity in nanoscience and nanotechnology. <i>Scientometrics</i> , 2014 , 99, 717-736	3	6
10	Gender differences in science: the case of scientific productivity in Nano Science & Technology during 2005-2007. <i>Scientometrics</i> , 2014 , 98, 457-472	3	27
9	How sustainable a scientifically developing country could be in its specialties? The case of Iran's publications in SCI in the 21st century compared to 1980s. <i>Scientometrics</i> , 2012 , 91, 231-243	3	6
8	Concentration effect of citation to Iranian papers: Iran's Matthew core journals. <i>Online Information Review</i> , 2011 , 35, 471-491	2	3
7	Are Iranian scientists recognized as their productivity enhances? A comparison of Iran's impact to global norms in different subfields of Science Citation Index during 2002-2005. <i>Scientometrics</i> , 2010 , 83, 39-54	3	8
6	Countries positioning in open access journals system: An investigation of citation distribution patterns. <i>Scientometrics</i> , 2009 , 81, 7-31	3	8
5	Great expectations: The role of Open Access in improving countries' recognition. <i>Scientometrics</i> , 2008 , 76, 69-93	3	13
4	Tracking open access journals evolution: Some considerations in open access data collection validation. <i>Journal of the Association for Information Science and Technology</i> , 2007 , 58, 1578-1585		15
3	The citation performance of open access journals: A disciplinary investigation of citation distribution models. <i>Journal of the Association for Information Science and Technology</i> , 2007 , 58, 2145-2156		20
2	Correlation between universities' Altmetric Attention Scores and their performance scores in Nature Index, Leiden, Times Higher Education and Quacquarelli Symonds ranking systems. <i>Journal of Information Science</i> , 016555152110308	2	1
1	Determinants of societal and academic recognition: Evidence from randomised controlled trials. <i>Journal of Information Science</i> , 016555152110396	2
