

Sean Harrison

List of Publications by Citations

Source: <https://exaly.com/author-pdf/6207624/sean-harrison-publications-by-citations.pdf>

Version: 2024-04-20

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
24	Peer-led interventions to prevent tobacco, alcohol and/or drug use among young people aged 11-21 years: a systematic review and meta-analysis. <i>Addiction</i> , 2016 , 111, 391-407	4.6	105
23	An atlas of polygenic risk score associations to highlight putative causal relationships across the human phenome. <i>ELife</i> , 2019 , 8,	8.9	90
22	Avoiding dynastic, assortative mating, and population stratification biases in Mendelian randomization through within-family analyses. <i>Nature Communications</i> , 2020 , 11, 3519	17.4	83
21	Does milk intake promote prostate cancer initiation or progression via effects on insulin-like growth factors (IGFs)? A systematic review and meta-analysis. <i>Cancer Causes and Control</i> , 2017 , 28, 497-528	2.8	51
20	The albatross plot: A novel graphical tool for presenting results of diversely reported studies in a systematic review. <i>Research Synthesis Methods</i> , 2017 , 8, 281-289	7.2	50
19	The effects of cash transfers and vouchers on the use and quality of maternity care services: A systematic review. <i>PLoS ONE</i> , 2017 , 12, e0173068	3.7	46
18	Within-family studies for Mendelian randomization: avoiding dynastic, assortative mating, and population stratification biases		32
17	Systematic review and meta-analysis of the associations between body mass index, prostate cancer, advanced prostate cancer, and prostate-specific antigen. <i>Cancer Causes and Control</i> , 2020 , 31, 431-449	2.8	24
16	Effects of body mass index on relationship status, social contact and socio-economic position: Mendelian randomization and within-sibling study in UK Biobank. <i>International Journal of Epidemiology</i> , 2020 , 49, 1173-1184	7.8	19
15	Minimally invasive versus conventional surgery of the ascending aorta and root: a systematic review and meta-analysis. <i>European Journal of Cardio-thoracic Surgery</i> , 2020 , 57, 8-17	3	19
14	Prostate-specific antigen (PSA) testing of men in UK general practice: a 10-year longitudinal cohort study. <i>BMJ Open</i> , 2017 , 7, e017729	3	16
13	Cerebral visual impairment-related vision problems in primary school children: a cross-sectional survey. <i>Developmental Medicine and Child Neurology</i> , 2021 , 63, 683-689	3.3	15
12	Investigating the prostate specific antigen, body mass index and age relationship: is an age-BMI-adjusted PSA model clinically useful?. <i>Cancer Causes and Control</i> , 2016 , 27, 1465-1474	2.8	14
11	Developing the WCRF International/University of Bristol Methodology for Identifying and Carrying Out Systematic Reviews of Mechanisms of Exposure-Cancer Associations. <i>Cancer Epidemiology Biomarkers and Prevention</i> , 2017 , 26, 1667-1675	4	13
10	Mendelian Randomization analysis of the causal effect of adiposity on hospital costs. <i>Journal of Health Economics</i> , 2020 , 70, 102300	3.5	12
9	The causal effects of health conditions and risk factors on social and socioeconomic outcomes: Mendelian randomization in UK Biobank. <i>International Journal of Epidemiology</i> , 2020 , 49, 1661-1681	7.8	11
8	Association of SNPs in LCP1 and CTIF with hearing in 11 year old children: findings from the Avon Longitudinal Study of Parents and Children (ALSPAC) birth cohort and the G-EAR consortium. <i>BMC Medical Genomics</i> , 2015 , 8, 48	3.7	2

7	The causal effect of adiposity on hospital costs: Mendelian Randomization analysis of over 300,000 individuals from the UK Biobank		2
6	The consequences of adjustment, correction and selection in genome-wide association studies used for two-sample Mendelian randomization		2
5	Systematic Review and Meta-Analysis of the Associations Between Body Mass Index, Prostate Cancer, Advanced Prostate Cancer and Prostate Specific Antigen		1
4	Effects of increased body mass index on employment status: a Mendelian randomisation study. <i>International Journal of Obesity</i> , 2021 , 45, 1790-1801	5.5	1
3	Long-term cost-effectiveness of interventions for obesity: A mendelian randomisation study. <i>PLoS Medicine</i> , 2021 , 18, e1003725	11.6	1
2	Blood pressure variability and night-time dipping assessed by 24-hour ambulatory monitoring: Cross-sectional association with cardiac structure in adolescents. <i>PLoS ONE</i> , 2021 , 16, e0253196	3.7	0
1	Reply to Zaim et al. <i>European Journal of Cardio-thoracic Surgery</i> , 2020 , 58, 660-661		3
