

Edward P Kolodziej

List of Publications by Citations

Source: <https://exaly.com/author-pdf/6208743/edward-p-kolodziej-publications-by-citations.pdf>

Version: 2024-04-25

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

44

#	Paper	IF	Citations
44	Dairy wastewater, aquaculture, and spawning fish as sources of steroid hormones in the aquatic environment. <i>Environmental Science & Technology</i> , 2004 , 38, 6377-84	10.3	233
43	Attenuation of wastewater-derived contaminants in an effluent-dominated river. <i>Environmental Science & Technology</i> , 2006 , 40, 7257-62	10.3	160
42	Quantification of steroid hormones with pheromonal properties in municipal wastewater effluent. <i>Environmental Toxicology and Chemistry</i> , 2003 , 22, 2622-9	3.8	142
41	A ubiquitous tire rubber-derived chemical induces acute mortality in coho salmon. <i>Science</i> , 2021 , 371, 185-189	33.3	140
40	Rangeland grazing as a source of steroid hormones to surface waters. <i>Environmental Science & Technology</i> , 2007 , 41, 3514-20	10.3	84
39	In vivo bioassay-guided fractionation of marine sediment extracts from the Southern California Bight, USA, for estrogenic activity. <i>Environmental Toxicology and Chemistry</i> , 2005 , 24, 2820-6	3.8	79
38	Using High-Resolution Mass Spectrometry to Identify Organic Contaminants Linked to Urban Stormwater Mortality Syndrome in Coho Salmon. <i>Environmental Science & Technology</i> , 2018 , 52, 10317-10327	10.3	75
37	Environmental designer drugs: when transformation may not eliminate risk. <i>Environmental Science & Technology</i> , 2014 , 48, 11737-45	10.3	67
36	Fate of endogenous steroid hormones in steer feedlots under simulated rainfall-induced runoff. <i>Environmental Science & Technology</i> , 2011 , 45, 8811-8	10.3	65
35	Suspect and Nontarget Screening for Contaminants of Emerging Concern in an Urban Estuary. <i>Environmental Science & Technology</i> , 2020 , 54, 889-901	10.3	65
34	Product-to-parent reversion of trenbolone: unrecognized risks for endocrine disruption. <i>Science</i> , 2013 , 342, 347-51	33.3	62
33	Development of suspect and non-target screening methods for detection of organic contaminants in highway runoff and fish tissue with high-resolution time-of-flight mass spectrometry. <i>Environmental Sciences: Processes and Impacts</i> , 2017 , 19, 1185-1196	4.3	59
32	Phototransformation rates and mechanisms for synthetic hormone growth promoters used in animal agriculture. <i>Environmental Science & Technology</i> , 2012 , 46, 13202-11	10.3	44
31	Identification and environmental implications of photo-transformation products of trenbolone acetate metabolites. <i>Environmental Science & Technology</i> , 2013 , 47, 5031-41	10.3	36
30	Integrated assessment of runoff from livestock farming operations: Analytical chemistry, in vitro bioassays, and in vivo fish exposures. <i>Environmental Toxicology and Chemistry</i> , 2014 , 33, 1849-57	3.8	34
29	Occurrence of trenbolone acetate metabolites in simulated confined animal feeding operation (CAFO) runoff. <i>Environmental Science & Technology</i> , 2012 , 46, 3803-10	10.3	33
28	Site-specific profiles of estrogenic activity in agricultural areas of California's inland waters. <i>Environmental Science & Technology</i> , 2009 , 43, 9110-6	10.3	32

27	More Than a First Flush: Urban Creek Storm Hydrographs Demonstrate Broad Contaminant Pollutographs. <i>Environmental Science & Technology</i> , 2020 , 54, 6152-6165	10.3	32
26	Analysis of trenbolone acetate metabolites and melengestrol in environmental matrices using gas chromatography-tandem mass spectrometry. <i>Talanta</i> , 2012 , 99, 238-46	6.2	26
25	Evaluating emerging organic contaminant removal in an engineered hyporheic zone using high resolution mass spectrometry. <i>Water Research</i> , 2019 , 150, 140-152	12.5	23
24	Quantification of organic contaminants in urban stormwater by isotope dilution and liquid chromatography-tandem mass spectrometry. <i>Analytical and Bioanalytical Chemistry</i> , 2019 , 411, 7791-7806	4.4	19
23	Mass balance approaches to characterizing the leaching potential of trenbolone acetate metabolites in agro-ecosystems. <i>Environmental Science & Technology</i> , 2014 , 48, 3715-23	10.3	16
22	Environmental Photochemistry of Altrenogest: Photoisomerization to a Bioactive Product with Increased Environmental Persistence via Reversible Photohydration. <i>Environmental Science & Technology</i> , 2016 , 50, 7480-8	10.3	16
21	Evaluation of semi-volatile contaminant transport in a novel, gas-tight direct contact membrane distillation system. <i>Desalination</i> , 2018 , 427, 35-41	10.3	15
20	Trenbolone acetate metabolite transport in rangelands and irrigated pasture: observations and conceptual approaches for agro-ecosystems. <i>Environmental Science & Technology</i> , 2014 , 48, 12569-76	10.3	14
19	Application of Nontarget High Resolution Mass Spectrometry Data to Quantitative Source Apportionment. <i>Environmental Science & Technology</i> , 2019 , 53, 12257-12268	10.3	13
18	6PPD-Quinone: Revised Toxicity Assessment and Quantification with a Commercial Standard. <i>Environmental Science and Technology Letters</i> ,	11	13
17	Developing Unique Nontarget High-Resolution Mass Spectrometry Signatures to Track Contaminant Sources in Urban Waters. <i>Environmental Science and Technology Letters</i> , 2020 , 7,	11	13
16	Sorption and mineral-promoted transformation of synthetic hormone growth promoters in soil systems. <i>Journal of Agricultural and Food Chemistry</i> , 2014 , 62, 12277-86	5.7	12
15	Coupled reversion and stream-hyporheic exchange processes increase environmental persistence of trenbolone metabolites. <i>Nature Communications</i> , 2015 , 6, 7067	17.4	11
14	Reversible Photohydration of Trenbolone Acetate Metabolites: Mechanistic Understanding of Product-to-Parent Reversion through Complementary Experimental and Theoretical Approaches. <i>Environmental Science & Technology</i> , 2016 , 50, 6753-61	10.3	11
13	Surface and subsurface attenuation of trenbolone acetate metabolites and manure-derived constituents in irrigation runoff on agro-ecosystems. <i>Environmental Sciences: Processes and Impacts</i> , 2014 , 16, 2507-16	4.3	11
12	Treading Water: Tire Wear Particle Leachate Recreates an Urban Runoff Mortality Syndrome in Coho but Not Chum Salmon. <i>Environmental Science & Technology</i> , 2021 , 55, 11767-11774	10.3	11
11	Environmental photochemistry of dienogest: phototransformation to estrogenic products and increased environmental persistence via reversible photohydration. <i>Environmental Sciences: Processes and Impacts</i> , 2017 , 19, 1414-1426	4.3	10
10	Rates and product identification for trenbolone acetate metabolite biotransformation under aerobic conditions. <i>Environmental Toxicology and Chemistry</i> , 2015 , 34, 1472-84	3.8	10

9	Formation of bioactive transformation products during glucocorticoid chlorination. <i>Environmental Science: Water Research and Technology</i> , 2017 , 3, 450-461	4.2	9
8	Approaches for Quantifying the Attenuation of Wastewater-Derived Contaminants in the Aquatic Environment. <i>Chimia</i> , 2003 , 57, 567-569	1.3	9
7	Induction of Microbial Oxidative Stress as a New Strategy to Enhance the Enzymatic Degradation of Organic Micropollutants in Synthetic Wastewater. <i>Environmental Science & Technology</i> , 2019 , 53, 9553-9563	10.3	8
6	Detection and quantification of metastable photoproducts of trenbolone and altrenogest using liquid chromatography-tandem mass spectrometry. <i>Journal of Chromatography A</i> , 2019 , 1603, 150-159	4.5	6
5	Intramolecular [2 + 2] Photocycloaddition of Altrenogest: Confirmation of Product Structure, Theoretical Mechanistic Insight, and Bioactivity Assessment. <i>Journal of Organic Chemistry</i> , 2019 , 84, 11366-11371	4.2	5
4	Sorption and transport of trenbolone and altrenogest photoproducts in soil-water systems. <i>Environmental Sciences: Processes and Impacts</i> , 2019 , 21, 1650-1663	4.3	3
3	Biotransformation of Current-Use Progestin Dienogest and Drospirenone in Laboratory-Scale Activated Sludge Systems Forms High-Yield Products with Altered Endocrine Activity. <i>Environmental Science & Technology</i> , 2021 , 55, 13869-13880	10.3	2
2	Photolysis of Trenbolone Acetate Metabolites in the Presence of Nucleophiles: Evidence for Metastable Photoaddition Products and Reversible Associations with Dissolved Organic Matter. <i>Environmental Science & Technology</i> , 2020 , 54, 12181-12190	10.3	1
1	Toxicity Testing of Effluent-Dominated Stream Using Predictive Molecular-Level Toxicity Signatures Based on High-Resolution Mass Spectrometry: A Case Study of the Lubbock Canyon Lake System. <i>Environmental Science & Technology</i> , 2021 , 55, 3070-3080	10.3	1
